PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

Wednesday April 27, 2005

The enclosed proxy is solicited by the Board of Directors of Burlington Resources Inc. (the "Company") for use at the Company's Annual Meeting of Stockholders on April 27, 2005. This proxy statement and the enclosed proxy are being mailed to the Company's stockholders on or about March 21, 2005. Shares of common stock of the Company, par value \$.01 per share ("Common Stock"), represented by a properly executed proxy will be voted at the meeting and at any adjournments of the meeting. A properly completed proxy will be voted in accordance with the directions specified on the proxy, and, with respect to any other matters properly brought before the meeting, in accordance with the judgment of the persons designated as proxies. The proxy may be revoked at any time before its exercise by sending written notice of revocation to Mr. Jeffery P. Monte, Corporate Secretary, Burlington Resources Inc., 717 Texas Avenue, Suite 2100, Houston, Texas 77002, or by signing and delivering a proxy which is dated and received later, either electronically or by mail, or, if the stockholder attends the meeting in person, by giving notice of revocation to the Inspector of Election at the meeting.

February 28, 2005 was the record date for the determination of stockholders entitled to notice of, and to vote at, the meeting. On that date there were outstanding and entitled to vote 386,909,147 shares of Common Stock, which is the Company's only class of voting securities. Attendance by holders of a majority of the shares of the Company's Common Stock outstanding on the record date, whether present in person or represented by a proxy, will constitute the quorum necessary to transact business at the annual meeting. Each stockholder is entitled to one vote for each share of Common Stock held of record. A plurality of the shares of Common Stock present in person or represented by proxy at the meeting is required for the election of Directors. Abstentions and broker non-votes have no effect on determinations of plurality except to the extent that they affect the total votes received by any particular candidate. An affirmative vote of a majority of the shares of Common Stock present in person or represented by proxy and entitled to vote at the meeting is required for approval of all other items submitted to the stockholders for their consideration. Abstentions are counted in the number of shares present in person or represented by proxy and entitled to vote for purposes of determining whether a proposal has been approved and, therefore, have the affect of a "no" vote. Broker non-votes are not counted as present and entitled to vote for purposes of determining whether a proposal has been approved and, therefore, have the affect of reducing the number of votes required to achieve a majority vote by reducing the total number of shares from which the majority is calculated.

CORPORATE GOVERNANCE

Board of Director Meetings and Committees

The Board of Directors of the Company held five meetings during 2004. The standing committees of the Board of Directors consist of an Audit Committee, a Compensation Committee and a Governance and Nominating Committee. The Audit Committee held eleven meetings during 2004. The Governance and Nominating Committee held four meetings during 2004. The Compensation Committee held three meetings during 2004. Copies of the charters of the Audit Committee, Compensation Committee, and Governance and Nominating Committee, as well as the Corporate Governance Guidelines and the Company's Code of Business Conduct and Ethics, are available under the Corporate Governance section of the Company's Web site at www.br-inc.com and are available in print to any stockholder who requests them.

Table of Contents

The Board of Directors has determined that each member of the Audit, Compensation and Governance and Nominating Committee is independent, as independence for such membership is defined in the New York Stock Exchange (NYSE) listing standards. See Election of Directors for further information on independence of Directors.

During 2004, each Director attended at least 75 percent of the meetings of the Board of Directors and the committees thereof on which such Director served. The Company's Corporate Governance Guidelines provide that the preference is that Directors attend the annual meeting of stockholders. All members of the Company's Board of Directors attended the Annual Meeting of Stockholders in 2004.

The Audit Committee's primary purpose is to assist the Board of Directors' oversight of (a) the integrity of the Company's financial statements, (b) the Company's compliance with legal and regulatory requirements, (c) the independent auditor's qualifications and independence, and (d) the performance of the Company's internal audit function and independent auditors. The Audit Committee has the sole authority to appoint and terminate the Company's independent auditors. The members of the Audit Committee are Barbara T. Alexander, Reuben V. Anderson, Laird I. Grant, Robert J. Harding (Chairman), and Donald M. Roberts. The Board of Directors has determined that Ms. Alexander, Ms. Grant, Mr. Harding and Mr. Roberts are audit committee financial experts as described in Item 401(h) of Regulation S-K. The Audit Committee is established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934.

