Table of Contents

MARKETAXESS HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Unaudited
(in thousands, except share and per share amounts)

1. Organization and Principal Business Activity

MarketAxess Holdings Inc. (the Company) was incorporated in the State of Delaware on April 11, 2000. Through its subsidiaries, the Company operates an electronic, multi-dealer platform for the trading of corporate bonds and certain other types of fixed-income securities. The Company offers its clients the ability to trade U.S. high-grade corporate bonds, European high-grade corporate bonds, emerging markets bonds, including both investment-grade and non-investment grade debt, as well as crossover and high-yield bonds, agency bonds, new issues and credit default swap indices. The Company's broker-dealer clients are: ABN Amro, Banc of America Securities, Barclays, Bear Stearns, BNP Paribas, Citigroup, Credit Suisse, Deutsche Bank, Dresdner Bank AG, DZ Bank AG, First Tennessee National, Goldman Sachs, HSBC, ING Financial Markets, JPMorgan, Jefferies & Company, Lehman Brothers, Merrill Lynch, Morgan Stanley, Royal Bank of Canada, The Royal Bank of Scotland, Santander Investment Securities, Société Générale, UBS and Wachovia.

The Company's stockholder broker-dealer clients as of January 1, 2006 included ABN Amro, Banc of America Securities, Bear Stearns, BNP Paribas, Credit Suisse, Deutsche Bank, JPMorgan, Lehman Brothers and UBS. All of these broker-dealer clients constitute related parties of the Company (together, the Stockholder Broker-Dealer Clients). Moneyline Telerate (Moneyline), which provided certain software development services to the Company and had a revenue-sharing agreement with the Company, is considered a related party for the fiscal year 2005. In February 2005, the Company ceased using the technology platform that was covered under the Moneyline revenue-sharing agreement.

The Company's U.S. subsidiary, MarketAxess Corporation, is a registered broker-dealer with the U.S. Securities and Exchange Commission (SEC) and is a member of the National Association of Securities Dealers, Inc. (NASD). The Company also has three international subsidiaries: MarketAxess Europe Limited (MarketAxess Europe), which is registered as an Alternative Trading System dealer with the Financial Services Authority (FSA) in the United Kingdom (U.K.); MarketAxess Leasing Limited (collectively with MarketAxess Europe, the U.K. Subsidiaries); and MarketAxess Canada Limited, a Canadian subsidiary that the Company incorporated in May 2003. MarketAxess Canada Limited has applied for registration as an Alternative Trading System dealer under the Securities Act of Ontario and is in the process of seeking approval for membership with the Investment Dealers Association of Canada.

2. Significant Accounting Policies***Basis of Presentation***

The consolidated financial statements include the accounts of the Company and its subsidiaries, MarketAxess Corporation, MarketAxess Europe, MarketAxess Leasing Limited and MarketAxess Canada Limited. All intercompany transactions and balances have been eliminated.

The accompanying unaudited interim consolidated financial statements as of June 30, 2006 and for the three and six months ended June 30, 2006 and 2005 and notes thereto are prepared in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, they reflect all adjustments necessary for a fair statement of the Company's financial position, results of operations and cash flows. Interim results are not necessarily indicative of results expected for the full year or for any future period.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the instructions to Form 10-Q and Article 10 of Regulation S-X of the federal securities laws; however, in the opinion of management, the accompanying Consolidated Financial Statements include all adjustments, consisting only of normal recurring adjustments, necessary and present fairly the financial position of MarketAxess Holdings Inc., the results of its operations and its cash flows for the periods indicated. This report should be read in conjunction with our Consolidated Financial Statements and footnotes therein included in our annual report on Form 10-K for the year ended December 31, 2005.

Cash and Cash Equivalents

Cash and cash equivalents include cash maintained at U.S. and U.K banks and in money market funds. The Company defines cash equivalents as short-term interest-bearing investments with maturities at the time of purchase of three months or less.

Table of Contents

MARKETAXESS HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Unaudited (Continued)
(in thousands, except share and per share amounts)

Securities Available-for-Sale

The Company has classified certain of its marketable securities as available-for-sale securities. Unrealized marketable securities gains and losses are reflected as a net amount in Accumulated other comprehensive loss on the Consolidated Statements of Financial Condition. Realized gains and losses are recorded on the Consolidated Statements of Operations in Other income or expense. For the purpose of computing realized gains and losses, cost is on a specific identification basis.

The Company assesses whether an other-than-temporary impairment loss on securities has occurred due to declines in fair value or other market conditions. Declines in fair value that are considered other than temporary are recorded as charges in the Consolidated Statements of Operations.

Depreciation and Amortization

Fixed assets are carried at cost less accumulated depreciation. The Company uses the straight-line method of depreciation over three years.

Leasehold improvements are stated at cost and are amortized using the straight-line method over the lesser of the life of the improvement or the remaining term of the lease.

Software Development Costs

In accordance with Statement of Position (SOP) No. 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use, the Company capitalizes certain costs associated with the development of internal use software at the point at which the conceptual formulation, design and testing of possible software project alternatives have been completed. The Company capitalizes employee compensation and related benefits incurred during the preliminary software project stage. Once the product is ready for its intended use, such costs are amortized on a straight-line basis over three years. The Company reviews the amounts capitalized for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable.

Stock-Based Compensation for Employees

Prior to January 1, 2006, the Company accounted for stock-based employee compensation plans in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25), as permitted by Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation (SFAS 123). In accordance with APB No. 25, the Company accounted for stock-based awards to employees and directors using the intrinsic value method. Therefore, no stock-based employee compensation cost was recognized in the Consolidated Statements of Operations.

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123 (revised 2004), Share-Based Payment (SFAS 123R), which is a revision of SFAS 123.

Effective January 1, 2006, the Company adopted SFAS 123R, which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees based on estimated fair values. In accordance with SFAS 123R, non-employee members of the Board of Directors are treated as employees. SFAS 123R, supersedes the Company's previous accounting under APB 25 for periods beginning in fiscal 2006. In March 2005, the U.S. Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 (SAB 107) relating to SFAS 123R. The Company has applied the provisions of SAB 107 in its adoption of SFAS 123R.

The Company adopted SFAS 123R using the modified prospective transition method, which requires the application of the accounting standard as of January 1, 2006. The Company's Consolidated Financial Statements as of and for the three and six months ended June 30, 2006 reflect the impact of SFAS 123R. In accordance with the modified prospective transition method, the Company's Consolidated Financial Statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS 123R. Stock-based compensation expense recognized under SFAS 123R for the three and six months ended June 30, 2006 was \$786 and \$1,525, respectively, which consisted of stock-based compensation expense related to employee stock options.

Table of Contents

MARKETAXESS HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Unaudited (Continued)
(in thousands, except share and per share amounts)

SFAS 123R requires companies to estimate the fair value of share-based payment awards on the date of grant using an option-pricing model. Stock-based compensation expense recognized in the Company's Consolidated Statements of Operations for the three and six months ended June 30, 2006 included compensation expense for share-based payment awards granted prior to, but not yet vested as of, December 31, 2005 based on the grant date fair value estimated in accordance with the pro forma provisions of SFAS 123 and compensation expense for the share-based payment awards granted subsequent to December 31, 2005 based on the grant date fair value estimated in accordance with the provisions of SFAS 123R. As stock-based compensation expense recognized in the Consolidated Statements of Operations for the three and six months ended June 30, 2006 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. In the Company's pro forma information required under SFAS 123 for the periods prior to fiscal 2006, the Company accounted for forfeitures as they occurred.

On November 10, 2005, the FASB issued FASB Staff Position No. FAS 123R-3, Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards. The alternative transition method includes simplified methods to establish the beginning balance of the additional paid-in capital pool (APIC pool) related to the tax effects of employee stock-based compensation, and to determine the subsequent impact on the APIC pool and Consolidated Statements of Cash Flows of the tax effects of employee stock-based compensation awards that are outstanding upon the adoption of SFAS 123R. The Company has used the long-method calculation, pursuant to SFAS 123R, to determine its APIC pool as of December 31, 2005. As of June 30, 2006, the Company has calculated the APIC pool to be \$0.6 million.

Prior to the adoption of SFAS 123R, the Company presented all tax benefits of deductions resulting from the exercise of stock options as operating cash flows in the Consolidated Statements of Cash Flows. SFAS 123R requires the cash flows resulting from the tax benefits resulting from tax deductions in excess of the compensation cost recognized for those options (excess tax benefits) to be classified as financing cash flows. The excess tax benefit for the three and six months ended June 30, 2006 of \$614 and \$566, respectively, classified as a financing cash flow, would have been classified as an operating cash flow if the Company had not adopted SFAS 123R.

Had compensation expense for the Company's plans been determined based on the fair value at the grant dates for awards to employees under the plans, consistent with SFAS No. 123R, the Company's Net income for the three and six months ended June 30, 2005 would have been decreased to the pro forma amounts indicated below:

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005
Net income		
As reported	\$ 1,824	\$ 4,881
Compensation expense, after related tax effects	(211)	(466)
Pro forma	\$ 1,613	\$ 4,415
Basic net income per common share	\$ 0.07	\$ 0.18
Diluted net income per common share	\$ 0.05	\$ 0.14
Basic net income per common share pro forma	\$ 0.06	\$ 0.16
Diluted net income per common share pro forma	\$ 0.05	\$ 0.12

In calculating the fair market value of the options granted, the following assumptions were used:

	Three Months Ended	Six Months Ended
	June 30, 2005	June 30, 2005
Weighted-Average Grant Date Fair Market Value of Common Stock	\$ 14.37	\$ 14.06
Dividend Yield	0.00%	0.00%
Weighted-Average Expected Life (years)	3.00	3.00
Weighted-Average Risk-Free Interest Rate	3.70%	3.69%
Weighted-Average Expected Volatility	22.27%	19.97%

Table of Contents

MARKETAXESS HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Unaudited (Continued)
(in thousands, except share and per share amounts)

Revenue Recognition

The majority of our revenues are derived from commissions for trades executed on our platform that are billed to our broker-dealer clients on a monthly basis. We also derive revenues from information and user access fees, license fees and other income.

Commissions are generally calculated as a percentage of notional dollar volume of bonds traded on the platform and vary based on the type and maturity of the bond traded. Under our transaction fee plans, bonds that are more actively traded or that have shorter maturities are generally charged lower commissions, while bonds that are less actively traded or that have longer maturities generally command higher commissions.

