For the quarterly period ended May 31, 2011**

OR

**Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____**

INTERNATIONAL SPEEDWAY CORPORATION
(Exact name of registrant as specified in its charter)

FLORIDA
(State or other jurisdiction
of incorporation)

O-2384
(Commission
File Number)

59-0709342
(I.R.S. Employer
Identification No.)

**ONE DAYTONA BOULEVARD,
DAYTONA BEACH, FLORIDA**
(Address of principal executive offices)

32114
(Zip code)

Registrant's telephone number, including area code: **(386) 254-2700**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a
smaller reporting
company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practical date:

Class A Common Stock	27,392,499 shares	as of May 31, 2011
Class B Common Stock	20,284,935 shares	as of May 31, 2011

International Speedway Corporation
Notes to Consolidated Financial Statements
May 31, 2011
(Unaudited)

1. Basis of Presentation

The accompanying consolidated financial statements have been prepared in compliance with Rule 10-01 of Regulation S-X and accounting principles generally accepted in the United States but do not include all of the information and disclosures required for complete financial statements. The balance sheet at November 30, 2010, has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The statements should be read in conjunction with the consolidated financial statements and notes thereto included in the latest annual report on Form 10-K for International Speedway Corporation and its wholly-owned subsidiaries (the Company). In management's opinion, the statements include all adjustments which are necessary for a fair presentation of the results for the interim periods. All such adjustments are of a normal recurring nature.

Unless indicated otherwise, all disclosures in the notes to the consolidated financial statements relate to continuing operations.

Because of the seasonal concentration of racing events, the results of operations for the three and six months ended May 31, 2010 and 2011 are not indicative of the results to be expected for the year.

2. New Accounting Pronouncements

In September 2009, the Financial Accounting Standards Board (FASB) amended Accounting Standards Codification (ASC) 605, as summarized in Accounting Standards Update (ASU) 2009-13, Revenue Recognition: Multiple-Deliverable Revenue Arrangements . As summarized in ASU 2009-13, ASC Topic 605 has been amended: (1) to provide updated guidance on whether multiple deliverables exist, how the deliverables in an arrangement should be separated, and the consideration allocated; (2) to require an entity to allocate revenue in an arrangement using estimated selling prices of deliverables if a vendor does not have VSOE or third-party evidence of selling price; and (3) to eliminate the use of the residual method and require an entity to allocate revenue using the relative selling price method. The accounting changes in ASU 2009-13 are effective for fiscal years beginning on or after June 15, 2010, with early adoption permitted. Adoption may either be on a prospective basis or by retrospective application. The Company's adoption of this statement in fiscal 2011 did not have a material impact on its financial position and results of operations.

In June 2011, FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income . The objective of this Update is to improve the comparability, consistency, and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. To increase the prominence of items reported in other comprehensive income and to facilitate convergence of U.S. generally accepted accounting principles and International Financial Reporting Standards, the FASB decided to eliminate the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity, among other amendments in this Update. The amendments require that all nonowner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income, the components of other comprehensive income, and the total of comprehensive income. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted, because compliance with the amendments is already permitted. The amendments do not require any transition disclosures. The Company is currently evaluating the potential impact that the adoption of this statement will have on its financial position and results of operations and will adopt the provision of this statement in fiscal 2012.

Table of Contents**3. Earnings Per Share**

The following table sets forth the computation of basic and diluted earnings per share for the three and six months ended May 31, 2010 and 2011 (in thousands, except share and per share amounts):

	Three Months Ended		Six Months Ended	
	May 31, 2010	May 31, 2011	May 31, 2010	May 31, 2011
Basic and diluted:				
Income from continuing operations	\$ 10,262	\$ 11,873	\$ 35,749	\$ 33,308
Loss from discontinued operations			(47)	
Net income	\$ 10,262	\$ 11,873	\$ 35,702	\$ 33,308
Basic earnings per share denominator:

Weighted average shares outstanding	48,283,480	47,795,906	48,352,422	47,913,025
Common stock options	3,574	11,304	2,174	8,696
Diluted weighted average shares outstanding	48,287,054	47,807,210	48,354,596	47,921,721
Diluted earnings per share:				
Income from continuing operations	\$ 0.21	\$ 0.25	\$ 0.74	\$ 0.70
Loss from discontinued operations			0.00	
Net income	\$ 0.21	\$ 0.25	\$ 0.74	\$ 0.70
Anti-dilutive shares excluded in the computation of diluted earnings per share	259,827	256,254	265,708	262,676

4. Equity and Other Investments

Hollywood Casino at Kansas Speedway

In February 2010, Kansas Entertainment, LLC, (Kansas Entertainment) a 50/50 joint venture of Penn Hollywood Kansas, Inc. (Penn), a subsidiary of Penn National Gaming, Inc. and Kansas Speedway Development Corporation (KSDC), a wholly owned indirect subsidiary of ISC, received the final approval under the Kansas Expanded Lottery Act, along with its gaming license from the Kansas Racing and Gaming Commission to proceed with the construction of the Hollywood-themed and branded entertainment destination facility, overlooking turn two of Kansas Speedway. Kansas Entertainment began construction of the facility in April 2010 and has a planned opening in the first quarter of 2012.

Table of Contents

The initial phase of this project, including certain changes to the scope and mix of gaming operations and amenities approved by the Kansas Lottery Commission in August 2010, features an 82,000 square foot casino with 2,000 slot machines and 52 table games (including 12 poker tables), a 1,253 space parking structure as well as a sports-themed bar, dining and entertainment options. Kansas Entertainment anticipates funding the initial phase of the development with equity contributions from each partner and potentially third party financing. KSDC and Penn will share equally in the cost of developing and constructing the facility. The Company currently estimates that its share of capitalized development costs for the project, excluding its contribution of land, will be approximately \$155.0 million. Through May 31, 2011, the Company has funded approximately \$59.4 million of these capitalized development costs to Kansas Entertainment and expects to fund the remaining amount through the opening of the casino in fiscal 2012. In addition, the Company expects to continue to incur certain other start up and related costs through opening, which will be expensed through equity in net loss from equity investments. Penn is the managing member of Kansas Entertainment and is responsible for the development and operation of the casino.

The Company has accounted for Kansas Entertainment as an equity investment in its financial statements as of May 31, 2011. The Company's 50.0 percent portion of Kansas Entertainment's net loss was approximately \$0.5 million and \$0.7 million for the three months ended May 31, 2010 and 2011, respectively, and approximately \$1.5 million and \$1.0 million for the six months ended May 31, 2010 and 2011, respectively, related to certain start up costs, and is included in equity in net loss from equity investments in its consolidated statements of operations.

Staten Island Property

In connection with the Company's efforts to develop a major motorsports entertainment facility in the New York metropolitan area, its wholly owned indirect subsidiary, 380 Development, LLC (380 Development), purchased a total of 676 acres located in the New York City borough of Staten Island in early fiscal 2005 and began improvements including fill operations on the property. In December 2006, the Company announced its decision to discontinue pursuit of the speedway development on Staten Island.

In October 2009, the Company entered into, and subsequently amended, an agreement (Agreement) with KB Marine Holdings LLC (KB Holdings) under which KB Holdings would acquire 100 percent of the outstanding equity membership interests of 380 Development. Upon execution of the Agreement, ISC received a non-refundable \$1.0 million payment. The most recent amendment reflected a total purchase price of approximately \$88.0 million. The Company expected that the proceeds from the sale, net of applicable broker commissions and other closing costs would have resulted in an immaterial gain on the transaction upon closing.

On December 6, 2010, the Company announced the termination of the amended Agreement with KB Holdings for the sale of the interests in 380 Development. KB Holdings did not fulfill the terms of the amended Agreement to close the transaction on or before November 30, 2010. The Company is currently pursuing further discussions with KB Holdings as well as alternative buyers for the interests in 380 Development.

On March 30, 2011, the New York State Department of Environmental Conservation (DEC) published for public comment a series of documents, including an Engineering Work Plan, which will allow the property to be filled. The DEC received comments and is finalizing the documents. The DEC may approve the Engineering Work Plan, as well as a Modified Order on Consent and other related documents. This step will allow the property to be filled and remaining environmental remediation to be completed, both of which are necessary precursors for commercial development of the property. The Company believes this is an important step in the development of the property and its potential to bring jobs and economic development to Staten Island. Currently the Company does not anticipate filling activities to commence until after it has sold its interest in 380 Development.

Motorsports Authentics

The Company is a partner with Speedway Motorsports, Inc. in a 50/50 joint venture, SMISC, LLC, which, through its wholly owned subsidiary Motorsports Authentics, LLC conducts business under the name Motorsports Authentics (MA). MA designs, promotes, markets and distributes motorsports licensed merchandise.

The Company has a guaranty exposure, to one NASCAR team licensor which will be satisfied upon MA making certain payments to the team through January 2013. In April 2011, MA made a payment to the team effectively reducing the Company's guaranty exposure to approximately \$2.5 million as of May 31, 2011. While it is possible that some obligation under this guarantee may occur in the future, the amount it will ultimately pay cannot be estimated at

this time. In any event, the Company does not believe that the ultimate financial outcome will have a material impact on its financial position or results of operations.

The Company's investment in MA was previously reduced to zero and it did not recognize any net income or loss from operations of MA during the three and six months ended May 31, 2010 or 2011, respectively.

Table of Contents**5. Goodwill and Intangible Assets**

The gross carrying value, accumulated amortization and net carrying value of the major classes of intangible assets relating to the Motorsports Event segment are as follows (in thousands):

	November 30, 2010		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:			
Food, beverage and merchandise contracts	\$ 10	\$ 7	\$ 3
Total amortized intangible assets	10	7	3
Non-amortized intangible assets:			
NASCAR sanction agreements	177,813		177,813
Other	793		793
Total non-amortized intangible assets	178,606		178,606
Total intangible assets	\$ 178,616	\$ 7	\$ 178,609

	May 31, 2011		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:			
Food, beverage and merchandise contracts	\$ 10	\$ 7	\$ 3
Total amortized intangible assets	10	7	3
Non-amortized intangible assets:			
NASCAR sanction agreements	177,813		177,813
Other	793		793
Total non-amortized intangible assets	178,606		178,606
Total intangible assets	\$ 178,616	\$ 7	\$ 178,609

The following table presents current and expected amortization expense of the existing intangible assets as of May 31, 2011 for each of the following periods (in thousands):

Amortization expense for the six months ended May 31, 2011	\$0
Estimated amortization expense for the year ending November 30:	
2011	1
2012	1
2013	1

There were no changes in the carrying value of goodwill during the three and six months ended May 31, 2011.

Table of Contents**6. Long-Term Debt**

Long-term debt consists of the following (in thousands):

	November 30, 2010	May 31, 2011
5.4 percent Senior Notes	\$ 87,018	\$ 87,022
4.6 percent Senior Notes		65,000
4.8 percent Revenue Bonds	1,541	1,403
6.8 percent Revenue Bonds	1,180	590
6.3 percent Term Loan	50,994	50,832
TIF bond debt service funding commitment	63,557	63,593
Revolving Credit Facility	102,000	20,000
	306,290	288,440
Less: current portion	3,216	2,643
	\$303,074	\$285,797

The Company has registered senior notes (the 5.4 percent Senior Notes) which bear interest at 5.4 percent and are due April 2014, which require semi-annual interest payments on April 15 and October 15 through their maturity. The 5.4 percent Senior Notes may be redeemed in whole or in part, at the Company's option, at any time or from time to time at redemption prices as defined in the indenture. Certain of the Company's wholly owned domestic subsidiaries are guarantors of the 5.4 percent Senior Notes. The 5.4 percent Senior Notes also contain various restrictive covenants. At May 31, 2011, outstanding unsecured 5.4 percent Senior Notes totaled approximately \$87.0 million, net of unamortized discounts.

