Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is an accelerated filer.

Yes X No

--- ---

The aggregate market value of the outstanding shares of the Registrant's Common Stock, par value \$.01 per share and Class B Capital Stock, par value \$.01 per share held by non-affiliates as of June 30, 2004 was approximately \$83,228,000.

The number of shares outstanding of each of the Registrant's Common Stock and Class B Stock as of March 10, 2005:

Class -----	Outstanding -----
Common Stock, par value \$.01 per share	16,736,262 shares
Class B Capital Stock, par value \$.01 per share	1,200,000 shares

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's definitive Proxy Statement for its 2005 Annual Meeting of Stockholders are incorporated herein by reference into Part III hereof.

EXPLANATORY NOTE

GP Strategies Corporation (the "Company or we") filed its Annual Report on Form 10-K for the fiscal year ended December 31, 2004 (the "Initial Form 10-K") with the Securities and Exchange Commission (the "Commission") on March 17, 2005, Amendment No. 1 on Form 10-K/A on April 4, 2005, and Amendment No. 2 on Form 10-K/A on April 29, 2005. This Amendment No. 3 on Form 10-K/A is filed solely to correct the inadvertent omission to file with Amendments No.1 and No.2 the certifications required by the Sarbanes-Oxley Act of 2002.

Except for the matters disclosed in Amendment No. 1 and Amendment No. 2 on Form 10-K/A, which speak as of the dates they were respectively filed, the Initial Form 10-K continues to speak as of March 17, 2005, which was the date of its initial filing with the Commission, and we have not updated the disclosures contained therein to reflect events that have occurred since the date of that initial filing.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

The forward-looking statements contained herein reflect GP Strategies' management's current views with respect to future events and financial performance. We use words such as "expects", "intends" and "anticipates" to indicate forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements, all of which are difficult to predict and many of which are beyond the control of GP Strategies, including, but not limited to, our inability to generate funds by selling any assets that were included in the spin-off, our holding company structure, failure to continue to attract and retain personnel, loss of business from significant customers, failure to keep pace with technology, changing economic conditions, competition, our ability to implement procedures that will reduce

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

the likelihood that material weaknesses in internal control over financial reporting will not occur in the future, and those other risks and uncertainties detailed in GP Strategies' periodic reports and registration statements filed with the Securities and Exchange Commission.

If any one or more of these expectations and assumptions proves incorrect, actual results will likely differ materially from those contemplated by the forward-looking statements. Even if all of the foregoing assumptions and expectations prove correct, actual results may still differ materially from those expressed in the forward-looking statements as a result of factors we may not anticipate or that may be beyond our control. While we cannot assess the future impact that any of these differences could have on our business, financial condition, results of operations and cash flows or the market price of shares of our common stock, the differences could be significant. We do not undertake to update any forward-looking statements made by us.

PART I

ITEM 7: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS:

RESULTS OF OPERATIONS

General Overview

The Company's primary operating entity is General Physics, a global workforce development company that improves the effectiveness of organizations by providing training, management consulting, e-Learning solutions and engineering services that are customized to meet the specific needs of clients. Clients include Fortune 500 companies, manufacturing, process and energy companies and other commercial and governmental customers.

The Company's other operating entity is its majority owned subsidiary, GSE Systems Inc. ("GSE"), which was formerly called the Simulation segment. GSE is a world leader in real-time high fidelity simulation technology and model development and provides simulation solutions and services to the power generation industry, the process industries, and the U.S. Government sector. In addition, GSE provides plant monitoring and signal analysis monitoring and optimization software primarily to the power industry, and develops specialized software applications for emerging technologies.

Prior to November 24, 2004 the Company had five operating business segments: Manufacturing & Process, Information Technology, Simulation, Optical Plastics and Home Improvement Distribution. On November 24, 2004, we completed the distribution, which we refer to as the "spin-off," of the common stock of National Patent Development Corporation ("NPDC"), which comprised our Optical Plastics and Home Improvement Distribution segments and certain other non-core assets. We reorganized the Manufacturing & Process and Information Technology segments into the General Physics segment. Effective with the spin-off, the operations of NPDC were reclassified as discontinued operations for all periods presented.

General Physics Overview

General Physics provides performance improvement services and products to multinational companies in manufacturing and process industries, electric power utilities and other commercial and governmental customers. General Physics is a global leader in performance improvement, with over three decades of experience in providing solutions to optimize workforce performance.

In 2004 General Physics showed a significant increase in profit, and continued to post improved revenue results. The improvement in performance is primarily

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

attributable to the company's key initiatives; business process outsourcing and training, e-Learning; and Domestic Preparedness and Emergency Management. The company experienced growth in the last two years across each of these areas contributing to the improved revenue and profit margins. General Physics plans to continue to focus on growth in these areas in 2005. General Physics also experienced an improvement in the training market in 2004.

On December 30, 2004, EDS made a payment of \$18.4 million, which included \$0.1 million of accrued interest, to General Physics to satisfy its obligation under the arbitration award regarding the Learning

22

Technologies acquisition. General Physics recognized a gain on arbitration settlement, net of legal fees and expenses, of \$13.7 million in 2004. The net cash proceeds to General Physics was approximately \$8.5 million after legal fees and a \$5.0 million distribution to NPDC. On January 6, 2005, General Physics used a portion of the proceeds to fully pay off its \$6.1 million of short term borrowings outstanding under the Credit Agreement as of December 31, 2004. General Physics has no plans for any significant capital expenditures in 2005, and expects the amounts generated from cash and operations and cash available for borrowing under its Credit Agreement of approximately \$20.0 million, to be sufficient to finance its ongoing operations.

GSE Overview

GSE is a world leader in real-time power plant simulation. GSE provides simulation solutions and services to the nuclear and fossil electric utility industry, as well as process industries such as the chemical and petrochemical industries. In addition, GSE provides plant monitoring, security access and control and signal analysis monitoring and optimization software primarily to the power industry. GSE enters 2005 with no bank debt and only \$9,000 of other notes payable. However, GSE's backlog has decreased 36% in 2004, and GSE is investing heavily in business development activities to expand its simulation business into the Homeland Security and US Military industries. GSE's business is substantially dependent on sales to the nuclear power industry (85% of revenue in 2004). Spending by companies in this targeted industry is subject to period-to-period fluctuations as a consequence of industry cycles, economic conditions, political and regulatory environments and other factors; GSE's efforts to expand its simulation business into the Homeland Security and US Military industries may not generate sufficient revenues and margins in 2005 to offset the increased business development spending; GSE relies on one customer, Battelle's Pacific Northwest National Laboratory (24% of revenue in 2004) for a substantial portion of its revenues. The loss of this customer would have a material adverse effect upon GSE's results. Sales of products and the provision of services to end users outside the United States accounted for approximately 65% of GSE's revenue in 2004. Thus, GSE is subject to risks associated with the application and imposition of protective legislation and regulations relating to import or export or otherwise resulting from trade or foreign policy.

Spin-off of National Patent Development Corporation

In July 2002, the Company's Board of Directors approved a spin-off of certain of its non-core assets into a separate corporation, NPDC, leaving the Company's business comprised of its training and workforce development business operated by General Physics and the GSE simulation business. The separation of these businesses was accomplished through a pro-rata distribution (the Distribution) of 100% of the outstanding common stock of NPDC to the Company's stockholders on the record date of the Distribution. NPDC is a stand-alone public company owning all of the stock of MXL, the interest in Five Star and certain other non-core assets. Following the spin-off, the Company ceased to have any ownership

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

interest in NPDC.

On March 21, 2003, the Internal Revenue Service issued a favorable tax ruling, which enabled the Distribution to be tax-free. In the spin-off, holders of record on November 18, 2004 of GP Strategies common stock and Class B capital stock on November 24, 2004 received one share of NPDC common stock for each share of GP Strategies common stock or Class B capital stock owned.

The spin-off is expected to result in several benefits to the Company and its shareholders. By engaging in the spin-off, the Company believes that it will improve its access to capital and significantly improve

23

its borrowing capacity, thereby facilitating its ability to raise additional funds as well as achieving other corporate benefits. Having two separate public companies will enable financial markets to better evaluate each company more effectively, thereby enhancing stockholder value over the long term and making the stock more attractive as currency for future acquisitions.

In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" (SFAS 144), discontinued businesses are removed from the results of continuing operations and are classified as discontinued operations in the consolidated statements of operations. The following table sets forth the components of income (loss) from discontinued operations for the period from January 1, 2004 to November 24, 2004 and for the fiscal years ended December 31, 2003 and 2002 (in thousands):

	2004 ----	2003 ----	2002 ----
Revenue	\$ 104,067	\$ 28,644	\$ 9,996
Operating income (loss)	1,594	(189)	286
Interest expense	(1,108)	(502)	(303)
Income taxes (expense) benefit	(333)	99	524
Income (loss) from discontinued operations, net of income taxes	75	(165)	(724)

The results of the discontinued operations for 2004 include the results of Five Star, which were consolidated with the Company effective October 8, 2003, when the Company increased its ownership interest to 54%. Previously the Company accounted for its investment in Five Star under the equity method (see note 6 to the consolidated financial statements). In accordance with SFAS No. 144, only those overhead costs that are solely attributable to the discontinued business segments have been allocated to discontinued operations. As a result, 2004, 2003 and 2002 include overhead expenses that were incurred for the benefit of both our continuing and discontinued operations, which are included in continuing operations. Consolidated interest expense in periods prior to the spin-off has been allocated to discontinued operations using a basis of net assets of each of the continuing and discontinued business segments as of November 24, 2004.

24

The assets and liabilities distributed to NPDC in connection with the spin-off included those specific to MXL, Five Star and certain other non-core assets. The following table summarizes the net assets and liabilities distributed to NPDC on November 24, 2004 (in thousands):

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Assets:	
Cash and cash equivalents	\$ 2,453
Due from GP Strategies (arbitration award)	5,000
Accounts and other receivables	14,002
Inventories	25,691
Prepaid expenses and other current assets	391
Investments and marketable securities	1,593
Property, plant and equipment, net	5,553
Deferred tax assets, net	4,045
Goodwill and other assets	2,818

Total assets	61,546

Liabilities:	
Accounts payable and accrued expenses	12,672
Short-term borrowings	18,330
Long-term debt	2,961
Minority interest and other liabilities	1,616

Total liabilities	35,579

Net assets distributed to NPDC	\$25,967
	=====

Operating Highlights

YEAR ENDED DECEMBER 31, 2004 COMPARED TO THE YEAR ENDED DECEMBER 31, 2003

Revenue

(Dollars in Thousands)	YEARS ENDED DECEMBER 31,	
	-----	-----
	2004	2003
	----	----
General Physics	\$165,066	\$133,975
GSE	28,907	6,059
	-----	-----
	\$193,973	\$140,034
	=====	=====

Revenue of General Physics increased by \$31.1 million from 2003 to 2004 primarily due to increases in revenue from the organization's government training, business process outsource and e-Learning

businesses. Contract awards continued to increase in 2004 for government training and domestic preparedness services. The business process outsource organization received new contracts from both government and commercial clients at the end of 2003 and in 2004 to provide outsourced training management services. The e-Learning organization was awarded several new contracts in 2004

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

with the U.S. government to provide hosting and learning management systems integration services. The segment also experienced a revenue increase of approximately \$5.4 million in 2004 related to hurricane relief services provided in the State of Florida. The Company does not anticipate that these services will be a continuing stream of revenue going forward. The overall increase in revenue was offset by a continued decline in training-related revenue with certain automotive clients.

Revenue of GSE increased by \$22.8 million from 2003 to 2004 primarily attributable to the consolidation of GSE. In the fourth quarter of 2003 the Company acquired additional shares of GSE, bringing its ownership to 58% as of October 23, 2003. As a result, revenue of GSE was only consolidated in the Company's results in the fourth quarter of 2003, while 2004 includes a full year of GSE revenue.

Gross Profit

	YEARS ENDED DECEMBER 31,			
	2004		2003	
	\$	% Revenue	\$	% Revenue
General Physics	\$19,947	12.1%	\$15,501	11.6%
GSE	6,016	20.8%	1,594	26.3%
	-----	-----	-----	-----
	\$25,963	13.4%	\$17,095	12.2%
	=====	=====	=====	=====

General Physics gross profit of \$19.9 million or 12.1% of revenue, in 2004 increased by \$4.4 million or 28.7%, when compared to gross profit of \$15.5 million, or 11.6% of revenue, in 2003. This increase in gross profit was primarily driven by increases in revenue from the government training, business process outsource and e-Learning businesses. While overhead expenses remained flat year over year, the incremental profit increase was offset slightly by increases in employee benefits due to the growth of the business.

GSE gross profit of \$6.0 million or 20.8% of revenue in 2004 increased by \$4.4 million, when compared to gross profit of \$1.6 million, or 26.3% of revenue, in 2003, was attributable to the consolidation of GSE. In the fourth quarter of 2003 the Company acquired a majority ownership in GSE and as a result, gross profit of GSE was only consolidated in the Company's results in the fourth quarter of 2003, while 2004 includes a full year of GSE gross profit. GSE's revenue for full year 2003 was \$25.0 million.

Selling, General and Administrative Expense

SG&A increased \$0.8 million or 3.5% from 2003 to 2004. This increase relates to the following off-setting variances: GSE consolidation for a full year in 2004, increased SG&A by \$5.0 million; Corporate SG&A decreased in 2004 approximately \$4.2 million primarily due to reduced executive compensation and payroll costs of \$1.5 million and reduced legal and other professional fees of \$2.5 million; SG&A included corporate overhead expenses that were for the benefit of both continuing and discontinued operations. Only those costs that were solely attributable to the discontinued business segments have been allocated to discontinued operations.

Interest Expense

The decrease in interest expense of \$1.0 million from 2003 to 2004 was primarily attributable to the Company's write-off of deferred financing costs on its prior credit agreement of \$0.9 million, as well as lower General Physics interest expense, due to lower average borrowing levels in 2004 as compared to 2003.

Other Income

Other income of \$0.6 million for 2004 was primarily related to interest income on loans receivable of \$0.3 million and other income of \$0.3 million.