The purpose of the Compensation Committee is to have direct responsibility to (a) review and approve corporate goals and objectives relevant to executive officer compensation (including the Chief Executive Officer), evaluate the executive officers' performance in light of those goals and objectives, and determine and approve (or recommend to the independent members of the Board of Directors) the executive officers' compensation level based on their evaluation and (b) make recommendations to the Board of Directors, as appropriate, with respect to incentive-compensation and equity-based plans. The members of the Compensation Committee are John T. LaMacchia, James F. McDonald, James A. Runde, John F. Schwarz, Walter Scott, Jr. (Chairman), and William E. Wade, Jr. The Compensation Committee has the sole authority to appoint and terminate a compensation consulting firm to assist with the evaluation of director and executive compensation.

The Governance and Nominating Committee is responsible for (a) identifying individuals qualified to serve on the Board of Directors, and recommending that the Board of Directors select director nominees to be considered for election at the Company's next annual meeting of shareholders or to be appointed by the Board of Directors to fill an existing or newly created vacancy on the Board of Directors, (b) identifying members of the Board of Directors to serve on each board committee and to serve as chairman thereof and recommending each such member and chairman to the Board of Directors, (c) developing and revising as appropriate Corporate Governance Guidelines applicable to the Company and recommending such guidelines or revisions to the Board of Directors, (d) overseeing the evaluation by the Board of Directors of itself and its committees, (e) overseeing the evaluation of management, (f) identifying individuals to serve as officers of the Company and recommending such individuals to the Board of Directors and (g) reviewing with the Chief Executive Officer matters of management succession. Executive Sessions of the Board of Directors

Non-Management Directors meet regularly in executive sessions following regularly scheduled meetings of the Board of Directors.

Non-Management Directors are all those Directors who are not Company employees and may include Directors who are not independent as determined by the Board of Directors (although the Board of Directors determined that all Non-Management Directors were independent as discussed under Election of Directors). The Non-Management Directors consist of all current Directors, except Messrs. Shackouls, Limbacher and Shapiro. Executive sessions are led by a presiding Non-Management Director. Except as otherwise designated, the Chairman of the Compensation Committee will serve as the presiding Non-Management Director at each such executive session. The base salary for the Chief Executive Officer is approved by the independent members of the Board of Directors.

Communications with Directors

The Company's Board of Directors has adopted a policy that provides that security holders of the Company and other interested parties may communicate with one or more of the Company's Directors (including any presiding Director or the Non-Management Directors as a group) by mail in care of Jeffery P. Monte, Corporate Secretary, Burlington Resources Inc., 717 Texas Avenue, Suite 2100, Houston, Texas 77002. Such communications should specify the intended recipient or recipients. All such communications, other than unsolicited commercial solicitations or communications, will be forwarded to the appropriate Director or Directors for review.

Shareholder Nominations

The Company's Corporate Governance Guidelines provide that the Governance and Nominating Committee will consider proposals for nominees for Director from stockholders which are made in writing to Mr. Jeffery P. Monte, Corporate Secretary, Burlington Resources Inc., 717 Texas Avenue, Suite 2100, Houston, Texas 77002. In order to nominate a Director at the Annual Meeting, the Company's By-Laws require that a stockholder follow the procedures set forth in Article II, Section 11 of the Company's By-Laws (available on the Company's Web site at www.br-inc.com). In order to recommend a nominee for a Director position, a stockholder must be a stockholder of record at the time it gives its notice of recommendation and must be entitled to vote for the election of Directors at the meeting at which such nominee will be considered. In the event that the date of the annual meeting is changed by more than 30 days from the anniversary date of the preceding year's annual meeting, the stockholder notice described above will be deemed timely if it is received not later than the close of business on the later of the 90th day prior to such annual meeting or the tenth day following the day on which public announcement of the date of such meeting is first made.

The stockholder notice must set forth the following:

As to each person the stockholder proposes to nominate for election as a Director, all information relating to such person that would be required to be disclosed in solicitations of proxies for the election of such nominees as Directors pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, and such person's written consent to serve as a director if elected, and

In addition to complying with the foregoing procedures, any stockholder nominating a Director must also comply with all applicable requirements of the Securities Exchange Act of 1934 and the rules and regulations thereunder.