In June 2008, the Company entered into an interest rate swap agreement to effectively lock in a substantial portion of the interest rate exposure on approximately \$150.0 million notional amount in anticipation of refinancing the \$150.0 million of senior notes that matured in April 2009. This interest rate swap was designated and qualified as a cash flow hedge under ASC 815, Accounting for Derivatives and Hedging. As a result of the uncertainty with the U.S. credit markets, in February 2009, the Company amended and re-designated its interest rate swap agreement as a cash flow hedge with an expiration in February 2011. During fiscal 2010, based on its current financial position and reduction in the anticipated debt issuance from \$150.0 million to \$65.0 million, the Company discontinued this cash flow hedge and settled the related liability. As a result of these transactions the Company recognized expense associated with this interest rate swap of approximately \$1.2 million and \$2.5 million, for the three and six months ended May 31, 2010, respectively, which is recorded as interest rate swap expense on the consolidated statement of operations. At May 31, 2011, the Company has approximately \$6.3 million, net of tax, deferred in accumulated other comprehensive loss associated with this interest rate swap which is being amortized as interest expense over life of the private placement completed in January 2011 (see below). The Company expects to recognize approximately \$1.1 million of this balance during the next 12 months in the consolidated statement of operations.

In January 2011, the Company completed an offering of approximately \$65.0 million principal amount of senior unsecured notes in a private placement (4.6 percent Senior Notes). These notes, which bear interest at 4.6 percent and are due January 2021, require semi-annual interest payments on January 18 and July 18 through their maturity. The 4.6 percent Senior Notes may be redeemed in whole or in part, at the Company's option, at any time or from time to time at redemption prices as defined in the indenture. Certain of the Company's wholly owned domestic subsidiaries are guarantors of the 4.6 percent Senior Notes. The 4.6 percent Senior Notes also contain various restrictive covenants. The deferred financing fees, along with the aforementioned deferred interest rate swap balance included in accumulated other comprehensive loss, are treated as additional interest expense and are being amortized over the life of the 4.6 percent Senior Notes, on a straight-line method, which approximates the effective yield method. At May 31,

2011, outstanding principal on the 4.6 percent Senior Notes was approximately \$65.0 million.

The Company's wholly owned subsidiary, Raceway Associates, LLC, which owns and operates Chicagoland Speedway and Route 66 Raceway, has the following debt outstanding at May 31, 2010:

Revenue bonds payable (4.8 percent Revenue Bonds) consisting of economic development revenue bonds issued by the City of Joliet, Illinois to finance certain land improvements. The 4.8 percent Revenue Bonds have an interest rate of 4.8 percent and a monthly payment of \$29,000 principal and interest. At May 31, 2011, outstanding principal on the 4.8 percent Revenue Bonds was approximately \$1.4 million.

Table of Contents

Revenue bonds payable (6.8 percent Revenue Bonds) that are special service area revenue bonds issued by the City of Joliet, Illinois to finance certain land improvements. The 6.8 percent Revenue Bonds are billed and paid as a special assessment on real estate taxes. Interest payments are due on a semi-annual basis at 6.8 percent with principal payments due annually. Final maturity of the 6.8 percent Revenue Bonds is January 2012. At May 31, 2011, outstanding principal on the 6.8 percent Revenue Bonds was approximately \$0.6 million.

The term loan (6.3 percent Term Loan), in connection with the construction of the Company's International Motorsports Center, has a 25 year term due October 2034, an interest rate of 6.3 percent, and a current monthly payment of approximately \$292,000. At May 31, 2011, the outstanding principal on the 6.3 percent Term Loan was approximately \$50.8 million.

At May 31, 2011, outstanding taxable special obligation revenue (TIF) bonds, in connection with the financing of construction of Kansas Speedway, totaled approximately \$63.6 million, net of the unamortized discount, which is comprised of a \$15.9 million principal amount, 6.2 percent term bond due December 1, 2017 and a \$49.7 million principal amount, 6.8 percent term bond due December 1, 2027. The TIF bonds are repaid by the Unified Government of Wyandotte County/Kansas City, Kansas (Unified Government) with payments made in lieu of property taxes (Funding Commitment) by the Company's wholly owned subsidiary, Kansas Speedway Corporation (KSC). Principal (mandatory redemption) payments per the Funding Commitment are payable by KSC on October 1 of each year. The semi-annual interest component of the Funding Commitment is payable on April 1 and October 1 of each year. KSC granted a mortgage and security interest in the Kansas project for its Funding Commitment obligation.

In November 2010, the Company entered into a \$300.0 million revolving credit facility (2010 Credit Facility). The 2010 Credit Facility contains a feature that allows the Company to increase the credit facility to a total of \$500.0 million, subject to certain conditions. Upon execution of the 2010 Credit Facility, the Company terminated its then existing \$300.0 million revolving credit facility. The 2010 Credit Facility is scheduled to mature in November 2015, and accrues interest at LIBOR plus 150.0 – 225.0 basis points, depending on the better of the Company's debt rating as determined by specified rating agencies or the Company's leverage ratio. The 2010 Credit Facility contains various restrictive covenants. At May 31, 2011, the Company had approximately \$20.0 million outstanding under the 2010 Credit Facility.

Total interest expense from continuing operations incurred by the Company was approximately \$3.9 million and \$3.8 million for the three months ended May 31, 2010 and 2011, respectively, and approximately \$8.2 million and \$7.7 million for the six months ended May 31, 2010 and 2011, respectively. Total interest capitalized for the three months ended May 31, 2010 and 2011 was approximately \$0.5 million and \$0.9 million, respectively, and approximately \$0.8 million and \$1.5 million for the six months ended May 31, 2010 and 2011, respectively.

Financing costs of approximately \$5.1 million and \$5.2 million, net of accumulated amortization, have been deferred and are included in other assets at November 30, 2010 and May 31, 2011, respectively. These costs are being amortized on a straight-line method, which approximates the effective yield method, over the life of the related financing.

7. Financial Instruments

Various inputs are considered when determining the carrying values of cash and cash equivalents, accounts receivable, short-term investments, accounts payable, and accrued liabilities which approximate fair value due to the short-term maturities of these assets and liabilities. These inputs are summarized in the three broad levels listed below:

- Level 1 – observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

At May 31, 2011, the Company had money market funds totaling approximately \$65.2 million which are included in cash and cash equivalents in its consolidated balance sheets. All inputs used to determine fair value are considered level 1 inputs.

Fair values of long-term debt are based on quoted market prices at the date of measurement. The Company's credit facilities approximate fair value as they bear interest rates that approximate market. These inputs used to determine fair value are considered level 2 inputs. The fair value of the remaining long-term debt, as determined by quotes from financial institutions, was approximately \$203.6 million compared to the carrying amount of approximately \$204.3 million and approximately \$271.1 million compared to the carrying amount of approximately \$268.4 million at November 30, 2010 and May 31, 2011, respectively.

The Company had no level 3 inputs as of May 31, 2011.

Table of Contents**8. Capital Stock***Stock Purchase Plan*

The Company has a share repurchase program (*Stock Purchase Plan*) under which it is authorized to purchase up to \$250.0 million of its outstanding Class A common shares. The timing and amount of any shares repurchased under the *Stock Purchase Plan* will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability and other market conditions. The *Stock Purchase Plan* may be suspended or discontinued at any time without prior notice. No shares have been or will be knowingly purchased from Company insiders or their affiliates.

Since inception of the *Stock Purchase Plan* through May 31, 2011, the Company has purchased 5,630,481 shares of its Class A common shares, for a total of approximately \$232.8 million. Included in these totals are the purchases of 407,868 shares of its Class A common shares during the six months ended May 31, 2011, at an average cost of approximately \$29.41 per share (including commissions), for a total of approximately \$12.0 million. These transactions occurred in open market purchases and pursuant to a trading plan under Rule 10b5-1. At May 31, 2011, the Company has approximately \$17.2 million remaining repurchase authority under the current *Stock Purchase Plan*.

9. Long-Term Stock Incentive Plan

In May 2011, the Company awarded and issued a total of 50,798 restricted shares of the Company's Class A common shares to certain officers and managers under the Company's Long-Term Stock Incentive Plan (the *2006 Plan*). The shares of restricted stock awarded in May 2011, vest at the rate of 50.0 percent on the third anniversary of the award date and the remaining 50.0 percent on the fifth anniversary of the award date. The weighted average grant date fair value of these restricted share awards was \$30.60 per share. In accordance with ASC 718, *Compensation - Stock Compensation* the Company is recognizing stock-based compensation on its restricted shares awarded on the accelerated method over the requisite service period.

10. Income Taxes

As of May 31, 2011, in accordance with ASC 740, *Income Taxes*, the Company has a total liability of approximately \$6.8 million for uncertain tax positions, inclusive of tax, interest, and penalties. Of this amount, approximately \$5.1 million represents income tax liability for uncertain tax positions related to various state income tax matters. If the accrued liability was de-recognized, approximately \$3.3 million of taxes would impact the Company's consolidated statement of operations as a reduction to its effective tax rate. Included in the balance sheet at May 31, 2011 are approximately \$1.8 million of items of which, under existing tax laws, the ultimate deductibility is certain but for which the timing of the deduction is uncertain. Because of the impact of deferred income tax accounting, a deduction in a subsequent period would result in a deferred tax asset. Accordingly, upon de-recognition, the tax benefits associated with the reversal of these timing differences would have no impact, except for related interest and penalties, on the Company's effective income tax rate.

The Company recognizes interest and penalties related to uncertain tax positions as part of its provision for federal and state income taxes. As of May 31, 2011, the total amounts for accrued interest and penalties were approximately \$1.6 million and approximately \$0.1 million, respectively. If the accrued interest and penalties were de-recognized, approximately \$1.0 million would impact the Company's consolidated statement of operations as a reduction to its effective tax rate.

The Company continues to pursue settlements with the appropriate state tax authorities related to certain state tax issues, as well as in connection with our previously settled examination with the Internal Revenue Service, and on similar terms. The Company expects to pay between \$3.0 million and \$3.5 million in total to finalize all pending settlements with various states within the next 3 to 6 months. The Company believes that it has provided adequate reserves related to these various state matters including interest charges through May 31, 2011, and, as a result, does not expect that such an outcome would have a material adverse effect on results of operations.

The Company's effective income tax rate for the three and six months ended May 31, 2011 approximated the statutory income tax rate. The de-recognition of potential interest and penalties associated with certain state settlements as well as certain state credits accrued during the first quarter of fiscal 2010 are the principal causes of the decreased effective income tax rate for the three and six months ended May 31, 2010. As a result of these items, the Company's effective income tax rate decreased from the statutory income tax rate to approximately 34.7 percent and 26.8 percent for the

three and six months ended May 31, 2010.

Table of Contents**11. Related Party Disclosures and Transactions**

All of the racing events that take place during the Company's fiscal year are sanctioned by various racing organizations such as the American Historic Racing Motorcycle Association, the American Motorcyclist Association, the Automobile Racing Club of America, the American Sportbike Racing Association Championship Cup Series, the Federation Internationale de L'Automobile, the Federation Internationale Motocycliste, Grand American Road Racing Association, Historic Sportscar Racing, IZOD IndyCar Series, National Association for Stock Car Auto Racing (NASCAR), National Hot Rod Association, the Porsche Club of America, the Sports Car Club of America, the Sportscar Vintage Racing Association, the United States Auto Club and the World Karting Association. NASCAR, which sanctions many of the Company's principal racing events, is a member of the France Family Group which controls approximately 70.6 percent of the combined voting power of the outstanding stock of the Company, as of May 31, 2011, and some members of which serve as directors and officers of the Company. Standard NASCAR sanction agreements require racetrack operators to pay sanction fees and prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by NASCAR to participants in the events. Prize and point fund monies paid by the Company to NASCAR and its subsidiaries from continuing operations for disbursement to competitors, which are exclusive of NASCAR and its subsidiaries sanction fees, totaled approximately \$29.2 million for the three months ended May 31, 2010 and 2011, respectively, and \$58.3 million and \$56.9 million for the six months ended May 31, 2010 and 2011, respectively.