The Company recognized a gain of \$13.7 million from the arbitration award paid by EDS in the fourth quarter of 2004 (see General Physics Overview - above).

2003 - See year ended December 31, 2003 compared to the year ended December 31, 2002.

Income Taxes

Income tax benefit was \$8.0 million in 2004 as a result of the Company's reduction in valuation allowance offset by current tax provision. Income tax expense was \$1.0 million in 2003. In 2004, the Company's taxable income before utilization of net operating loss carry forwards was approximately \$22.0 million. In assessing the realizability of its deferred tax assets, management considered it more likely than not that its deferred tax assets would be realized and reduced its deferred tax valuation allowance by \$12.2 million. As of December 31, 2004, the Company had federal net operating loss carry forwards of approximately \$41.6 million, which expire during 2022 and 2023.

YEAR ENDED DECEMBER 31, 2003 COMPARED TO THE YEAR ENDED DECEMBER 31, 2002

Revenue

(Dollars in thousands)	YEARS ENDED DECEMBER 31,	
	2003	2002
General Physics	\$133,975	\$142,237
GSE	6,059	--
	-----	-----
	\$140,034	\$142,237
	=====	=====

Revenue of General Physics, decreased by \$8.3 million from 2002 to 2003 primarily due to a decrease in engineering and related services in connection with Liquefied Natural Gas projects, decreased services provided to nuclear power utilities, a decline in attendance at General Physics open enrollment courses primarily due to reduced spending on training within the automotive industry, General Physics's decision to focus on higher margin projects and discontinue certain work with lower margins, and a general decline in client spending (and budgets for spending) on consulting, training services, and technology due to overall economic conditions in 2003. The decline in revenue

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

was partially offset by an increase in revenue from the US Government for domestic preparedness training services for the Department of Homeland Security.

GSE revenue increased by \$6.1 million in 2003 attributable to the consolidation of GSE. In the fourth quarter of 2003 the Company acquired additional shares of GSE, bringing its ownership to 58% as of October 23, 2003. As a result, revenue of GSE was consolidated in the Company's results for the fourth quarter of 2003, while 2002 does not include GSE revenue.

Gross Profit

(Dollars in thousands)	YEARS ENDED DECEMBER 31,			
	2003		2002	
	\$	% Revenue	\$	%Revenue
General Physics	\$15,501	11.6%	\$ 15,366	10.8%
GSE	1,594	26.3%	--	--
	\$17,095	12.2%	\$ 15,366	10.8%
	=====	=====	=====	=====

General Physics gross profit of \$15.5 million or 11.6% of revenue, in 2003 increased by \$135,000 or 0.9% when compared to gross profit of \$15.4 million or 10.8% of revenue, in 2002. During this time General Physics experienced a revenue decline which resulted in a loss of margin. However, General Physics made a decision to focus on higher gross margin opportunities and undertook cost savings initiatives to preserve margin. The results of these initiatives allowed General Physics to slightly increase gross profit in both dollars and as a percentage of revenue.

GSE gross profit increased by \$1.6 million from 2002 to 2003 attributable to the consolidation of GSE. In the fourth quarter of 2003 the gross profit of GSE was consolidated in Company's fourth quarter of 2003, while 2002 does not include GSE gross profit.

Selling, General and Administrative Expense

The increase in SG&A of \$3.7 million in 2003 from 2002 was primarily attributable the following factors: \$1.2 million of SG&A for the consolidation of GSE in the Company's financial statements subsequent to the GSE acquisition; executive incentive bonuses of \$3.0 million; a non-cash debt

28

conversion expense of \$0.6 million; and a decrease in the non-cash credit to compensation expense of \$1.1 million, relating to certain stock options to purchase stock of an affiliate accounted for using the fair value method. The increase was offset by a decrease in severance and related expense of \$2.1 million.

Interest Expense

The increase in interest expense in 2003 of \$0.7 million is primarily due to the write off of \$0.9 million of deferred financing costs as a result of the early termination of the Company's prior credit agreement. This expense is included in interest expense for year ended December 31, 2003.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Other Income

2003

The investment and other loss of \$0.2 million for 2003 was primarily related to an equity loss of GSE of \$0.7 million (before its consolidation), offset by interest income on loans receivable of \$0.4.

The gains on marketable securities of \$0.6 million in 2003 were primarily due to the Company's disposal of shares of Millennium. Gains on sale of shares of Millennium prior to the transfer of 1,000,000 shares of Millennium to MXL in repayment of certain intercompany debt on October 17, 2003, are recorded as part of operating results from continuing operations. Gains on sale of Millennium by MXL after October 17, 2003 are recorded as part of operating results from discontinued operations.

Pursuant to a Note and Warrant Purchase Agreement dated August 8, 2003, the Company issued and sold to four Gabelli Funds \$7,500,000 aggregate principal amount of 6% Conditional Subordinated Notes due 2008 (the "Gabelli Notes") and 937,500 warrants ("GP Warrants"), each entitling the holder thereof to purchase (subject to adjustment) one share of the Company's common stock. The changes in the fair market value of the GP Warrants were marked to market through December 8, 2003 with the adjustment shown as other income in the consolidated statement of operations. The Company recognized a gain of \$1.4 million in its December 8, 2003 valuation adjustment of the liability relating to the GP Warrants using the Black-Scholes model.

2002

The investment and other loss of \$0.7 million for 2003 was primarily related to an equity loss of GSE of \$1.2 million, offset by interest income on loans receivable of \$0.6 million. The gains on marketable securities of \$2.3 million in 2002 were primarily due to the Company's disposal of shares of Millennium.

Income Taxes

The Company recognized income tax expense of \$1.0 million in 2003 and an income tax benefit of \$0.3 million in 2002.

Income (Loss) on Discontinued Operations

29

The decreased loss from discontinued operation of \$0.6 million in 2003 was primarily due to 2002 equity in losses of Valera Pharmaceuticals.

LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2004, the Company had cash and cash equivalents totaling \$2.4 million. In addition the Company had cash held in escrow of \$13.8 million from the EDS arbitration award, of which the Company received approximately \$8.5 million in January 2005, net of the \$5.0 million distribution to NPDC. The Company believes that cash generated from operations and borrowings availability under the Credit Agreement (described below), will be sufficient to fund the working capital and other requirements of the Company for the foreseeable future. The Company does not believe the spin-off of NPDC will significantly impact the Company's liquidity.

For the year ended December 31, 2004, the Company's working capital increased by \$2.6 million from \$18.0 million to \$20.6 million. The Company has increased

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

working capital during the year ended December 31, 2004 mainly due to receiving the proceeds of the arbitration award against EDS, as well as increases in current assets such as accounts receivable and unbilled receivables, due to increased revenues.

The decrease in cash and cash equivalents of \$2.0 million for the year ended December 31, 2004 resulted from cash used in investing activities of \$1.4 million and cash used in financing activities of \$4.9 million; offset by cash provided by operations of \$4.2 million and the effect of exchange rate changes on cash of \$0.1 million. Net cash used in investing activities of \$1.4 million includes \$1.8 million of capital expenditures and \$0.3 million in additions to intangible assets; offset by proceeds from the sale of marketable securities of \$0.6 million. Net cash used in financing activities of \$4.9 million consisted of cash distributed in the spin-off of \$2.5 million; repayments of short-term borrowings of \$2.1 million; and repayments of long-term debt of \$1.1 million; offset by net proceeds from exercises of stock options of \$0.9 million.

On October 23, 2003, the Company purchased from ManTech International ("ManTech") additional shares of GSE common stock in exchange for a 5% note for \$5.3 million due in full in October 2008. Interest is payable quarterly. Each year during the term of the note, ManTech has the option to convert up to 20% of the original principal amount of the note into common stock of the Company at the then market price of the Company's common stock, but only in the event that the Company's common stock is trading at \$10 per share or more. In the event that less than 20% of the principal amount of the note is not converted in any year, such amount not converted will be eligible for conversion in each subsequent year until converted or until the note is repaid in cash.

On August 13, 2003, General Physics, General Physics' subsidiary SkillRight, Inc. and MXL Industries Inc. ("MXL") entered into a two-year \$25 million Financing and Security Agreement (Credit Agreement) with a bank, the proceeds of which were used to repay the Company's previous credit facility. The interest rate on borrowings under the Credit Agreement is at Libor Market Index Rate plus 3%. The Credit Agreement, as amended in March 2004 to include GSE, is secured by certain assets of General Physics. The Credit Agreement also provides for an unsecured guaranty from the Company. The Credit Agreement also contains certain restrictive covenants including a prohibition on future acquisitions, incurrence of debt and the payment of dividends. The Company received a waiver under the Credit Agreement with respect to the GSE Acquisition. General Physics is currently restricted from paying dividends and management fees to the Company in excess of \$1.0 million in any fiscal year. On

30

July 30, 2004, General Physics received a waiver and paid the Company an additional \$1.0 million. The Company repaid in full the \$6.1 million outstanding under the Credit Agreement as of December 31, 2004 in January of 2005, using the proceeds received from the EDS arbitration award (see Item 3). On March 9, 2005, General Physics received a waiver to loan GSE a maximum of \$1.0 million to satisfy any GSE short-term capital requirements over the next 15 months.

Pursuant to a Note and Warrant Purchase Agreement dated August 8, 2003, the Company issued and sold to four Gabelli funds \$7.5 million aggregate principal amount of 6% Conditional Subordinated Notes due 2008 and 937,500 warrants, each entitling the holder thereof to purchase (subject to adjustment) one share of the Company's common stock. The aggregate purchase price for the Gabelli Notes and GP Warrants was \$7.5 million. The Gabelli Notes are secured by a mortgage on the Company's former property located in Pawling, New York which was distributed to NPDC. In addition, at any time that less than \$1.0 million principal amount of the Gabelli Notes are outstanding, the Company may defease the obligations secured by the mortgage and obtain a release of the mortgage by depositing with

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

an agent for the Noteholders, bonds or government securities with an investment grade rating by a nationally recognized rating agency which, without reinvestment, will provide cash on the maturity date of the Gabelli Notes in an amount not less than the outstanding principal amount of the Gabelli Notes. The Company used \$5.8 million of the proceeds to repay its previous credit facility. The Company and NPDC agreed to allocate to NPDC \$1.9 million of the \$7.5 million received for the Gabelli Notes and Warrants, which the Company transferred to NPDC prior to the spin-off of NPDC.

On March 30, 2004, GSE was added as an additional borrower under the General Physics Credit Agreement. Under the terms of the Credit Agreement, as amended, \$1.5 million of General Physics' Credit Agreement has been allocated for use by GSE. The Credit Agreement was amended to provide for additional collateral consisting of substantially all of the GSE's assets as well as certain covenants specific to GSE. It provides for borrowings by GSE up to 80% of eligible accounts receivable and 80% of eligible unbilled receivables, up to a maximum of \$1.5 million. The interest rate is based upon the LIBOR Market Index Rate plus 3%, with interest only payments due monthly. The Company agreed to guarantee GSE's borrowings under the Credit Agreement, as amended, in consideration for a fee pursuant to the Management Services Agreement.

Contractual Obligations and Commitments

The following table summarizes long-term debt, capital lease commitments, operating lease commitments, purchase commitments and employment agreements as of December 31, 2004 (in thousands):

	PAYMENTS DUE IN				TOTAL
	2005	2006 - 2007	2008 2009	AFTER 2009	
Long-term debt	\$ 9	\$ --	\$12,751	\$ --	\$12,760
Capital lease commitments	91	90	--	--	181
Operating lease commitments	4,964	6,621	2,669	5,313	19,567
Purchase commitments	28,496	2,678	29		31,203
Employment agreements	2,080	3,093	471		5,644

	=====	=====	=====	=====	=====

31

Off-Balance Sheet Commitments

The Company has guaranteed the leases for Five Star New Jersey and Connecticut warehouses, totaling \$1.6 million per year through the first quarter of 2007. The Company's guarantee of such leases was in effect when Five Star was originally a wholly owned subsidiary of the Company prior to the sale by the Company in 1998 of substantially all of the operating assets of Five Star Group to the predecessor company of Five Star. As part of this transaction, the landlords of the New Jersey and Connecticut facilities did not consent to the release of the Company's guarantee. The Company's guarantee of Five Star's leases was not affected by the spin-off of NPDC.

General Physics has two letters of credit outstanding, which as of December 31, 2004 amount to approximately \$0.3 million and expire in 2005. In addition the

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Company guarantees MXL loans totaling approximately \$2.9 million as of December 31, 2004. The Company does not have any off-balance sheet financing, other than operating leases and letters of credit entered into in the normal course of business and disclosed above. GSE utilizes various derivative financial instruments to manage market risks associated with the fluctuations in foreign currency exchange rates. It is GSE's policy to use derivative financial instruments to protect against market risk arising in the normal course of business. The criteria GSE uses for designating an instrument as a hedge includes the instrument's effectiveness in risk reduction and one-to-one matching of derivative instruments to underlying transactions. GSE monitors its foreign currency exposures to maximize the overall effectiveness of its foreign currency hedge positions. Principal currencies hedged include the Euro and the Japanese yen. GSE's objectives for holding derivatives are to minimize the risks using the most effective methods to reduce the impact of these exposures. GSE minimizes credit exposure by limiting counterparties to nationally recognized financial institutions. As of December 31, 2004, GSE had contracts for the sale of approximately \$4.6 million Japanese Yen at fixed rates. The contracts expire on various dates through May, 2007. The contracts do not qualify for hedge treatment under SFAS No. 133, as amended. Accordingly, GSE has recorded the estimated fair value of the contracts of approximately \$200,000 as of December 31, 2004 as other assets in the consolidated balance sheet and other income in the consolidated statement of operations.

MANAGEMENT DISCUSSION OF CRITICAL ACCOUNTING POLICIES

The preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Our estimates, judgments and assumptions are continually evaluated based on available information and experience. Because of the use of estimates inherent in the financial reporting process, actual results could differ from those estimates.

Certain of our accounting policies require higher degrees of judgment than others in their application. These include contract revenue and cost recognition, valuation of accounts receivable, accounting for investments, impairment of long-lived and intangible assets and income tax recognition of deferred tax items which are summarized below. In addition, note 2 to the Consolidated Financial Statements includes further discussion of our significant accounting policies.