Income Taxes

Income taxes are accounted for using the asset and liability method in accordance with SFAS No. 109, *Accounting for Income Taxes* (SFAS No. 109). Deferred income taxes reflect the net tax effects of temporary differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when such differences are expected to reverse. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recognized against deferred tax assets if it is more likely than not that such assets will not be realized in future years.

Earnings Per Share

SFAS No. 128, *Earnings Per Share*, requires the presentation of basic and diluted earnings per share (EPS) in the Consolidated Statements of Operations. Basic EPS is computed by dividing the net income attributable to common stock by the weighted-average number of shares of common stock outstanding for the period. Diluted EPS is computed using the same method as basic EPS, but in the denominator, shares of common stock outstanding reflect the potential dilution that could occur if convertible securities or other contracts to issue common stock were converted into or exercised for common stock.

Recent Accounting Pronouncements

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments* (SFAS 155). SFAS 155 is an amendment of SFAS No. 133 and SFAS No. 140. SFAS No. 155 permits companies to elect, on a deal-by-deal basis, to apply a fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not expect SFAS No. 155 to have a material impact on its Consolidated Financial Statements.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets* (SFAS 156). SFAS 156 amends SFAS No. 140. SFAS No. 156 requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value. For subsequent measurements, SFAS No. 156 permits companies to choose between an amortization method or a fair value measurement method for reporting purposes. SFAS No. 156 is effective as of the beginning of a company's first fiscal year that begins after September 15, 2006. The Company does not expect SFAS No. 156 to have a material impact on its Consolidated Financial Statements.

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 applies to all tax positions accounted for under FASB 109. A tax position includes current or future reductions in taxable income reported or expected to be reported on a tax return. FIN 48 supplements FASB 109 by defining the confidence level that a tax position must meet in order to be recognized in the financial statements. The Interpretation requires that the tax effects of a position be recognized only if it is more-likely-than-not (greater than 50% likelihood) to be sustained based solely on its technical merits as of the reporting date. In making this assessment, a company must assume that the taxing authorities will examine the position. The Company currently uses a more stringent probable threshold for recognizing uncertain tax positions. FIN 48 is effective as of the beginning of the first fiscal year beginning after December 15, 2006. At adoption, companies must adjust their financial statements to reflect only those tax positions that are more-likely-than-not to be sustained as of the adoption date. The necessary adjustments, if any, should be recorded directly to the beginning balance of

retained earnings in the period of adoption and reported as a change in accounting principle. The Company is currently evaluating the expected effect of the adoption of FIN 48 on its consolidated financial statements and is not yet in a position to determine such effects.

Reclassifications

Certain reclassifications have been made to the prior periods' financial statements in order to conform to the current period's presentation. Such reclassifications had no effect on previously reported Net income.

Table of Contents

MARKETAXESS HOLDINGS INC.

(in thousands, except share and per share amounts)

3. Change in Capitalization Policy

In January 2006, the Company changed its capitalization policy for furniture, equipment and leasehold improvements, lowering the threshold for capitalizing such purchases from \$10 to \$2. The change was made to ensure consistency between the financial accounting and tax treatment for depreciation of furniture, equipment and leasehold improvements. For the three and six months ended June 30, 2006, the Company capitalized \$77 and \$160, respectively that would have been expensed under the old capitalization policy.

4. Net Capital Requirements and Customer Protection Requirements

The Company's U.S. subsidiary, MarketAxess Corporation, maintains a registration as a U.S. securities broker-dealer. Pursuant to the Uniform Net Capital Rule under the Securities Exchange Act of 1934, MarketAxess Corporation is required to maintain minimum net capital, as defined, equal to the greater of \$5 or 6 2/3% of aggregate indebtedness. A summary of MarketAxess Corporation's capital requirements is as follows:

	June 30, 2006	As of December 31, 2005
Net capital	\$ 10,012	\$ 14,820
Required net capital	(575)	(1,105)
Excess amount over required net capital	\$ 9,437	\$ 13,715
Ratio of aggregate indebtedness to net capital	1.86 to 1	1.12 to 1

MarketAxess Corporation claims exemption from SEC Rule 15c3-3, as it does not hold customer securities or funds on account, as defined.

MarketAxess Europe is subject to certain financial resource requirements of the FSA. A summary of these financial resource requirements is as follows:

	June 30, 2006	As of December 31, 2005
Financial resources	\$ 13,903	\$ 10,907
Resource requirement	(3,836)	(3,290)
Excess financial resources	\$ 10,067	\$ 7,617

MarketAxess Corporation and MarketAxess Europe Limited are subject to U.S. and U.K. regulations as broker-dealers which prohibit repayment of borrowings from the Company or affiliates, paying cash dividends, making loans to the Company or affiliates or otherwise entering into transactions that result in a significant reduction in regulatory net capital or financial resources, respectively, without prior notification to or approval from such broker-dealer's principal regulator.

5. Securities

In January 2005, the Company entered into investment advisory agreements with two of its stockholder broker-dealer clients. See Related Parties in Footnote 9.

The following is a summary of the Company's Securities available-for-sale as of June 30, 2006 and December 31, 2005:

		As of June 30, 2006		
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
Securities-available-for-sale				
Federal agency issues and municipal securities	\$ 61,402	\$	\$ (12)	\$ 61,390
Corporate Bonds	3,506			3,506
Total Securities-available-for-sale	\$ 64,908	\$	\$ (12)	\$ 64,896

		As of December 31, 2005		
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
Securities-available-for-sale				
Federal agency issues and municipal securities	\$ 50,122	\$	\$ (119)	\$ 50,003
Corporate Bonds	10,000		(47)	9,953
Total Securities-available-for-sale	\$ 60,122	\$	\$ (166)	\$ 59,956

6. Furniture, Equipment and Leasehold Improvements

Furniture, equipment and leasehold improvements, net, are comprised of the following:

	As of	
	June 30, 2006	December 31, 2005
Computer software and related equipment	\$ 14,508	\$ 12,099
Office hardware	3,108	2,990

7. Software Development Costs

Software development costs, net, are comprised of the following:

	June 30, 2006	As of December 31, 2005
Software development costs	\$ 12,015	\$ 9,848
Accumulated amortization	(5,392)	(3,649)
Total software development costs, net	\$ 6,623	\$ 6,199

The Company accounts for software development costs under the provisions of SOP No. 98-1. During the three and six months ended June 30, 2006, software development costs totaling \$817 and \$2,167, respectively, were capitalized. Non-capitalized software costs and routine maintenance costs are expensed as incurred and are included in Employee compensation and benefits, Technology and communications and Professional and consulting fees in the Consolidated Statements of Operations.

8. Income Taxes

The Company's provision for income taxes, included in the Consolidated Statements of Operations as determined in accordance with SFAS No. 109, is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Current:				
Federal	\$ 221	\$	\$ 234	\$
State and local	34	(3)	40	117
Foreign	231	23	205	58
Current provision for income taxes	486	20	479	175
Deferred:				
Federal	14	655	126	1,922
State and local	86	224	157	628
Foreign		92	137	582
Deferred provision for income taxes	100	971	420	3,132
Provision for income taxes	\$ 586	\$ 991	\$ 899	\$ 3,307

The following is a summary of the Company's gross deferred tax asset, reduced to a net deferred tax asset by a valuation allowance:

As of

	June 30, 2006	December 31, 2005
Deferred tax assets	\$ 57,580	\$ 57,949
Valuation allowance	(15,218)	(15,218)
Net deferred tax assets	42,362	42,731
Deferred tax liabilities	(2,766)	(2,927)
Deferred tax assets, net	\$ 39,596	\$ 39,804

9. Related Parties

As of and for the periods then ended, the Company had the following balances and transactions with the Stockholder Broker-Dealer Clients or their affiliates:

	As of	
	June 30, 2006	December 31, 2005
Cash, cash equivalents and securities	\$24,819	\$ 46,739
Securities and cash provided as collateral	3,299	3,299
Securities available-for-sale	64,896	59,956
Accounts receivable	7,980	6,751
Accounts payable, accrued expenses and other liabilities	39	88

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Commissions	\$ 8,642	\$ 9,617	\$ 17,499	\$ 20,308
Information and user access fees	338	227	608	439
Investment income	279	180	453	381
Other income	130	170	264	272
General and administrative	17	13	32	21

Securities provided as collateral totaled \$3,799 as of June 30, 2006 and December 31, 2005, respectively. Of this amount, \$3,299 was U.S. government obligations on deposit with a related party in its role as a custodian. The remaining \$500 is provided as collateral with a third party clearing broker for each respective period.

Two Stockholder Broker-Dealer Clients acted in an investment advisory and custodial capacity for the Company. As of June 30, 2006, the securities under management by these parties had a market value of \$81,028 and are included in the Consolidated Statements of Financial Condition as \$16,132 in Cash and cash equivalents and \$64,896 in Available-for-sale securities. For the three months ended June 30, 2006 and 2005, investment advisory fees and bank fees paid to these Stockholder Broker-Dealer Clients were \$17 and \$13, respectively, and for the six months ended June 30, 2006 and 2005 were \$32 and \$21, respectively, and are included in General and administrative expenses in the Consolidated Statements of Operations.

10. Stock-Based Compensation Plans

During the three and six months ended June 30, 2006, the Company recorded stock-based compensation expense related to employee stock options of \$911 and \$1,852, respectively, which includes \$786 and \$1,525, respectively, related to the adoption of SFAS 123R. Prior to 2006, as permitted by SFAS 123, the Company accounted for stock-based payments to employees using the APB 25 intrinsic value method. During the three and six months ended June 30, 2005, the Company recorded stock-based compensation related to employee stock options of \$360 and \$760, respectively, pursuant to APB 25.

As a result of adopting SFAS 123R on January 1, 2006, the Company's Income before income taxes for the three and six months ended June 30, 2006 was \$786 and \$1,525 less, respectively, and the Company's Net income for the three and six months ended June 30, 2006 was \$442 and \$862 less, respectively, than if it had continued to account for stock-based compensation under APB 25. Basic EPS for the three and six months ended June 30, 2006 would have been \$0.04 and \$0.09, respectively, if the Company had not adopted SFAS 123R, compared to reported basic EPS for these periods of \$0.03 and \$0.06, respectively. Diluted EPS for the three and six months ended June 30, 2006 would have been \$0.04 and \$0.08, respectively, if the Company had not adopted SFAS 123R, compared to reported diluted EPS for the same periods of \$0.02 and \$0.05, respectively.

During the three months ended June 30, 2006 and 2005, the Company recorded compensation expense for employee restricted stock grants of \$296 and \$144, respectively, and for the six months ended June 30, 2006 and 2005 of \$1,133 and \$306, respectively.