Under current agreements, NASCAR contracts directly with certain network providers for television rights to the entire NASCAR Sprint Cup, Nationwide and Camping World Truck series schedules. Under the terms of this arrangement, NASCAR retains 10.0 percent of the gross broadcast rights fees allocated to each NASCAR Sprint Cup, Nationwide and Camping World Truck series event as a component of its sanction fees. The promoter records 90.0 percent of the gross broadcast rights fees as revenue and then records 25.0 percent of the gross broadcast rights fees as part of its awards to the competitors. Ultimately, the promoter retains 65.0 percent of the net cash proceeds from the gross broadcast rights fees allocated to the event. The Company's television broadcast and ancillary rights fees from continuing operations received from NASCAR for the NASCAR Sprint Cup, Nationwide and Camping World Truck series events conducted at its wholly-owned facilities, and recorded as part of motorsports related revenue, were approximately \$61.0 million and \$65.8 million for the three months ended May 31, 2010 and 2011, respectively, and \$126.1 million and \$130.7 million for the six months ended May 31, 2010 and 2011, respectively.

12. Commitments and Contingencies

In October 2002, the Unified Government issued subordinate sales tax special obligation revenue bonds (2002 STAR Bonds) totaling approximately \$6.3 million to reimburse the Company for certain construction already completed on the second phase of the Kansas Speedway project and to fund certain additional construction. The 2002 STAR Bonds, which require annual debt service payments and are due December 1, 2022, will be retired with state and local taxes generated within the speedway's boundaries and are not the Company's obligation. KSC has agreed to guarantee the payment of principal and any required premium and interest on the 2002 STAR Bonds. At May 31, 2011, the Unified Government had approximately \$2.6 million outstanding on 2002 STAR Bonds. Under a keepwell agreement, the Company has agreed to provide financial assistance to KSC, if necessary, to support KSC's guarantee of the 2002 STAR Bonds.

In connection with the Company's automobile and workers' compensation insurance coverages and certain construction contracts, the Company has standby letter of credit agreements in favor of third parties totaling approximately \$4.0 million at May 31, 2011. At May 31, 2011, there were no amounts drawn on the standby letters of credit.

Current Litigation

The Company is from time to time a party to routine litigation incidental to its business. Management does not believe that the resolution of any or all of such litigation will have a material adverse effect on the Company's financial condition or results of operations.

Table of Contents**13. Segment Reporting**

The general nature of the Company's business is a motorsports themed amusement enterprise, furnishing amusement to the public in the form of motorsports themed entertainment. The Company's motorsports event operations consist principally of racing events at its major motorsports entertainment facilities. The reporting units within the motorsports segment portfolio are reviewed together as the nature of the products and services, the production processes used, the type or class of customer using our products and services, and the methods used to distribute our products or provide their services are consistent in objectives and principles, and predominately uniform and centralized throughout the Company. The Company's remaining reporting units, which are comprised of the radio network production and syndication of numerous racing events and programs, certain souvenir merchandising operations not associated with the promotion of motorsports events at the Company's facilities, construction management services, and financing and licensing operations are included in the All Other segment. The Company evaluates financial performance of the reporting units on operating profit after allocation of corporate general and administrative (G&A) expenses. Corporate G&A expenses are allocated to reporting units based on each reporting unit's net revenues to total net revenues.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. Intersegment sales are accounted for at prices comparable to unaffiliated customers. The following tables provide segment reporting of the Company for the three and six months ended May 31, 2010 and 2011 (in thousands):

	Three Months Ended May 31, 2010		
	Motorsports Event	All Other	Total
Revenues	\$ 132,912	\$ 9,945	\$ 142,857
Depreciation and amortization	16,349	2,076	18,425
Operating income	21,171	132	21,303
Capital expenditures	22,041	5,208	27,249
Total assets	1,648,836	299,938	1,948,774
Equity investments		26,673	26,673

	Three Months Ended May 31, 2011		
	Motorsports Event	All Other	Total
Revenues	\$ 130,878	\$ 8,445	\$ 139,323
Depreciation and amortization	17,259	1,775	19,034
Operating income	24,000	68	24,068
Capital expenditures	13,528	74	13,602
Total assets	1,644,827	314,127	1,958,954
Equity investments		64,891	64,891

	Six Months Ended May 31, 2010		
	Motorsports Event	All Other	Total
Revenues	\$ 278,471	\$ 16,892	\$ 295,363
Depreciation and amortization	32,584	4,200	36,784
Operating income (loss)	62,093	(1,038)	61,055
Capital expenditures	31,924	19,225	51,149

	Six Months Ended May 31, 2011		
	Motorsports Event	All Other	Total
Revenues	\$274,633	13,903	288,536

Operating income (loss)	64,750	(1,327)	63,423
Capital expenditures	22,407	2,894	25,301

Intersegment revenues were approximately \$0.7 million and \$0.6 million for the three months ended May 31, 2010 and 2011, respectively, and approximately \$1.2 million and \$1.1 million for the six months ended May 31, 2010 and 2011, respectively.

Table of Contents**14. Condensed Consolidating Financial Statements**

In connection with the 5.4 percent Senior Notes, the Company is required to provide condensed consolidating financial information for its subsidiary guarantors. Certain of the Company's wholly-owned domestic subsidiaries have, jointly and severally, fully and unconditionally guaranteed, to each holder of 5.4 percent Senior Notes and the trustee under the Indenture for the 5.4 percent Senior Notes, the full and prompt performance of the Company's obligations under the indenture and the 5.4 percent Senior Notes, including the payment of principal (or premium, if any) and interest on the 5.4 percent Senior Notes, on an equal and ratable basis.

The subsidiary guarantees are unsecured obligations of each subsidiary guarantor and rank equally in right of payment with all senior indebtedness of that subsidiary guarantor and senior in right of payment to all subordinated indebtedness of that subsidiary guarantor. The subsidiary guarantees are effectively subordinated to any secured indebtedness of the subsidiary guarantor with respect to the assets securing the indebtedness.

In the absence of both default and notice, there are no restrictions imposed by the Company's 2010 Credit Facility, 5.4 percent Senior Notes, or guarantees on the Company's ability to obtain funds from its subsidiaries by dividend or loan. The Company has not presented separate financial statements for each of the guarantors, because it has deemed that such financial statements would not provide the investors with any material additional information.

Included in the tables below, are condensed consolidating balance sheets as of November 30, 2010 and May 31, 2011, condensed consolidating statements of operations for the three and six months ended May 31, 2010 and 2011, and condensed consolidating statements of cash flows for the six months ended May 31, 2010 and 2011, of: (a) the Parent; (b) the guarantor subsidiaries; (c) the non-guarantor subsidiaries; (d) elimination entries necessary to consolidate Parent with guarantor and non-guarantor subsidiaries; and (e) the Company on a consolidated basis (in thousands).

Table of Contents**PART I. FINANCIAL INFORMATION****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Results of Operations****General**

The general nature of our business is a motorsports-themed amusement enterprise, furnishing amusement to the public in the form of motorsports-themed entertainment. We derive revenues primarily from (i) admissions to motorsports events and motorsports-themed amusement activities held at our facilities, (ii) revenue generated in conjunction with or as a result of motorsports events and motorsports-themed amusement activities conducted at our facilities, and (iii) catering, concession and merchandising services during or as a result of these events and amusement activities.

Admissions, net revenue includes ticket sales for all of our racing events and other motorsports activities and amusements, net of any applicable taxes.

Motorsports related revenue primarily includes television and ancillary media rights fees, promotion and sponsorship fees, hospitality rentals (including luxury suites, chalets and the hospitality portion of club seating), advertising revenues, royalties from licenses of our trademarks, parking and camping revenues, and track rental fees.

Food, beverage and merchandise revenue includes revenues from concession stands, direct sales of souvenirs, hospitality catering, programs and other merchandise and fees paid by third party vendors for the right to occupy space to sell souvenirs, concessions and catering at our motorsports entertainment facilities.

Direct expenses include (i) prize and point fund monies and National Association for Stock Car Auto Racing's (NASCAR) sanction fees, (ii) motorsports related expenses, which include labor, advertising, marketing, ticketing, costs of competition paid to sanctioning bodies other than NASCAR and other expenses associated with the promotion of all of our motorsports events and activities, and (iii) food, beverage and merchandise expenses, consisting primarily of labor and costs of goods sold.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. While our estimates and assumptions are based on conditions existing at and trends leading up to the time the estimates and assumptions are made, actual results could differ materially from those estimates and assumptions. We continually review our accounting policies, how they are applied and how they are reported and disclosed in the financial statements.

The following is a summary of our critical accounting policies and estimates and how they are applied in the preparation of the financial statements.

Basis of Presentation and Consolidation. We consolidate all entities we control by ownership of a majority voting interest and variable interest entities for which we have the power to direct activities and the obligation to absorb losses. Our judgment in determining if we consolidate a variable interest entity includes assessing which party, if any, has the power and benefits. Therefore, we evaluate which activities most significantly affect the variable interest entities economic performance and determine whether we, or another party, have the power to direct these activities. We apply the equity method of accounting for our investments in joint ventures and other investees whenever we can exert significant influence on the investee but do not have effective control over the investee. Our consolidated net income includes our share of the net earnings or losses from these investees. Our judgment regarding the level of influence over each equity method investee includes considering factors such as our ownership interest, board representation and policy making decisions. We periodically evaluate these equity investments for potential impairment where a decline in value is determined to be other than temporary. We eliminate all significant intercompany transactions from financial results.

Revenue Recognition. Advance ticket sales and event-related revenues for future events are deferred until earned, which is generally once the events are conducted. The recognition of event-related expenses is matched with the recognition of event-related revenues.

Table of Contents

NASCAR contracts directly with certain network providers for television rights to the entire NASCAR Sprint Cup, Nationwide and Camping World Truck series schedules. Event promoters share in the television rights fees in accordance with the provision of the sanction agreement for each NASCAR Sprint Cup, Nationwide and Camping World Truck series event. Under the terms of this arrangement, NASCAR retains 10.0 percent of the gross broadcast rights fees allocated to each NASCAR Sprint Cup, Nationwide and Camping World Truck series event as a component of its sanction fees. The promoter records 90.0 percent of the gross broadcast rights fees as revenue and then records 25.0 percent of the gross broadcast rights fees as part of its awards to the competitors. Ultimately, the promoter retains 65.0 percent of the net cash proceeds from the gross broadcast rights fees allocated to the event. Our revenues from marketing partnerships are paid in accordance with negotiated contracts, with the identities of partners and the terms of sponsorship changing from time to time. Some of our marketing partnership agreements are for multiple facilities and/or events and include multiple specified elements, such as tickets, hospitality chalets, suites, display space and signage for each included event. The allocation of such marketing partnership revenues between the multiple elements, events and facilities is based on relative selling price. The sponsorship revenue allocated to an event is recognized when the event is conducted.

Revenues and related costs from the sale of merchandise to retail customers, internet sales and direct sales to dealers are recognized at the time of sale.