Director Compensation

Directors who are not officers or employees of the Company (Non-Employee Directors) receive an annual retainer of \$75,000. In addition, the Chairman of the Audit Committee receives an annual retainer of \$10,000 and the Chairman of each other Committee of the Board of Directors receives an annual retainer of \$5,000. Non-Employee Directors can elect to have their retainers paid quarterly in cash, or defer payment until their resignation from the Board of Directors under deferral provisions which permit participants to allocate the deferred compensation in a variety of investment funds, including phantom shares of the Company's Common Stock. The Company also maintains \$500,000 of business travel accident insurance for Non-Employee Directors while traveling on Company business, and Non-Employee Directors participate in the Company's matching gift program on the same basis as the Company's full time employees in the United States. In accordance with the Company's Corporate Governance Guidelines, the Company reimburses Directors for reasonable expenses incurred in connection with continuing education programs relating to the responsibilities of directors of public companies. Directors who are also officers or employees of the Company do not receive any compensation for duties performed as Directors.

The Company's 2000 Stock Option Plan for Non-Employee Directors provides for the annual grant of a nonqualified option to purchase 4,000 shares of Common Stock immediately following the Annual Meeting of Stockholders to Non-Employee Directors. In addition, an option to purchase 10,000 shares is granted upon a Non-Employee Director's initial election or appointment to the Board of Directors. The exercise price per share with respect to each option is the fair market value (as defined in the plan) of the Common Stock on the date the option is granted. During 2004, an option to purchase 10,000 shares of Common Stock was granted pursuant to this plan to each of Ms. Alexander and Mr. Runde upon their election to the Board of Directors. In addition, an annual option for 4,000 shares of Common Stock was granted to Ms. Grant and Ms. Alexander and to each of Messrs. Anderson, Harding, LaMacchia, McDonald, Orce, Roberts, Runde, Schwarz, Scott and Wade pursuant to this plan. These amounts have been adjusted to reflect the 2-for-1 stock split payable June 1, 2004 to holders of record on May 5, 2004.

The Company's Phantom Stock Plan for Non-Employee Directors provides that immediately following each Annual Meeting of Stockholders (and upon a Non-Employee Director's initial election or appointment to the Board if not at an Annual Meeting), a memorandum account established for each of the Non-Employee Directors will be credited with 2,000 shares of phantom stock. Dividends paid per share of Common Stock are deemed to be paid per share of phantom stock and are reinvested in additional phantom stock pursuant to the plan. Amounts credited to the memorandum accounts pursuant to this plan are unfunded obligations of the Company. Upon termination of service as a Director, phantom shares credited in the memorandum account will be valued at the fair market value of the Company's Common Stock at that time and paid in cash.

Table of Contents

The Company reimburses Non-Employee Directors for expenses incurred in connection with attending Board of Director meetings and other Company events, including the reimbursement of expenses for transportation on commercial, chartered or private aircraft. On occasion, a spouse or guest of a Non-Employee Director is invited by the Company to a Company event and travels with the Non-Employee Director. From time to time, the Company provides transportation aboard Company aircraft to and from these events. Under applicable tax laws, income must be imputed to a Non-Employee Director in certain instances for use of Company aircraft, and the Company's reimbursement for expenses may include tax protection applicable to some or all of the imputed income. In 2005, the Company will pay an aggregate of \$6,330 in tax protection to Non-Employee Directors for use of Company aircraft by Non-Employee Directors and their invited guests in connection with Company business activities during the year ended December 31, 2004. In addition, subject to the approval of the Chairman of the Board and Chief Executive Officer, Non-Employee Directors and their invited guests are permitted to use Company aircraft for personal use, provided that the number of flight hours for these trips by all of the Non-Employee Directors and their spouses or guests, together with approved personal trips by employees and others on Company aircraft, may not exceed ten percent (10%) of the total flight hours in any fiscal quarter. For the year ended December 31, 2004, Messrs. Anderson, Orce and Wade were imputed non-tax protected income in the amount of \$3,374, \$4,182, and \$2,558, respectively, for personal usage of Company aircraft.

In 1991, the Company established a Charitable Award Program for Directors who have served on the Board of Directors for at least two years. Upon the death of a Director eligible to participate in the program, the Company will donate \$1 million to one or more educational institutions of higher learning or other charitable organizations (which may include private foundations) nominated by the Director and, in the case of charitable organizations, approved by the Board of Directors. In January 2003, the Board of Directors terminated the program with respect to the participation of any person first elected to serve on the Board of Directors after that date.