Stock Options

The Company's 2000 and 2001 Stock Incentive Plans (the 2000 and 2001 Plans) provide for the grant of options or restricted stock as incentives and rewards to encourage employees, consultants and non-employee directors to participate in the long-term success of the Company. The 2000 and 2001 Plans provide for the granting of up to 5,082,274 shares of the Company's common stock at fair value or at a value other than fair value (determined by the Board of Directors or a committee thereof) on the date the option is granted. Generally the options vest over a three-year period, at a rate of one-third after one year from the grant date and with the remaining two-thirds vesting on an equal monthly basis over the remaining two-year period. Options expire ten years from the date of grant.

Table of Contents

MARKETAXESS HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Unaudited (Continued)
(in thousands, except share and per share amounts)

In 2004, the Company adopted the 2004 Stock Incentive Plan (the 2004 Plan) to enable it to offer equity-based awards in the Company to certain of the Company's key employees, consultants and non-employee directors. The terms of the 2004 Plan are substantially the same as those in the 2000 and 2001 Plans, except as follows: the maximum aggregate number of shares available for grant is different; the Compensation Committee (the Committee) has flexibility to grant stock appreciation rights, performance shares, performance units or other stock-based awards (in addition to stock options and restricted stock); and rights of first refusal and repurchase rights do not apply to awards granted under the 2004 Plan. A committee appointed by the Board of Directors, which will consist of at least two non-employee directors, has administered the 2004 Plan. With respect to the application of the 2004 Plan to non-employee directors, the entire Board of Directors will act as the committee. The 2004 Plan permits the Company to grant stock options (incentive stock options and non-qualified stock options), stock appreciation rights, restricted stock, performance shares, performance units and other stock-based awards (including, without limitation, restricted stock units) to certain key employees, consultants and non-employee directors (to the extent permitted by law), as determined by the Committee in its sole discretion. Through April 27, 2006 up to 2,400,000 shares of the Company's common stock, plus 684,802 shares of common stock transferred to the 2004 Plan from the 2000 and 2001 Plans on November 2, 2004, could have been issued under the 2004 Plan (subject to adjustment to reflect certain transactions and events specified in the 2004 Plan).

The 2004 Plan provides the Committee with authority and flexibility to determine the terms and conditions of the awards at the time of grant. The 2004 Plan is intended to constitute a plan described in Treasury Regulations Section 1.162-27(f)(1), pursuant to which the deduction limits under Section 162(m) of the Internal Revenue Code do not apply during the applicable reliance period.

The fair value of each option award is estimated on the date of grant using the Black-Scholes-Merton closed-form model (Black-Scholes) that uses the assumptions noted in the following table. The Company believes that the use of the Black-Scholes model meets the fair value measurement objectives of SFAS 123R and reflects all substantive characteristics of the instruments being valued. The determination of fair value of share-based payment awards on the date of grant using an option-pricing model is affected by our stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to, the expected stock price volatility over the term of the awards and actual and projected employee stock option exercise behaviors. Expected volatilities are based on historical volatility of the Company's stock. The risk-free interest rate is based on U.S. Treasury securities with a maturity value approximating the expected term of the option. The expected term represents the period of time that options granted are expected to be outstanding and was increased from four years to five years in May 2006.

On June 7, 2006, stockholder approval was obtained for an amendment and restatement of the MarketAxess Holdings Inc. 2004 Stock Incentive Plan (the Plan), to, among other things, increase the number of shares authorized for issuance under the Plan from 3,084,802 to 9,754,802 shares. The Board had previously approved the amended and restated Plan effective April 28, 2006, subject to stockholder approval.

The Company allocates shares for new stock option grants from the existing Plans. Stock option grants generally vest over three years.

The following table represents the assumptions used for the Black-Scholes option-pricing model to determine the per share weighted-average fair value for options granted for the three and six months ended June 30, 2006:

	Three Months Ended June 30, 2006,	Six Months Ended June 30, 2006
Weighted-Average Grant Date Fair Market Value of Common Stock	\$ 10.73	\$ 11.39
Dividend Yield	0.00%	0.00%
Weighted-Average Expected Life (years)	4.92	4.18

Weighted-Average Risk-Free Interest Rate	4.98%	4.63%
Weighted-Average Expected Volatility	31.79%	36.82%

Table of Contents

MARKETAXESS HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Unaudited (Continued)
(in thousands, except share and per share amounts)

The following table reports stock option activity during the six months ended June 30, 2006:

	Number of Shares	Weighted Exercise Price	Remaining Contractual Term	Intrinsic Value
Outstanding at January 1, 2006	5,168,807	\$ 7.56		\$ 24,975
Granted	1,055,150	\$ 11.39		\$ 168
Canceled	(284,528)	\$ 12.99		\$ 49
Exercised	(354,894)	\$ 2.97		\$ 3,132
Outstanding at June 30, 2006	5,584,535	\$ 8.30	7.23	\$ 22,129
Exercisable at June 30, 2006	3,900,387	\$ 6.55	6.43	\$ 21,870

The following table summarizes information regarding the stock options granted:

	As of June 30, 2006				
	Options Outstanding			Options Exercisable	
Range of Exercise Prices	Outstanding	Weighted- Average Remaining Contractual Life	Weighted- Average Exercise Price	Number Exercisable	Weighted- Average Exercise Price
\$2.10 \$5.00	2,533,054	5.83	\$ 2.79	2,531,256	\$ 2.79
\$5.01 \$10.00	110,619	7.89	\$ 9.05	71,254	\$ 8.77
\$10.01 \$15.00	2,287,594	8.54	\$ 12.21	944,019	\$ 12.96
\$15.01 \$19.60	653,268	7.96	\$ 15.84	353,858	\$ 15.92

As of June 30, 2006, there was \$5,581 of total unrecognized compensation cost related to non-vested stock options granted under the Plans. That cost is expected to be recognized over a weighted-average period of three years.

Restricted Stock

Restricted stock granted under the 2004 Plan generally vests over a period of three years. Certain grants vest after five years, but contain provisions that allow for accelerated vesting over a shorter term if defined performance criteria are met. Compensation expense is measured at the grant date and recognized ratably over the vesting period. The Company considers the likelihood of meeting the performance criteria in determining the amount to expense on a periodic basis.

The following table reports restricted stock activity during the six months ended June 30, 2006:

	Number of Restricted Shares	Weighted-Average Grant Date Fair Value
Outstanding at January 1, 2006	189,000	\$ 14.86
Granted	684,000	\$ 12.24
Canceled	(49,165)	\$ 12.69
Converted to Common Stock	(57,409)	\$ 13.76

Outstanding at June 30, 2006	766,426	\$ 12.74
------------------------------	---------	----------

As of June 30, 2006, there was \$8,630 of total unrecognized compensation expense related to non-vested restricted stock granted under the 2004 Plan. That cost is expected to be recognized over a weighted-average period of 4.2 years.

11. Earnings Per Share

SFAS No. 128, Earnings Per Share, requires the presentation of basic and diluted EPS in the Consolidated Statements of Operations. Basic EPS is computed by dividing the net income attributable to common stock by the weighted-average number of shares of common stock outstanding for the period. Diluted EPS is computed using the same method as basic EPS, but in the denominator, shares of common stock outstanding reflect the potential dilution that could occur if convertible securities or other contracts to issue common stock were converted into or exercised for common stock.

Table of Contents

MARKETAXESS HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Unaudited (Continued)
(in thousands, except share and per share amounts)

Basic and diluted EPS for the three and six months ended June 30, 2006 and 2005 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Basic EPS				
Net income	\$ 800	\$ 1,824	\$ 1,886	\$ 4,881
Weighted-average common shares outstanding	29,837,704	27,727,594	29,751,787	27,577,551
Net income per common share	\$ 0.03	\$ 0.07	\$ 0.06	\$ 0.18
Diluted EPS				
Net income	\$ 800	\$ 1,824	\$ 1,886	\$ 4,881
Weighted-average common shares outstanding and common stock equivalents	34,944,312	35,424,799	35,146,052	35,453,881
Net income per common share	\$ 0.02	\$ 0.05	\$ 0.05	\$ 0.14

12. Commitments and Contingencies

The Company leases office space under non-cancelable lease agreements expiring at various dates through 2011. These leases are subject to escalation based on certain costs incurred by the landlord.

Minimum rental commitments under such leases, net of sublease income and restated for the foreign exchange rate at June 30, 2006, are as follows:

Year Ended December 31,	Minimum Rentals
Remaining 2006	\$ 1,159
2007	2,370
2008	2,378
2009	2,386
2010	1,253
Thereafter through 2015	4,016

The rental expense for the three and six months ended June 30, 2006 was \$771 and \$1,347, respectively, and for the three and six months ended June 30, 2005 was \$472 and \$479, respectively, which is included in General and administrative expenses in the Consolidated Statements of Operations.

The Company has a sublease agreement for one of its properties. The following table summarizes information regarding the sublease provisions:

Location	Commencement Date	Termination Date	Sublease Rental	Sublease Loss Accrual as of:	
				June 30, 2006	December 31, 2005
New York, NY	February 1, 2002	April 30, 2006	\$71	\$	\$
	May 1, 2006	April 14, 2011	77	995	1,146

Between May 2002 and May 2005, the Company also had a sublease agreement for its London property. The sublessee exercised its early termination option as provided in the agreement and paid the Company's U.K. subsidiary an early termination fee of \$225 in May 2005. The Company now occupies the space.

The Company is contingently obligated for standby letters of credit that were issued to landlords for office space. The Company uses a U.S. government obligation as collateral for these standby letters of credit and for the Company's foreign currency forward contracts. This collateral is included in Securities and cash provided as collateral on the Consolidated Statements of Financial Condition that had a fair market value as of June 30, 2006 and December 31, 2005 of \$3,299.

In June 2006, MarketAxess Corporation commenced operating an anonymous matching service for its broker-dealer clients. MarketAxess Corporation executes trades on a riskless principal basis, which are cleared and settled by an independent clearing broker. The securities clearing agreement that MarketAxess Corporation maintains with the independent clearing broker commenced in December 2004. Under the securities clearing agreement, MarketAxess Corporation maintains a collateral deposit with the clearing broker in the form of cash or U.S. government securities. As of each of June 30, 2006 and December 31, 2005, MarketAxess Corporation had a collateral deposit of \$500 with the independent clearing broker included in Securities and cash provided as

Table of Contents

MARKETAXESS HOLDINGS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Unaudited (Continued)
(in thousands, except share and per share amounts)

collateral on the Consolidated Statements of Financial Condition. MarketAxess Corporation is exposed to credit risk in the event a contra-party does not fulfill its obligation to complete a transaction. Pursuant to the terms of the agreement between MarketAxess Corporation and the independent clearing broker, the clearing broker has the right to charge MarketAxess Corporation for losses resulting from a counterparty's failure to fulfill its contractual obligations. As the right to charge MarketAxess Corporation has no maximum amount and applies to all trades executed through the clearing broker, MarketAxess Corporation believes there is no maximum amount assignable to this right. At June 30, 2006, MarketAxess Corporation recorded no contingent liabilities with regard to this right.

