Oxford Industries, Inc. (the Company) is furnishing presentation materials, included as Exhibit 99.1 to this Form 8-K and incorporated herein by reference, which the Company will be presenting at investor meetings in Boston, Massachusetts on October 21, 2009. The Company disclaims any intention, obligation or duty to update this presentation and cautions that it is only accurate on the date of this Current Report on Form 8-K. The inclusion of any data or statements in this presentation does not signify that the information is considered material.

Cautionary Statements Regarding Forward-Looking Statements

Various statements in this Form 8-K (including Exhibit 99.1) include forward-looking statements about future events. Generally, the words believe, expect, intend, estimate, anticipate, project, will and similar expressions identify forward-looking statements, which generally are not historical in nature. The Company intends for all such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (which Sections were adopted as part of the Private Securities Litigation Reform Act of 1995). Important assumptions relating to these forward-looking statements include, among others, assumptions regarding the impact on consumer demand and spending of recent and future economic conditions, demand for the Company's products, timing of shipments requested by the Company's wholesale customers, expected pricing levels, competitive conditions, the timing and cost of planned capital expenditures, costs of products and raw materials the Company purchases, access to capital and/or credit markets, particularly in light of recent conditions in those markets, expected outcomes of pending or potential litigation and regulatory actions and disciplined execution by key management. Forward-looking statements reflect the Company's current expectations, based on currently available information, and are not guarantees of performance. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, these expectations could prove inaccurate as such statements involve risks and uncertainties, many of which are beyond the Company's ability to control or predict. Should one or more of these risks or uncertainties, or other risks or uncertainties not currently known to the Company or that the Company currently deems to be immaterial, materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. Readers are encouraged to review the information in the Company's Form 10-Q for the quarterly period ended August 1, 2009 under the heading Risk Factors (and those described from time to time in the Company's future reports filed with the Securities and Exchange Commission), which contains additional important factors that may cause the Company's actual results to differ materially from those projected in any forward-looking statements. The Company disclaims any intention, obligation or duty to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