In 1988 the Company established a Retirement Income Plan for Directors. Effective as of the Company's 1996 Annual Meeting of Stockholders, the Board of Directors terminated such plan, although benefits accrued prior to termination remain. As a result, upon retirement from the Board of Directors, Messrs. McDonald, Roberts and Scott will receive an annual payment in an amount equal to the annual retainer then being paid to Directors for the number of years of service on the Board of Directors prior to termination of the plan. In addition, Messrs. Orce and Schwarz were former directors of The Louisiana Land and Exploration Company (LL&E), which became a wholly owned subsidiary of the Company on October 22, 1997. As former directors of LL&E, Messrs. Orce and Schwarz will be entitled to receive benefits under the Retirement Plan for Directors of LL&E, which provides for an annual retirement benefit of \$30,000 for a period of ten years payable in equal quarterly installments beginning the month following the Director's 70th birthday. Further, deferrals made by Messrs. Orce and Schwarz while directors of LL&E accrue at fixed rates of interest determined when the deferrals were made.

Stock Ownership

The Company's Board of Directors established stock ownership guidelines for Non-Management Directors in 2004 to ensure that such Directors will have a significant personal investment in Company Common Stock. The guidelines require Non-Management Directors to hold the equivalent of two times the amount of the Company's annual retainer for Non-Management Directors in the Company's Common Stock. Directors will have three years from the date of initial election to meet the target levels. As of February 28, 2005, the record date for the Annual Meeting, each of the Company's Non-Management Directors had attained the stock ownership targets currently required by the guidelines.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors and persons who beneficially own more than 10 percent of a registered class of the Company's equity securities to file initial reports of ownership and changes in ownership with the Securities and Exchange Commission. Such officers, directors and stockholders are required by Securities and Exchange Commission

regulations to furnish the Company with copies of all Section 16(a) forms they file. Based solely on a review of the copies of such forms and amendments thereto furnished to the Company during the Company's most recent fiscal year by the Company's executive officers, directors, and persons who beneficially owned more than 10 percent of a registered class of the Company's equity securities, all persons subject to the reporting requirements of Section 16(a) filed the required reports on a timely basis, except John Williams filed a late Form 4 disclosing the sale of 5,000 shares of Common Stock.

Compensation Committee Interlocks and Insider Participation

The members of the Compensation Committee are John LaMacchia, James McDonald, James Runde, John Schwarz, Walter Scott, Jr. (Chairman), and William Wade, Jr. None of the members of the Compensation Committee have been officers or employees of the Company. This amount represented approximately 0.06 percent of MidAmerican Energy's consolidated gross revenues reported for its fiscal year ended December 31, 2004.

REPORT ON EXECUTIVE COMPENSATION

BY THE COMPENSATION COMMITTEE

The Compensation Committee of the Board of Directors (the Committee) is composed entirely of Directors who are not employees of the Company. The Committee is responsible for establishing and administering the Company's executive compensation program.

Compensation Philosophy and Objectives

The philosophy underlying the development and administration of the Company's annual and long-term compensation plans is the alignment of the interests of the Company's executives with those of the shareholders. Key elements of this philosophy are:

Establishing compensation plans which strengthen the Company's ability to attract and retain executives and key employees and to deliver pay commensurate with the Company's performance, as measured by strategic, operating and financial objectives.

Providing significant equity-based incentives for executives to ensure that they are motivated over the long term to respond to the Company's business challenges and opportunities as owners rather than just as employees.

Rewarding executives for superior performance when shareholders receive an above-average return on their investment over the long term.

One of the Committee's objectives is to position executive base salaries to be competitive with other companies in the energy sector. In 2004, the Company's executive base salaries were at the median when compared to a group of oil and gas companies. This compensation comparator group consists of ten independent and integrated oil and gas companies, including those currently in the Company's self-constructed peer group which is used in the comparison of cumulative total shareholder return, as well as Amerada Hess Corporation, Kerr-McGee Corporation, Marathon Oil Corporation and Occidental Petroleum Corporation. The performance of the companies in the compensation comparator group is not considered in establishing executive base salaries.

The Incentive Compensation Plan, or annual bonus plan, is the program by which executives can earn additional compensation based on individual, division and Company performance relative to certain annual objectives. At maximum award levels, total annual cash compensation for the Company's executives is in the top quartile of the compensation comparator group's total annual cash compensation. The plan allows for maximum awards of up to 187.5 percent of base salary. In evaluating the Company's 2004 performance, the Committee considered a combination of operating and financial objectives, including return on capital employed, growth in appraised net worth per share, unit cash costs, change in production per share and reserve replacement costs. The change in appraised net worth is calculated on a price normalized basis. These measures were specifically weighted and are considered to be critical to the Company's fundamental goal of building shareholder value. In addition, the Committee has the discretion to modify the result of these measures based upon the Company's relative total shareholder return as compared to its self-constructed peer group and the Company's environmental health and safety performance. Beginning in 2005, return on capital employed will be evaluated in light of the Company's performance relative to its self-constructed peer group and that result may be modified based on commodity prices.