13. Comprehensive Income

Comprehensive income was as follows:

	Three Months Ended		Six Months Ended June	
	June 30,		30,	
	2006	2005	2006	2005

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Forward-Looking Statements**

This report contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by words such as expects, intends, anticipates, plans, believes, seeks, estimates, will, or words of similar meaning and include, but are not limited to, statements regarding the outlook for our future business and financial performance. Forward-looking statements are based on management's current expectations and assumptions, which are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. It is routine for our internal projections and expectations to change as the year or each quarter in the year progresses, and therefore it should be clearly understood that the internal projections and beliefs upon which we base our expectations may change prior to the end of each quarter or the year. Although these expectations may change, we are under no obligation to revise or update any forward-looking statements contained in this report. Our company policy is generally to provide our expectations only once per quarter, and not to update that information until the next quarter. Actual future events or results may differ materially from those contained in the projections or forward-looking statements. Factors that could cause or contribute to such differences include those discussed below and elsewhere in this report, particularly in the section captioned Part II, Item 1A, Risk Factors.

Executive Overview

MarketAxess operates one of the leading platforms for the electronic trading of corporate bonds and certain other types of fixed-income securities. Through our platform, 676 active institutional investor client firms (firms that executed at least one trade through our electronic trading platform between July 2005 and June 2006) can access the aggregate liquidity provided by the collective interest of our 25 broker-dealer clients in buying or selling bonds through our platform. Our active institutional investor clients include investment advisers, mutual funds, insurance companies, public and private pension funds, bank portfolios and hedge funds. We also provide data and analytical tools that help our clients make trading decisions and we facilitate the trading process by electronically communicating order information between trading counterparties. Our revenues are primarily generated from the trading of U.S. and European high-grade corporate bonds.

Our multi-dealer trading platform allows our institutional investor clients to simultaneously request competing, executable bids or offers from our broker-dealer clients and execute trades with the broker-dealer of their choice from among those that choose to respond. We offer our broker-dealer clients a solution that enables them to efficiently reach our institutional investor clients for the distribution and trading of bonds. In addition to U.S. high-grade corporate bonds, European high-grade corporate bonds and emerging markets bonds, including both investment-grade and non-investment grade debt, we also offer our clients the ability to trade crossover and high-yield bonds, agency bonds, new issues and credit default swap indices.

The majority of our revenues are derived from commissions for trades executed on our platform that are billed to our broker-dealer clients on a monthly basis. We also derive revenues from information and user access fees, license fees and other income. Our expenses consist of employee compensation and benefits, depreciation and amortization, technology and communication expenses, professional and consulting fees, marketing and advertising and other general and administrative expenses.

We seek to grow and diversify our revenues by capitalizing on our status as the operator of a leading platform for the electronic trading of corporate bonds and certain other types of fixed-income securities. The key elements of our strategy are:

- to innovate and efficiently add new functionality and product offerings to the MarketAxess platform that we believe will help to increase our market share with existing clients, as well as expand our client base;

- to leverage our technology, as well as our strong broker-dealer and institutional investor relationships, to deploy our electronic trading platform into additional product and client segments within the fixed-income securities markets;

to continue building our existing service offerings so that our electronic trading platform is fully integrated into the workflow of our broker-dealer and institutional investor clients and to continue to add functionality to allow our clients to achieve a fully automated end-to-end straight-through processing solution (automation from trade initiation to settlement);

to add new content and analytical capabilities to Corporate BondTicker in order to improve the value of the information we provide to our clients; and

to continue to supplement our internal growth by entering into strategic alliances, or acquiring businesses or technologies that will enable us to enter new markets, provide new products or services, or otherwise enhance the value of our platform to our clients.

Table of Contents**Critical Factors Affecting Our Industry and Our Company*****Economic, Political and Market Factors***

The global fixed-income securities industry is risky and volatile and is directly affected by a number of economic, political and market factors that may result in declining trading volume. These factors could have a material adverse effect on our business, financial condition and results of operations. These factors include: the current interest rate environment, including the volatility of interest rates and investors' forecasts of future interest rates; the level of corporate bond credit spreads and credit spread volatility; and adverse market conditions, including unforeseen market closures or other disruptions in trading. Any one or more of these factors may contribute to reduced trading activity in the fixed-income securities markets generally. Our revenues and profitability are likely to decline during periods of stagnant economic conditions or low trading volume in the U.S. and global fixed-income securities markets.

Competitive Landscape

The global fixed-income securities industry generally, and the electronic financial services markets in which we operate in particular, are highly competitive, and we expect competition to intensify in the future. We will continue to compete with bond trading conducted directly between broker-dealers and their institutional investor clients over the telephone or electronically. In addition, our current and prospective competitors are numerous and include: other multi-dealer trading companies; market data and information vendors; securities and futures exchanges; inter-dealer brokerage firms; and electronic communications networks not currently in the securities business. We believe that we compete favorably with respect to: the liquidity provided on our platform; the magnitude and frequency of price improvement enabled by our platform; the quality and speed of execution; total transaction costs; technology capabilities, including the ease of use of our trading platform; and the range of products and services.

Regulatory Environment

Our industry has been and is subject to continuous regulatory changes and may become subject to new regulations or changes in the interpretation or enforcement of existing regulations, which could have a material adverse effect on our business, financial condition and results of operations.

Rapid Technological Changes

We must continue to enhance and improve our electronic trading platform. The electronic financial services industry is characterized by increasingly complex systems and infrastructures and new business models. If new industry standards and practices emerge, our existing technology, systems and electronic trading platform may become obsolete or our existing business may be harmed. Our future success will depend on our ability to: enhance our existing products and services; develop and/or license new products and technologies that address the increasingly sophisticated and varied needs of our broker-dealer and institutional investor clients and prospective clients; and respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis.

Trends in Our Business

The majority of our revenues are derived from commissions for transactions executed on our platform between our institutional investor and broker-dealer clients. We believe that there are five key variables that impact the notional value of such transactions on our platform and the amount of commissions earned by us:

the number of institutional investor clients that participate on the platform and their willingness to originate transactions through the platform;

the number of broker-dealer clients on the platform and the competitiveness of the prices they provide to the institutional investor clients;

the number of markets for which we make trading available to our clients;

the overall level of activity in these markets; and

the level of commissions that we collect for trades executed through the platform.

We believe that overall corporate bond market trading volume is affected by various factors including the absolute levels of interest rates, the direction of interest rate movements, the level of new issues of corporate bonds and the

volatility of corporate bond spreads versus U.S. Treasury securities. Because a significant percentage of our revenue is tied directly to the volume of securities traded on our platform, it is likely that a general decline in trading volumes, regardless of the cause of such decline, would reduce our revenues and have a significant negative impact on profitability.

Table of Contents***Commission Revenue Trends***

Commissions are generally calculated as a percentage of the notional dollar volume of bonds traded on our platform and vary based on the type and the maturity of the bond traded.

On June 1, 2005, we introduced a new fee plan primarily for secondary market transactions in U.S. high-grade corporate bonds executed on our electronic trading platform. As of June 30, 2006, 18 of our U.S. high-grade broker-dealer clients have signed new two-year agreements that supersede the fee arrangements that we entered into with many of our broker-dealer clients during the third quarter of 2003. The new plan incorporates higher fixed monthly fees and lower variable fees for our broker-dealer clients than the previous U.S. high-grade corporate transaction fee plans and incorporates volume incentives to our broker-dealer clients that are designed to increase the volume of transactions effected on our platform. Under the new fee plan, the Company electronically adds the variable fee to the spread quoted by the broker-dealer client but does not charge for inquiries that an institutional investor client sends to a single broker-dealer client. The combination of higher fixed and lower variable fees in the new plan results in higher revenue to the Company at lower volume levels but will limit revenue growth in the future for U.S. high-grade corporate bond trading as volume levels increase.

For European high-grade corporate bond trades, broker-dealer transaction fees vary based on the type of bond traded. Different fee schedules apply to fixed rate and floating rate bonds. Within the schedule for fixed rate bonds, the fee varies depending on whether the bond is a corporate or a sovereign issue. For corporate bonds, the fee also varies depending on the maturity of the issue. This fee schedule applies a tiered fee structure, which reduces the fee per trade upon the attainment of certain specified amounts of monthly commissions generated by a particular broker-dealer and does not carry a fixed monthly fee or fee cap.

In September 2005, the Company launched electronic credit default swap index trading on its platform and charges commissions to both broker-dealer and institutional clients calculated as a percentage of the notional volume of transactions traded. Broker-dealer clients are able to select between standard fee schedules that contain monthly minimum commissions and, in some cases, monthly fee caps.

In June 2006, we introduced functionality that allows broker-dealer clients to transact U.S. corporate bond trades on our platform with other broker-dealer clients. MarketAxess acts as intermediary in these transactions by serving as counterparty to the two broker-dealer clients involved. We charge a fee to both broker-dealer clients involved in the transaction that is based on the size of the transaction and the maturity of the bond traded.

Commissions for other products generally vary based on the type and the maturity of the bond traded. Factors that we consider when setting commission rates include those charged by inter-dealer brokers in the respective markets, average bid-offer spreads in the products we serve and transaction costs through alternative channels including the telephone.

We anticipate that some reduction in average fees per million may occur in the future. Consequently, past trends in commissions are not necessarily indicative of future commissions.

Other Revenue Trends

In addition to the commissions discussed above, we earn revenue from certain fees paid by institutional investor and broker-dealer clients and from income on investments.

We charge information services fees for Corporate BondTicker to our broker-dealer clients, institutional investor clients and data-only subscribers. The information services fee is a flat monthly fee, based on the level of service. We also generate information service fees from the sale of bulk data to certain institutional investor clients and data only subscribers.

Institutional investor clients trading U.S. high-grade corporate bonds are charged a monthly user access fee for the use of our platform. The fee, billed quarterly, is charged to the client based on the number of the client's users. To encourage institutional investor clients to execute trades on our U.S. high-grade corporate bond platform, we reduce these information and user access fees for such clients once minimum quarterly trading volumes are attained.

