**ITEM 2.02 Results of Operations and Financial Condition**

On February 1, 2011, Pentair, Inc. (the Company) issued a press release announcing its earnings for the fourth quarter and full year 2010 and a conference call in connection therewith. A copy of the release is furnished herewith as Exhibit 99.1 and incorporated herein by reference.

This press release refers to certain non-GAAP financial measures (adjusted operating income, adjusted operating margins, adjusted earnings per share and free cash flow) and a reconciliation of those non-GAAP financial measures to the corresponding financial measures contained in the Company's financial statements prepared in accordance with generally accepted accounting principles.

The 2009 adjusted operating income, adjusted operating margins and adjusted earnings per share eliminate (i) certain expenses incurred to restructure certain operations of the Company by reducing capacity, closing facilities and reducing headcount as a result of the significant downturn in the global economy and (ii) charges related to intangible asset impairment. Management utilizes these adjusted financial measures to assess the run-rate of its continuing operations against those of prior periods without the distortion of these factors. The Company believes that these non-GAAP financial measures will be useful to investors as well to assess the continuing strength of the Company's underlying operations in light of the downturn in the residential end markets.

The Company uses free cash flow to assess its cash flow performance. The Company believes free cash flow is an important measure of operating performance because they provide the Company and its investors a measurement of cash generated from operations that is available to pay dividends and repay debt. In addition, free cash flow is used as criterion to measure and pay compensation-based incentives. The Company's measure of free cash flow may not be comparable to similarly titled measures reported by other companies.

The information contained in this Current Report shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into a filing under the Securities Act of 1933, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.