32

CONTRACT REVENUE AND COST RECOGNITION.

Revenue Recognition

General Physics contract revenue and cost recognition. General Physics provides services under time-and-materials, cost-plus-fixed fee and fixed-price contracts. Each contract has different terms based on the scope, deliverables and complexity of the engagement, requiring General Physics to make judgments and estimates about recognizing revenue. In general, revenue is recognized on these arrangements as the services are performed. Under time-and-material contracts, as well as certain cost-plus-fixed fee and certain fixed-price contracts, the contractual billing schedules are based on the specified level of resources General Physics is obligated to provide. As a result, on those "level-of-effort" contracts, the contractual billing amount for a given period acts as a measure of performance and, therefore, revenue is typically recognized in that amount.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

For other fixed price contracts, the contractual billing schedules are not based on the specified level of resources General Physics is obligated to provide. These arrangements typically do not have milestones or other reliable measures of performance. As a result, revenue on these arrangements is recognized using the percentage-of-completion method based on the relationship of costs incurred to total estimated costs expected to be incurred over the term of the contract. General Physics believes this methodology provides a reasonable measure of performance on these arrangements since performance primarily involves personnel costs and the customer typically is required to pay General Physics for the proportionate amount of work and cost incurred in the event of contract termination. Revenue for unpriced change orders is not recognized until the customer agrees with the changes. Costs and estimated earnings in excess of billings on uncompleted contracts are recorded as a current asset. Billings in excess of costs and estimated earnings on uncompleted contracts are recorded as a current liability. Generally contracts provide for the billing of costs incurred and estimated earnings on a monthly basis.

Risks relating to service delivery, usage, productivity and other factors are considered when making estimates of total contract cost, contract profitability and progress towards completion. If sufficient risk exists, a reduced-profit methodology is applied to a specific client contract's percentage-of-completion model whereby the amount of revenue recognized is limited to the amount of costs incurred until such time as the risks have been partially or wholly mitigated through performance. General Physics' estimates of total contract cost and contract profitability change periodically in the normal course of business, occasionally due to modifications of contractual arrangements. In addition, the implementation of cost saving initiatives and achievement of productivity gains generally results in a reduction of estimated total contract expenses on affected client contracts. Such changes in estimate are recognized in the period the changes are determined. For all client contracts, provisions for estimated losses on individual contracts are made in the period in which the loss first becomes apparent. As part of General Physics' on-going operations to provide services to its customers, incidental expenses, which are commonly referred to as "out-of-pocket" expenses, are billed to customers, either directly as a pass-through cost or indirectly as a cost estimated in proposing on fixed-price contracts. Out-of-pocket expenses include expenses such as airfare, mileage, hotel stays, out-of-town meals and telecommunication charges. General Physics' policy provides for these expenses to be recorded as both revenue and direct cost of services in accordance with the provisions of EITF 01-14, Income Statement Characterization of Reimbursements Received for "Out-of-Pocket" Expenses Incurred.

GSE revenue recognition. The majority of GSE's revenue is derived through the sale of uniquely designed systems containing hardware, software and other materials under fixed-price contracts. In

33

accordance with Statement of Position 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts, the revenue under these fixed-price contracts is accounted for on the percentage-of-completion method, based on contract costs incurred to date and estimated costs to complete. Estimated contract earnings are reviewed and revised periodically as the work progresses and the cumulative effect of any change is recognized in the period in which the change is identified. Estimated losses are charged against earnings in the period such losses are identified.

As GSE recognizes revenue under the percentage-of-completion method, it provides an accrual for estimated future warranty costs based on historical and projected claims experience. GSE's longer-term contracts generally provide for a one-year

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

warranty on parts, labor and any bug fixes as it relates to software embedded in the systems.

GSE's system design contracts do not provide for "post customer support service" (PCS) in terms of software upgrades, software enhancements or telephone support. In order to obtain PCS, the customers must purchase a separate contract at the date of system installation. Such PCS arrangements are generally for a one-year period renewable annually and include customer support, unspecified software upgrades, maintenance releases. GSE recognizes revenue from these contracts ratably over the life of the agreements in accordance with Statement of Position 97-2, Software Revenue Recognition.

Revenue from the sale of software licenses for the Company's modeling tools, which do not require significant modification or customization, are recognized when the license agreement is signed, the license fee is fixed and determinable, delivery has occurred, and collection is considered probable.

Revenues from certain consulting or training contracts are recognized on a time-and-material basis. For time-and-material type contracts, revenue is recognized based on hours incurred at a contracted labor rate plus expenses.

VALUATION OF ACCOUNTS RECEIVABLES

Provisions for allowance for doubtful accounts are made based on specific credit risks identified by the Company. Measurement of such losses requires consideration of the historical loss experience of the Company and its subsidiaries, judgments about customer credit risk and the need to adjust for current economic conditions. The allowance for doubtful accounts was \$0.8 million at December 31, 2004.

IMPAIRMENT OF LONG-LIVED TANGIBLE AND INTANGIBLE ASSETS

Impairment of long-lived tangible and intangible assets with finite lives result in a charge to operations whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived tangible assets to be held and used is measured by a comparison of the carrying amount of the asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by determining the amount by which the carrying amount of the assets exceeds the fair value of the asset.

The measurement of the future net cash flows to be generated is subject to management's reasonable expectations with respect to the Company's future operations and future economic conditions which may affect those cash flows.

In accordance with SFAS No. 142, goodwill is no longer amortized, but instead tested for impairment at least annually. The goodwill impairment test requires the Company to identify its reporting units and obtain estimates of the fair values of those units as of the testing date. The Company estimates the fair values of its reporting units using discounted cash flow valuation models. The Company estimates these amounts by evaluating historical trends, current budgets, operating plans and industry data. The estimated fair value of each reporting unit exceeded its respective carrying value in both tests conducted in 2004 and 2003 indicating the underlying goodwill of each unit was not impaired at the respective testing dates. The timing and frequency of our goodwill impairment tests are based on an ongoing assessment of events and circumstances that would more than likely reduce the estimated fair value of a reporting unit below its carrying value. The Company will continue to monitor its goodwill for impairment and conduct formal tests when impairment indicators are present. A

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

decline in the fair value of any reporting unit below its carrying value is an indicator that the underlying goodwill of the unit is potentially impaired. This would require a comparison of the implied fair value of a reporting unit's goodwill to its carrying value. An impairment loss is required for the amount which the carrying value of a reporting unit's goodwill exceeds its implied fair value. The implied fair value of the reporting unit's goodwill would become the new cost basis of the unit's goodwill.

The following table presents goodwill balances at December 31, 2004 and operating income for the years ended December 31, 2004, 2003 and 2002 for each of the Company's reportable segments (in thousands):

GOODWILL AT DECEMBER 31,	OPERATING INCOME FOR THE YEARS ENDED DECEMBER 31,			
	2004	2004	2003	2002
	-----	-----	-----	-----
General Physics	\$57,624	\$ 8,881	\$ 4,233	\$ 1,599
GSE	4,756	(174)	366	--
	\$62,380	\$ 8,707	\$ 4,599	\$ 1,599
	=====	=====	=====	=====

INCOME TAXES

The Company accounts for income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered. In assessing the realizability of the deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences are deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based upon these factors, management believes it is more likely than not that the Company will realize the benefits of deferred tax assets, net of the valuation allowance. The valuation allowance relates to both foreign and domestic net operating loss carryforwards for which the Company does not believe the benefits will be realized.

In 2004, the Company's taxable income before utilization of net operating loss carry forwards was approximately \$22.0 million. In assessing the realizability of its deferred tax assets, management

considered it more likely than not that its deferred tax assets would be realized and reduced its valuation allowance by \$12.2 million. As of December 31, 2004, the Company had federal net operating loss carry forwards of approximately \$41.6 million, which expire during 2022 and 2023.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

RECENT ACCOUNTING PRONOUNCEMENTS

During December 2004, the Financial Accounting Standards Board ("FASB") issued a new standard entitled Statement of Financial Accounting Standards ("SFAS") 123R, Share-Based Payment, which revises SFAS No. 123, Accounting for Stock-Based Compensation, and amends SFAS No. 95, Statement of Cash Flows. Among other items, the new standard would require the expensing, in the financial statements, of stock options issued by the Company. The new standard will be effective July 1, 2005, for calendar year companies. GP Strategies is currently evaluating the adoption of SFAS No. 123R, including the valuation methods and assumptions that underlie the valuation of the awards. The Company expects that the adoption of SFAS No. 123R will have an adverse effect on the Company's consolidated financial statements.

38

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
GP Strategies Corporation:

We have audited the accompanying consolidated balance sheet of GP Strategies Corporation and subsidiaries as of December 31, 2004 and 2003, and the related consolidated statements of operations, stockholders' equity and comprehensive income (loss), and cash flows for each of the years in the three-year period ended December 31, 2004. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

listed under item 15a(2). These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits. We did not audit the 2003 financial statements of Five Star Products, Inc., a formerly 54% owned subsidiary, which statements reflect total assets constituting 20% of the related 2003 consolidated total assets. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Five Star Products, Inc., is based solely on the report of other auditors. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion. In our opinion, based on our audits and the report of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of GP Strategies Corporation and subsidiaries as of December 31, 2004 and 2003, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2004, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

/s/ KPMG LLP

39

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Five Star Products, Inc.

We have audited the consolidated balance sheet of Five Star Products, Inc. and subsidiaries (the "Company") as of December 31, 2003 and the related consolidated statement of operations and comprehensive income, changes in stockholders' equity and cash flows for the year then ended (not shown separately herein). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Five Star Products, Inc. and subsidiaries as of December 31, 2003 and the consolidated results of their operations and their cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

(1) DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

GP Strategies Corporation ("the Company") was incorporated in Delaware in 1959. As of December 31, 2004, the Company's business consists of its training and workforce development business operated by General Physics Corporation ("General Physics" or "GP") and its simulation business operated by GSE Systems Inc. ("GSE").

In July 2002, the Company's Board of Directors approved a spin-off of certain of its non-core assets into a separate corporation, National Patent Development Corporation ("NPDC"). NPDC is a stand-alone public company owning all of the stock of MXL Industries, Inc. ("MXL"), the interest in Five Star Products, Inc. ("Five Star") and certain other non-core assets. The separation of these businesses was accomplished through a pro-rata distribution of 100% of the outstanding common stock of NPDC to the Company's stockholders on the record date of November 18, 2004 of the distribution. On November 24, 2004, (the "Distribution" or "spin-off") holders of record received one share of NPDC common stock for each share of GP Strategies common stock or Class B capital stock owned. The Company received a favorable tax ruling on March 21, 2003 from the Internal Revenue Service which enabled the Distribution to be tax-free.

Following the spin-off, the Company ceased to have any ownership interest in NPDC, and the operations of NPDC have been reclassified as discontinued in the Company's consolidated financial statements for all periods presented (see note 3).

In connection with the spin-off, several of the Company's directors and officers are also directors and officers of NPDC. The Company entered into agreements with NPDC to allocate responsibility for liabilities (including tax and other contingent liabilities associated with their respective businesses or otherwise to be assumed by NPDC or the Company), to separate their businesses, and for the Company and NPDC to provide management services to each other. The Company and NPDC will also provide certain guarantees of each others' financial obligations.

On October 17, 2003, the Company transferred 100% of the outstanding common stock in Valera Pharmaceuticals (formerly Hydro Med Sciences, Inc.) valued at \$6.5 million (based on an independent valuation) and 1,000,000 shares of common stock of Millennium Cell Inc. ("Millennium") with a quoted market price of \$3.50 per share to MXL in repayment of \$10 million of a payable due to MXL from the Company. MXL was a wholly owned subsidiary of the Company until the distribution.

47

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) PRINCIPLES OF CONSOLIDATION AND INVESTMENTS

The consolidated financial statements include the operations of the Company and its majority-owned subsidiaries. The minority interests balance as of December 31, 2004 is comprised of the 42% minority share in GSE, which the Company did not own. The minority interests balance as of December 31, 2003 is comprised of the 42% minority share in GSE and a 46% minority share of Five Star, which the Company did not own. All significant intercompany balances and transactions have been eliminated.

(B) CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of short-term highly liquid investments with original maturities of three months or less.

(C) MARKETABLE SECURITIES

Marketable securities consist of U.S. corporate equity securities. The Company classifies its marketable securities as trading or available-for-sale investments, which are recorded at fair value. Trading securities are those securities which are generally expected to be sold within one year and were held principally for the purpose of selling them in the near term.

Unrealized holding gains and losses on trading securities are included in earnings. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and are reported as a separate component of stockholders' equity in accumulated other comprehensive income (loss), net of income taxes, until realized. A decline in the market value of any available-for-sale security below cost that is deemed to be other-than-temporary results in a reduction in carrying amount to fair value. The impairment is charged to earnings, and a new cost basis is established. Gains and losses are derived using the average cost method for determining the cost of securities sold. Marketable securities were included in the net assets distributed to NPDC (see note 3).

(D) INVENTORIES

Inventories are valued at the lower of cost or market, using the first-in, first-out (FIFO) method. Inventories were included in the net assets distributed to NPDC (see note 3).

(E) ALLOWANCE FOR DOUBTFUL ACCOUNTS RECEIVABLE

Trade accounts receivable are recorded at invoiced amounts. The allowance for doubtful accounts is estimated based on historical trends of past due accounts, write-offs and specific review of past due accounts.

(F) FOREIGN CURRENCY TRANSLATION

The functional currency of the Company's international operations is the applicable local currency. The translation of the applicable foreign currency into U.S. dollars is performed for balance sheet accounts using current exchange rates in effect at the balance sheet

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

date and for revenue and expense accounts using the weighted average rates of exchange prevailing during the year. The unrealized gains and losses resulting from such translation

48

are included as a separate component of stockholders' equity in accumulated other comprehensive income (loss).