Broker-dealer clients, other than those that made equity investments in the Company, typically pay an initial license fee, which is due and payable upon execution of the broker-dealer agreement. The initial license fee varies by agreement and at a minimum is generally intended to cover the initial set-up costs incurred to enable a broker-dealer to begin using the Company's electronic trading platform.

Table of Contents

Expense Trends

In the normal course of business, we incur the following expenses:

employee compensation and benefits expenses, which include salaries, incentive compensation and related employee benefits and taxes;

depreciation and amortization expenses, which result primarily from the depreciation of the fixed assets we purchase, including computer software and hardware used in the development of our trading systems;

technology and communications expenses, which consist primarily of costs for our network connections with our customers and our data centers, as well as connectivity to various other market participants;

professional and consulting expenses, which consist primarily of legal and accounting expenses;

marketing and advertising expenses, which consist primarily of media, print and other advertising expenses as well as client marketing expenses; and

general and administrative expenses, which include travel and entertainment expenses, rental and occupancy expenses, and other administrative expenses and general office costs.

We anticipate expense growth in the future, primarily due to investment in new products, notably in employee compensation and benefits, professional and consulting fees, and general and administrative expenses but we believe that operating leverage can be achieved by increasing volumes in existing products and adding new products without substantial additions to our infrastructure.

Effective January 1, 2006, the Company adopted SFAS 123R, which requires the measurement and recognition of compensation expense for all stock-based payment awards made to employees and directors, based on estimated fair values. SFAS 123R supersedes the Company's previous accounting under APB 25 for periods beginning in fiscal 2006. In March 2005, the U.S. Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 (SAB 107) relating to SFAS 123R. The Company has applied the provisions of SAB 107 in its adoption of SFAS 123R.

The Company adopted SFAS 123R using the modified prospective transition method, which requires the application of the accounting standard as of January 1, 2006. The Company's Consolidated Financial Statements as of and for the three and six months ended June 30, 2006 reflect the impact of SFAS 123R. In accordance with the modified prospective transition method, the Company's Consolidated Financial Statements for prior periods have not been restated to reflect, and do not include the impact of SFAS 123R. Stock-based compensation expense recognized under SFAS 123R for the three and six months ended June 30, 2006 was \$0.8 million and \$1.5 million, respectively, which consisted of stock-based compensation expense related to employee stock options.

SFAS 123R requires companies to estimate the fair value of stock-based payment awards on the date of grant using an option-pricing model. The Company believes that the use of the Black-Scholes model meets the fair value measurement objectives of SFAS 123R and reflects all substantive characteristics of the instruments being valued. The determination of fair value of share-based payment awards on the date of grant using an option-pricing model is affected by our stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to, the expected stock price volatility over the term of the awards and actual and projected employee stock option exercise behaviors. Expected volatilities are currently based on historical volatility of the Company's stock. The risk-free interest rate is based on U.S. Treasury securities with a maturity value approximating the expected term of the option. The expected term of five years represents the period of time that options granted are expected to be outstanding. The value of the portion of the award that is ultimately expected to vest is recognized as expense in the Company's Consolidated Statements of Operations over the requisite service periods.

Stock-based compensation expense recognized in the Company's Consolidated Statements of Operations for the three and six months ended June 30, 2006 included compensation expense for stock-based payment awards granted prior to, but not yet vested as of December 31, 2005 based on the grant date fair value estimated in accordance with

the pro forma provisions of SFAS 123 and compensation expense for the stock-based payment awards granted subsequent to December 31, 2005 based on the grant date fair value estimated in accordance with the provisions of SFAS 123R. As stock-based compensation expense recognized in the Consolidated Statements of Operations for the three and six months ended June 30, 2006 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. In the Company's pro forma information required under SFAS 123 for the periods prior to fiscal 2006, the Company accounted for forfeitures as they occurred.

As of June 30, 2006, there was \$5.6 million of total unrecognized compensation cost related to non-vested stock options granted under the Company's Stock Incentive Plans. That cost is expected to be recognized over a weighted-average period of three years.

If factors change and we employ different assumptions in the application of SFAS 123R in future periods, the compensation expense we record under SFAS 123R may differ significantly from that recorded in the current period.

Table of Contents**Results of Operations****Three Months Ended June 30, 2006 Compared to Three Months Ended June 30, 2005***Overview*

For the three months ended June 30, 2006, Income before income taxes decreased by \$1.4 million or 50.8% to \$1.4 million compared to Income before income taxes of \$2.8 million for the three months ended June 30, 2005. Net income decreased by \$1.0 million or 56.2% to \$0.8 million compared to Net income of \$1.8 million for the three months ended June 30, 2005.

Total revenues increased by \$0.8 million or 4.4% to \$20.1 million for the three months ended June 30, 2006 from \$19.3 million for the three months ended June 30, 2005. This increase in Total revenues was primarily due to increases in Commissions of \$0.5 million, Information and user access fees of \$0.3 million and Investment income of \$0.3 million, offset by a decrease in License fees of \$0.3 million.

Total expenses for the three months ended June 30, 2006 increased by \$2.3 million or 13.8% to \$18.7 million for the three months ended June 30, 2006 from \$16.5 million for the three months ended June 30, 2005. This increase in Total expenses was primarily due to increases in Employee compensation and benefits of \$1.8 million, General and administrative expenses of \$0.6 million and Depreciation and amortization of \$0.2 million, offset by decreases in Professional and consulting fees of \$0.2 million and Marketing and advertising of \$0.1 million.

Revenues

Our revenues for the three months ended June 30, 2006 and June 30, 2005, and the resulting dollar and percentage change, were as follows:

	Three Months Ended June 30, 2006		2005		\$ Change	% Change
	\$	% of Revenues	\$ (\$ in thousands)	% of Revenues		
Revenues						
Commissions						
U.S. high-grade	\$ 10,975	54.5%	\$ 11,562	60.0%	\$ (587)	(5.1)%
European high-grade	4,089	20.3	3,336	17.3	753	22.6
Other	2,194	10.9	1,828	9.5	366	20.0

Total revenues	\$ 20,122	100.0%	\$ 19,282	100.0%	\$ 840	4.4%

We have historically earned a substantial portion of our commissions and overall revenues from broker-dealer clients that are (or whose affiliates are) our stockholders. The percentage of our revenues derived from our broker-dealer clients that are also our stockholders has been declining. For the three months ended June 30, 2006, the percentage decreased to 46.6% from 55.9% for the three months ended June 30, 2005. Affiliates of most of our broker-dealer clients are also among our institutional investor clients. A table detailing the amount of revenues generated by nine broker-dealer clients that were also our stockholders as of January 1, 2006 (ABN Amro, Banc of America Securities, Bear Stearns, BNP Paribas, Credit Suisse, Deutsche Bank, JPMorgan, Lehman Brothers and UBS), and their respective affiliates, as well as the corresponding percentage of total revenues, is provided below for

the three months ended June 30, 2006 and 2005.

Table of Contents

	Three Months Ended June 30,	
	2006	2005
	(\$ in thousands)	
Total revenues generated by Stockholder Broker-Dealer Clients and their respective affiliates

Investment income	23.9	23.2
Other	53.4	59.8
Percentage of total revenues generated by Stockholder Broker-Dealer Clients and their respective affiliates	46.6%	55.9%

Commissions. Commissions are generally calculated as a percentage of the notional dollar volume of bonds traded on our platform and vary based on the type, size, yield and maturity of the bond traded. The commission rates are based on a number of factors, including fees charged by inter-dealer brokers in the respective markets, average bid-offer spreads in the products we offer, transaction costs through alternative channels including the telephone and the trading volume executed through our platform by the broker-dealer completing the trade. Under our transaction fee plans, bonds that are more actively traded or that have shorter maturities are generally charged lower commissions, while bonds that are less actively traded or that have longer maturities generally command higher commissions.

Total commissions increased by \$0.5 million or 3.2% to \$17.3 million for the three months ended June 30, 2006 from \$16.7 million for the comparable period in 2005.

U.S. high-grade commissions decreased by \$0.6 million or 5.1% to \$11.0 million for the three months ended June 30, 2006 from \$11.6 million for the comparable period in 2005. The lower commissions resulted from a decrease in U.S. high-grade volume of \$1.4 billion or 3.1% from \$44.7 billion for the three months ended June 30, 2005 to \$43.2 billion for the three months ended June 30, 2006 and a decrease in the average U.S. high-grade fee from \$259 per million for the three months ended June 30, 2005 to \$254 per million for the three months ended June 30, 2006. During the three months ended June 30, 2006, there were two fewer trading days in the U.S. than during the three months ended June 30, 2005. The fixed monthly U.S. high-grade fees increased to \$7.5 million for the three months ended June 30, 2006 compared to \$5.7 million for the three months ended June 30, 2005.

European high-grade commissions increased by \$0.8 million or 22.6% for the three months ended June 30, 2006 to \$4.1 million from \$3.3 million for the comparable period in 2005. The higher commissions resulted from an increase in European high-grade volume of \$5.8 billion or 34.3% from \$17.0 billion for the three months ended June 30, 2005 to \$22.8 billion for the three months ended June 30, 2006 that was partially offset by a decrease in the average European high-grade fee from \$197 per million for the three months ended June 30, 2005 to \$179 per million for the three months ended June 30, 2006. The decrease in the average European high-grade fee per million resulted from an amendment to our standard fee schedules in June 2005 and an increase in the volume of transactions that have lower fees per million. During the three months ended June 30, 2006 there were three fewer trading days in the U.K. than during the three months ended June 30, 2005.

Other commissions increased by \$0.4 million or 20.0% for the three months ended June 30, 2006 to \$2.2 million from \$1.8 million for the comparable period in 2005. Other volumes increased by \$2.9 billion or 27.9% from \$10.5 billion for the three months ended June 30, 2005 to \$13.4 billion for the three months ended June 30, 2006. Other fees per million decreased from \$175 per million for the three months ended June 30, 2005 to \$164 per million for the three months ended June 30, 2006, resulting from a change in the mix of business.