Business Combinations. All business combinations are accounted for under the acquisition method. Whether net assets or common stock is acquired, fair values are determined and assigned to the purchased assets and assumed liabilities of the acquired entity. The excess of the cost of the acquisition over fair value of the net assets acquired is recorded as goodwill. Business combinations involving existing motorsports entertainment facilities commonly result in a significant portion of the purchase price being allocated to the fair value of the contract-based intangible asset associated with long-term relationships manifest in the sanction agreements with sanctioning bodies, such as NASCAR and Grand American Road Racing Association (Grand American) series. The continuity of sanction agreements with these bodies has historically enabled the facility operator to host motorsports events year after year. While individual sanction agreements may be of terms as short as one year, a significant portion of the purchase price in excess of the fair value of acquired tangible assets is commonly paid to acquire anticipated future cash flows from events promoted pursuant to these agreements which are expected to continue for the foreseeable future and therefore, in accordance with Accounting Standards Codification (ASC) 805-50, Business Combinations, are recorded as indefinite-lived intangible assets recognized apart from goodwill.

Capitalization and Depreciation Policies. Property and equipment are stated at cost. Maintenance and repairs that neither materially add to the value of the property nor appreciably prolong its life are charged to expense as incurred. Depreciation and amortization for financial statement purposes are provided on a straight-line basis over the estimated useful lives of the assets. When we construct assets, we capitalize costs of the project, including, but not limited to, certain pre-acquisition costs, permitting costs, fees paid to architects and contractors, certain costs of our design and construction subsidiary, property taxes and interest.

We must make estimates and assumptions when accounting for capital expenditures. Whether an expenditure is considered an operating expense or a capital asset is a matter of judgment. When constructing or purchasing assets, we must determine whether existing assets are being replaced or otherwise impaired, which also is a matter of judgment. Our depreciation expense for financial statement purposes is highly dependent on the assumptions we make about our assets' estimated useful lives. We determine the estimated useful lives based upon our experience with similar assets, industry, legal and regulatory factors, and our expectations of the usage of the asset. Whenever events or circumstances occur which change the estimated useful life of an asset, we account for the change prospectively. Interest costs associated with major development and construction projects are capitalized as part of the cost of the project. Interest is typically capitalized on amounts expended using the weighted-average cost of our outstanding borrowings, since we typically do not borrow funds directly related to a development or construction project. We capitalize interest on a project when development or construction activities begin, and cease when such activities are substantially complete or are suspended for more than a brief period.

Impairment of Long-lived Assets, Goodwill and Other Intangible Assets. Our consolidated balance sheets include significant amounts of long-lived assets, goodwill and other intangible assets which could be subject to impairment.

As of May 31, 2011, goodwill and other intangible assets and property and equipment accounts for approximately \$1,663.1 million, or 85.0 percent of our total assets. We account for our goodwill and other intangible assets in accordance with ASC 350, Intangibles Goodwill and Other, and for our long-lived assets in accordance with ASC 360, Property, Plant and Equipment.

We follow applicable authoritative guidance on accounting for goodwill and other intangible assets which specifies, among other things, non-amortization of goodwill and other intangible assets with indefinite useful lives and requires testing for possible

Table of Contents

impairment, either upon the occurrence of an impairment indicator or at least annually. We complete our annual testing in our fiscal fourth quarter, based on assumptions regarding our future business outlook and expected future discounted cash flows attributable to such assets (using the fair value assessment provision of applicable authoritative guidance), supported by quoted market prices or comparable transactions where available or applicable.

While we continue to review and analyze many factors that can impact our business prospects in the future (as further described in *Risk Factors*), our analysis is subjective and is based on conditions existing at, and trends leading up to, the time the estimates and assumptions are made. Different conditions or assumptions, or changes in cash flows or profitability, if significant, could have a material adverse effect on the outcome of the impairment evaluation and our future condition or results of operations. Despite the current adverse economic trends, particularly credit availability, the decline in consumer confidence and the rise in unemployment, which have recently contributed to the decrease in attendance related, as well as corporate partner, revenues for certain of our motorsports events since fiscal 2008, we believe there has been no significant change in the long-term fundamentals of our ongoing motorsports event business. We believe our present operational and cash flow outlook further support our conclusion.

In connection with our fiscal 2010 assessment of goodwill and intangible assets for possible impairment we used the methodology described above. We believe our methods used to determine fair value and evaluate possible impairment were appropriate, relevant, and represent methods customarily available and used for such purposes. Our latest annual assessment of goodwill and other intangible assets in the fourth quarter of fiscal 2010 indicated there had been no impairment and the fair value substantially exceeded the carrying value for the respective reporting units, except for one reporting unit that was recently acquired. The estimated fair value for this one reporting unit, which has goodwill of less than \$20.0 million, exceeded the carrying value by less than 5 percent as determined using our internal discounted cash flow methodology. We believe recent comparable market transactions would support a substantially higher valuation.

In addition, our growth strategy includes investing in certain joint venture opportunities. In these equity investments we exert significant influence on the investee but do not have effective control over the investee, which adds an additional element of risk that can adversely impact our financial position and results of operations. The carrying value of our equity investments was \$64.9 million at May 31, 2011.

Income Taxes. The tax laws require that certain items be included in our tax return at different times than when these items are reflected in our consolidated financial statements. Some of these differences are permanent, such as expenses not deductible on our tax return. However, some differences reverse over time, such as depreciation expense, and these temporary differences create deferred tax assets and liabilities. Our estimates of deferred income taxes and the significant items giving rise to deferred tax assets and liabilities reflect our assessment of actual future taxes to be paid on items reflected in our financial statements, giving consideration to both timing and probability of realization. Actual income taxes could vary significantly from these estimates due to future changes in income tax law or changes or adjustments resulting from final review of our tax returns by taxing authorities, which could also adversely impact our cash flow.

In the ordinary course of business, there are many transactions and calculations where the ultimate tax outcome is uncertain. Accruals for uncertain tax positions are provided for in accordance with the requirements of ASC 740,

Income Taxes. Under this guidance, we may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than 50.0 percent likelihood of being realized upon the ultimate settlement. This interpretation also provides guidance on de-recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, and income tax disclosures. Judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns. Although we believe the estimates are reasonable, no assurance can be given that the final outcome of these matters will not be different than what is reflected in the historical income tax provisions and accruals. Such differences could have a material impact on the income tax provision and operating results in the period in which such determination is made.

Contingent Liabilities. Our determination of the treatment of contingent liabilities in the financial statements is based on our view of the expected outcome of the applicable contingency. In the ordinary course of business, we consult with legal counsel on matters related to litigation and other experts both within and outside our Company. We accrue a liability if the likelihood of an adverse outcome is probable and the amount of loss is reasonably estimable. We disclose the matter but do not accrue a liability if the likelihood of an adverse outcome is reasonably possible and an estimate of loss is not determinable. Legal and other costs incurred in conjunction with loss contingencies are expensed as incurred.

Table of Contents**Equity and Other Investments***Hollywood Casino at Kansas Speedway*

In February 2010, Kansas Entertainment, LLC, (*Kansas Entertainment*) a 50/50 joint venture of Penn Hollywood Kansas, Inc. (*Penn*), a subsidiary of Penn National Gaming, Inc. and Kansas Speedway Development Corporation (*KSDC*), a wholly owned indirect subsidiary of ISC, received the final approval under the Kansas Expanded Lottery Act, along with its gaming license from the Kansas Racing and Gaming Commission to proceed with the construction of the Hollywood-themed and branded entertainment destination facility, overlooking turn two of Kansas Speedway. Kansas Entertainment began construction of the facility in April 2010 and has a planned opening in the first quarter of 2012.

The initial phase of this project, including certain changes to the scope and mix of gaming operations and amenities approved by the Kansas Lottery Commission in August 2010, features an 82,000 square foot casino with 2,000 slot machines and 52 table games (including 12 poker tables), a 1,253 space parking structure as well as a sports-themed bar, dining and entertainment options. Kansas Entertainment anticipates funding the initial phase of the development with equity contributions from each partner and potentially third party financing. KSDC and Penn will share equally in the cost of developing and constructing the facility. We currently estimate that our share of capitalized development costs for the project, excluding our contribution of land, will be approximately \$155.0 million. Through May 31, 2011, we have funded approximately \$59.4 million of these capitalized development costs to Kansas Entertainment and expect to fund the remaining amount through the opening of the casino in fiscal 2012. In addition, we expect to continue to incur certain other start up and related costs through opening, which will be expensed through equity in net loss from equity investments. Penn is the managing member of Kansas Entertainment and is responsible for the development and operation of the casino.

We have accounted for Kansas Entertainment as an equity investment in our financial statements as of May 31, 2011. Our 50.0 percent portion of Kansas Entertainment's net loss was approximately \$0.5 million and \$0.7 million for the three months ended May 31, 2010 and 2011, respectively, and approximately \$1.5 million and \$1.0 million for the six months ended May 31, 2010 and 2011, respectively, related to certain start up costs, and is included in equity in net loss from equity investments in our consolidated statements of operations.

Staten Island Property

In connection with our efforts to develop a major motorsports entertainment facility in the New York metropolitan area, our wholly owned indirect subsidiary, 380 Development, LLC (*380 Development*), purchased a total of 676 acres located in the New York City borough of Staten Island in early fiscal 2005 and began improvements including fill operations on the property. In December 2006, we announced our decision to discontinue pursuit of the speedway development on Staten Island.

In October 2009, we entered into, and subsequently amended, an agreement (*Agreement*) with KB Marine Holdings LLC (*KB Holdings*) under which KB Holdings would acquire 100 percent of the outstanding equity membership interests of 380 Development. Upon execution of the Agreement, ISC received a non-refundable \$1.0 million payment. The most recent amendment reflected a total purchase price of approximately \$88.0 million. We expected that the proceeds from the sale, net of applicable broker commissions and other closing costs would have resulted in an immaterial gain on the transaction upon closing.

On December 6, 2010, we announced the termination of the amended Agreement with KB Holdings for the sale of the interests in 380 Development. KB Holdings did not fulfill the terms of the amended Agreement to close the transaction on or before November 30, 2010. We are currently pursuing further discussions with KB Holdings as well as alternative buyers for the interests in 380 Development.

On March 30, 2011, the New York State Department of Environmental Conservation (*DEC*) published for public comment a series of documents, including an Engineering Work Plan, which will allow the property to be filled. The DEC received comments and is finalizing the documents. The DEC may approve the Engineering Work Plan, as well as a Modified Order on Consent and other related documents. This step will allow the property to be filled and remaining environmental remediation to be completed, both of which are necessary precursors for commercial development of the property. We believe this is an important step in the development of the property and its potential to bring jobs and economic development to Staten Island. Currently we do not anticipate filling activities to

commence until after we have sold our interest in 380 Development.

Motorsports Authentics

We are a partner with Speedway Motorsports, Inc. in a 50/50 joint venture, SMISC, LLC, which, through its wholly owned subsidiary Motorsports Authentics, LLC conducts business under the name Motorsports Authentics (MA). MA designs, promotes, markets and distributes motorsports licensed merchandise.

We have a guaranty exposure, to one NASCAR team licensor which will be satisfied upon MA making certain payments to the team

Table of Contents

through January 2013. In April 2011, MA made a payment to the team effectively reducing our guaranty exposure to approximately \$2.5 million as of May 31, 2011. While it is possible that some obligation under this guarantee may occur in the future, the amount we will ultimately pay cannot be estimated at this time. In any event, we do not believe that the ultimate financial outcome will have a material impact on our financial position or results of operations. Our investment in MA was previously reduced to zero and we did not recognize any net income or loss from operations of MA during the three and six months ended May 31, 2010 or 2011, respectively.