(G) REVENUE RECOGNITION

GENERAL PHYSICS

GP provides services under time-and-materials, cost-plus-fixed fee and fixed-price contracts. Each contract has different terms based on the scope, deliverables and complexity of the engagement, requiring GP to make judgments and estimates about recognizing revenue. In general, revenue is recognized on these arrangements as the services are performed. Under time-and-material contracts, as well as certain cost-plus-fixed fee and certain fixed-price contracts, the contractual billing schedules are based on the specified level of resources GP is obligated to provide. As a result, on those "level-of-effort" contracts, the contractual billing amount for a given period acts as a measure of performance and, therefore, revenue is typically recognized in that amount.

For other fixed price contracts, the contractual billing schedules are not based on the specified level of resources GP is obligated to provide. These arrangements typically do not have milestones or other reliable measures of performance. As a result, revenue on these arrangements is recognized using the percentage-of-completion method based on the relationship of costs incurred to total estimated costs expected to be incurred over the term of the contract. GP believes this methodology provides a reasonable measure of performance on these arrangements since performance primarily involves personnel costs and the customer typically is required to pay GP for the proportionate amount of work and cost incurred in the event of contract termination. Revenue for unpriced change orders is not recognized until the customer agrees with the changes. Costs and estimated earnings in excess of billings on uncompleted contracts are recorded as a current asset. Billings in excess of costs and estimated earnings on uncompleted contracts are recorded as a current liability. Generally, contracts provide for the billing of costs incurred and estimated earnings on a monthly basis.

Risks relating to service delivery, usage, productivity and other factors are considered when making estimates of total contract cost, contract profitability and progress towards completion. If sufficient risk exists, a reduced-profit methodology is applied to a specific client contract's percentage-of-completion model whereby the amount of revenue recognized is limited to the amount of costs incurred until such time as the risks have been partially or wholly mitigated through performance. GP's estimates of total contract cost and contract profitability change periodically in the normal course of business, occasionally due to modifications of contractual arrangements. In addition, the implementation of cost saving initiatives and achievement of productivity gains generally result in a reduction of estimated total contract expenses on affected client contracts. Such changes in estimate are recognized in the period the changes are determined. For all client contracts,

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

provisions for estimated losses on individual contracts are made in the period in which the loss first becomes apparent.

As part of GP's on-going operations to provide services to its customers, incidental expenses, which are commonly referred to as "out-of-pocket" expenses, are billed to customers, either directly as a pass-through cost or indirectly as a cost estimated on fixed-

49

price contracts. Out-of-pocket expenses include expenses such as airfare, mileage, hotel stays, out-of-town meals and telecommunication charges. GP's policy provides for these expenses to be recorded as both revenue and direct cost of services in accordance with the provisions of Emerging Issues Task Force (EITF) 01-14, Income Statement Characterization of Reimbursements Received for 'Out-of-Pocket' Expenses Incurred.

GSE

The majority of GSE's revenue is derived through the sale of uniquely designed systems containing hardware, software and other materials under fixed-price contracts. In accordance with Statement of Position ("SOP") No. 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts, the revenue under these fixed-price contracts is accounted for on the percentage-of-completion method. This methodology recognizes income as work progresses on the contract and is based on an estimate of the income earned to date, less income recognized in earlier periods. GSE bases its estimate of the degree of completion of the contract by reviewing the relationship of costs incurred to date to the expected total costs that will be incurred on the project. Estimated contract earnings are reviewed and revised periodically as the work progresses and the cumulative effect of any change is recognized in the period in which the change is identified. Estimated losses are charged against earnings in the period such losses are identified.

As GSE recognizes revenue under the percentage-of-completion method, it provides an accrual for estimated future warranty costs based on historical and projected claims experience. GSE's longer-term contracts generally provide for a one-year warranty on parts, labor and any bug fixes as it relates to software embedded in the systems.

GSE's system design contracts do not provide for "post customer support service" (PCS) in terms of software upgrades, software enhancements or telephone support. In order to obtain PCS, the customers must purchase a separate contract at the date of system installation. Such PCS arrangements are generally for a one-year period, renewable annually, and include customer support, unspecified software upgrades, and maintenance releases. GSE recognizes revenue from these contracts ratably over the life of the agreements in accordance with SOP No.97-2, Software Revenue Recognition.

Revenue from the sale of software licenses for the Company's modeling tools, which do not require significant modification or customization, are recognized when the license agreement is signed, the license fee is fixed and determinable, delivery has occurred,

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

and collection is considered probable.

Revenues from certain consulting or training contracts are recognized on a time-and-material basis. For time-and-material type contracts, revenue is recognized based on hours incurred at a contracted labor rate plus expenses.

DISCONTINUED OPERATIONS

Revenue of discontinued operations, related primarily to Five Star, were recognized as sales were made and title transferred to the customers.

50

(H) COMPREHENSIVE INCOME

Comprehensive income consists of net income (loss), net unrealized gains (losses) on available-for-sale securities and foreign currency translation adjustments.

(I) PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are carried at cost. Major additions and improvements are capitalized while maintenance and repairs, which do not extend the lives of the assets are expensed as incurred. Gain or loss on the disposition of property, plant and equipment is recognized in operations when realized.

Depreciation of property, plant and equipment is recognized on a straight-line basis over the following estimated useful lives:

CLASS OF ASSETS -----	USEFUL LIFE -----
Buildings and improvements	5 to 40 years
Machinery, equipment, and furniture and fixtures	3 to 7 years
Leasehold improvements	Shorter of asset life or term of lease

(J) IMPAIRMENT OF LONG-LIVED ASSETS

Long-lived assets, such as property, plant, and equipment, and intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized at the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated.

(K) GOODWILL AND INTANGIBLE ASSETS

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

The Company capitalizes costs incurred to obtain and maintain patents and licenses, as well as contract rights acquired. Patent costs are amortized over the lesser of 17 years or the remaining lives of the patents and license costs over the lives of the licenses. Contract rights are amortized over the lives of the contracts acquired, ranging up to two years.

Goodwill represents the excess of costs over fair value of assets of businesses acquired. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but instead tested for impairment at least annually or more frequently if events and circumstances indicate that the asset might be impaired in accordance with the provisions of Statement of Financial Accounting Standards ("SFAS") No. 142, Goodwill and Other Intangible Assets. The goodwill impairment test requires the Company to identify its reporting units and obtain estimates of the fair values of those units as of the testing date. The Company estimates the fair values of its reporting units using discounted cash flow valuation models. An impairment loss is recognized to the

51

extent that the carrying amount exceeds the asset's fair value. SFAS No. 142 also requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with SFAS No. 144, Accounting for Impairment or Disposal of Long-Lived Assets. During 2004, 2003 and 2002, the Company tested its goodwill in accordance with SFAS No. 142 and concluded no impairment charge was required.

(L) OTHER ASSETS

Other assets include deferred financing costs and certain software development costs. Deferred financing costs are amortized on a straight line basis over the terms of the related debt and such amortization is classified as interest expense in the consolidated statements of operations.

In accordance with SFAS No. 86, Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed, certain computer software development costs of GSE are capitalized in the Company's consolidated balance sheet. Capitalization of computer software begins upon the establishment of technological feasibility. Capitalization ceases and amortization of capitalized cost begins when the software product is commercially available for general release to customers. Amortization of capitalized computer software development costs is included in cost of revenue and is provided using the straight-line method over the remaining estimated economic life of the product, which normally ranges from three to five years. On an annual basis, the Company assesses the recovery of the unamortized software computer costs by estimating the net undiscounted cash flows expected to be generated by the sale of the product. If the undiscounted cash flows are not sufficient to recover the unamortized software costs, the Company will write-down the investment to its estimated fair value based on future discounted cash flows. The excess of any unamortized computer software costs over the related net realizable value is written down

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

and charged to income. Significant changes in the sales projections could result in impairment with respect to the capitalized software.

(M) INCOME TAXES

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

GSE files separate federal, state and foreign tax returns from the Company, as that entity is not consolidated with the Company for tax purposes.

(N) INCOME (LOSS) PER SHARE

Basic income (loss) per share is based upon the weighted average number of common shares outstanding, including Class B common

52

stock, during the periods. Class B common stockholders have the same rights to share in profits and losses and liquidation values as common stockholders.

Diluted income (loss) per share is based upon the weighted average number of common shares outstanding during the period assuming the issuance of common stock for all potential dilutive common stock equivalents outstanding.

Income (loss) per share (EPS) for the years ended December 31, 2004, 2003 and 2002 are as follows (in thousands, except per share amounts):

	2004	2003	2002
	-----	-----	-----
INCOME (LOSS) USED IN COMPUTATION:			
Income (loss) from continuing operations	\$ 22,445	\$ (8,111)	\$ (4,504)
Income (loss) from discontinued operations	75	(165)	(724)
	-----	-----	-----
Net income (loss)	\$ 22,520	\$ (8,276)	\$ (5,228)
	=====	=====	=====

Dilutive effect of outstanding			
stock options and warrants	629	--	--
	-----	-----	-----
Weighted average shares			

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

outstanding, diluted	18,307	17,139	15,370
	=====	=====	=====
INCOME (LOSS) PER COMMON SHARE:			
Basic			
Income (loss) from continuing operations	\$ 1.27	\$ (0.47)	\$ (0.29)
Income (loss) from discontinued operations	--	(0.01)	(0.05)
	-----	-----	-----
Net income (loss)	\$ 1.27	\$ (0.48)	\$ (0.34)
	=====	=====	=====
Diluted			
Income (loss) from continuing operations	\$ 1.23	\$ (0.47)	\$ (0.29)
Income (loss) from discontinued operations	--	(0.01)	(0.05)
	-----	-----	-----
Net income (loss)	\$ 1.23	\$ (0.48)	\$ (0.34)
	=====	=====	=====

For the years ended December 31, 2003 and 2002, presentation of the dilutive effect of stock options, warrants and convertible notes, which totaled 1,249,000 and 612,000, respectively, are not included since they are anti-dilutive.

(O) STOCK-BASED COMPENSATION

Options are granted to purchase Company, GSE and Five Star, prior to its spin-off, common shares under stock-based incentive plans, which are described more fully in note 14.

The Company applies the intrinsic-value-based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issues to Employees, and related interpretations including Financial Accounting Standards Board ("FASB") Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB Opinion No. 25, to account for its fixed-plan stock

53

options. Under this method, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeds the exercise price of the options. SFAS No. 123, Accounting for Stock-Based Compensation, as amended, established accounting and disclosure requirements using a fair-value-based method of accounting for stock-based employee compensation plans. As allowed by SFAS No. 123, the Company has elected to continue to apply the intrinsic-value-based method of accounting described above, and has adopted only the disclosure requirements of SFAS No. 123. The following table illustrates the effect on net income (loss) if the fair-value-based method had been applied to all outstanding and unvested awards in each year (dollars in thousands, except per share date):

	2004	2003	2002
	-----	-----	-----
Net income (loss) - as reported	\$ 22,520	\$ (8,276)	\$ (5,228)
Compensation expense, net of tax:			
Company stock options	(608)	(1,251)	(1,495)
GSE stock options	(30)	(181)	--
	-----	-----	-----

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Pro forma net income (loss)	\$ 21,882 =====	\$ (9,708) =====	\$ (6,723) =====
Net income (loss) per share			
Basic - as reported	\$ 1.27	\$ (0.48)	\$ (0.34)
Basic - pro forma	\$ 1.24	\$ (0.57)	\$ (0.44)
Diluted - as reported	\$ 1.23	\$ (0.48)	\$ (0.34)
Diluted - pro forma	\$ 1.21	\$ (0.57)	\$ (0.44)

At December 31, 2004, 2003 and 2002, the per share weighted average fair value of the Company's stock options granted was \$1.47, \$2.95 and \$2.78, respectively, on the date of grant using the modified Black-Scholes option-pricing model with the following weighted average assumptions:

	2004 -----	2003 -----	2002 -----
Expected dividend yield	0%	0%	0%
Risk-free interest rate	1.70%	2.00%	4.30%
Expected volatility	32.24%	78.33%	72.84%
Expected life	2.03 years	4.00 years	6.16 years

Options were granted by GSE and Five Star during 2004 and 2003, subsequent to their consolidation.

(P) USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

54

(Q) FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value of financial instruments including cash and cash equivalents, marketable securities, accounts receivable, accounts payable and short-term borrowings approximate estimated market values because of short-maturities and interest rates that approximate current rates. The carrying values of investments approximate fair values based upon quoted market prices. The investments for which there is no quoted market price are not significant. The estimated fair value for the Company's debt is equal to the carrying amount. Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

(R) RECLASSIFICATIONS

Certain amounts in 2003 and 2002 have been reclassified to conform to

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

the presentation in 2004.

(S) OFF BALANCE SHEET RISK AND FOREIGN EXCHANGE CONTRACTS

GSE utilizes various derivative financial instruments to manage market risks associated with the fluctuations in foreign currency exchange rates. It is GSE's policy to use derivative financial instruments to protect against market risk arising in the normal course of business. The criteria GSE uses for designating an instrument as a hedge includes the instrument's effectiveness in risk reduction and one-to-one matching of derivative instruments to underlying transactions. GSE monitors its foreign currency exposures to maximize the overall effectiveness of its foreign currency hedge positions. Principal currencies hedged include the Euro and the Japanese Yen. GSE's objectives for holding derivatives are to minimize the risks using the most effective methods to reduce the impact of these exposures. GSE minimizes credit exposure by limiting counterparties to nationally recognized financial institutions.

All derivatives, whether designated as hedging relationships or not, are required to be recorded on the balance sheet at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and of the hedged item attributable to the hedged risk are recognized in operations. If the derivative is designated as a cash flow hedge, the change in the fair value of the derivative and of the hedged item are recognized as an element of other comprehensive income.

As of December 31, 2004, GSE had contracts for the sale of approximately \$4.6 million Japanese Yen at fixed rates. The contracts expire on various dates through May, 2007. The contracts do not qualify for hedge treatment under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended. Accordingly, GSE has recorded the estimated fair value of the contracts of approximately \$200,000 as of December 31, 2004 as other assets in the consolidated balance sheet and other income in the consolidated statement of operations.

