**PART III NARRATIVE**

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, or the transition report portion thereof, could not be filed within the prescribed time period.

The registrant is not able, without unreasonable effort, to provide within the prescribed time period the information required for the disclosure and valuation of approximately \$7,500,000 in face value of short-term investments held by its Brookwood Companies subsidiary that are not classified as cash or cash equivalents. The registrant does not anticipate that the treatment of these investments will impact revenues or gross profit margins. The registrant also believes that the treatment of these investments will result in a classification from cash and cash equivalents to short-term investments and does not believe at this time that the treatment of these investments will materially affect net income, but cannot assure that there will be no material effect until the valuation of these items is completed.

If answer is no, identify report(s) Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? Yes  No   
If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

For the years ended December 21, 2010 and 2009, revenues were \$168.4 million and \$179.6 million, respectively. For the quarters ended December 31, 2010 and 2009, revenues were \$36.5 million and \$51.4 million, respectively. The lower revenues were principally due to reduced sales of specialty fabric to U.S. military subcontractors, which are cyclical in nature, as a result of reduced orders from the military to Brookwood's customers. The gross profit margin was 25.2% in 2010 versus 28.3% in 2009. The lower margin was principally attributable to the lower sales volume, changes in product mix and higher royalty costs, partially offset by manufacturing efficiencies.