Stock Purchase Plans

An important component of our capital allocation strategy is returning capital to shareholders. We have solid operating margins that generate substantial operating cash flow. Using these internally generated proceeds, we have returned a significant amount of capital to shareholders primarily through our share repurchase program.

We have a share repurchase program (Stock Purchase Plan) under which we are authorized to purchase up to \$250.0 million of our outstanding Class A common shares. The timing and amount of any shares repurchased under the Stock Purchase Plan will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability and other market conditions. The Stock Purchase Plan may be suspended or discontinued at any time without prior notice. No shares have been or will be knowingly purchased from Company insiders or their affiliates.

Since inception of the Stock Purchase Plan through May 31, 2011, we have purchased 5,630,481 shares of our Class A common shares, for a total of approximately \$232.8 million. Included in these totals are the purchases of 407,868 shares of our Class A common shares during the six months ended May 31, 2011, at an average cost of approximately \$29.41 per share (including commissions), for a total of approximately \$12.0 million. These transactions occurred in open market purchases and pursuant to a trading plan under Rule 10b5-1. At May 31, 2011, we have approximately \$17.2 million remaining repurchase authority under the current Stock Purchase Plan.

Income Taxes

Our effective income tax rate for the three and six months ended May 31, 2011 approximated the statutory income tax rate. The de-recognition of potential interest and penalties associated with certain state settlements as well as certain state credits accrued during the first quarter of fiscal 2010 are the principal causes of the decreased effective income tax rate for the three and six months ended May 31, 2010. As a result of these items, our effective income tax rate decreased from the statutory income tax rate to approximately 34.7 percent and 26.8 percent for the three and six months ended May 31, 2010.

Future Trends in Operating Results

Economic conditions, including those affecting disposable consumer income and corporate budgets such as employment, business conditions, credit availability, interest rates and taxation rates, may impact our ability to sell tickets to our events and to secure revenues from corporate marketing partnerships. We believe that adverse economic trends, particularly the sustained level of high unemployment and decreased consumer confidence significantly contributed to the level of attendance for certain of our motorsports entertainment events during the recession beginning in 2008. We expect certain of these trends to persist through fiscal 2011, which may have an impact on our business, especially attendance-related and corporate partner revenues. Mitigating the potential decline in certain revenue categories, primarily attendance-related and corporate partner revenues, are cost containment initiatives already implemented. These initiatives have had and are expected to continue to have a positive impact on our financial position.

Admissions

An important component of our operating strategy has been our long-standing practice of focusing closely on supply and demand when evaluating ticket pricing and adjusting capacity at our facilities. By effectively managing ticket prices and seating capacity, we can stimulate ticket renewals and advance sales. Advance ticket sales result in earlier cash flow and reduce the potential negative impact of actual as well as forecasted inclement weather on ticket sales. With any ticketing program, we first examine our ticket pricing structure to ensure that prices are in line with market demand. When determined necessary, we will adjust ticket pricing.

It is important that we maintain the integrity of our pricing model by rewarding our best and loyal customers. We do not adjust pricing downward inside of the sales cycle and avoid rewarding last-minute ticket buyers by discounting

tickets. Further, we limit and monitor the availability of promotional tickets. All of these factors could have a detrimental effect on our pricing model and long-term value of our business. We believe it is more important to encourage advance ticket sales and maintain price integrity to achieve long-term growth than to capture short-term incremental revenue.

Table of Contents

During this period of sustained economic headwinds, we have experienced compressed sales cycles for our events as our customers are making ticket purchasing decisions closer to the event date. In 2009 and 2010, to address this and to be sensitive to the economic challenges that many of our fans faced, we reduced pricing for our major events as well as unbundled a substantial number of tickets to better respond to consumer demand. For the 2011 season, we believe the ticket pricing initiatives implemented are on target with demand, providing attractive price points for all income levels.

In addition to changes to our ticket pricing structure, we are motivating our customers to renew early with various incentives as well as special access privileges. We have also expanded our youth initiatives to encourage families to attend. Adjusting sellable seating capacity at our major motorsports facilities that host NASCAR Sprint Cup series events is another initiative to help regain a more normalized advance ticket sales trend. Since fiscal 2010, we have reduced sellable capacity by approximately 9.0 percent. The reduction of sellable capacity, which is primarily driven by providing improved and wider seating for our fans is enhancing the overall guest experience. Also contributing to the reduction in sellable capacity, we have temporarily covered seats at two of our major motorsports facilities to tighten ticket capacity. As an ancillary benefit to temporarily reducing sellable capacity is the operational savings in those sections of the facilities.

Corporate Partnerships

With regard to corporate marketing partner relationships, we believe that our presence in key metropolitan statistical areas, impressive portfolio of major motorsports events and attractive fan demographics are beneficial and help to mitigate adverse economic trends as we continue to pursue renewal and expansion of existing marketing partnerships and establish new corporate relationships.

Our corporate sales team continues to generate strong levels of interest from corporate partners. While economic trends continue to impact corporate budgets and sales, we are experiencing pricing stabilization of our inventory of assets. During the second quarter of fiscal 2011, we announced a partnership with STP Brands at seven of our major motorsport facilities including event entitlement positions at Kansas Speedway and Chicagoland Speedway. In addition, we announced Budweiser will continue to serve as both the exclusive official beer sponsor of Daytona International Speedway and the entitlement sponsor for the Budweiser Shootout following a multi-year partnership renewal. As part of the agreement, Budweiser will also begin a non-exclusive promotional partnership with Homestead-Miami Speedway in 2012. Subsequent to the quarter, we announced a multi-year agreement with GEICO to serve as the title sponsor for Chicagoland's NASCAR Sprint Cup series race. Also, we signed an agreement with the Michigan Economic Development Corporation to serve as the title sponsor for Michigan International Speedway's August 2011 NASCAR Sprint Cup Series race. We expect, based on current interest and demand, to secure all of our 2011 NASCAR Sprint Cup event entitlements. We continue to believe that revenues from our corporate marketing relationships will grow over the long term, contributing to strong earnings and cash flow stability and predictability.

Television Broadcast and Ancillary Media Rights

Domestic broadcast and ancillary media rights fees revenues are an important component of our revenue and earnings stream. Starting in 2007, NASCAR entered into combined eight-year agreements with FOX, ABC/ESPN, TNT and SPEED for the domestic broadcast and related rights for its three national touring series—Sprint Cup, Nationwide and Camping World Truck. The agreements total approximately \$4.5 billion to the industry over the eight-year period from 2007 through 2014. This results in an approximate \$560.0 million gross average annual rights fee for the industry, a more than 40.0 percent increase over the previous contract average of \$400.0 million annually. The industry rights fees will be approximately \$565.0 million for 2011. The industry rights fees are scheduled to increase, on average, by approximately three percent per year through the 2014 season. The annual increase is expected to vary between two and four percent per year over the period.

FOX and TNT have been strong supporters of NASCAR racing since 2001, and both have played a major role in the sport's climb in popularity. We have, and expect to continue to see, ongoing broadcast innovation in their coverage of NASCAR racing events. Also notable was the return of ESPN to the sport in 2007, which it helped build throughout the 1980s and 1990s. ESPN's coverage and weekly ancillary NASCAR-related programming continues to promote the sport across various properties. Further, ESPN broadcasts substantially the entire ABC/ESPN inventory of NASCAR Sprint Cup and Nationwide series events, providing these series with the continuity and promotional support that we

believe will allow them to flourish. ESPN has a subscriber base at approximately 100 million homes and, while less than the networks, it does have the ability to attract younger viewers as well as create more exposure for the sport. Also, cable broadcasters can support a higher investment through subscriber fees not available to traditional networks, which is a potential benefit when NASCAR negotiates the next consolidated domestic broadcast and ancillary media rights contract.

While the media landscape continues to evolve, we believe NASCAR's position in the sports and entertainment industry remains strong. It is expected that ratings will fluctuate year to year. For the first 13 Sprint Cup Series telecasts this season Fox has averaged a

Table of Contents

5.0 final Nielsen rating and 8.6 million viewers, up 4.2 percent and 9.7 percent, respectively, from a 4.8 rating and 7.8 million viewers over 11 races last year. These ratings and viewership results returned NASCAR to an equivalent level it enjoyed in 2009. More important, the 18- to 34-year-old male viewership is up 20.0 percent from last season. The NASCAR Sprint Cup series events remains the second highest-rated regular season sport on television and is the number two sport among all key demographic groups, trailing only the NFL. In addition, the NASCAR Nationwide series is the second-highest rated motorsports series on television and the NASCAR Camping World Truck series is the third-highest rated motorsports series on cable television.

These long-term contracts give significant cash flow visibility to us, race teams and NASCAR over the contract period. Television broadcast and ancillary rights fees from continuing operations received from NASCAR for the NASCAR Sprint Cup, Nationwide and Camping World Truck series events conducted at our wholly-owned facilities under these agreements, and recorded as part of motorsports related revenue, were approximately \$61.0 million and \$65.8 million for three months ended May 31, 2010 and 2011, respectively, and \$126.1 million and \$130.7 million for the six months ended May 31, 2010 and 2011, respectively. Operating income generated by these media rights were approximately \$45.0 million and \$48.4 million for the three months ended May 31, 2010 and 2011, respectively, and \$92.6 million and \$96.5 million for the six months ended May 31, 2010 and 2011, respectively.

As media rights revenues fluctuate so do the variable costs tied to the percentage of broadcast rights fees required to be paid to competitors as part of NASCAR Sprint Cup, Nationwide and Camping World Truck series sanction agreements. NASCAR prize and point fund monies, as well as sanction fees (NASCAR direct expenses), are outlined in the sanction agreement for each event and are negotiated in advance of an event. As previously discussed, included in these NASCAR direct expenses are amounts equal to 25.0 percent of the gross domestic television broadcast rights fees allocated to our NASCAR Sprint Cup, Nationwide and Camping World Truck series events, as part of prize and point fund money (See Critical Accounting Policies and Estimates Revenue Recognition). These annually negotiated contractual amounts paid to NASCAR contribute to the support and growth of the sport of NASCAR stock car racing through payments to the teams and sanction fees paid to NASCAR. As such, we do not expect these costs to materially decrease in the future as a percentage of admissions and motorsports related income.

Sanctioning Bodies

Our success has been, and is expected to remain, dependent on maintaining good working relationships with the organizations that sanction events at our facilities, particularly with NASCAR, whose sanctioned events at our wholly owned facilities accounted for approximately 90.0 percent of our revenues in fiscal 2010. NASCAR continues to entertain and discuss proposals from track operators regarding potential realignment of NASCAR Sprint Cup Series dates to more geographically diverse and potentially more desirable markets where there may be greater demand, resulting in an opportunity for increased revenues to the track operators. We believe that realignments have provided, and will continue to provide, incremental net positive revenue and earnings as well as further enhance the sport s exposure in highly desirable markets, which we believe benefits the sport s fans, teams, sponsors and television broadcast partners as well as promoters.

Capital Improvements

Since we compete with newer entertainment venues for patrons and sponsors, we will continue to evaluate opportunities to enhance our facilities, thereby producing additional revenue opportunities and improving the event experience for our guests. Major examples of these efforts include:

Fiscal 2009

Darlington Raceway restroom additions;

New PA system and facility signage at Michigan International Speedway (Michigan);

To further enhance our guest experience, we built a new tram stop at Daytona International Speedway

(Daytona); and, replaced the seats in the lower grandstands at Talladega Superspeedway (Talladega); and

We constructed a new leader board at Homestead-Miami Speedway, which is the future prototype for other tracks.