(T) RECENT ACCOUNTING PRONOUNCEMENTS

During December 2004, the FASB issued SFAS No.123R, Share-Based Payments. Among other items, the standard will require the expensing, in the financial statements, of stock

55

options issued by the Company. The new standard will be effective July 1, 2005, for calendar year-end companies. GP Strategies is currently evaluating the adoption of SFAS No. 123R, including the valuation methods and assumptions that underlie the valuation of the awards. The Company expects that the adoption of SFAS No. 123R will have a negative impact on the Company's consolidated financial statements.

(3) DISCONTINUED OPERATIONS AND SPIN-OFF OF NPDC

Under SFAS No. 144, discontinued businesses are removed from the results of continuing operations and are classified as discontinued operations in the consolidated statements of operations until the effective date of the spin-off. The following table sets forth the components of income (loss) from discontinued operations for the eleven months ended November 24, 2004 and the years ended December 31,

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

2004, 2003, and 2002 (in thousands):

	2004 ----	2003 ----	2002 ----
Revenue	\$ 104,067	\$ 28,644	\$ 9,996
Operating income (loss)	1,594	(189)	286
Interest expense	(1,108)	(502)	(303)
Income tax (expense) benefit	(333)	99	524
Income (loss) from discontinued operations, net of income taxes	75	(165)	(724)

The results of the discontinued operations for 2004 include the results of Five Star, which were consolidated with the Company effective October 8, 2003, when the Company increased its ownership interest to 54%. Previously, the Company accounted for its investment in Five Star under the equity method (see note 6).

In accordance with SFAS No. 144, only those overhead costs that are solely attributable to the discontinued business segments have been allocated to discontinued operations. As a result, 2004, 2003 and 2002 include overhead expenses that were incurred for the benefit of the Company's continuing and discontinued operations, which are included in continuing operations. Consolidated interest expense in periods prior to the spin-off has been allocated to discontinued operations using a basis of net assets of each of the continuing and discontinued business segments as of November 24, 2004.

The assets and liabilities distributed to NPDC in connection with the spin-off included those specific to MXL, Five Star and certain other non-core assets. The following table summarizes the net assets and liabilities distributed to NPDC on November 24, 2004 (in thousands):

56

Assets:	
Cash and cash equivalents	\$ 2,453
Due from GP Strategies (arbitration award)	5,000
Accounts and other receivables	14,002
Inventories	25,691
Prepaid expenses and other current assets	391
Investments and marketable securities	1,593
Property, plant and equipment, net	5,553
Deferred tax assets, net	4,045
Goodwill and other assets	2,818

Total assets	61,546

Liabilities:	
Accounts payable and accrued expenses	12,672
Short-term borrowings	18,330
Long-term debt	2,961
Minority interest and other liabilities	1,616

Total liabilities	35,579

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Net assets distributed to NPDC	----- \$25,967 =====

(4) GOODWILL AND INTANGIBLE ASSETS

Changes in goodwill for the years ended December 31, 2004 and 2003 were as follows (in thousands):

	2004 -----	2003 -----
Beginning of year balance	\$ 62,395	\$ 57,491
GSE acquisition	--	4,755
Foreign currency translation	187	149
Distribution of goodwill to NPDC	(202)	--
	-----	-----
End of year balance	\$ 62,380 =====	\$ 62,395 =====

Intangible assets, which consist primarily of patents, licenses and contract rights, with finite lives are being amortized to expense over their estimated useful lives. As of December 31, 2004, the Company's intangible assets with finite lives had a weighted average useful life of six years. As of December 31, 2004, the Company had no intangible assets with indefinite useful lives. Amortization expense for intangible assets for 2004, 2003 and 2002 was \$257,000, \$147,000 and \$103,000, respectively. Amortization expense for intangible assets is estimated to be \$376,000 in 2005, \$156,000 in 2006, \$128,000 in 2007 and \$75,000 in 2008 and 2009.

(5) MARKETABLE SECURITIES

At December 31, 2003, the fair value of marketable securities were comprised of the following (in thousands):

	2003 -----
Millennium Cell Inc.	\$3,570
Hemispherx Biopharma, Inc.	361

	\$3,931 =====

Marketable securities were included in the net assets distributed to NPDC (see note 3).

MILLENNIUM CELL INC.

Millennium is a publicly traded emerging technology company engaged in

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

the business of developing innovative fuel systems for the safe storage, transportation and generation of hydrogen for use as an energy source. As of December 31, 2003, the Company owned 1,532,000 shares of Millennium.

In 2003 and 2002, the Company sold approximately 678,000 shares and 1,286,000 shares for \$1,376,000 and \$3,833,000, respectively, and recognized net gains of \$559,000 and \$2,267,000, respectively.

58

On February 11, 2000, the Company granted options to certain of its employees pursuant to the GP Strategies Millennium Option Plan to purchase an aggregate of approximately 547,000 of its shares of Millennium common stock, of which there are currently approximately 337,000 options outstanding. These options vested over either a one-year or two-year period and expire on June 30, 2005, as amended. The options in the Millennium Option Plan were fully vested as of December 31, 2002. The Company may receive approximately \$500,000 (of which approximately \$191,000 was received to date) upon exercise of all options pursuant to the Millennium Option Plan. The Company's liabilities to employees of \$431,000 and \$650,000 at December 31, 2004 and 2003 are included in accounts payable and accrued expenses in the accompanying consolidated balance sheets. As of December 31, 2004 and 2003, the Company held approximately 337,000 shares of Millennium with a fair value of \$431,000 and \$650,000, respectively, in the GP Strategies Millennium Option Plan, classified as other assets on the consolidated balance sheets. The Company recorded a non-cash compensation credit of \$219,000, \$150,000 and \$1,211,000 for the years ended December 31, 2004, 2003 and 2002, respectively, which is included in selling, general and administrative expenses in the accompanying consolidated statement of operations.

As of December 31, 2003, the gross unrealized holding gains of \$1,613,000 (net of income tax expense of \$984,000) for available-for-sale securities was included as in accumulated other comprehensive income (loss).

HEMISPHERX BIOPHARMA INC.

In March 2003, the Company and ISI entered into an agreement whereby the Company agreed to receive shares of common stock of Hemispherx Biopharma Inc. (HEB) with a market value of \$425,000 (the Guaranteed Shares) in full settlement of all of ISI's debt obligations. The Company received 268,000 shares of HEB from ISI and subsequently made a capital contribution of the shares to MXL. MXL sold 108,000 of the shares in 2003 for \$249,000, and recognized a net gain of \$142,000 on the sale of these shares, which is included in income (loss) from discontinued operations, net of income taxes. As of December 31, 2003 the Company held 160,000 shares of HEB, which were classified as trading securities, had a fair value of approximately \$361,000 and were sold in the first quarter of 2004. The Company recognized a net gain of \$44,000 on the sale of these shares, which is included in discontinued operations.

(6) ACQUISITIONS

(A) GSE SYSTEMS INC.

On October 23 2003, the Company purchased from ManTech International (ManTech) 3,426,699 shares of common stock of GSE and a GSE

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

subordinated note in the outstanding principal amount of \$650,000, which the Company immediately converted into 418,653 shares of common stock of GSE. This transaction (the GSE Acquisition) increased the Company's ownership of the common stock of GSE from approximately 22% to approximately 58%. Simultaneously with the closing of the GSE Acquisition, three directors nominated by the Company were added to the GSE Board of Directors. GSE was previously an investment of the Company accounted for under the equity method. Subsequent to the GSE Acquisition, GSE is consolidated into the Company's consolidated financial

59

statements. The GSE Acquisition was carried out in order to allow the Company to work together with GSE to expand GSE's simulation technology to the power, military and homeland defense markets that are currently served by General Physics.

The consideration paid to ManTech by the Company consisted of a five-year 5% note for \$5,250,955 (the ManTech Note) due in full in October 2008. Each year during the term of the ManTech Note, ManTech has the option to convert up to 20% of the original principal amount of the note into common stock of the Company at the then market price of Company's common stock, but only in the event that Company's common stock is trading at \$10 per share or more. In the event that less than 20% of the principal amount of the note is not converted in any year, such amount not converted will be eligible for conversion in each subsequent year until converted or until the note is repaid in cash.

As part of the GSE Acquisition, the Company and ManTech entered into a five-year Teaming Agreement pursuant to which ManTech and the Company will work together to give the Company the opportunity to provide training services to ManTech's customers.

On January 1, 2004, GSE entered into a Management Services Agreement with the Company in which the Company agreed to provide corporate support services to GSE, including accounting, finance, human resources, legal, network support and tax. In addition, GSE will use General Physics' financial system. GSE will pay an annual fee to General Physics of \$685,000. The term of the agreement is one year, subject to earlier termination only upon the mutual consent of the parties to the agreement. The Management Services Agreement, which can be renewed for successive one-year terms, was renewed for fiscal 2005.

The acquisition was accounted for as a purchase transaction in accordance with SFAS No. 141, Business Combinations, and accordingly, the net assets acquired were recorded at their fair value at the date of the acquisition. The excess of the purchase price over the estimated fair values of the net assets acquired was recorded as goodwill. Goodwill associated with the GSE acquisition will be deductible for tax purposes.

The components of the net assets acquired were as follows (in thousands):

Cash	\$ 2,847
Accounts receivable and unbilled receivables	6,587
Intangible assets, including goodwill	2,684
Property, plant and equipment and	

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

other assets	2,444

Total assets	14,562

Accounts payable, accrued expenses and other liabilities	5,303
Billings in excess of revenue earned	3,528

Total liabilities assumed	8,831

GSE net assets as of October 23, 2003	\$ 5,731
	=====

60

(B) FIVE STAR PRODUCTS, INC.

The net assets of Five Star were included in the net assets distributed to NPDC (see note 3).

Prior to October 8, 2003, Five Star was a 47.3% investment of the Company accounted for under the equity method and was indebted to the Company for an unsecured 8% note (the Five Star Note) due June 30, 2005, as amended, which amounted to \$4,500,000 as of December 31, 2002. On June 20, 2003, the Company entered into an Agreement of Subordination and Assignments (the Subordination Agreement) with Five Star that amended the amount of annual repayment of principal on the Five Star Note. Pursuant to the provisions of the Subordination Agreement, in 2003 the Company received partial repayments from Five Star in the amount of \$1,200,000. On October 8, 2003, the Company converted an additional \$500,000 of the principal amount of the Five Star Note into 2,000,000 shares of Five Star common stock (the Five Star Acquisition) increasing the Company's investment in Five Star to 54%.

The acquisition was accounted for as a purchase transaction in accordance with SFAS No. 141, and accordingly, the net assets acquired were recorded at their fair value at the date of the acquisition. The excess of the net assets acquired over the purchase price was recorded as a reduction to property, plant and equipment to reflect the allocation of negative goodwill arising in purchase accounting.

The components of the net assets acquired were as follows (in thousands):

Accounts receivable	\$13,267
Inventories	20,222
Property, plant and equipment and other assets	1,529

Total assets	35,018

Short-term borrowings	17,616
Accounts payable and accrued expenses	10,063
Debt to GP Strategies	3,000

Total liabilities assumed	30,679

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Five Star net assets as of	-----
October 8, 2003	\$ 4,339
	=====

On February 6, 2004, Five Star announced that it would repurchase up to 5,000,000 shares, or approximately 30% of its common stock through a tender offer. The tender offer increased the Company's ownership in Five Star to approximately 64% as of November 24, 2004, prior to distribution.

61

(7) PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consist of the following (in thousands):

	DECEMBER 31	
	2004	2003
	-----	-----
Land	\$ --	915
Buildings and improvements	--	3,561
Machinery and equipment	8,031	14,534
Furniture and fixtures	3,843	8,583
Leasehold improvements	1,204	2,072
	-----	-----
	13,078	29,665
Accumulated depreciation and amortization	(10,405)	(20,671)
	-----	-----
	\$ 2,673	8,994
	=====	=====

The Company distributed \$5,553,000 in net property, plant and equipment to NPDC (see note 3). Depreciation expense included in continuing operations in 2004, 2003, and 2002 was \$1,659,000, \$1,625,000 and \$1,631,000, respectively.

(8) SHORT-TERM BORROWINGS

(A) GENERAL PHYSICS

On August 13, 2003, General Physics, General Physics' subsidiary, SkillRight, Inc., and MXL entered into a two-year \$25 million Financing and Security Agreement (the Credit Agreement) with a new bank, the proceeds of which were used to repay the Company's previous credit facility. The Company wrote off \$860,000 of deferred financing costs due to the early termination of its previous credit facility. This expense is included in interest expense for year ended December 31, 2003. The Credit Agreement is secured by certain assets of General Physics and, until March 31, 2004, certain of the accounts receivable of MXL. The Credit Agreement also provides for an unsecured guaranty from the Company. On March 31, 2004, the Credit Agreement was also amended to include GSE.

The interest rate on the Credit Agreement is at LIBOR market index

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

rate plus 3.00%, (which as of December 31, 2004 was approximately 5.4%). Based upon the financial performance of General Physics, the interest rate can be reduced. The Credit Agreement contains covenants with respect to General Physics' minimum tangible net worth, leverage ratio, interest coverage ratio and its ability to make capital expenditures. The Credit Agreement also contains certain restrictive covenants including a prohibition on future acquisitions, incurrence of debt and the payment of dividends. General Physics is currently restricted from paying dividends or management fees to the Company in excess of \$1,000,000 in any fiscal year. On July 30, 2004, General Physics received a waiver and paid the Company an additional \$1,000,000. General Physics was in compliance with all loan covenants under the Credit Agreement as of December 31, 2004. On March 9, 2005, General Physics received a waiver to loan GSE a maximum of \$1.0 million to satisfy any GSE short-term capital requirements over the next 15 months.

62

As of December 31, 2004, the amount outstanding under the Credit Agreement was approximately \$6,068,000 and approximately \$14,087,000 was available to be borrowed under the Credit Agreement. The Company repaid in full the \$6,068,000 outstanding under the Credit Agreement as of December 31, 2004 in the first quarter of 2005, using the proceeds received from arbitration (see note 17). Borrowings outstanding on December 31, 2003 were \$9.5 million.

