Item 2.05 Costs Associated with Exit or Disposal Activities.

On December 16, 2008, as part of the previously announced strategic initiatives and manufacturing optimization program of the Lawn and Garden Segment (the Segment) of Myers Industries, Inc. (the Company), the Board of Directors of the Company approved the implementation of a realignment of certain of the Segment's manufacturing assets (the Realignment). Under the terms of the Realignment, manufacturing facilities in each of Sparks, Nevada, Surrey, British Columbia, and Brantford, Ontario will be permanently closed and certain of the production capabilities and product lines at each of these facilities will be shifted to the Segment's other five remaining manufacturing facilities in North America. The Realignment is expected to result in approximately \$20 million in annualized pre-tax savings beginning in the third quarter of 2009, after all program initiatives have been implemented.

Production at the facility in Sparks, Nevada is expected to cease by March 2009. Production at the facility in Surrey, British Columbia is expected to cease by July 2009. Production at the facility in Brantford, Ontario is expected to cease by March 2009. The Realignment is expected to result in a reduction of approximately 200 positions. The Company expects to incur costs of approximately \$29 to \$32 million in connection with the Realignment, of which \$23 to \$26 million is expected to be non-cash items. The full text of the press release issued in connection with this announcement on December 17, 2008 is attached as Exhibit 99.1 to this Current Report on Form 8-K.

Item 9.01. Exhibit.

(d) Exhibit The following exhibit is furnished as part of this Current Report on Form 8-K:

99.1 Press Release dated December 17, 2008.