Fiscal 2010

We constructed a new media center at Michigan as part of the terrace suite redevelopment project which we believe has increased appeal to media content providers, sports journalists, racing team owners and drivers and

others involved in the motorsports industry;

To further enhance our guest experience, we reconfigured tram and pedestrian routes at Richmond International Raceway (Richmond);

We made further grandstand enhancements at Michigan to provide wider seats, seatbacks and more leg room for fans;

Table of Contents

We completed our repaving project at Daytona. In addition, we made frontstretch fan improvements and superstretch hospitality improvements at Daytona which included the addition of the Superstretch Fan Zone and improved tram infrastructure, and we constructed a new 1/4 mile Flat Track facility which hosted successful AMA motorcycle events;

We completed a major seat enhancement project at Talladega by installing new wider stadium style seats and increased leg room; and

We constructed a new state-of-the-art LED leader board and video screens at Richmond.

Fiscal 2011

We have completed an upgrade to the leaderboard at Michigan;

We completed new and enhanced restroom and concession facilities at Martinsville Speedway and Chicagoland Speedway;

We have completed new campground shower house facilities at Talladega;

We have begun repaving including slight configuration changes to the track at Phoenix International Raceway (Phoenix);

We are repaving Michigan and have expanded a pedestrian tunnel for improved fan access to the infield fan areas;

We are making grandstand seating enhancements and infield improvements at Watkins Glen International (Watkins Glen);

We are installing track lighting as well as making track enhancements at Kansas Speedway (Kansas); and

We are upgrading the audio system to complement the state-of-the-art leaderboard and video Screens at Richmond.

We anticipate modest capital spending on other projects for maintenance, safety and regulatory requirements, as well as for preserving the guest experience at our events to enable us to effectively compete with other sports venues for consumer and corporate spending.

Growth Strategies

Our growth strategies also include exploring ways to grow our businesses through acquisitions and external developments that offer attractive financial returns. This has been demonstrated through our joint venture to develop and operate a Hollywood-themed and branded casino and entertainment destination facility overlooking turn two of Kansas Speedway (see Kansas Hotel and Casino Development).

Current Litigation

From time to time, we are a party to routine litigation incidental to our business. We do not believe that the resolution of any or all of such litigation will have a material adverse effect on our financial condition or results of operations.

Postponement and/or Cancellation of Major Motorsports Events

We promote outdoor motorsports entertainment events. Weather conditions affect sales of, among other things, tickets, food, drinks and merchandise at these events. Poor weather conditions prior to an event, or even the forecast of poor weather conditions, could have a negative impact on us, particularly for walk-up ticket sales to events which are not sold out in advance. If an event scheduled for one of our facilities is delayed or postponed because of weather or other reasons such as, for example, the general postponement of all major sporting events in the United States following the September 11, 2001 terrorism attacks, we could incur increased expenses associated with conducting the rescheduled event, as well as possible decreased revenues from tickets, food, drinks and merchandise at the rescheduled event. If such an event is cancelled, we would incur the expenses associated with preparing to conduct the event as well as losing the revenues, including any live broadcast revenues, associated with the event to the extent such losses were not covered by insurance.

Seasonality and Quarterly Results

We derive most of our income from a limited number of NASCAR-sanctioned races. As a result, our business has been, and is expected to remain, highly seasonal based on the timing of major racing events. For example, in prior years, one of our NASCAR Sprint Cup races was traditionally held on the Sunday preceding Labor Day. Accordingly, the revenues and expenses for that race and/or the related supporting events may be recognized in either the fiscal quarter ending August 31 or the fiscal quarter ending November 30.

Future schedule changes as determined by NASCAR or other sanctioning bodies, as well as our request for event realignment or the acquisition of additional, or divestiture of existing, motorsports facilities could impact the timing of our major events in comparison to prior or future periods.

Because of the seasonal concentration of racing events, the results of operations for the three and six month periods ended May 31, 2010 and 2011 are not indicative of the results to be expected for the year.

Table of Contents

GAAP to Non-GAAP Reconciliation

The following financial information is presented below using other than U.S. generally accepted accounting principles (non-GAAP), and is reconciled to comparable information presented using GAAP. Non-GAAP net income and diluted earnings per share below are derived by adjusting amounts determined in accordance with GAAP for certain items presented in the accompanying selected operating statement data, net of taxes .

We believe such non-GAAP information is useful and meaningful, and is used by investors to assess our core operations, which consist of the ongoing promotion of racing events at our major motorsports entertainment facilities. Such non-GAAP information identifies and separately displays the equity investment earnings and losses and adjusts for items that are not considered to be reflective of our continuing core operations at our motorsports entertainment facilities. We believe that such non-GAAP information improves the comparability of the operating results and provides a better understanding of the performance of our core operations for the periods presented. We use this non-GAAP information to analyze the current performance and trends and make decisions regarding future ongoing operations. This non-GAAP financial information may not be comparable to similarly titled measures used by other entities and should not be considered as an alternative to operating income, net income or diluted earnings per share, which are determined in accordance with GAAP. The presentation of this non-GAAP financial information is not intended to be considered independent of or as a substitute for results prepared in accordance with GAAP.

Management uses both GAAP and non-GAAP information in evaluating and operating the business and as such deemed it important to provide such information to investors.

The adjustments for 2010 relate to the pre-opening expenses for Hollywood Casino at Kansas Speedway equity in net loss from equity investment, impairments of certain other long-lived assets, interest rate swap expense and de-recognition of interest and penalties related to the previously discussed state tax settlements.

The adjustments for 2011 relate to the pre-opening expenses for Hollywood Casino at Kansas Speedway equity in net loss from equity investment, certain carrying costs related to the Staten Island property, and impairments of certain other long-lived assets.

Comparability of results for the three and six months ended May 31, 2011 and 2010 was impacted by the following:
The spring NASCAR Sprint Cup and Nationwide events held at Auto Club Speedway of Southern California (California) in the first quarter of fiscal 2010 were held in the second quarter of fiscal 2011;

The spring NASCAR Sprint Cup and Nationwide series events held at Phoenix in the second quarter of fiscal 2010 were held in the first quarter of fiscal 2011. In addition, Phoenix held a NASCAR Camping World Truck Series event in the first quarter of fiscal 2011 with the corresponding event held in the fourth quarter in fiscal 2010;

The IZOD IndyCar Series event held at Kansas in the second quarter of fiscal 2010 was not held in fiscal 2011. In addition, the NASCAR Camping World Truck Series event at Kansas, which was held in the second quarter of fiscal 2010, will be held in the third quarter of fiscal 2011;

During the six months ended May 31, 2011, we recognized non-cash impairments of long-lived assets totaling approximately \$2.9 million, or \$0.04 per diluted share, primarily attributable to the removal of certain assets in connection with the repaving of the track and grandstand enhancements at Phoenix as well as grandstand enhancements at Kansas;

Table of Contents

During the three and six months ended May 31, 2010, we recognized expense of approximately \$1.2 million and \$2.5 million, or \$0.01 and \$0.03 per diluted share, respectively, related to an interest rate swap. In fiscal 2011, the remaining deferred interest rate swap balance is included in accumulated other comprehensive loss and is being amortized as interest expense over the ten year term of private placement senior notes issued in January 2011 (see Future Liquidity); and

During the three and six months ended May 31, 2010, we had favorable tax settlements with certain states, where we de-recognized potential interest and penalties totaling approximately \$0.7 million and \$6.2 million or \$0.02 and \$0.13 per diluted share, respectively. These de-recognitions of interest and penalties were recorded in the income tax expense in our consolidated statement of operations. There were no comparable activities related to these settlements in the same periods of the current year.

Admissions revenue decreased approximately \$5.7 million, or 16.1 percent, and \$8.2 million, or 11.0 percent, during the three and six months ended May 31, 2011, respectively, as compared to the same periods of the prior year. The decrease for the three month period was largely attributable to previously discussed schedule changes at Kansas in fiscal 2010 for which there was no comparable events to date in fiscal 2011. Also contributing to the change were the decreases, at certain events, related to attendance and weighted average ticket prices due to the aforementioned value pricing initiatives. Partially offsetting these decreases were the previously mentioned timing of events impacting the California and Phoenix race calendars. The decrease for six month period was driven by previously mentioned changes in events impacting the Kansas race calendar and, to a lesser extent, a decrease in our weighted average ticket price for certain events associated with the previously discussed value pricing initiatives. Partially offsetting these decreases during the six month period was increased attendance at certain events held during Speedweeks at Daytona and California.

Motorsports related revenue increased approximately \$3.6 million, or 4.0 percent, and \$3.1 million, or 1.6 percent, during the three and six months ended May 31, 2011, respectively, as compared to the same periods of the prior year. The increase for the three month period was largely attributable to the previously mentioned timing of events at California and Phoenix. Also contributing to the three and six month changes were increased television broadcast and ancillary rights as well as increased sponsorship, suite and hospitality revenue for certain events held during the periods. Partially offsetting the increases were the previously mentioned schedule changes at Kansas.

Food, beverage and merchandise revenue decreased approximately \$1.4 million, or 11.5 percent, and \$1.7 million, or 7.1 percent, during the three and six months ended May 31, 2011, respectively, as compared to the same periods of the prior year. The decrease for the three month period was largely attributable to the previously mentioned event timing and schedule changes at Kansas. The overall decrease for the six month period was primarily due to slightly lower catering revenue and vendor rights fees and, to a lesser extent, the previously discussed event schedule changes at Kansas.

Prize and point fund monies and NASCAR sanction fees increased approximately \$0.1 million, or 0.3 percent, during the three months ended May 31, 2011, and decreased approximately \$0.9 million, or 1.3 percent, during the six months ended May 31, 2011, as compared to the same periods of the prior year. The changes were largely attributable to the reduction in the overall prize and point fees paid for the events held in the period as compared to the same period in prior year. Partially offsetting the decrease was the increase in television broadcast rights fees for the NASCAR Sprint Cup, Nationwide and Camping World Truck series events during the periods as standard NASCAR sanctioning agreements require a specific percentage of television broadcast rights fees to be paid to competitors. The previously mentioned event calendar changes and schedule changes also contributed to the increase during the three month period.

Motorsports related expenses decreased by approximately \$4.5 million, or 13.9 percent, and \$7.7 million, or 12.9 percent, during the three and six months ended May 31, 2011, respectively, as compared to the same periods of the prior year. The decreases for the three and six month periods were primarily attributable to cost containment, focused to enhance margin without negatively impacting our guest experience, as well as the previously mentioned event schedule changes. Motorsports related expenses as a percentage of combined admissions and motorsports related revenue decreased to approximately 22.1 percent and 20.1 percent for the three and six months ended May 31,

2011, as compared to 25.2 percent and 22.6 percent for the same respective periods in the prior year. The margin increase was primarily due to focused cost containment during the three and six month periods as well as the previously mentioned schedule changes at Kansas.

Food, beverage and merchandise expense remained comparable during the three and six months ended May 31, 2011, respectively, as compared to the same periods of the prior year. The nominal changes for the three and six month periods were primarily attributable to food costs and increases in certain other costs associated with concessions and catering to enhance the guest experience for both the consumer and corporate customers. Offsetting these increases was the previously discussed changes to the Kansas event schedule.

Table of Contents

Food, beverage and merchandise expense as a percentage of food, beverage and merchandise revenue increased to approximately 82.5 percent and 77.2 percent for the three and six months ended May 31, 2011, as compared to 73.4 percent and 70.9 percent for the same respective periods in the prior year. This decreased margin was attributable to food costs and the enhanced concession and catering presentation as well as certain lower margin wholesale transactions during the three and six months ended May 31, 2011.

