Diluted GAAP EPS is expected to be approximately \$1.37-\$1.44

ST. LOUIS, MO - NOVEMBER 9, 2005 - Amdocs Limited (NYSE: DOX) today reported that for the fourth quarter ended September 30, 2005, revenue was \$573.3 million, representing sequential growth of 13.0% and an increase of 26.7% from last year's fourth quarter. Excluding acquisition-related costs, which includes amortization of purchased intangible assets, in-process research and development write-off and other acquisition related costs, and excluding restructuring charges, net of related tax effects, of \$16.1 million, net income was \$83.9 million, or \$0.39 per diluted share, compared to net income, excluding \$3.5 million of acquisition-related costs net of related tax effects, of \$65.1

million, or \$0.30 per diluted share, in the fourth quarter of fiscal 2004. The Company's net income was \$67.8 million, or \$0.32 per diluted share, compared to net income of \$61.6 million, or \$0.29 per diluted share, in the fourth quarter of fiscal 2004. Free cash flow, defined as cash flow from operations less net capital expenditures and principal payments on capital leases, was \$104.7 million in the quarter.

"This was a very good quarter for Amdocs, as we achieved excellent financial results and strengthened our strategic position," said Dov Baharav, Chief Executive Officer of Amdocs Management Limited. "This quarter was marked by industry developments that underscore the need for service providers to move toward integrated customer management (ICM) and a demand for solutions to help accomplish this. These developments are accelerating -- as we anticipated -- and include continued consolidation to fewer, larger players. We are also seeing service providers move aggressively to build an IP environment in order to launch new content and IP services, such as "quadruple play" bundles of wireline and wireless voice, video and data. In addition, the telecommunications, broadband cable and satellite industries are rapidly converging."

"We are the leading provider of systems to the telecom market, and through our acquisition of DST Innovis to broadband cable and satellite companies as well, just as these companies begin to transform themselves. Amdocs' strengths include our ability to handle complex projects and to support leading service providers with large customer bases and high-volume transactions, combined with products and services that are designed to enable ICM. This positions Amdocs to benefit from the market transformation and to enjoy growth in 2006 and beyond," Baharav continued.

The sales activity during the fourth quarter included expanding the relationship with a major European wireline carrier to provide significant additional services over the next several years, as this carrier moves to ICM. The Company is in the initial stages of installing a converged pre-paid and post-paid billing system for an existing wireless customer in the Americas. Amdocs also won a major project to provide software and services to enable a leading wireless carrier to manage its customer base on a nationwide basis.

In July, Amdocs completed the acquisition of all of the common stock of DST Innovis, Inc. and DST Interactive, Inc. (collectively, DST Innovis), wholly-owned subsidiaries of DST Systems, Inc., for approximately \$238 million in cash. The acquisition propelled Amdocs into a leadership position in the broadband cable and satellite industry. As a result, some of the largest companies in this industry, including DIRECTV, Comcast and Cablevision, are now Amdocs customers, with about 37 million subscribers worldwide.

Amdocs also solidified its entry into the fast-growing China market. The Company completed the acquisition of Longshine Information Technology Company Ltd., a privately-held, leading vendor of customer care and billing software in China, for approximately \$30 million in cash with the possibility of additional cash consideration to be paid later based on the achievement of certain performance metrics. Longshine counts three of China's four largest communications service providers among its customers and is present in more than 15 provinces across China.

During the fourth quarter, Amdocs recorded charges totaling \$4.5 million for the write-off of in-process R&D and other acquisition-related costs. In conjunction with these acquisitions, Amdocs implemented a series of measures designed to align its operational structure to its growth, which resulted in a restructuring charge of \$8.1 million in the fourth quarter, primarily related to severance costs.

The Company also noted that for the fiscal year ended September 30, 2005, revenue increased by 14.9% to \$2.039 billion. Excluding acquisition-related

Edgar Filing: AMDOCS LTD - Form 6-K

costs and restructuring charges, net of tax effects, of \$22.4 million in fiscal 2005 and acquisition-related costs, net of related tax effects, of \$14.0 million in fiscal 2004, net income for fiscal 2005 increased by 25.0% to \$311.0 million, while diluted earnings per share increased by 27.2% to \$1.45. The Company's results for fiscal 2005 showed GAAP net income of \$288.6 million, or \$1.35 per diluted share, compared to GAAP net income of \$234.9 million, or \$1.08 per diluted share, in fiscal 2004.

FINANCIAL OUTLOOK

Amdocs expects that revenue for the first quarter of fiscal 2006 ending December 31, 2005, will be approximately \$585 million. Diluted earnings per share for the quarter are expected to be \$0.40, excluding acquisition-related costs, net of related tax effects, and the impact of approximately \$0.04-\$0.05 per share of employee equity-based compensation expenses. Diluted GAAP EPS is expected to be approximately \$0.33-\$0.34.

Fiscal 2006 guidance: Expected revenue of approximately \$2.40-\$2.47 billion and diluted EPS of \$1.65-\$1.70, excluding acquisition-related costs, net of related tax effects, and approximately \$0.16-\$0.20 per share of employee equity-based compensation expense. Diluted GAAP EPS is expected to be approximately \$1.37-\$1.44.

Amdocs will host a conference call on November 9, 2005 at 5 p.m. Eastern Time to discuss the Company's fourth quarter results. The call will be carried live on the Internet via www.vcall.com and the Amdocs website, www.amdocs.com.