Table of Contents

Our trading volume and average fees per million traded for the three months ended June 30, 2006 and 2005, are as follows:

	Three Months Ended June 30,	
	2006	2005
Trading Volume Data (in billions)		
U.S. high-grade	\$ 39.1	\$ 43.8
European high-grade	22.8	17.0
Other	13.4	10.5

European high-grade	\$ 179	\$ 197
Other	\$ 164	\$ 175
Average Fee Per Million Traded for All Products, Excluding Single-Dealer Inquiries		
	\$ 229	\$ 235
Average Fee Per Million Traded for All Products, Including Single-Dealer Inquiries		
	\$ 217	\$ 232
Number of U.S. Trading Days	62	64
Number of U.K. Trading Days	60	63

For volume reporting purposes, transactions in foreign currencies are converted to U.S. dollars at the exchange rates prevailing on the day the transactions were executed.

Single-dealer inquiries represent U.S. high-grade trades on which no fees were charged in accordance with the U.S. high-grade corporate bond fee plan that went into effect on June 1, 2005. The U.S. high-grade average fee per million is calculated for each period presented using the variable transaction fees and the fixed monthly fees paid by our broker-dealer clients.

In September 2005, the Company launched electronic credit default swap index trading on its platform. Trading volume data and commissions related to these transactions are included in Other.

In June 2006, the Company launched U.S. corporate bond trading between broker-dealer clients. Trading volume data and commissions related to these transactions are included in either U.S. high-grade or Other trading volumes, as appropriate. The Company serves as a counterparty to both a buyer and a seller in matching these back-to-back trades with its broker-dealer clients and accordingly includes both transactions in its reported volume.

Edgar Filing: MARKETAXESS HOLDINGS INC - Form 10-Q

The following table shows the extent to which the changes in revenue for the three months ended June 30, 2006 as compared to the three months ended June 30, 2005 were attributable to increases in volumes, reductions in the average level of commissions charged and other factors not related to commission revenues:

	Three Months Ended June 30, 2006 (in thousands)
Volume increases	\$ 1,701
Average fee reductions	(1,169)
Increase in Information and user access revenue	319
Decrease in License fees	(277)
Increase in Investment income	307
Other	(41)
Total revenue increase	\$ 840

Table of Contents

Our active institutional investor clients and broker-dealer clients as of June 30, 2006 and June 30, 2005 were as follows:

	As of June 30,	
	2006	2005
Institutional Investor Clients:		
US	439	401
Europe	237	171
Total	676	572
Broker-Dealer Clients	25	23

Information and User Access Fees. Information and user access fees consist of fees charged for Corporate BondTicker to our broker-dealer clients, institutional investor clients and data-only subscribers; and monthly access fees charged to institutional investor clients for the use of our platform. Information and user access fees increased by \$0.3 million or 31.8% to \$1.3 million for the three months ended June 30, 2006 from \$1.0 million for the three months ended June 30, 2005. This increase was primarily due to an increase in the number of subscribers to our Corporate BondTicker service and increased sales of our bulk data.

License Fees. License fees consist of fees received from broker-dealer clients for access to our trading platform through a non-exclusive and non-transferable license. The license fee is a one-time fee and is recognized in the first three months of the agreement in the estimated amount of the set-up costs that we incur and the remaining amount is amortized over the initial term of the agreement, which is generally three years. License fees decreased by \$0.3 million or 56.4% to \$0.2 million for the three months ended June 30, 2006 from \$0.5 million for the three months ended June 30, 2005. This decrease was attributable to a decline in the amortization of previously received license fees with no offset from new dealers joining the platform during the quarter ended June 30, 2006, as all major dealers now utilize the platform and fewer remain as potential additions.

Investment Income. Investment income consists of income earned on our investments. Investment income increased by \$0.3 million or 39.5% to \$1.1 million for the three months ended June 30, 2006 from \$0.8 million for the comparable period in 2005. This increase was due to higher Securities balances and a rise in interest rates during the three months ended June 30, 2006 as compared to the comparable period in 2005.

Other. Other revenues consist of telecommunications line charges to broker-dealer clients and other miscellaneous revenues. Other revenues decreased by \$0.1 million or 14.4% to \$0.2 million for the three months ended June 30, 2006 compared to \$0.3 million for the three months ended June 30, 2005.

Table of Contents*Expenses*

Our expenses for the three months ended June 30, 2006 and June 30, 2005, and the resulting dollar and percentage change, were as follows:

	Three Months Ended June 30, 2006		2005		\$ Change	% Change
	\$	% of Revenues	\$ (\$ in thousands)	% of Revenues		
Expenses						
Employee compensation and benefits	\$ 10,498	52.2%	\$ 8,673	45.0%	\$ 1,825	21.0%
Depreciation and amortization	1,637	8.1	1,424	7.4	213	15.0
Technology and communications	1,791	8.9	1,823	9.4	(31)	(1.7)
Professional and consulting fees	2,488	12.4	2,735	14.2	(247)	(9.0)
Marketing and advertising	477	2.4	589	3.1	(112)	(19.0)
General and administrative	1,845	9.1	1,223	6.3	622	50.9
Total expenses	\$ 18,736	93.1%	\$ 16,467	85.4%	\$ 2,270	13.8%

Employee Compensation and Benefits. Employee compensation and benefits is comprised of salaries, stock compensation costs, other incentive compensation, related employee benefits and payroll taxes. Employee compensation and benefits increased by \$1.8 million or 21.0% to \$10.5 million for the three months ended June 30, 2006 from \$8.7 million for the three months ended June 30, 2005. This increase was primarily due to increased salary expenses of \$1.0 million, increased stock option costs of \$0.8 million following the adoption of SFAS 123R, which requires the expensing of stock options over the vesting period, the severance payment of \$0.3 million to terminated employees and lower capitalization of technology development wages. The total number of employees increased to 186 as of June 30, 2006 from 177 as of June 30, 2005. As a percentage of total revenues, Employee compensation and benefits expense increased to 52.2% for the three months ended June 30, 2006 from 45.0% for the three months ended June 30, 2005.

Depreciation and Amortization. Depreciation and amortization expense results from the depreciation of fixed assets, which consist of computer hardware, furniture and fixtures, and the amortization of software, capitalized software development costs and leasehold improvements. Depreciation and amortization increased by \$0.2 million or 15.0% to \$1.6 million for the three months ended June 30, 2006 compared to \$1.4 million for the three months ended June 30, 2005. This increase was attributable to increased depreciation of capitalized software development costs and purchased software licenses. For the three months ended June 30, 2006 and 2005, we capitalized \$0.8 million of software development costs.

Technology and Communications. Technology and communications expense consists primarily of costs for our network connections, data center hosting and data feeds provided by outside vendors and service providers. Technology and communications expense decreased by \$0.03 million or 1.7% to \$1.8 million for the three months ended June 30, 2006. This decrease was attributable to reduced costs relating to production telecommunications and data center hosting.

Professional and Consulting Fees. Professional and consulting fees consist of fees paid for accounting and legal fees, information technology and non-information technology consultant costs. Professional and consulting fees decreased by \$0.2 million or 9.0% to \$2.5 million for the three months ended June 30, 2006 from \$2.7 million for the

three months ended June 30, 2005. This decrease was attributable to reduced recruiting fees, partially offset by increased technology consulting costs.

Marketing and Advertising. Marketing and advertising expense consists primarily of print and other advertising expenses we incur to promote our products and services. This expense also includes costs associated with attending or exhibiting at industry-sponsored seminars, conferences and conventions. Also included in this expense are travel and entertainment expenses incurred by our sales force to promote our trading platform and information services. Marketing and advertising expense decreased by \$0.1 million or 19.0% to \$0.5 million for the three months ended June 30, 2006 from \$0.6 million for the three months ended June 30, 2005. This decrease was primarily due to a reduction in advertising expenditures.

General and Administrative. General and administrative expense consists primarily of occupancy and utilities, general travel and entertainment, staff training, board of directors costs, various state franchise taxes and U.K. value-added taxes. General and administrative expense increased by \$0.6 million or 50.9% to \$1.8 million for the three months ended June 30, 2006 from \$1.2 million

Table of Contents

for the three months ended June 30, 2005. This increase was primarily due to an increase in state and local franchise and UK value-added taxes, as well as increases in occupancy costs, travel and entertainment costs and board of directors expenses.

Provision for Income Tax

For the three months ended June 30, 2006, we recorded an income tax provision of \$0.6 million. The provision consists principally of \$0.2 million in federal taxes, \$0.1 million in state and local taxes and \$0.2 million in foreign taxes.

For the three months ended June 30, 2005, we recorded an income tax provision of \$1.0 million. The provision consisted primarily of \$0.7 million in federal taxes, \$0.2 million in state and local taxes and \$0.1 million in foreign taxes.

For the three months ended June 30, 2006 and 2005, with the exception of the payment of certain state and local taxes, the provision for income taxes was a non-cash expense since the Company had available net operating loss carryforwards and tax credits to offset the cash payment of taxes.

Our consolidated effective tax rate can vary from period to period depending on, among other factors, the geographic and business mix of our earnings.

Table of Contents**Six Months Ended June 30, 2006 Compared to Six Months Ended June 30, 2005***Overview*

For the six months ended June 30, 2006, Income before income taxes decreased by \$5.4 million or 66.0% to \$2.8 million compared to Income before income taxes of \$8.2 million for the six months ended June 30, 2005. Net income decreased by \$3.0 million or 61.3% to \$1.9 million compared to Net income of \$4.9 million for the six months ended June 30, 2005.

Total revenues decreased by \$0.1 million or 0.3% to \$40.5 million for the six months ended June 30, 2006 from \$40.6 million for the six months ended June 30, 2005. This decrease in Total revenues was primarily due to decreases in License fees of \$0.8 million and Commissions of \$0.6 million, offset by increases in Investment income of \$0.7 million and Information and user access fees of \$0.6 million.

Total expenses for the six months ended June 30, 2006 increased by \$5.3 million or 16.3% to \$37.7 million for the six months ended June 30, 2006 from \$32.4 million for the six months ended June 30, 2005. This increase in Total expenses was primarily due to increases in Employee compensation and benefits of \$2.9 million, General and administrative expenses of \$1.3 million, Depreciation and amortization of \$0.7 million, Professional and consulting fees of \$0.4 million and Technology and communications of \$0.4 million, offset by a decrease in Marketing and advertising of \$0.4 million.

