FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents we incorporate by reference in this prospectus supplement and the accompanying prospectus contain forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 that relate to future events or our future financial performance. Statements containing words such as anticipate, believe, could, estimate, expect, intend, may, similar expressions constitute forward-looking statements. These statements are based on certain factors and assumptions as set forth in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein and therein, including expectations regarding foreign exchange rates, results of operations, business prospects, growth and opportunities, and effective income tax rates. We consider these factors and assumptions to be reasonable based on information currently available.

We disclaim any obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Forward-looking statements are subject to important risks and uncertainties that are difficult to predict. The results or events predicted in forward-looking statements may differ materially from actual results or events. Some of the factors that could cause actual results or events to differ from current expectations include the following, some of which are described in greater detail in the documents that are incorporated by reference into this prospectus supplement and the accompanying prospectus:

variances from our assumptions with respect to foreign exchange rates, results of operations, business prospects, growth and opportunities and effective income tax rates;

fluctuations in supply and demand for fertilizer, including fluctuations as a result of economic or political conditions in our markets, which, among other things, can cause volatility in the prices of our fertilizer products;

volatility in the price of natural gas, which is the primary raw material used for our nitrogen products, and risks associated with our continued ability to manage natural gas costs in the United States through hedging activities;

fluctuations in the prices and availability of other raw materials, including sulfur, which is a primary input in our phosphate operations;

fluctuations in the cost and availability of transportation and distribution for our raw materials and products, including railcars and ocean freight;

changes in competitive pressures, including pricing pressures;

the results of sales contract negotiations with China and India;

timing and amount of capital expenditures;

changes in capital markets and corresponding effects on the Company's investments, and changes in currency and exchange rates;

unexpected or adverse weather conditions, which can impact demand for fertilizer and timing of fertilizer sales during the year;

unexpected geological conditions, including water inflows;

imprecision in reserve estimates;

the outcome of legal proceedings;

strikes or other forms of work stoppage or slowdown;

changes in, and the effects of, government policy and regulations, including environmental regulations and regulations and actions affecting our transportation and sale of natural gas, which could increase our costs of compliance and otherwise affect our business;

acquisitions we may undertake in the future; and

earnings, exchange rates and the decisions of taxing authorities, all of which could affect our effective tax rates.

RISK FACTORS

You should carefully consider all the information included in this prospectus supplement, the accompanying prospectus and the documents filed with the Commission that are incorporated by reference herein and therein and, in particular, the risks described below and the risk factors of PotashCorp in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, which is incorporated by reference herein, before making an investment decision. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations, and the risks described below and in the documents incorporated by reference may also adversely affect our business in ways we have not described or do not currently anticipate. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. In such case, you may lose all or part of your original investment.

The notes are unsecured and are subordinated to all of our existing and future secured indebtedness.

The notes are unsecured and effectively subordinated in right of payment to all of our existing and future secured indebtedness, to the extent of the value of the assets securing such indebtedness. The indenture for the notes does not restrict our ability to incur additional indebtedness, including secured indebtedness generally, which would have a prior claim on the assets securing that indebtedness. In the event of our insolvency, bankruptcy, liquidation, reorganization, dissolution or winding up, our assets that serve as collateral for any secured indebtedness would be made available to satisfy the obligations to our secured creditors before any payments are made on the notes. See Description of Debt Securities General in the accompanying prospectus.

The notes are effectively subordinated to all liabilities of our subsidiaries.

None of our subsidiaries has guaranteed or otherwise become obligated with respect to the notes. Accordingly, our right to receive assets from any of our subsidiaries upon its bankruptcy, liquidation or reorganization, and the right of holders of the notes to participate in those assets, is effectively subordinated to claims of that subsidiary's creditors, including trade creditors.

We have made only limited covenants in the indenture for the notes.

The indenture for the notes does not:

establish a sinking fund for the notes;

require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flows or liquidity and, accordingly, does not protect holders of the notes in the event that we incur operating losses;

limit our subsidiaries' ability to incur secured indebtedness generally or indebtedness that would effectively rank senior to the notes;

limit our ability to incur any indebtedness, including secured indebtedness generally or any indebtedness that is equal in right of payment to the notes;

restrict our subsidiaries' ability to issue securities that would be senior to the common stock of our subsidiaries held by us;

restrict our ability to repurchase our securities;

restrict our ability generally to pledge our assets or those of our subsidiaries; or

restrict our ability to make investments or to pay dividends or make other payments in respect of our common shares or other securities ranking junior to the notes.

The notes have no prior public market and we cannot assure you that any public market will develop or be sustained after the offering.

The notes are new issues of securities with no established trading markets. We do not intend to apply for listing of the notes of either series on any national securities exchange or for quotation of the notes of either series on any

S-6

Table of Contents

automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes of each series after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure you that active trading markets for the notes will develop, be maintained or be liquid. If active trading markets for the notes do not develop, are not maintained or are not liquid, the market prices of the notes may be adversely affected.

We may be unable to repurchase the notes upon a Change of Control Triggering Event.

Upon the occurrence of a Change of Control Triggering Event (as defined herein) with respect to a particular series of notes, subject to certain conditions, we will be required to make an offer to repurchase all outstanding notes of such series at 101% of their principal amount, plus accrued and unpaid interest. See Description of the Notes Change of Control in this prospectus supplement. The source of funds for such a repurchase will be our available cash or cash generated from our subsidiaries operations or other potential sources, including borrowings, sales of assets or sales of equity. We cannot assure you that sufficient funds from such sources will be available at the time of any Change of Control Triggering Event to make required repurchases of notes tendered. In addition, the terms of certain of our other existing indebtedness provide that certain change of control events will require us to make an offer to repurchase such outstanding indebtedness. Our future debt instruments may contain similar provisions. It is possible that we will not have sufficient funds at the time of the Change of Control Triggering Event to complete the required repurchase of the notes and, if applicable, our other indebtedness.

USE OF PROCEEDS

We estimate the net proceeds from the sale of the notes to be approximately \$ million after deducting underwriting discounts and commissions and expenses of the offering. We intend to use the net proceeds for general corporate purposes, including repurchases of our common shares pursuant to our previously announced \$2.0 billion share repurchase program.