The Company's long-term incentive program consists of stock options and restricted stock granted under the 2002 Stock Incentive Plan (the Stock Incentive Plan) and performance share units granted under the Performance Share Unit Plan (the PSU Plan). With the completion of the four year performance cycle under the Company's 2001 PSU Plan in December 2004, the Board of Directors approved the 2005 PSU Plan in January 2005, which is based on a four year performance cycle beginning in January 2005 and ending in December 2008. The Committee's objective is to structure the executives' overall long-term incentive compensation opportunity at approximately the seventy-fifth percentile of the long-term compensation

Table of Contents

opportunity provided by the compensation comparator group for comparable positions and to emphasize equity as the cornerstone of the Company's long-term incentive compensation program. Long-term incentive benefits are dependent on the price of the Company's Common Stock, the Company's relative total shareholder return as compared to the peer group and the Company's achievement of its strategic, operating and financial goals.

Under the Stock Incentive Plan, stock options are granted to executives, managers and key employees. The options vest no earlier than one year after the grant date, have a term of ten years and have an exercise price equal to the fair market value of the Common Stock on the day of grant. Restricted stock is also granted to this group of employees. The restrictions on this stock generally lapse on the third anniversary of the date of grant.

Vesting of units under the 2005 PSU Plan occurs over a four year performance period beginning in January 2005 and ending in December 2008 and is dependent on the Company's relative total shareholder return and achievement of its strategic, operating and financial objectives. Up to 25 percent of the units granted will be eligible for vesting each year during the performance cycle and any previously unvested units will be eligible for vesting at the end of the four-year performance period. Pay out of vested units will occur annually and the value of the units will be determined by the average closing price of the Company's common stock price for the 20 business days immediately preceding and including December 31 of the performance period.

The deferred compensation provisions of the Company's compensation plans, including the 2001 PSU Plan and the Incentive Compensation Plan, permit participants to allocate all or a portion of their deferred compensation into three different investment funds, including phantom shares of the Company's Common Stock. As an inducement for executives to increase their exposure to the Company's Common Stock, the plans permit executives the opportunity to invest their deferred 2001 PSU Plan and Incentive Compensation Plan pay out in phantom shares at 75 percent of the fair market value of the Company's Common Stock, provided that such funds may not be transferred to another investment fund for three years or until termination of employment. Until December 2004, the Stock Incentive Plan permitted a participant to forfeit Restricted Stock and receive phantom stock in the deferral plans at fair market value.

The Omnibus Budget Reconciliation Act of 1993 places a limit on the amount of certain types of compensation for each of the executive officers which may be tax deductible by the Company. The Company's policy is, primarily, to design and administer compensation plans which support the achievement of long-term strategic objectives and enhance shareholder value. Where it is consistent with this compensation philosophy, the Committee will also attempt to structure compensation programs that are tax-deductible by the Company.

Company Performance and Compensation

Base Salary

In general, the Committee reviews the base salaries for the executive group every year and in connection with promotions or significant changes in responsibilities. In January 2005, the base salaries for Messrs. Shackouls, Limbacher, Shapiro and Hanower were adjusted to \$1,025,000, \$550,000, \$550,000 and \$450,000, respectively.

Annual Incentive Award

The Company's annual incentive award payout reflected a year of strong performance. Return on capital employed and change in production per share were outstanding. Change in appraised net worth per share was excellent. Reserve replacement costs and unit cash costs were acceptable. Through internal development and acquisitions, the Company replaced 125 percent of production for the year.

Table of Contents

In view of these results, the Committee awarded Mr. Shackouls an annual incentive award of \$1,383,281, which represents 141.9 percent of his base salary. Similarly, the Committee awarded Messrs. Limbacher and Shapiro 141.9 percent of their base salaries and Messrs. Hanower and Williams 113.5 percent of their base salaries.

Long-Term Incentive Plan Payout

The 2001 PSU Plan covered a performance period of four years which began on January 1, 2001 and ended on December 31, 2004. During the first three years of the Plan, the Committee had approved the vesting and payout in aggregate of 50 percent of the units granted. For the one, two, three and four year periods ended December 31, 2004, the Company's total shareholder return exceeded all of the companies in its self-constructed peer group, and the Company's market capitalization increased from \$10,886,528,057 to \$16,875,453,902. Based on the Company's relative total shareholder return and achievement of certain strategic, operating and financial objectives for the entire four-year performance period, the Committee approved the vesting of 100 percent of the remaining units or 200,000 units for Mr. Shackouls and an aggregate of 225,000 units for the other named executive officers. For the entire four-year program, the Committee vested in aggregate 100 percent of the units granted.