General and administrative expenses decreased by approximately \$1.9 million, or 7.5 percent, and \$4.4 million, or 8.6 percent, during the three and six months ended May 31, 2011, respectively, as compared to the same periods of the prior year. Decreases during the three and six month periods in personnel related and various other costs driven by cost containment initiatives contributed significantly to the decreases, which were partially offset by certain carrying costs of our Staten Island property; similar costs in prior periods had been capitalized. General and administrative expenses as a percentage of total revenues decreased to approximately 17.3 percent and 16.1 percent for the three and six months ended May 31, 2011, as compared to 18.2 percent and 17.2 percent for the same respective periods in the prior year. The increased margin during the three and six months ended May 31, 2011 was primarily due to the previously discussed cost containment initiatives.

Depreciation and amortization expense increased approximately \$0.6 million, or 3.3 percent, and \$1.4 million, or 3.8 percent, during the three and six months ended May 31, 2011, respectively, as compared to the same periods of the prior year. The increases were attributable to capital expenditures for our ongoing facility enhancements and related initiatives.

The impairment of long-lived assets of approximately \$2.9 million, at May 31, 2011, was primarily attributable to the ongoing removal of certain assets in connection with the repaving of the track and the grandstand enhancements at Phoenix and the grandstand enhancements at Kansas.

Interest income during the three and six months ended May 31, 2011, was comparable to the same period of the prior year.

Interest expense decreased by approximately \$0.1 million, or 1.8 percent, and \$0.6 million, or 6.9 percent, during the three and six months ended May 31, 2011, respectively, as compared to the same periods of the prior year. The overall decrease was primarily due to the lower average balances on our revolving credit facilities, partial tender of senior notes due 2014 in the fourth quarter of fiscal 2010 and increased capitalized interest during the current periods. Partially offsetting these decreases was interest on the private placement issued in January 2011 and higher interest rates and fees on our new credit facility as compared to the same period in the prior year.

Interest rate swap expense during the three and six months ended May 31, 2010, totaled approximately \$1.2 million and \$2.5 million, respectively, representing the expense on the interest rate swap during the periods prior to the issuance of the related private placement in January 2011 (see *Future Liquidity Long-Term Obligations and Commitments*). There was no comparable expense in fiscal 2011.

Equity in net loss from equity investments represents our 50.0 percent equity investment in Hollywood Casino at Kansas Speedway during the three and six months ended May 31, 2010 and 2011, respectively (see *Equity and Other Investments*).

Our effective income tax rate was approximately 39.2 percent and 39.3 percent for the three and six months ended May 31, 2011, as compared to 34.7 percent and 26.8 percent for the same respective periods of the prior year (see *Income Taxes*).

As a result of the foregoing, net income for the three and six month periods ending May 31, 2011, as compared to the same periods in prior year, reflected an increase of approximately \$1.6 million, or \$0.04 per diluted share, and a decrease of approximately \$2.4 million, or \$0.04 per diluted share, respectively.

Liquidity and Capital Resources**General**

We have historically generated sufficient cash flow from operations to fund our working capital needs, capital expenditures at existing facilities, and return of capital through payments of an annual cash dividend and repurchase of our shares under our Stock Purchase Plan. In addition, we have used the proceeds from offerings of our Class A Common Stock, the net proceeds from the issuance of long-term debt, borrowings under our credit facilities and state and local mechanisms to fund acquisitions and development projects. At May 31, 2011, we had cash and cash

equivalents totaling approximately \$131.1 million, \$152.0 million principal amount of senior notes outstanding, \$20.0 million in borrowings on our \$300.0 million revolving credit facility, a debt service funding commitment of approximately \$63.6 million principal amount related to the taxable special obligation revenue (TIF) bonds issued by the Unified Government of Wyandotte County/Kansas City, Kansas (Unified Government), \$50.8 million principal term loan related to our

Table of Contents

headquarters office building (the International Motorsports Center, or IMC); and \$2.0 million principal amount of other third party debt. At May 31, 2011, we had working capital of \$58.8 million, primarily driven by \$131.1 million of cash. At November 30, 2010, we had working capital of \$58.3 million, which was anchored by \$84.2 million of cash.

Our liquidity is primarily generated from our ongoing motorsports operations, and we expect our strong operating cash flow to continue in the future. In addition, as of May 31, 2011, we have approximately \$276.0 million available to draw upon under our recently negotiated 5-year, \$300.0 million revolving credit facility, if needed. See *Future Liquidity* for additional disclosures relating to our credit facility and certain risks that may affect our near term operating results and liquidity.

As it relates to capital allocation, our top priority is capital expenditure for fan and competitor safety as well as regulatory compliance. In addition, we remain focused on driving incremental earnings by improving the fan experience with certain upgrades to our facilities to increase ticket sales. We will also focus on maintaining modest debt levels.

Beyond that, we are also making investments in strategic projects that complement our core business and provide value for our shareholders. Those options include acquisitions; new market development; ancillary real estate development; and return of capital to shareholders through share repurchases and dividends. For fiscal 2011, we anticipate approximately \$30.0 million of open market share repurchases and approximately \$8.6 million in annual dividends.

During the six months ended May 31, 2011, our significant cash flows items include the following:

net cash provided by operating activities totaling approximately \$124.9 million;

capital expenditures totaling approximately \$25.3 million;

payments under the credit facility totaling approximately \$82.0 million;

proceeds of long-term debt totaling approximately \$65.0 million;

contributions to the Hollywood Casino at Kansas Speedway joint venture, totaling approximately \$22.2 million; and

reacquisition of previously issued common stock totaling approximately \$12.3 million.

Capital Expenditures

For the six months ended May 31, 2011, we spent approximately \$25.3 million on capital expenditures, which includes \$23.9 million for projects at our existing facilities related to construction of grandstand seating enhancements at Watkins Glen, Kansas and Talladega; restroom improvements at Chicagoland and Martinsville and designing and engineering of grandstand seating enhancements and repaving at Daytona and Phoenix; and a variety of other improvements and renovations. The remaining balance is associated with additional capitalized spending for the Staten Island property. We spent approximately \$51.1 million for the six months ended May 31, 2010, which included \$34.8 million for projects at our existing facilities. For the remaining \$16.3 million of spending, approximately \$8.3 million was related to the International Motorsports Center building which was funded from long-term restricted cash. The remaining balance was associated with the Staten Island property and land purchases.

At May 31, 2011, we have approximately \$53.6 million in capital projects currently approved for our existing facilities. These projects include completion of track repaving at Phoenix, Michigan and Kansas, grandstand seating enhancements and infield improvements at Michigan, Martinsville, California and Chicagoland; grandstand seating enhancements at Watkins Glen, Richmond and Daytona; improvements at various facilities for expansion of parking, camping capacity and other uses; and a variety of other improvements and renovations to our facilities that enable us to effectively compete with other sports venues for consumer and corporate spending.

As a result of these currently approved projects and anticipated additional approvals in fiscal 2011, we expect our total fiscal 2011 capital expenditures at our existing facilities will be approximately \$65.0 million to \$75.0 million

depending on the timing of certain projects.

We review the capital expenditure program periodically and modify it as required to meet current business needs.

Table of Contents

Future Liquidity

General

As discussed in Future Trends in Operating Results, economic conditions, including those affecting disposable consumer income and corporate budgets such as employment, business conditions, credit availability, interest rates and taxation rates, may impact our ability to sell tickets to our events and to secure revenues from corporate marketing partnerships. We believe that adverse economic trends, particularly the sustained level of high unemployment and decreased consumer confidence significantly contributed to the level of attendance for certain of our motorsports entertainment events during the recession beginning in 2008. We expect certain of these trends to persist through fiscal 2011, which may have an impact on our business, especially attendance-related and corporate partner revenues. This may negatively impact year-over-year comparability for our revenue categories for the full year, with the exception of domestic broadcast media rights fees.

Our cash flow from operations consists primarily of ticket, hospitality, merchandise, catering and concession sales and contracted revenues arising from television broadcast rights and marketing partnerships. Despite current economic conditions, we believe that cash flows from operations, along with existing cash, cash equivalents and available borrowings under our credit facility, will be sufficient to fund:

- operations and approved capital projects at existing facilities for the foreseeable future;

- payments required in connection with the funding of the Unified Government's debt service requirements related to the TIF bonds;

- payments related to our existing debt service commitments;

- equity contributions in connection with the Hollywood Casino at Kansas Speedway development;

- any potential payments associated with our keepwell agreements; and

- payments for our annual dividend and share repurchases under our Stock Purchase Plan.

We remain interested in pursuing acquisition and/or development opportunities that would increase shareholder value, the timing, size and success, as well as associated potential capital commitments of which are unknown at this time. Accordingly, a material acceleration of our growth strategy could require us to obtain additional capital through debt and/or equity financings. Although there can be no assurance, over the longer term we believe that adequate debt and equity financing will be available on satisfactory terms.

While we expect our strong operating cash flow to continue in the future, our financial results depend significantly on a number of factors. In addition to local, national, and global economic and financial market conditions, consumer and corporate spending could be adversely affected by security and other lifestyle conditions resulting in lower than expected future operating cash flows. General economic conditions were significantly and negatively impacted by the September 11, 2001 terrorist attacks and the wars in Iraq and Afghanistan and could be similarly affected by any future attacks or fear of such attacks, or by conditions resulting from other acts or prospects of war. Any future attacks or wars or related threats could also increase our expenses related to insurance, security or other related matters. Also, our financial results could be adversely impacted by a widespread outbreak of a severe epidemiological crisis. The items discussed above could have a singular or compounded material adverse affect on our financial success and future cash flow.

Long-Term Obligations and Commitments

We have registered senior notes (the 5.4 percent Senior Notes) which bear interest at 5.4 percent and are due April 2014, which require semi-annual interest payments on April 15 and October 15 through their maturity. The 5.4 percent Senior Notes may be redeemed in whole or in part, at our option, at any time or from time to time at redemption prices as defined in the indenture. Certain of our wholly owned domestic subsidiaries are guarantors of the 5.4 percent Senior Notes. The 5.4 percent Senior Notes also contain various restrictive covenants. At May 31, 2011, outstanding unsecured 5.4 percent Senior Notes totaled approximately \$87.0 million, net of unamortized discounts.

In January 2011, we completed an offering of approximately \$65.0 million principal amount of senior unsecured notes in a private placement (4.6 percent Senior Notes). These notes, which bear interest at 4.6 percent and are due January 2021, require semi-annual interest payments on January 18 and July 18 through their maturity. The 4.6 percent Senior Notes may be redeemed in whole or in part, at our option, at any time or from time to time at redemption prices as defined in the indenture. Certain of our wholly owned domestic subsidiaries are guarantors of the 4.6 percent Senior Notes. The 4.6 percent Senior Notes also contain various restrictive

Table of Contents

covenants. The deferred financing fees, along with the deferred interest rate swap balance included in accumulated other comprehensive loss, are treated as additional interest expense and are being amortized over the life of the 4.6 percent Senior Notes. At May 31, 2011, outstanding principal on the 4.6 percent Senior Notes was approximately \$65.0 million.

Our wholly owned subsidiary, Raceway Associates, LLC, which owns and operates Chicagoland Speedway and Route 66 Raceway, has the following debt outstanding at May 31, 2010:

Revenue bonds payable (4.8 percent Revenue Bonds) consisting of economic development revenue bonds issued by the City of Joliet, Illinois to finance certain land improvements. The 4.8 percent Revenue Bonds have an interest rate of 4.8 percent and a monthly payment of \$29,000 principal and interest. At May 31, 2011, outstanding principal on the 4.8 percent Revenue Bonds was approximately \$1.4 million.

Revenue bonds payable (6.8 percent Revenue Bonds) that are special service area revenue bonds issued by the City of Joliet, Illinois to finance certain land improvements. The 6.8 percent Revenue Bonds are billed and paid as a special assessment on real estate taxes. Interest payments are due on a semi-annual basis at 6.8 percent with principal payments due annually. Final maturity of the 6.8 percent Revenue Bonds is January 2012. At May 31, 2011, outstanding principal on the 6.8 percent Revenue Bonds was approximately \$0.6 million.