(B) GSE

On March 30, 2004, GSE was added as an additional borrower under the General Physics Credit Agreement. Under the terms of the Credit Agreement, as amended, \$1,500,000 of General Physics' Credit Agreement has been allocated for use by GSE, as well as certain covenants specific to GSE. The Credit Agreement was amended to provide for additional collateral consisting of substantially all of the GSE's assets, as well as certain covenants specific to GSE. It provides for borrowings by GSE up to 80% of eligible accounts receivable and 80% of eligible unbilled receivables, up to a maximum of \$1,500,000. The interest rate is based upon the LIBOR market index rate plus 3%, with interest only payments due monthly (5.4 % as of December 31, 2004). The Company agreed to guarantee GSE's borrowings under the Credit Agreement, as amended, in consideration for a fee pursuant to the Management Services Agreement. There were no borrowings outstanding at December 31, 2004.

(C) FIVE STAR

On June 20, 2003, Five Star obtained a Loan and Security Agreement (the Loan Agreement) with Fleet Capital Corporation. The Loan Agreement has a five-year term, with a maturity date of June 30, 2008. The Loan Agreement provides for a \$25,000,000 revolving credit facility, which allows Five Star to borrow based upon a formula of eligible inventory and eligible accounts receivable, as defined therein. The interest rates under the Loan Agreement are LIBOR plus a credit spread for borrowings not to exceed \$15,000,000 and the prime rate plus a credit spread for borrowings in excess of the above-mentioned LIBOR-based borrowings. The credit spreads can be reduced in the event that Five Star achieves and maintains certain performance benchmarks. At December 31, 2003, approximately \$16,685,000 was outstanding under the Loan Agreement. The Company distributed \$18,330,000 in Five Star short-term borrowings to NPDC on

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

November 24, 2004 (see note 3). The Company does not guarantee the Five Star obligation.

(9) ACCOUNTS PAYABLE AND ACCRUED EXPENSES

Accounts payable and accrued expenses are comprised of the following (in thousands):

	DECEMBER 31,	
	2004	2003
	-----	-----
Accounts payable	\$ 8,936	\$22,795
Payroll and related costs	6,629	6,324
Amount payable to NPDC	5,000	--
Other accrued expenses	12,654	8,988
	-----	-----
	\$33,219	\$38,107
	=====	=====

63

The Company distributed \$12,672,136 in accounts payable and accrued expenses to NPDC (see note 3).

(10) LONG -TERM DEBT

Long-term debt is comprised of the following (in thousands):

	DECEMBER 31,	
	2004	2003
	-----	-----
6% conditional subordinated notes due 2008 (a)	\$ 7,500	7,500

Mortgage on MXL Illinois facility (d)	--	1,185
Other (e)	190	1,782
	-----	-----
	12,941	17,123
Less warrant related discount, net of accretion	(1,890)	(2,262)
	-----	-----
	11,051	14,861
Less current maturities	(100)	(1,112)
	-----	-----
	\$ 10,951	13,749
	=====	=====

(A) Pursuant to a Note and Warrant Purchase Agreement dated August 8, 2003, the Company issued and sold to four Gabelli Funds \$7,500,000 aggregate principal amount of 6% Conditional Subordinated Notes due 2008 (the Gabelli Notes) and 937,500 warrants (GP Warrants), each entitling the holder thereof to purchase (subject to adjustment) one

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

share of the Company's common stock. The aggregate purchase price for the Gabelli Notes and GP Warrants was \$7,500,000.

The Gabelli Notes bear interest at 6% per annum payable semi-annually commencing on December 31, 2003 and mature in August 2008. The Gabelli Notes are secured by a mortgage on the Company's former property located in Pawling, New York which was distributed to NPDC. In addition, at any time that less than \$1,875,000 of the principal amount of the Gabelli Notes are outstanding, the Company may defease the obligations secured by the mortgage and obtain a release of the mortgage by depositing with an agent for the Noteholders, bonds or government securities with an investment grade rating by a nationally recognized rating agency which, without reinvestment, will provide cash on the maturity date of the Gabelli Notes in an amount not less than the outstanding principal amount of the Gabelli Notes.

The GP Warrants have an exercise price of \$6.14 per share, as amended following the spin-off of NPDC, and are exercisable at any time until August 2008. The exercise price may be paid in cash, by delivery of the Gabelli Notes, or a combination of the two. The GP Warrants contain anti-dilution provisions for stock splits, reorganizations, mergers and similar transactions. The fair value of the GP Warrants at the date of issuance was \$2,389,000, which reduced long-term debt in the accompanying consolidated balance sheets.

64

This amount is being accreted as additional interest expense using the effective interest rate over the term of the Gabelli Notes. The Gabelli Notes have a yield to maturity of 15.436% based on the discounted value. Accretion charged as interest expense was approximately \$372,000 in 2004 and \$127,000 during 2003.

The GP Warrants were accounted for as a liability of the Company until the shares of the Company's common stock issuable on exercise of the GP Warrants were registered, which occurred on December 8, 2003, at which time the liability was reclassified to additional paid-in-capital at its then fair market value of \$953,000. The changes in the fair market value of the GP Warrants were marked-to-market through December 8, 2003 with the adjustment shown as other income in the consolidated statement of operations. The Company recognized a gain in operations of \$1,436,000 in valuation adjustment of the liability relating to the GP Warrants using the Black-Scholes model.

In connection with the Distribution, the Company contributed the Pawling property, subject to the mortgage, to MXL. MXL assumed the mortgage, but without liability for repayment of the Gabelli Notes or any other obligations of the Company under the Note and Warrant Purchase Agreement (other than foreclosure on such property). If there is a foreclosure on the mortgage for payment of the Gabelli Notes, the Company has agreed to indemnify MXL for loss of the value of the property.

(B) On October 23, 2003 in connection with the GSE Acquisition the Company issued a five-year 5% note due in full on October 21, 2008 in the principal amount of \$5,250,955 to ManTech International. Interest is payable quarterly. Each year during the term of the note, the holder of the note has the option to convert up to 20% of the original principal amount of the note into common stock of the Company at the then market price of the Company's common stock, but only in the event that the Company's common stock is trading at \$10 per share or more.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

In the event that less than 20% of the principal amount of the note is not converted in any year, such amount not converted will be eligible for conversion in each subsequent year until converted or until the note is repaid in cash.

(C) MXL had a loan in the amount of \$1,680,000, secured by a mortgage covering the real estate and fixtures on its property in Pennsylvania. The loan requires monthly repayments of \$8,333 plus interest at 2.5% above the one-month LIBOR rate and was to mature on March 8, 2011. The amount outstanding on November 24, 2004 was included in the net assets distributed to NPDC. The MXL loan is guaranteed by the Company.

(D) MXL had a loan in the amount of \$1,250,000, secured by a mortgage covering the real estate and fixtures on its property in Illinois. The loan requires monthly payments of principal and interest in the amount of \$11,046 with interest at a fixed rate of 8.75% per annum and was to mature on June 26, 2006. The amount outstanding on November 24, 2004 was included in the net assets distributed to NPDC. The MXL loan is guaranteed by the Company.

65

(E) Other debt as of December 31, 2004, represents capital lease obligations for equipment. Other debt outstanding as of November 24, 2004 was included in the net assets distributed to NPDC.

Aggregate annual maturities of long-term debt at December 31, 2004 are as follows (in thousands):

2005	\$ 100
2006	68
2007	22
2008	12,751
Thereafter	--
	=====

(11) EMPLOYEE BENEFIT PLANS

(A) GP STRATEGIES EMPLOYEE BENEFIT PLAN

The Company and its employees maintain a Retirement Savings Plan (the Plan) for employees who have completed at least one month of service. The Plan permits pre-tax contributions to the Plan by participants pursuant to Section 401(K) of the Internal Revenue Code (IRC). The Company matches participants' contributions up to a specific percentage of the first 7% of base compensation contributed for employees who have completed one year of service and may make additional matching contributions at its discretion. In 2004, 2003 and 2002, the Company did not make any discretionary matching contributions. The Company matches participants' contributions in shares of its Common Stock up to 57% of monthly employee salary deferral contributions. In 2004, 2003 and 2002, the Company contributed 135,921, 188,317 and 270,000 shares of the Company's common stock directly to the Plan with a value of approximately \$971,000, \$1,053,000 and \$1,058,000, respectively.

(B) GSE EMPLOYEE BENEFIT PLAN

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

GSE has a qualified defined contribution plan that covers substantially all its U.S. employees under Section 401(K) of the IRC. Under this plan, GSE stipulated basic contribution matches a portion of the participants' contributions based upon a defined schedule. GSE's contributions to the plan were approximately \$110,000 in 2004 and \$12,000 from October 23, 2003 to December 31, 2003.

66

(12) INCOME TAXES

Income tax (expense) benefit for the years ended December 31, 2004, 2003 and 2002 is as follows (in thousands):

	YEARS ENDED DECEMBER 31,		
	2004	2003	2002
	----	----	----
Income tax (expense) benefit from continuing operations	\$ 8,009	\$ (985)	\$ 295
Income tax (expense) benefit from discontinued operations	\$ 466	99	524
	-----	-----	-----
	8,475	\$ (886)	\$ 819
	=====	=====	=====

The components of income tax (expense) benefit from continuing operations are as follows (in thousands):

	YEARS ENDED DECEMBER 31,		
	2004	2003	2002
	----	----	----
Current:			
Federal	\$ (482)	\$ (39)	\$ --
State and local	(323)	(498)	(233)
Foreign	(268)	(693)	(361)
	-----	-----	-----
Total current	(1,073)	(1,230)	(594)
	-----	-----	-----
Deferred:			
Federal	7,768	--	805
State and local	1,412	--	74
Foreign	(98)	245	--
	-----	-----	-----
Total deferred	9,082	245	879
	-----	-----	-----
Total income tax (expense) benefit	\$ 8,009	\$ (985)	\$ 285
	=====	=====	=====

The deferred (expense) benefit excludes activity in the net deferred tax assets relating to tax on appreciation (depreciation) in

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

available-for-sale securities, which is recorded directly to stockholders' equity. Income (loss) before income tax (expense) benefit generated from foreign entities was approximately \$404,000, (\$594,000), and \$150,000 respectively, in 2004, 2003 and 2002.

67

The difference between the (expense) benefit for income taxes computed at the statutory rate and the reported amount of tax (expense) benefit is as follows:

	DECEMBER 31,		
	2004	2003	2002
	----	----	----
Federal income tax rate	(35.0)%	35.0%	35.0%
Foreign, state and local taxes net of Federal benefit	(5.2)	(6.6)	(7.8)
Taxes of subsidiaries that are not consolidated for tax purposes	--	(1.9)	--
Items not deductible - primarily meals and entertainment	(1.7)	(6.4)	(3.7)
Valuation allowance adjustment	84.6	(29.0)	
Change in effective rate, primarily net operating loss carry forwards	16.5	--	--
Net losses from foreign operations for which no tax benefit has been provided	(0.6)	(0.8)	(2.1)
Tax effect recorded in stockholders' equity for sale of available-for sale-securities	(0.7)	(4.5)	(11.5)
Other	(2.4)	0.5	(3.8)
	----	----	----
Effective tax rate expense (benefit)	55.5%	(13.7)%	6.1%
	=====	=====	=====

As of December 31, 2004, the Company has approximately \$41,620,000 of Federal net operating loss carryforwards. These carryforwards expire during 2022 and 2023. The Company has approximately \$1,455,000 of available credit carryovers which may be carried over indefinitely. In addition, GSE, which is not consolidated with the Company for tax reporting, has approximately \$16,119,000 of Federal net operating loss carry forwards that expire from 2012 through 2023.

68

The tax effects of temporary differences between the financial reporting and tax bases of assets and liabilities that are included in the net deferred tax assets (liabilities) are summarized as follows (in thousands):

	DECEMBER 31,	
	2004	2003
	----	----
Deferred tax assets:		
Allowance for doubtful accounts	\$ 342	405

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Accrued liabilities	1,574	2,166
Net Federal, State and Foreign operating loss carryforwards	16,383	22,751
Tax credit carryforwards	1,455	972
Tax benefits of subsidiaries not consolidated for tax purposes	50	227
Investment in partially owned companies	1,602	128
	-----	-----
Deferred tax assets	21,406	26,649
Deferred tax liabilities:		
Property and equipment, principally due to difference in depreciation and amortization	2,888	2,375
	-----	-----
Net deferred tax assets	18,518	24,274
Less valuation allowance	(389)	(12,586)
	-----	-----
Net deferred tax assets	\$ 18,129	11,688
	=====	=====

In the fourth quarter of 2004, the spin-off was completed, the arbitration settlement was recognized and projected taxable income was revised in light of the Company's structure subsequent to the spin-off. Accordingly, the Company reduced its valuation allowance by \$12,197,000 attributable primarily to the ability to realize the overall deferred tax assets, primarily net operating losses. In 2003, the valuation allowance increased by \$2,125,000 attributable primarily to domestic net operating losses for the year ended December 31, 2003 for which no tax benefit was provided. Net deferred tax assets of \$3,589,000 were included in the net assets distributed to NPDC (see note 5).

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences are deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based upon these factors, management believes it is more likely than not that the Company will realize the benefits of deferred tax assets, net of the valuation allowance.

(14) COMMON STOCK, STOCK OPTIONS AND WARRANTS

(A) On October 29, 2003 the Company's shareholders approved the GP Strategies Corporation 2003 Incentive Stock Plan (the 2003 Plan). The 2003 Plan permits awards of incentive stock options, nonqualified stock options, restricted stock, stock units, performance shares, performance units and other incentives payable in cash or in shares of the Company's Common Stock or Class B Common Stock. The aggregate number of shares of Common Stock or Class B Common Stock available for issuance under the 2003 Plan is 2,000,000, of which not more than 500,000 shares may be shares of Class B Common Stock.

70

As of December 31, 2004 approximately 1,366,000 shares of the Company's Common Stock were available for grant under the Plan and 2,000,000 shares of the Company's Common Stock were available for grant under the 2003 Plan.