Pay out under the PSU Plan, which occurred in January 2005, was based on the number of units then being vested multiplied by the average closing price of the Company's Common Stock for the 20 trading days prior to and including December 31, 2004. Payments under this plan consisted of \$8,632,000 to Mr. Shackouls and an aggregate of \$9,711,000 to the other named executive officers. Including payments made in the first three years of the Plan, the total payments to all participants in the 2001 PSU Plan were \$44,942,751.

Long-Term Incentive Plan Awards

As an incentive for future performance and consistent with the objective of targeting long-term incentive compensation at the seventy-fifth percentile when compared to the comparator group of oil and gas companies, the Committee in January 2005 granted Mr. Shackouls 100,000 stock options and 25,000 shares of restricted stock. The Committee also granted the other named executive officers an aggregate of 120,000 stock options and an aggregate of 35,000 shares of restricted stock. Fifty percent of the stock options will vest on the first anniversary of the grant date and the remainder will vest on the second anniversary, and the grant of restricted stock vests three years from the date of the grant (assuming continued employment).

In connection with the implementation of the 2005 PSU Plan, the committee granted Mr. Shackouls the opportunity to earn up to 200,000 units and the other named executive officers the opportunity to earn up to an aggregate of 250,000 units. Vesting of performance share units is dependent on the Company's relative total shareholder return and the achievement of its strategic, operating and financial goals. Units may vest in equal increments over the next four years, and any unvested units may vest at the end of the four year performance cycle. Payment under this plan will be made annually based on the price of the Company's Common Stock at that time. These awards provide incentive for the Company's executive officers to continue to build shareholder value over the long term. In making these grants, the Committee did not consider currently outstanding long-term incentive awards.

Stock Ownership

The Committee established stock ownership guidelines in 1993 to more closely align management's personal financial interests with the interests of all shareholders. The guidelines require officers, depending upon their position, to hold the equivalent of one to four times their base pay in the Company's Common Stock. In December 2004, the Committee amended the guidelines to require officers, depending on their position, to hold the equivalent of two to five times their base pay in the Company's Common Stock by December 31, 2005. For new incumbents, these targets are to be achieved within three years of their

appointment to the position. As of February 28, 2005, the record date for the Annual Meeting, each of the Company's executive officers had attained the stock ownership targets currently required by the guidelines.

- (1) Unless otherwise noted, bonus payments are reported for the year in which the related services were performed.
- (2) Includes perquisites, except where the total for a named executive is less than the threshold requiring disclosure. Perquisites provided to some or all of the named executive officers are as follows: personal use of Company sponsored memberships to country, luncheon, health and athletic clubs, personal use of Company airplanes and tax and financial consulting services. In addition, Mr. Shackouls maintains a Company owned vehicle and all costs associated with such vehicle, including insurance, are paid or reimbursed by the Company. The tax and financial consulting services, the personal use of club memberships, and the Company owned vehicle are valued at the actual cost of the service or expense. The value of the personal use of the Company aircraft is based on the incremental cost to the Company determined by the number of flight hours multiplied by the hourly operating costs. The total value of such perquisites is then determined on an after-tax cost to the Company. Pursuant to a policy adopted by the Board of Directors, Mr. Shackouls is required to use Company owned or leased

Includes tax protection payments made by the Company on behalf of the named executive officers relating to the use of Company airplanes. Includes for Messrs. Limbacher, Shapiro and Hanower a benefit related to the discount on the deferral of PSU Plan payouts into phantom shares of the Company's Common Stock as described in footnote (4) below. For 2004, this benefit to Mr. Shapiro was \$899,167.