Revenues

Our revenues for the six months ended June 30, 2006 and June 30, 2005, and the resulting dollar and percentage change, were as follows:

	2006		Six Months Ended June 30, 2005		\$ Change	% Change
	\$	% of Revenues	\$ (\$ in thousands)	% of Revenues

Total revenues	\$ 40,462	100.0%	\$ 40,590	100.0%	\$ (128)	(0.3)%

We have historically earned a substantial portion of our commissions and overall revenues from broker-dealer clients that are (or whose affiliates are) our stockholders. The percentage of our revenues derived from our broker-dealer clients that are also our stockholders has been declining. For the six months ended June 30, 2006, the percentage has decreased to 46.5% from 53.3% for the six months ended June 30, 2005. Affiliates of most of our broker-dealer clients are also among our institutional investor clients. A table detailing the amount of revenues generated by nine broker-dealer clients that were also our stockholders as of January 1, 2006 (ABN Amro, Banc of America Securities, Bear Stearns, BNP Paribas, Credit Suisse, Deutsche Bank, JPMorgan, Lehman Brothers and UBS), and their respective affiliates, as well as the corresponding percentage of total revenues, is provided below for the six months ended June 30, 2006 and June 30, 2005.

Table of Contents

	Six Months Ended June 30,	
	2006	2005
	(\$ in thousands)

Commissions. Commissions are generally calculated as a percentage of the notional dollar volume of bonds traded on our platform and vary based on the type, size, yield and maturity of the bond traded. The commission rates are based on a number of factors, including fees charged by inter-dealer brokers in the respective markets, average bid-offer spreads in the products we offer, transaction costs through alternative channels including the telephone and the trading volume executed through our platform by the broker-dealer completing the trade. Under our transaction fee plans, bonds that are more actively traded or that have shorter maturities are generally charged lower commissions, while bonds that are less actively traded or that have longer maturities generally command higher commissions.

Total commissions decreased by \$0.6 million or 1.8% to \$34.7 million for the six months ended June 30, 2006 from \$35.4 million for the comparable period in 2005.

U.S. high-grade commissions decreased by \$2.1 million or 8.6% to \$22.0 million for the six months ended June 30, 2006 from \$24.1 million for the comparable period in 2005. The lower commissions resulted from a decrease in U.S. high-grade volume of \$10.3 billion or 10.3% from \$99.4 billion for the six months ended June 30, 2005 to \$89.1 billion for the six months ended June 30, 2006. The decrease in volumes was partially offset by an increase in the average U.S. high-grade fee from \$242 per million for the six months ended June 30, 2005 to \$247 per million for the six months ended June 30, 2006. The fixed monthly U.S. high-grade fees increased to \$14.7 million for the six months ended June 30, 2006 compared to \$10.5 million for the six months ended June 30, 2005.

European high-grade commissions increased by \$0.7 million or 8.9% to \$8.4 million for the six months ended June 30, 2006 from \$7.7 million for the comparable period in 2005. The higher commissions resulted from an increase in European high-grade volume of \$6.9 billion or 17.3% from \$39.9 billion for the six months ended June 30, 2005 to \$46.8 billion for the six months ended June 30, 2006 that was partially offset by a decrease in the average European high-grade fee from \$194 per million for the six months ended June 30, 2005 to \$180 per million for the six months ended June 30, 2006. The decrease in the average European high-grade fee per million resulted from an amendment to our standard fee schedules in June 2005 and an increase in the volume of transactions that have lower fees per million.

Other commissions increased by \$0.8 million or 21.1% to \$4.3 million for the six months ended June 30, 2006 from \$3.6 million for the comparable period in 2005. Other volumes increased by \$6.0 billion or 27.2% from \$22.0 billion for the six months ended June 30, 2005 to \$28.0 billion for the six months ended June 30, 2006. Other fees per million decreased from \$162 per million for the six months ended June 30, 2005 to \$154 per million for the

six months ended June 30, 2006, resulting from a change in the mix of business.

Table of Contents

Our trading volume and average fees per million traded for the six months ended June 30, 2006 and 2005, were as follows:

	Six Months Ended June 30,

Number of U.K. Trading Days	124	125

For volume reporting purposes, transactions in foreign currencies are converted to U.S. dollars at the exchange rates prevailing on the day the transactions were executed.

Single-dealer inquiries represent U.S. high-grade trades on which no fees were charged in accordance with the U.S. high-grade corporate bond fee plan that went into effect on June 1, 2005. The U.S. high-grade average fee per million is calculated for each period presented using the variable transaction fees and the fixed monthly fees paid by our broker-dealer clients.

In September 2005, the Company launched electronic credit default swap index trading on its platform. Trading volume data and commissions related to these transactions are included in Other.

In June 2006, the Company launched electronic U.S. corporate bond trading between broker-dealer clients. Trading volume data and commissions related to these transactions are included in either U.S. high-grade or Other trading volumes, as appropriate. The Company serves as a counterparty to both a buyer and a seller in matching these back-to-back trades with its broker-dealer clients and accordingly includes both transactions in its reported volume.

Table of Contents

The following table shows the extent to which the changes in revenue for the six months ended June 30, 2006 as compared to the six months ended June 30, 2005 were attributable to increases in volumes, reductions in the average level of commissions charged and other factors not related to commission revenues:

	Six Months Ended June 30, 2006 (in thousands)
Volume increases	\$ 725
Average fee reductions	(1,359)
Increase in Information services and user access revenue	643
Decrease in License Fees	(776)
Increase in Investment income	669
Other	(30)
Total revenue decrease	\$ (128)

Our active institutional investor clients and broker-dealer clients as of June 30, 2006 and June 30, 2005 were as follows:

	As of June 30,	
	2006	2005
Institutional Investor Clients:		
US	439	401
Europe	237	171
Total	676	572
Broker-Dealer Clients	25	23

2006 from \$17.9 million for the six months ended June 30, 2005. This increase was primarily due to increased employee stock compensation expense of \$1.5 million following the adoption of SFAS 123R, which requires the expensing of stock options over the vesting period, the addition of new employees to support our growth (including the development of credit derivatives trading services), increased benefit costs and the severance payment of \$0.3 million to terminated employees. The total number of employees increased to 186 as of June 30, 2006 from 177 as of June 30, 2005.

Table of Contents

Depreciation and Amortization. Depreciation and amortization expense results from the depreciation of fixed assets, which consist of computer hardware, furniture and fixtures, and the amortization of software, capitalized software development costs and leasehold improvements. Depreciation and amortization expense increased by \$0.7 million or 25.4% to \$3.3 million for the six months ended June 30, 2006 from \$2.6 million for the six months ended June 30, 2005. This increase was attributable to increased depreciation of computer and production hardware. For the six months ended June 30, 2006, we capitalized \$2.2 million of software development costs as compared to \$1.3 million for the comparable period in 2005.

Technology and Communications. Technology and communications expense consists primarily of costs for our network connections, data center hosting and data feeds provided by outside vendors and service providers. Technology and communications expense increased by \$0.4 million or 11.5% to \$3.8 million for the six months ended June 30, 2006 from \$3.4 million for the six months ended June 30, 2005. This increase was attributable to increased costs relating to market data and data center hosting.

Professional and Consulting Fees. Professional and consulting fees consist of fees paid for accounting and legal fees, information technology and non-information technology consultant costs. Professional and consulting fees increased by \$0.4 million or 8.9% to \$5.0 million for the six months ended June 30, 2006 from \$4.6 million for the six months ended June 30, 2005. This increase was primarily due to additional audit and tax costs.

Marketing and Advertising. Marketing and advertising expense consists primarily of print and other advertising expenses we incur to promote our products and services. This expense also includes costs associated with attending or exhibiting at industry-sponsored seminars, conferences and conventions. Also included in this expense are travel and entertainment expenses incurred by our sales force to promote our trading platform and information services. Marketing and advertising expense decreased by \$0.4 million or 33.3% to \$0.9 million for the six months ended June 30, 2006 from \$1.3 million for the six months ended June 30, 2005. This decrease was primarily due to a reduction in advertising expenditures.

General and Administrative. General and administrative expense consists primarily of occupancy and utilities, general travel and entertainment, staff training, board of directors costs and various state franchise and U.K. value-added taxes. General and administrative expense increased by \$1.3 million or 51.8% to \$3.8 million for the six months ended June 30, 2006 from \$2.5 million for the comparable period in 2005. This increase was due to an increase in state and local franchise taxes, travel and entertainment costs and board of directors costs.

Provision for Income Tax

For the six months ended June 30, 2006, we recorded an income tax provision of \$0.9 million. The provision consists principally of \$0.4 million in federal taxes, \$0.2 million in state and local taxes and \$0.3 million in foreign taxes.

For the six months ended June 30, 2005, we recorded an income tax provision of \$3.3 million. The provision consists principally of \$1.9 million in federal taxes, \$0.7 million in state and local taxes and \$0.6 million in foreign taxes.

For the six months ended June 30, 2006 and 2005, with the exception of the payment of certain state and local taxes, the provision for income taxes was a non-cash expense since the Company had available net operating loss carryforwards and tax credits to offset the cash payment of taxes.

Our consolidated effective tax rate can vary from period to period depending on, among other factors, the geographic and business mix of our earnings.

Critical Accounting Policies and Estimates

On January 1, 2006, we adopted SFAS 123R, as disclosed in more detail in *Expense Trends* in this Management Discussion and Analysis of Financial Condition and Results of Operations.

In January 2006, the Company changed its capitalization policy for furniture, equipment and leasehold improvements, lowering the threshold for capitalizing such purchases from \$10,000 to \$2,000. The change was made to ensure consistency between the financial accounting and tax treatment for these purchases. For the three and six months ended June 30, 2006, the Company capitalized \$77,000 and \$160,000, respectively that would have been expensed under the old capitalization policy.

There were no other significant changes to our critical accounting policies and estimates during the three and six months ended June 30, 2006, as compared to those we disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2005.

Segment Results

As an electronic, multi-dealer to client platform for trading fixed-income securities, our operations constitute a single business segment pursuant to SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information. Because of the highly integrated nature of the financial markets in which we compete and the integration of our worldwide business activities, we believe that results by geographic region, products or types of clients are not necessarily meaningful in understanding our business.

Table of Contents**Liquidity and Capital Resources**

Our cash flows for the periods presented below were as follows:

	Six Months Ended June 30,	
	2006	2005
	(In thousands)	
Net cash provided by operating activities	\$ 612	\$ 3,425
Net cash (used in) investing activities	(8,980)	(65,068)
Net cash provided by financing activities	1,620	1,659
Effect of exchange rate differences	(150)	(38)
 Net decrease for the period	 \$ (6,898)	 \$ (60,022)

Operating Activities

Net cash provided by operating activities was \$0.6 million and \$3.4 million for the six months ended June 30, 2006 and 2005, respectively.