Under the Plan, employees and certain other parties may be granted options to purchase shares of common stock. Although the Plan permits options to be granted at a price not less than 85% of the fair market value, the Plan options primarily are granted at the fair market value of the common stock at the date of the grant and vest over periods ranging from two to ten years from the date of grant. Shares of common stock may also be reserved for issuance pursuant to other agreements.

Changes in options and warrants outstanding during 2004, 2003 and 2002, and options and warrants exercisable and shares reserved for issuance at December

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

31, 2004, 2003 and 2002 are as follows:

OPTIONS AND WARRANTS OUTSTANDING -----	PRICE RANGE PER SHARE -----	NUMBER OF OPTIONS AND WARRANTS -----	WEIGH AVERA EXERCISE -----
December 31, 2001	\$3.00 - \$15.375	2,790,665	\$ 7.3
Granted	\$3.60 - \$4.75	845,800	4.1
Exercised	\$3.60 - \$4.61	(1,233)	4.0
Terminated	\$3.60 - \$14.625	(722,235)	7.8

December 31, 2002	\$3.00 - \$15.375	2,912,997	6.5
Granted	\$4.90 - \$8.00	1,222,250	7.3
Exercised	\$3.00 - \$5.1875	(248,983)	3.9
Terminated	\$3.60 - \$14.625	(96,367)	6.1

December 31, 2003	\$3.00 - \$15.375	3,789,897	7.0
Granted	\$6.86 - \$7.66	126,000	7.1
Exercised	\$2.82 - \$7.13	(199,959)	4.3

Spin-off adjustment		322,814	

December 31, 2004	\$2.81-\$12.85	3,059,329	5.0
=====			

Shares reserved for issuance as of December 31, 2004 were 4,425,628. In connection with the spin-off, options to purchase shares of Company common stock were adjusted such that each option held the same ratio of the exercise price per option to the market value per share, the same aggregate difference between market value and exercise price, and the same vesting provisions, option periods and other terms and conditions applicable prior to the spin-off.

71

Weighted average characteristics of outstanding and exercisable stock options and warrants by exercise price range as of December 31, 2004 were as follows:

RANGE OF EXERCISE PRICES -----	OUTSTANDING OPTIONS AND WARRANTS -----			EXERCISABLE OPTIONS -----	
	NUMBER OF OPTIONS AND WARRANTS -----	WEIGHTED AVERAGE YEARS REMAINING -----	WEIGHTED AVERAGE EXERCISE PRICE -----	NUMBER OF OPTIONS AND WARRANTS -----	WEIGHTE AVERAG EXERCIS PRICE -----

	3,059,329	3.53	\$ 5.01	2,747,165	\$ 4.99

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

=====
=====

The Company had no outstanding Class B Common Stock options during fiscal years 2004, 2003 and 2002.

The holders of Common Stock are entitled to one vote per share and the holders of Class B Common Stock are entitled to ten votes per share on all matters without distinction between classes, except when approval of a majority of each class is required by statute. The Class B Common Stock is convertible at any time, at the option of the holders of such stock, into shares of common stock on a share-for-share basis. Shares reserved for issuance of common stock were primarily related to options, warrants and the conversion of long-term debt.

The Company reserved 950,000 shares of its Common Stock for issuance upon conversion of Class B Common Stock at December 31, 2000. The Company reserved an additional 300,000 shares for a private placement transaction (see note 14(c)) bringing the total to 1,250,000 shares reserved for issuance upon conversion of Class B Common Stock at December 31, 2004, 2003 and 2002.

- (B) Pursuant to an agreement dated as of October 19, 2001 (the Stock Purchase Agreement), the Company sold to Bedford Oak Partners, LP (the Bedford Oak) in a private placement transaction, 300,000 shares of Class B Common Stock (the Bedford Class B Shares) for \$900,000. Upon the disposition of any of the Bedford Class B Shares (other than to an affiliate of Bedford Oak who agrees to be bound by the provisions of the Stock Purchase Agreement) or at the request of the Board of Directors of the Company, Bedford Oak is required to exercise the right to convert all of the Bedford Class B Shares then owned by Bedford Oak into an equal number of shares of common stock of the Company (the Bedford Underlying Shares). The Company was required to file a registration statement to register the resale of the Bedford Underlying Shares by Bedford Oak, which registration statement was declared effective as of August 13, 2002.

72

On any date prior to October 19, 2003 during which Bedford Oak was not able to resell the Bedford Underlying Shares pursuant to the registration statement, Bedford Oak had the right to require the Company to purchase all, but not less than all, of the Bedford Class B Shares and the Bedford Underlying Shares then held by Bedford Oak for a purchase price as specified in the Stock Purchase Agreement. The put option obligation expired upon the effectiveness of the registration statement on August 13, 2002 covering the Bedford Underlying Shares.

Pursuant to an agreement dated May 3, 2002, the Company agreed to sell to Bedford Oak in a private placement transaction 1,200,000 shares of Common Stock (the Bedford Common Shares) of the Company for an aggregate purchase price of \$4,200,000. Harvey Eisen, the managing member of Bedford Oak Advisors, LLC, the investment manager of Bedford Oak, was elected a director of the Company in July 2002.

Pursuant to an agreement dated May 3, 2002, the Company sold 100,000 shares of Common Stock for \$350,000 to Marshall Geller (the Geller Shares), a director of the Company, in a private placement transaction.

Pursuant to an agreement dated May 3, 2002 (the EGI Agreement), the

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Company sold to Equity Group Investments, L.L.C. (EGI) in a private placement transaction 1,000,000 shares of Common Stock (the EGI Common Shares) for \$3,500,000 and 300,000 shares of Class B Common Stock (the EGI Class B Shares) for \$1,260,000. Mark Radzik, a designee of EGI, was elected a director of the Company in July 2002. Mark Radzik was replaced by Matthew Zell as the designee for EGI in February 2005.

Upon the disposition of any of the EGI Class B Shares (other than to an affiliate of EGI or to a transferee approved by the Board who in each case agrees to be bound by the provisions of the EGI Agreement), EGI was required to convert all of the EGI Class B Shares into an equal number of shares of Common Stock (the EGI Underlying Shares).

On August 13, 2002, a registration statement covering the resale of the Bedford Underlying Shares, the Bedford Common Shares, the EGI Common Shares, the EGI Underlying Shares and the Geller Shares was declared effective by the SEC.

- (C) In June 2001, the Company entered into an agreement with a financial consulting firm to provide certain services for which the Company, in addition to cash payments, agreed to issue warrants to purchase 300,000 shares of the Company's common stock at an exercise price of \$4.60 per share. Pursuant to the spin-off of NPDC the exercise price of the warrants was adjusted to \$3.21 per share. These warrants expire in June 2011.
- (D) On August 8, 2003, the Company issued and sold to four Gabelli funds 937,500 GP Warrants, each entitling the holder thereof to purchase (subject to adjustment) one share of the Company's common stock (see note 10 (a)). The GP Warrants previously had an exercise price of \$8.00 per share and are exercisable at any time until August 2008. Pursuant to the spin-off of NPDC the exercise price of the warrants was adjusted to \$6.14 per share.
- (E) GSE LONG-TERM INCENTIVE PLAN

During 1995, GSE established the 1995 Long-Term Incentive Stock Option Plan (the GSE Plan), which includes all officers, key employees and non-employee members of GSE's

73

Board of Directors. All options to purchase shares of GSE's common stock under the GSE Plan expire seven years from the date of grant and generally become exercisable in three installments with 40% vesting on the first anniversary of the grant date and 30% vesting on each of the second and third anniversaries of the grant date, subject to acceleration under certain circumstances. At December 31, 2004, GSE had 686,844 shares of common stock reserved for future grants under the GSE Plan.

Stock option and warrant activity for GSE is as follows:

OPTIONS AND WARRANTS OUTSTANDING -----	PRICE RANGE PER SHARE -----	NUMBER OF OPTIONS AND WARRANTS -----	WEIGHTED AVERAGE EXERCISE PRICE -----
October 23, 2003	\$1.00 - \$14.750	1,931,376	\$ 3.93

(15) BUSINESS SEGMENTS

Prior to November 24, 2004 the Company had five operating business segments: Manufacturing & Process, Information Technology, Simulation, Optical Plastics and Home Improvement Distribution. On November 24, 2004, the Company completed the spin-off of NPDC, which comprised the Optical Plastics (MXL) and Home Improvement Distribution (Five Star) segments and certain other non-core assets. The Company continues to own and operate its wholly owned subsidiary, General Physics, comprised of its former Manufacturing & Process and Information Technology segments and its majority-owned subsidiary, GSE, formerly called the Simulation segment. The Company reorganized its Manufacturing & Process and Information Technology segments into the General Physics segment because it monitors and operates the General Physics subsidiary as a single business.

General Physics, provides technology based training, engineering, consulting and technical services to leading companies in the automotive, steel, power, oil and gas, chemical, energy, pharmaceutical and food and beverage industries and to the government sector, as well as IT training programs and solutions, including Enterprise Solutions and comprehensive career training and transition programs.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

GSE provides real-time simulation, homeland security and engineering services for the energy, process and military industries.

The management of the Company does not allocate the following items by segment: investment and other income; interest expense; selling, general and administrative expenses; depreciation and amortization expense; income tax expense; significant non-cash items and long-lived assets. Inter-segment sales are eliminated in consolidation and are not significant.

75

The following table sets forth the revenue and operating results attributable to each line of business and includes a reconciliation of segment revenue to consolidated revenue and operating results to consolidated income (loss) before income taxes (in thousands):

	YEARS ENDED DECEMBER 31,		
	2004	2003	2002
Revenue:			
General Physics	\$ 165,066	\$ 133,975	\$ 142,2
GSE	28,907	6,059	
	-----	-----	-----
	\$ 193,973	\$ 140,034	\$ 142,2
	=====	=====	=====
Operating profit:			
General Physics	\$ 8,881	\$ 4,233	\$ 1,5
GSE	(174)	366

- (1) On November 24, 2004, the Company completed the spin-off of MXL and Five Star segments. The Company distributed \$61,546,000 in total assets to NPDC in the spin-off. The additions to property, plant and equipment and depreciation and amortization shown in 2004 for MXL and Five Star segments include the activity for the period from January 1, 2004 through November 24, 2004.

Identifiable assets by industry segment are those assets that are used in the Company's operations in each segment. Corporate and other assets are principally cash and cash equivalents, marketable securities and intangible assets, including goodwill.

Information about the Company's revenue in different geographic regions, which are attributed to countries based on location of customers, is as follows (in thousands):

All corporate intangible assets of the Company, as well as other corporate assets, are assumed to be in the United States.

(16) OTHER RELATED PARTY TRANSACTIONS

For a description of certain transactions pursuant to which the Company received proceeds from the sale of Common Stock and Class B Common Stock to certain related parties (see note 14).

As of December 31, 2004 and 2003, the Company had total loans receivable from Mr. Feldman, the Company's Chief Executive Officer, of approximately \$619,000 and \$2,323,000, respectively. Such loans bear interest at the prime rate and are secured by the purchased Class B Common Stock and certain other assets. All principal on the loans and accrued interest are due on May 31, 2007.

On April 1, 2002, Jerome I. Feldman and the Company entered into an incentive compensation agreement pursuant to which Mr. Feldman is eligible to receive from the Company up to five payments in an amount of \$1,000,000 each, based on the closing price of the Company's Common Stock sustaining or averaging increasing specified levels over periods of at least 10 consecutive trading days. On June 11, 2003, July 23, 2003, December 22, 2003, November 3, 2004 and December 10, 2004, Mr. Feldman earned an incentive payment of \$1,000,000 each, which amounts are payable in January 2006, unless further deferred. To the extent there are any outstanding loans from the Company to Mr. Feldman at the time an incentive payment is payable, the Company has the right to off-set the payment of such incentive payment first against the

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

outstanding accrued interest under such loans and next against any outstanding principal.

The Company recorded compensation expense of \$2,000,000 for the year ended December 31, 2004 and \$3,000,000 for the year ended December 31, 2003, which is included in selling, general and administrative expense. Although the off-set of the payments earned will take place in future periods, for accounting purposes, the off-set will be deemed to have occurred on the dates earned since the Company possesses the right of set-off under the Incentive Agreement. As a result, in 2003 and 2004 the Company applied incentive compensation earned against interest receivable as well as the loan outstanding, which resulted in the outstanding balance of the note receivable being reduced from \$4,095,000 at December 31, 2002 to \$2,322,000 as of December 31, 2003 and to \$619,000 as of December 31, 2004.

78

On July 1, 2002, the Company made a loan to Douglas Sharp, the President of GP in the principal amount of \$150,000 in connection with Mr. Sharp's relocation. The loan bears interest at the prime rate of Wachovia Bank. As of December 31, 2004, the aggregate amount of indebtedness outstanding under the loan was approximately \$65,000.

In December 2003, GSE's Board of Directors elected John Moran, an executive of the Company with experience in the power industry and simulation technology, as its Chief Executive Officer. In 2004, Mr. Moran continued as an employee of the Company, however, Mr. Moran devoted 100% of his time to the performance of his duties as CEO of GSE. For 2003, GSE reimbursed the Company \$35,000 for his compensation and benefits and in 2004 GSE reimbursed the Company \$300,000 for Mr. Moran's compensation and benefits. Effective January 1, 2005, Mr. Moran became an employee of GSE.

In 2004, Michael Feldman received a salary of \$85,000 from GSE as marketing manager and in 2003 received a salary of \$16,000 from GSE. Michael Feldman is the son of Jerome I. Feldman, the Company's Chairman and Chief Executive Officer.

The Company has guaranteed the leases for Five Star's New Jersey and Connecticut warehouses, totaling approximately \$1,589,000 per year through the first quarter of 2007. The Company's guarantee of such leases was in effect when the Five Star business was conducted by a wholly-owned subsidiary of the Company. In 1998, the Company sold substantially all of the operating assets of the Five Star business to the predecessor corporation of Five Star. As part of this transaction, the landlord of the New Jersey and Connecticut facilities and the lessor of the equipment did not consent to the release of the Company's guarantee. The Company has also guaranteed the mortgages for MXL's Illinois and Pennsylvania properties through June 2006 and March 2011, respectively, as well as \$700,000 in debt entered into by MXL on October 1, 2003 in connection with the acquisition of certain assets from AOTec, LLC. The Company's guarantees continued after the spin-off.