- (3) The value of restricted stock reported in this column is based on the closing price of the Common Stock on the New York Stock Exchange on the date of grant. On December 31, 2004, Messrs. Shackouls, Limbacher, Shapiro, Williams and Hanower held 160,000, 50,000, 70,000, 40,000 and 40,000 shares, respectively, of restricted Common Stock, having a market value, based on the closing price of the Common Stock on such date, of \$6,960,000, \$2,175,000, \$3,045,000, \$1,740,000 and \$1,740,000, respectively. Such shares began vesting on October 16, 2003 and will be fully vested on October 16, 2006. Dividends are paid on restricted Common Stock at the same rate as paid on unrestricted Common Stock. All restrictions on shares of restricted stock shall terminate immediately upon a Change in Control of the Company as defined in the 2002 Stock Incentive Plan.
- (4) Long-term incentive plan payouts pursuant to the Company's PSU Plan are made for performance periods which began January 1, 2001 and end on December 31st of each fiscal year. Under the PSU Plan, this payment is equal to the number of vested units held by a participant in the PSU Plan multiplied by the average closing price of the Company's Common Stock for the 20 business days immediately preceding and including December 31st. Units were vested and paid out annually under the PSU Plan throughout the first three years of the four year performance cycle. In addition, units that were not previously vested during the previous three years were considered for vesting based upon performance over the entire four year cycle. In aggregate, 100% of the Units granted under the PSU Plan vested. Mr. Shapiro deferred 100% of his 2004 payout into phantom shares of the Company's Common Stock at 75% of Fair Market Value. Of the units eligible to vest in 2003, 75% were vested and Messrs. Limbacher and Shapiro deferred 14% and 100% of their payouts, respectively, into phantom shares of the Company's Common Stock at 75% of the fair market value. Of the units eligible to vest in 2002, 75% were vested and Messrs. Shapiro and Hanower deferred 100% of their payouts into phantom shares of the Company's Common Stock at 75% of the fair market value.

NOTES

- (1) Under the terms of the Stock Incentive Plan, options are granted at fair market value and generally may not be exercised until the employee has completed one year of continuous employment with the Company or its subsidiaries from the grant date. Options have a term of ten years and generally terminate (i) three years after the optionee's death, permanent disability, retirement, or termination in certain circumstances following a Change in Control of the Company, as defined in the Stock Incentive Plan, (ii) two years after involuntary termination of the optionee's employment by the Company without cause (except that the Compensation Committee or a subcommittee thereof may terminate options earlier following involuntary termination of employment of the named executive officers), or (iii) immediately upon voluntary termination of employment by the optionee or involuntary termination of employment by the Company for cause.
- (2) The dollar amounts under these columns represent the potential realizable value of the total grant of incentive and non-qualified stock options to each of the named executive officers assuming that the market price of the underlying security appreciates in value from the date of grant at the 5% and 10% annual rates prescribed by the SEC. These calculations are not intended to forecast possible future appreciation, if any, of the price of Company Common Stock.
- (3) Nonqualified stock options which became exercisable on January 21, 2005.

Long-Term Incentive Plan Awards in 2004

No awards under the Performance Share Unit Plan were granted during 2004.

Table of Contents**Pension Plan**

The named executive officers may receive pension benefits in retirement from the Company's tax-qualified plan (the Pension Plan) that is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Company's nonqualified plan (the Supplemental Benefits Plan). Monthly pension benefits are calculated in the same manner under both plans. The Pension Plan recognizes pension earnings up to the applicable Internal Revenue Services (IRS) limit (\$205,000 in 2004) and the Supplemental Benefits Plan recognizes pension earnings in excess of the IRS limit.

Aggregate monthly pension benefits under the Pension Plan and the Supplemental Benefits Plan are equal to the product of (a) the sum of 1.1% of a participant's average monthly pension earnings plus .5% of average monthly pension earnings to the extent such earnings exceed one-thirty-sixth of the FICA wage base in the year of retirement (\$87,900 per year in 2004), times (b) the number of years of credited service. Pension earnings include the Salary and Bonus shown in the Summary Compensation Table. Average monthly pension earnings are calculated using the highest paid consecutive 36-month period during the last ten years of employment. The following table shows the annual pension benefits payable at age 65, with the various levels of average pension earnings and years of credited service at age 65, payable in aggregate from the Pension Plan and Supplemental Benefits Plan:

Years of credited service generally include all years of employment with the Company. Pursuant to employment agreements, Messrs. Shackouls and Shapiro may be entitled to additional years of credited service under the Supplemental Benefits Plan. Mr. Shackouls is entitled to approximately 13 additional years of credited service if he remains employed by the Company until age 55 or is terminated by the Company prior to age 55. Mr. Shapiro is entitled to 3 additional years of credited service if he is still employed by the Company at age 55 or his employment is involuntarily terminated by the Company prior to age 55. Including credited service provided under employment agreements, Messrs. Shackouls, Limbacher, Shapiro, Williams and Hanower would have 35, 37, 19, 23, and 34 years of credited service at age 65, respectively.