The term loan (6.3 percent Term Loan), in connection with the construction of the International Motorsports Center, has a 25 year term due October 2034, an interest rate of 6.3 percent, and a current monthly payment of approximately \$292,000. At May 31, 2011, the outstanding principal on the 6.3 percent Term Loan was approximately \$50.8 million. At May 31, 2011, outstanding TIF bonds, in connection with the financing of construction of Kansas Speedway, totaled approximately \$63.6 million, net of the unamortized discount, which is comprised of a \$15.9 million principal amount, 6.2 percent term bond due December 1, 2017 and a \$49.7 million principal amount, 6.8 percent term bond due December 1, 2027. The TIF bonds are repaid by the Unified Government with payments made in lieu of property taxes (Funding Commitment) by our wholly owned subsidiary, Kansas Speedway Corporation. Principal (mandatory redemption) payments per the Funding Commitment are payable by Kansas Speedway Corporation on October 1 of each year. The semi-annual interest component of the Funding Commitment is payable on April 1 and October 1 of each year. Kansas Speedway Corporation granted a mortgage and security interest in the Kansas project for its Funding Commitment obligation.

In November 2010, we entered into a \$300.0 million revolving credit facility (2010 Credit Facility). The 2010 Credit Facility contains a feature that allows us to increase the credit facility to a total of \$500.0 million, subject to certain conditions. Upon execution of the 2010 Credit Facility, we terminated our then existing \$300.0 million revolving credit facility. The 2010 Credit Facility is scheduled to mature in November 2015, and accrues interest at LIBOR plus 150.0 225.0 basis points, depending on the better of our debt rating as determined by specified rating agencies or our leverage ratio. The 2010 Credit Facility contains various restrictive covenants. At May 31, 2011, we had approximately \$20.0 million outstanding under the 2010 Credit Facility.

In October 2002, the Unified Government issued subordinate sales tax special obligation revenue bonds (2002 STAR Bonds) totaling approximately \$6.3 million to reimburse us for certain construction already completed on the second phase of the Kansas Speedway project and to fund certain additional construction. The 2002 STAR Bonds, which require annual debt service payments and are due December 1, 2022, will be retired with state and local taxes generated within the Kansas Speedway's boundaries and are not our obligation. Kansas Speedway Corporation has agreed to guarantee the payment of principal, any required premium and interest on the 2002 STAR Bonds. At May 31, 2011, the Unified Government had approximately \$2.6 million in 2002 STAR Bonds outstanding. Under a keepwell agreement, we have agreed to provide financial assistance to Kansas Speedway Corporation, if necessary, to support its guarantee of the 2002 STAR Bonds.

Speedway Developments

In light of NASCAR's publicly announced position regarding additional potential realignment of the NASCAR Sprint Cup Series schedule, we believe there are still potential development opportunities for public/private partnerships in new, underserved markets across the country, which could include Denver, Colorado, the Northwest U.S. and the New York Metropolitan area.

Hollywood Casino at Kansas Speedway

In February 2010, Kansas Entertainment a 50/50 joint venture of Penn, a subsidiary of Penn National Gaming, Inc. and KSDC a wholly owned indirect subsidiary of ISC, received the final approval under the Kansas Expanded Lottery Act, along with its gaming license from the Kansas Racing and Gaming Commission to proceed with the construction of the Hollywood-themed and branded entertainment destination facility, overlooking turn two of Kansas Speedway. Kansas Entertainment began construction of the facility in April 2010 and has a planned opening in the first quarter of 2012.

Table of Contents

The initial phase of this project, including certain changes to the scope and mix of gaming operations and amenities approved by the Kansas Lottery Commission in August 2010, features an 82,000 square foot casino with 2,000 slot machines and 52 table games (including 12 poker tables), a 1,253 space parking structure as well as a sports-themed bar, dining and entertainment options. Kansas Entertainment anticipates funding the initial phase of the development with equity contributions from each partner and potentially third party financing. KSDC and Penn will share equally in the cost of developing and constructing the facility. We currently estimate that our share of capitalized development costs for the project, excluding our contribution of land, will be approximately \$155.0 million. Through May 31, 2011, we have funded approximately \$59.4 million of these capitalized development costs to Kansas Entertainment and expect to fund the remaining amount through the opening of the casino in fiscal 2012. In addition, we expect to continue to incur certain other start up and related costs through opening, which will be expensed through equity in net loss from equity investments. Penn is the managing member of Kansas Entertainment and is responsible for the development and operation of the casino.

Daytona Development Project

We are exploring development of a mixed-use entertainment destination development on 71 acres located directly across International Speedway Boulevard from our Daytona motorsports entertainment facility.

The initial development includes the approximately 188,000 square foot office building, the International Motorsports Center, completed in November 2009. The IMC houses the headquarters of ISC, NASCAR, Grand American and their related businesses, and additional space for other tenants. The IMC was financed in July 2008 through a \$51.3 million construction term loan obtained by our wholly owned subsidiary, which was created to own and operate the office building.

Approved land use entitlements for the remaining project allow for a 265,000 square foot mixed-use retail/dining/entertainment area, plus a hotel, residential and additional office space. Development of the balance of the project is dependent on several factors, including lease arrangements, availability of project financing and overall market conditions.

While we continue to believe that a mixed-use retail/dining/entertainment area located across from our Daytona facility will be a successful project, given the current economic conditions and the uncertainty associated with the future, development of the project will depend on its economic feasibility.

Inflation

We do not believe that inflation has had a material impact on our operating costs and earnings.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

During the three and six months ended May 31, 2011, there have been no material changes in our market risk exposures.

We are exposed to market risk from changes in interest rates in the normal course of business. Our interest income and expense are most sensitive to changes in the general level of U.S. interest rates and the LIBOR rate. In order to manage this exposure, from time to time we use a combination of debt instruments, including the use of derivatives in the form of interest rate swap and lock agreements. We do not enter into any derivatives for trading purposes.

The objective of our asset management activities is to provide an adequate level of interest income and liquidity to fund operations and capital expansion, while minimizing market risk. We utilize overnight sweep accounts and short-term investments to minimize the interest rate risk. We do not believe that our interest rate risk related to our cash equivalents and short-term investments is material due to the nature of the investments.

Our objective in managing our interest rate risk on our debt is to negotiate the most favorable interest rate structures that we can and, as market conditions evolve, adjust our balance of fixed and variable rate debt to optimize our overall borrowing costs within reasonable risk parameters. Interest rate swaps and locks are used from time to time to convert a portion of our debt portfolio from a variable rate to a fixed rate or from a fixed rate to a variable rate as well as to lock in certain rates for future debt issuances.

The following analysis provides quantitative information regarding our exposure to interest rate risk. We utilize valuation models to evaluate the sensitivity of the fair value of financial instruments with exposure to market risk that assume instantaneous, parallel shifts in interest rate yield curves. There are certain limitations inherent in the sensitivity analyses presented, primarily due to the assumption that interest rates change instantaneously. In addition,

the analyses are unable to reflect the complex market reactions that normally would arise from the market shifts modeled.

Table of Contents

We have various debt instruments that are issued at fixed rates. These financial instruments, which have a fixed rate of interest, are exposed to fluctuations in fair value resulting from changes in market interest rates. The fair values of long-term debt are based on quoted market prices at the date of measurement. Our credit facilities approximate fair value as they bear interest rates that approximate market. At May 31, 2011, we had approximately \$20.0 million of variable debt outstanding; therefore, a hypothetical increase in interest rates by 1.0 percent would result in an increase in our annual interest expense of approximately \$0.2 million.

At May 31, 2011, the fair value of our total long-term debt as determined by quotes from financial institutions was approximately \$291.1 million. The potential decrease in fair value resulting from a hypothetical 10.0 percent shift in interest rates would be approximately \$4.8 million at May 31, 2011.

Credit risk arises from the possible inability of counterparties to meet the terms of their contracts on a net basis. However, we minimize such risk exposures for these instruments by limiting counterparties to large banks and financial institutions that meet established credit guidelines. We do not expect to incur any losses as a result of counterparty default.

ITEM 4. DISCLOSURE CONTROLS AND PROCEDURES

Subsequent to May 31, 2011, and prior to the filing of this report, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures under the supervision of and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures, subject to limitations as noted below, were effective at May 31, 2011, and during the period prior to the filing of this report.

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure control procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

PART II OTHER INFORMATION

ITEM 1A. RISK FACTORS

This report and the documents incorporated by reference may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. You can identify a forward-looking statement by our use of the words anticipate, estimate, expect, may, believe, objective, projection, forecast, goal, and similar expressions. These forward-looking statements include statements regarding the timing of future events, our anticipated future operations and our anticipated future financial position and cash requirements. Although we believe that the expectations reflected in our forward-looking statements are reasonable, we do not know whether our expectations will prove correct. We previously disclosed in response to Item 1A to Part I of our report on Form 10-K for the fiscal year ended November 30, 2010 the important factors that could cause our actual results to differ from our expectations. There have been no material changes to those risk factors.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares (or approximate dollar value of shares) that may yet be purchased under the plans or programs (in thousands)
March 1, 2011 – March 31, 2011	113,100	\$28.38	113,100	\$ 23,600
April 1, 2011 – April 30, 2011	95,580	\$30.71	95,580	\$ 20,600
Repurchase program (1)	9,280	29.80		
Employee transactions (2)	117,200	\$29.47	117,200	\$ 17,200
May 1, 2011 – May 31, 2011				
	335,160		325,880	

(1) We have a share repurchase program (Stock Purchase Plan) under which we are authorized to purchase up to \$250.0 million of our outstanding Class A common shares. The timing and amount of any shares repurchased under the Stock Purchase Plan will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability and other market conditions. The Stock Purchase Plan may be suspended or discontinued at any time without prior notice. No shares have been or will be knowingly purchased from Company insiders or their affiliates. Since inception of the Plan through May 31, 2011, we have purchased 5,630,481 shares of our Class A common shares, for a total of approximately \$232.8 million. Included in these totals are the purchases of 407,868 shares of our Class A common shares during the six months ended May 31, 2011, at an average cost of approximately \$29.41 per share (including commissions), for a total of approximately \$12.0 million. These transactions occurred in open market purchases and pursuant to a trading plan under Rule 10b5-1. At May 31, 2011, we have approximately \$17.2 million remaining repurchase authority under the current Stock Purchase Plan.

(2) Represents shares of our common stock delivered to us in satisfaction of the tax withholding obligation of holders of restricted shares that vested during the period.

ITEM 6. EXHIBITS

Exhibit Number	Description of Exhibit
3.1	Articles of Amendment of the Restated and Amended Articles of Incorporation of the Company, as filed with the Florida Department of State on July 26, 1999 (incorporated by reference from exhibit 3.1 of the Company's Report on Form 8-K dated July 26, 1999)
3.2	Conformed copy of Amended and Restated Articles of Incorporation of the Company, as amended as of July 26, 1999 (incorporated by reference from exhibit 3.2 of the Company's Report on Form 8-K dated

July 26, 1999)

- 3.3 Conformed copy of Amended and Restated By-Laws of the Company, as amended as of April 9, 2003.
(incorporated by reference from exhibit 3.3 of the Company's Report on Form 10-Q dated April 10, 2003)
- 31.1 Rule 13a-14(a) / 15d-14(a) Certification of Chief Executive Officer filed herewith
- 31.2 Rule 13a-14(a) / 15d-14(a) Certification of Chief Financial Officer filed herewith
- 32 Section 1350 Certification filed herewith