Prior to the spin-off, NPDC was a wholly-owned subsidiary of the Company. The Company and NPDC have entered into contracts that will govern certain relationships between them. The Company and NPDC believe that these agreements are at fair market value and are on terms comparable to those that would have been reached in arm's-length negotiations had the parties been unaffiliated at the time of the

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

negotiations.

Certain of NPDC's executive officers are also executive officers of the Company and will remain on the Company's payroll. The executive officers will not receive any salary from NPDC; however, they will provide NPDC with management services under a management agreement between the Company and NPDC. The Company charges NPDC a management fee to cover an allocable portion of the compensation of these officers, based on the time they spend providing services to NPDC, in addition to an allocable portion of certain other corporate expenses.

In connection with the spin-off, NPDC entered into a separate management agreement with the Company pursuant to which NPDC will provide certain general corporate services to the Company. Under this management agreement, NPDC will charge the Company a management fee to cover an allocable portion of the compensation of its employees, based on the time they spend providing services to the Company, in addition to an allocable

79

portion of corporate overhead related to services performed for the Company and its subsidiaries.

Both management fees will be paid quarterly. Any disagreements over the amount of such fees will be subject to arbitration. Each of the management agreements will each have an initial term of three years, and after two years, will be terminable by both the Company and NPDC, upon six months prior written notice.

NPDC was included in the Company's consolidated income tax group and NPDC's tax liability was included in the consolidated federal income tax liability of the Company until the time of the spin-off. The Tax Sharing Agreement provides for tax sharing payments between the Company and NPDC for periods prior to the spin-off, so that NPDC will be generally responsible for the taxes attributable to its lines of business and entities comprising it and the Company will be generally responsible for the taxes attributable to its lines of business and the entities comprising it.

The Company and NPDC agreed that taxes related to intercompany transactions that are triggered by the NPDC spin-off will be generally allocated to the Company. The Company and NPDC agreed that joint non-income tax liabilities will generally be allocated between the Company and NPDC based on the amount of such taxes attributable to each group's line of business. If the line of business with respect to which the liability is appropriately associated cannot be readily determined, the tax liability will be allocated to the Company.

Under the distribution agreement that governed the spin-off of NPDC from the Company, the Company and NPDC each agreed that neither would take any action that might cause the spin-off of NPDC to not qualify as a tax-free distribution under Section 355 of the Code. Should one party take an action which causes the spin-off not to so qualify, then that party would be liable to the other for any taxes incurred by the other from the failure of the spin-off to qualify as a tax-free distribution.

On March 23, 2003, the Company extended its guarantee of up to \$1,800,000 of GSE debt pursuant to GSE's previous credit facility through March 31, 2004 (see note 8). In consideration for the extension of the guarantee, the Company received 150,000 shares of GSE

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

common stock with a value of \$180,000. A deferred credit of \$180,000 was recorded for the receipt of these shares which is being amortized to income over the term of the guarantee. During the year ended December 31, 2003, the Company recorded \$135,000 to other income in the consolidated statement of operation. The guarantee was extended through May 31, 2004. On March 30, 2004, GSE was added as a borrower under the General Physics Credit Agreement (see note 8). The Company agreed to guarantee GSE's allocated portion (\$1,500,000) of the Credit Agreement. General Physics received a waiver to loan GSE a maximum of \$1.0 million to satisfy any GSE short-term capital requirements over the next 15 months.

(17) COMMITMENTS AND CONTINGENCIES

- (A) The Company has various non-cancelable leases for real property and machinery and equipment. Such leases expire at various dates with, in some cases, options to extend their terms.

80

Minimum rentals under long-term operating leases are as follows (in thousands):

	REAL PROPERTY -----	MACHINERY AND EQUIPMENT -----	TOTAL -----
2005	\$ 3,920	\$ 1,044	\$ 4,964
2006	3,261	415	3,676
2007	2,755	190	2,945
2008	1,746	31	1,777
2009	890	2	892
Thereafter	5,313	--	5,313
	-----	-----	-----
Total	\$17,885	\$ 1,682	\$19,567
	=====	=====	=====

Several of the leases contain provisions for rent escalation based primarily on increases in real estate taxes and operating costs incurred by the lessor. Rent expense was approximately \$5,125,000, \$4,200,000 and \$3,961,000 for 2004, 2003 and 2002, respectively.

- (B) The Company has guaranteed the leases for Five Star's New Jersey and Connecticut warehouses, totaling approximately \$1,589,000 per year through the first quarter of 2007. The Company's guarantee of such leases was in effect when Five Star was originally a wholly owned subsidiary of the Company prior to the sale by the Company in 1998 of substantially all of the operating assets of Five Star to the predecessor company of Five Star. As part of this transaction, the landlord of the New Jersey and Connecticut facilities did not consent to the release of the Company's guarantee. The Company's guarantee of Five Star's leases was not affected by the spin-off of NPDC.

(18) LITIGATION

On January 3, 2001, the Company commenced an action alleging that MCI Communications Corporation, ("MCI") MCI's Systemhouse subsidiaries ("Systemhouse"), and Electronic Data Systems Corporation, as successor

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

to Systemhouse, ("EDS") committed fraud in connection with the Company's 1998 acquisition of Learning Technologies from the defendants for \$24,300,000. The Company seeks actual damages in the amount of \$117,900,000 plus interest, punitive damages in an amount to be determined at trial, and costs. Such damages are subject to reduction by the amount recovered in the arbitration.

The complaint, which is pending in the New York State Supreme Court, alleges that the defendants fraudulently induced the Company to acquire Learning Technologies by concealing the poor performance of Learning Technologies' United Kingdom operation. The complaint also alleges that the defendants represented that Learning Technologies would continue to receive new business from Systemhouse even though the defendants knew that the sale of Systemhouse to EDS was imminent and that such new business would cease after such sale. In February 2001, the defendants filed answers denying liability. No counterclaims against the plaintiffs have been asserted. Although discovery had not yet been completed, defendants made a motion for summary judgment, which was submitted in April 2002. The motion was denied by the court due to the MCI bankruptcy, but with leave to the other defendants to renew, as described below.

The defendants other than MCI then made an application to the court to stay the fraud action until a later-commenced arbitration, alleging breach of the acquisition agreement and of a

81

separate agreement to refer business to General Physics on a preferred provider basis and seeking actual damages in the amount of \$17,600,000 plus interest, is concluded. In a decision dated May 9, 2003, the court granted the motion and stayed the fraud action pending the outcome of the arbitration.

The arbitration hearings began on May 17, 2004 and concluded on May 24, 2004 before JAMS, a private dispute resolution firm. On September 10, 2004, the arbitrator issued an interim award in which she found that the sellers of Learning Technologies breached certain representations and warranties contained in the acquisition agreement. In a final award dated November 29, 2004, the arbitrator awarded the Company \$12,273,575 in damages and \$6,016,109 in interest. On December 30, 2004, EDS made a payment of \$18,427,684, which included \$138,000 of accrued interest, to the Company to satisfy its obligation under the arbitration award. The Company recognized a gain on arbitration settlement, net of legal fees and expenses of \$13,660,000 in 2004, and the cash was held in escrow as of December 31, 2004. EDS subsequently agreed that the arbitration award is final and binding and that it will take no steps of any kind to vacate or otherwise challenge the award. As a result of the conclusion of the arbitration, the state court has lifted the stay of the fraud claim against EDS. The Company is now proceeding with the fraud claim against EDS. On February 14, 2005, EDS filed a new motion for summary judgment dismissing the Company's fraud claim. The Company must respond to the motion by March 17, 2005. The motion is currently scheduled for argument on April 4, 2005.

The fraud action against MCI had been stayed as a result of the bankruptcy of MCI. In February 2004, the Bankruptcy Court lifted the stay so that the state court could rule on the merits of MCI's summary judgment motion. MCI has stated that it intends to ask the Bankruptcy Court to reinstate the stay.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

In connection with the spin-off of NPDC by the Company, the Company agreed to make an additional capital contribution to NPDC in an amount equal to the first \$5,000,000 of any proceeds (net of litigation expenses and taxes incurred, if any), and 50% of any proceeds (net of litigation expenses and taxes incurred, if any) in excess of \$15,000,000, received with respect to the foregoing arbitration and litigation claims.

Pursuant to such agreement, in January 2005, the Company has made a \$5,000,000 distribution to NPDC out of the proceeds of the arbitration award. The net cash proceeds to the Company was approximately \$8,500,000 after legal fees and distribution to NPDC. A portion of such net proceeds was used to reduce to zero the outstanding balance of General Physics' revolving credit facility, which as of December 31, 2004 was \$6.1 million. The Company is not a party to any legal proceeding, the outcome of which is believed by management to have a reasonable likelihood of having a material adverse effect upon the financial condition and operating results of the Company.

82

(19) QUARTERLY INFORMATION (UNAUDITED)

The Company's quarterly financial information has not been audited but, in management's opinion, includes all adjustments necessary for a fair presentation.

ITEM 9A: CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed by it in its reports filed or submitted pursuant to the Securities Exchange Act of 1934, as amended (Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that information required to be disclosed by the Company in its Exchange Act reports is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including the Company's Chief Executive Officer and Chief Financial Officer, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e) as of December 31, 2004. Based upon that evaluation and the material weaknesses described below, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were not effective as of such date.

(b) Management's Annual Report on Internal Control Over Financial Reporting

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's internal control over financial reporting as of December 31, 2004, based on the framework in "Internal Control - Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO").

In conducting the aforementioned evaluation and assessment, management identified the following material weaknesses in internal control over financial reporting as of December 31, 2004:

The Company's policies and procedures did not provide for adequate management oversight and review of the Company's income tax accounting. This lack of adequate management

85

oversight and review of the Company's income tax accounting resulted in material errors in the Company's income tax provision, which were identified and corrected prior to the issuance of the accompanying 2004 consolidated financial statements. This deficiency represents more than a remote likelihood that a material misstatement of the Company's annual or interim financial statements would not have been prevented or detected.

The Company's policies and procedures did not provide for adequate management oversight and review of the Company's consolidated financial statements and footnote disclosures. In addition, the Company did not have adequate technical resources to ensure the timely completion and review of its consolidated financial statements and footnote disclosures. These deficiencies resulted in material errors in the consolidated financial statements, primarily the number of weighted average common shares outstanding used in the earnings per share calculation, the presentation of cash flows from operating and financing activities, and certain financial statement footnote disclosures related to income taxes and stock-based compensation, which were identified and corrected prior to the issuance of the accompanying 2004 consolidated financial statements. These deficiencies represent more than a remote likelihood that a material misstatement of the Company's annual or interim financial statements would not have been prevented or detected.

Based on the material weaknesses described above, management concluded that the Company's internal control over financial reporting was not effective as of December 31, 2004. This assessment is based on management's conclusion that as of December 31, 2004, there was more than a remote likelihood that a material misstatement of the Company's annual or interim financial statements would not be prevented or detected on a timely basis by Company employees in the normal course of performing their assigned functions.

Management's assessment of the effectiveness of its internal control over financial reporting as of December 31, 2004 has been audited by KPMG LLP, an independent registered public accounting firm, whose report appears below.

(c) Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting during the fourth quarter of 2004 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

Regarding the material weaknesses described in Management's Annual Report on Internal Control Over Financial Reporting above, the Company has, subsequent to December 31, 2004, revised its processes and procedures to prepare the consolidated income tax provision and the consolidated financial statements and footnote disclosures, and implemented additional management review controls over the related processes. The Company expects to hire additional technical resources to dedicate to the Company's financial reporting requirements.

(d) Limitations of Effectiveness of Controls

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. The design of any control system is based, in part, upon the benefits of the control system relative to its costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These

86

inherent limitations include the realities that judgments in decision-making can be faulty, and that controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of control. In addition, over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Also, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these inherent limitations, misstatements due to error or fraud may occur and not be detected. The Company's controls and procedures are designed to provide a reasonable level of assurance of achieving their objectives.

(e) Report of the Independent Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
GP Strategies Corporation:

We have audited management's assessment, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting (Item 9A(b)), that GP Strategies Corporation did not maintain effective internal control over financial reporting as of December 31, 2004, because of the effect of the material weaknesses identified in management's assessment related to inadequate management oversight and review of the Company's income tax accounting and preparation of its consolidated financial statements and footnote disclosures, based on criteria established in Internal Control -- Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). GP Strategies Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

87

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The following material weaknesses have been identified and included in management's assessment as of December 31, 2004:

The Company's policies and procedures did not provide for adequate management oversight and review of the Company's income tax accounting. This lack of adequate management oversight and review of the Company's income tax accounting resulted in material errors in the Company's income tax provision.

The Company's policies and procedures did not provide for adequate management oversight and review of the Company's consolidated financial statements and footnote disclosures. In addition, the Company did not have adequate technical resources to ensure the timely completion and review of its consolidated financial statements and footnote disclosures. These deficiencies resulted in material errors in the consolidated financial statements, primarily the number of weighted average common shares outstanding used in the earnings per share calculation, the presentation of cash flows from operating and financing activities, and certain financial statement footnote disclosures related to income taxes and stock-based compensation.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of GP Strategies Corporation and subsidiaries as of December 31, 2004 and 2003, and the related consolidated statements of operations, stockholders' equity and comprehensive income (loss), and cash flows for each of the years in the three-year period ended December 31, 2004. The aforementioned material weaknesses were considered in determining the nature, timing, and extent of audit tests applied in our audit of the 2004 consolidated financial statements, and this report does not affect our report dated March 16, 2005, which expressed an unqualified opinion on those consolidated financial statements.

Edgar Filing: GP STRATEGIES CORP - Form 10-K/A

In our opinion, management's assessment that GP Strategies Corporation did not maintain effective internal control over financial reporting as of December 31, 2004, is fairly stated, in all material respects, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Also, in our opinion, because of the effect of the material weaknesses described above on the achievement of the objectives of the control criteria, GP Strategies Corporation has not maintained effective internal control over financial reporting as of December 31, 2004, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).