Net cash provided by operating activities of \$0.6 million for the six months ended June 30, 2006 consisted of net income of \$1.9 million, adjusted for non-cash charges, primarily consisting of \$0.2 million of deferred taxes, \$3.3 million for depreciation and amortization and \$3.3 million for compensation expense related to issuance of stock options and restricted stock to employees, directors and consultants. These non-cash charges were offset by a decrease in cash used for working capital of \$8.1 million, primarily as a result of the payment of annual incentive bonuses of \$11.0 million in January 2006.

Net cash provided by operating activities of \$3.4 million for the six months ended June 30, 2005 consisted of net income of \$4.9 million, adjusted for non-cash charges, primarily consisting of \$2.6 million for depreciation and amortization and \$0.8 million for compensation expense related to issuance of stock options and restricted stock to employees, directors and consultants. These non-cash charges were offset by a decrease in cash used for working capital of \$8.2 million, primarily as a result of the payment of annual incentive bonuses of \$10.9 million in January 2005.

Investing Activities

Net cash used in investing activities was \$9.0 million and \$65.1 million for the six months ended June 30, 2006 and 2005, respectively.

Net cash used in investing activities of \$9.0 million for the six months ended June 30, 2006 consisted of \$44.5 million in purchases of Securities available-for-sale, purchases of furniture, equipment and leasehold improvements of \$1.9 million and capitalization of software development costs of \$2.2 million, offset by proceeds of \$40.0 million from sales of Securities available-for-sale.

Net cash used in investing activities of \$65.1 million for the six months ended June 30, 2005 consisted of investment of our proceeds from our initial public offering into \$65.2 million in Securities available-for-sale and \$4.0 million in Securities held-to-maturity, proceeds from maturities of short-term investments of \$5.8 million, purchases of furniture, equipment and leasehold improvements of \$0.4 million and capitalization of software development costs of \$1.4 million.

Financing Activities

Net cash provided by financing activities was \$1.6 million and \$1.7 million for the six months ended June 30, 2006 and 2005, respectively.

Financing activities in 2006 and 2005 primarily consisted of proceeds from the exercise of stock options.

Past trends of cash flows are not necessarily indicative of future cash flow levels. A decrease in cash flows may have a material adverse effect on our liquidity, business and financial condition.

Other Factors Influencing Liquidity and Capital Resources

At June 30, 2006, we had Cash and cash equivalents of \$51.3 million, a decrease of \$6.9 million compared to \$58.2 million at December 31, 2005. The decrease in Cash and cash equivalents is primarily the result of the payment

of annual incentive bonuses in January 2006. As of June 30, 2006, Cash and cash equivalents represented 27.1% of our total assets, compared to 30.6% at December 31, 2005.

We are dependent on our broker-dealer clients, nine of which were also our stockholders as of January 1, 2006, who are not restricted from buying and selling fixed-income securities, directly or through their own proprietary or third-party platforms, with institutional investors. None of our broker-dealer clients is contractually or otherwise obligated to continue to use our electronic trading platform. The loss of, or a significant reduction in the use of our electronic platform by, our broker-dealer clients could reduce our cash flows, affect our liquidity and have a material adverse effect on our business, financial condition and results of operations.

We believe that our current resources are adequate to meet our liquidity needs and capital expenditure requirements for at least the next 12 months. However, our future liquidity and capital requirements will depend on a number of factors, including expenses associated with product development and expansion and new business opportunities that are intended to further diversify our revenue stream. We may also acquire or invest in technologies, business ventures or products that are complementary to our business. In the event we require any additional financing, it will take the form of equity or debt financing. Any additional equity offerings may result in dilution to our stockholders. Any

Table of Contents

debt financings may involve restrictive covenants with respect to dividends, issuances of additional capital and other financial and operational matters related to our business.

Our two major operating subsidiaries are MarketAxess Corporation and MarketAxess Europe Limited. MarketAxess Corporation is a registered broker-dealer in the U.S. and MarketAxess Europe Limited is a registered alternative trading system in the U.K. As such, they are subject to minimum regulatory capital requirements imposed by their respective market regulators that are intended to ensure general financial soundness and liquidity based on certain minimum capital requirements. The U.S. and the U.K. regulations prohibit a registered broker-dealer from repaying borrowings from its parent or affiliates, paying cash dividends, making loans to its parent or affiliates or otherwise entering into transactions that result in a significant reduction in its regulatory net capital position without prior notification to or approval from its principal regulator. The capital structures of our broker-dealer subsidiaries are designed to provide each with capital and liquidity consistent with its business and regulatory requirements. As of June 30, 2006, MarketAxess Corporation had net capital of \$10.0 million, which was \$9.4 million in excess of its required minimum net capital of \$0.6 million. MarketAxess Europe Limited had financial resources, as defined by the FSA, of \$13.9 million, which was \$10.1 million in excess of its required financial resources of \$3.8 million.

In the ordinary course of business, we enter into contracts that contain a variety of representations, warranties and general indemnifications. Our maximum exposure from any claims under these arrangements is unknown, as this would involve claims that have not yet occurred. However, based on past experience, we expect the risk of loss to be remote.

Effects of Inflation

Because the majority of our assets are liquid in nature, they are not significantly affected by inflation. However, the rate of inflation may affect our expenses, such as employee compensation, office leasing costs and communications expenses, which may not be readily recoverable in the prices of our services. To the extent inflation results in rising interest rates and has other adverse effects on the securities markets, it may adversely affect our financial position and results of operations.

Table of Contents**Item 3. *Quantitative and Qualitative Disclosures About Market Risk***

Market risk is the risk of loss resulting from adverse changes in market rates and prices, such as interest rates and foreign currency exchange rates.

Interest Rate Risk

Interest rate risk represents our exposure to interest rate changes with respect to the money market instruments and U.S. Treasury obligations in which we invest. We do not maintain an inventory of bonds that are traded on our platform and, except as described below and certain other limited exceptions, we do not act as principal to the bond transactions completed on our platform.

Our investment income from money market instruments, U.S. Treasury obligations and various securities was \$2.0 million for the six months ended June 30, 2006. Fluctuations in investment income are attributable to changes in our cash balances or holdings of U.S. Treasury securities and fluctuations in interest rates received on those balances or securities.

Derivative Risk

Our limited derivative risk stems from our activities in the foreign currency forward contract market. We use this market to mitigate our U.S. dollar versus Pound Sterling exposure that arises from the activities of our U.K. subsidiaries. As of June 30, 2006, the notional value of our foreign currency forward contracts was \$16.1 million with an unrealized loss of \$0.1 million. We do not speculate in any derivative instruments.

Principal Transaction Risk

Through our subsidiary, MarketAxess Corporation, we began executing riskless principal transactions between our broker-dealer clients in June 2006, in which we act as an intermediary by serving as counterparty to both a buyer and a seller in matching back-to-back trades. These transactions are then settled through a third-party clearing organization. Settlement typically occurs within one to three trading days after the trade date. Cash settlement of the transaction occurs upon receipt or delivery of the underlying instrument that was traded.

Riskless principal transactions expose us to risks. In executing riskless principal transactions, we are exposed to the risk that one of the counterparties to a transaction may fail to fulfill its obligations to settle a trade. Adverse movements in the prices of securities that are the subject of these transactions can increase our risk.

Where the unmatched position or failure to deliver is prolonged there may also be regulatory capital charges required to be taken by us.

Item 4. *Controls and Procedures*

(a) *Evaluation of Disclosure Controls and Procedures.* Our management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures, (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act)); as of June 30, 2006. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective to ensure that information required to be disclosed by MarketAxess in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and to ensure that information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) *Changes in Internal Control Over Financial Reporting.* There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and Rule 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2006 identified in connection with the evaluation thereof by our management, including the Chief Executive Officer and Chief Financial Officer, that materially affected, or are reasonably likely to affect, our internal control over financial reporting.

Table of Contents**PART II Other Information****Item 1. Legal Proceedings**

We are not currently a party to any material legal proceedings. We may be subject to various claims and legal actions arising in the ordinary course of business.

Item 1A. Risk Factors

Risks that could have a negative impact on our business, results of operations and financial condition include: our dependence on our broker-dealer clients, nine of which were also our stockholders as of January 1, 2006; the level and intensity of competition in the fixed-income electronic trading industry and the pricing pressures that may result; the variability of our growth rate; our limited operating history; the level of trading volume transacted on the MarketAxess platform; potential fluctuations in our operating results which may cause our stock price to decline; the absolute level and direction of interest rates and the corresponding volatility in the corporate fixed-income market; our ability to develop new products and offerings and the market's acceptance of those products; technology failures, security breaches or rapid technology changes that may harm our business; our ability to enter into strategic alliances and to acquire other businesses and successfully integrate them with our business; extensive government regulation; continuing international expansion that may present economic and regulatory challenges; and our future capital needs and our ability to obtain capital when needed. This list is intended to identify only certain of the principal factors that could have a material adverse impact on our business, results of operations and financial condition. A more detailed description of each of these and other important risk factors can be found under the caption "Risk Factors" in our most recent Form 10-K, filed on March 14, 2006.

Except as noted below, there have been no material changes to the risk factors described in the Form 10-K:

We are exposed to risks resulting from non-performance by counterparties to transactions executed between our broker-dealer clients in which we act as an intermediary in matching back-to back trades.

In June 2006, we began executing riskless principal transactions between our broker-dealer clients through our subsidiary, MarketAxess Corporation. We act as an intermediary in these transactions by serving as counterparty to both the buyer and the seller in matching back-to-back trades, which are then settled through a third-party clearing organization. Settlement typically occurs within one to three trading days after the trade date. Cash settlement of the transaction occurs upon receipt or delivery of the underlying instrument that was traded.

We are exposed to credit risk in our role as trading counterparty to our broker-dealer clients executing trades on the DealerAxess platform. We are exposed to the risk that third parties that owe us money, securities or other assets will not perform their obligations. These parties may default on their obligations to us due to bankruptcy, lack of liquidity, operational failure or other reasons. Adverse movements in the prices of securities that are the subject of these transactions can increase our risk. Where the unmatched position or failure to deliver is prolonged there may also be regulatory capital charges required to be taken by us. The policies and procedures we use to manage this credit risk are new and untested. There can be no assurance that these policies and procedures will effectively mitigate our exposure to credit risk.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

A total of 19,829,116 of the Company's shares of common stock were present or represented by proxy at the Company's Annual Meeting of Stockholders held on June 7, 2006 (the "2006 Annual Meeting"). This represented more than 78% of the Company's shares of common stock outstanding. The following management proposals were voted upon at the 2006 Annual Meeting and all were approved:

Table of Contents

Proposal 1 Election of Directors.

The results were as follows:

Director Nominee	For	Against
Richard M. McVey	19,453,053	376,073