Table of Contents

Benefits under both the Pension Plan and the Supplemental Benefits Plan are not subject to any deduction for Social Security or other offset amounts. In the event that a participant retires after the age of 55, but before the age of 65, monthly pension benefits are reduced by 2% for every year prior to attaining the age of 65. Therefore, a participant that retires at the age of 55, would receive 80% of the benefits listed in the pension plan table. In addition, a participant who retires after age 55 and before age 65 would receive a monthly benefit payable until age 65 equal to 1% of one-thirty-sixth of the FICA wage base, times the number of years of credited service, reduced by 2% for every year prior to attaining the age of 65.

Effective January 1, 2003, the company amended its U.S. pension plan to provide cash balance benefits to new employees. U.S. employees hired before January 1, 2003, were given the choice to remain under the prior plan formula or accrue benefits under the cash balance formula. Messrs. Shackouls, Limbacher, Shapiro, Williams, and Hanower each elected to remain under the prior plan formula and the Pension Plan Table is based on such formula.

Employment Agreements and Severance Plans

The Company has an agreement with Mr. Shackouls which provides for his employment as Chairman of the Board, President and Chief Executive Officer of the Company at a minimum annual salary of \$825,000, effective for three years from the date the Company notifies him that it does not wish to extend the term. The Agreement shall terminate automatically on the date of the Company's Annual Meeting of Stockholders following Mr. Shackouls' 60th birthday. The agreement provides that upon termination of employment within two years after a Change in Control of the Company, Mr. Shackouls will be entitled to the greater of the benefits under the employment agreement or the Company's Executive Change in Control Severance Plan (the "Change in Control Severance Plan"). Pursuant to this agreement, Mr. Shackouls is entitled to approximately thirteen additional years of credited service under the Supplemental Benefits Plan if he remains employed by the Company until age 55 or is terminated by the Company prior to age 55.

The Change in Control Severance Plan provides severance benefits following a Change in Control for certain officers of the Company and its subsidiaries, including the named executive officers listed in the Summary Compensation Table, in an amount equal to (i) three times the sum of annual salary plus the bonus amount defined in the plan and (ii) a pro rata bonus amount for the year in which the change in control occurs. The Change in Control Severance Plan also provides for the continuation of life, health, survivor benefit and long-term disability insurance for a period of up to 36 months subsequent to a participant's termination of employment following a Change in Control as well as a supplemental pension payable under the Supplemental Benefits Plan calculated by adding three years of additional credited pension service and certain other benefits. In addition, the plan provides that the Company will transfer to the officer ownership in any vehicles or club memberships provided by the Company for use by the officer and will provide outplacement services for one year. Benefits are payable under the Change in Control Severance Plan for any termination of employment within two years of the date of a Change in Control, except where termination is by reason of death, disability, for cause, instituted by the employee for other than good reason or the employee is offered employment with a divested operating unit of the Company. The Change in Control Severance Plan also provides that the Company will pay legal fees and expenses incurred by a participant to enforce rights or benefits under the plan.

As defined in the Change in Control Severance Plan, a "Change in Control" shall mean the occurrence of any of the following: (a) a person or group acquires 20% or more of the Company's voting securities; (b) a merger, consolidation or reorganization with or into the Company or in which securities of the Company are issued unless such merger is a "Non-Control Transaction" as defined in the Change in Control Severance Plan; (c) the sale or disposition of substantially all of the Company's assets; (d) a complete liquidation or dissolution of the Company; or (e) members of the Board of Directors on the effective date of the Change in Control Severance Plan and new members approved by at least two-thirds of such members and previously approved members cease to constitute a majority of the Board of Directors.

The Internal Revenue Code of 1986, as amended (the "Code"), imposes an excise tax on payments to certain employees following a Change in Control if the payments meet certain requirements and exceed

Table of Contents

certain limits set forth in the Code. If payments under the Change in Control Severance Plan (the Severance Payments) are subject to this excise tax, the Company will pay an additional amount to the participant (the Gross-Up Payment) such that the participant retains, after payment of the excise tax on the Severance Payments and the Gross-Up Payment and any income tax and Medicare tax on the Gross-Up Payment, an amount equal to the Severance Payments.

The Company also has an agreement with Mr. Shapiro which provides that if (i) Mr. Shapiro is still employed by the Company on his 55th birthday or (ii) before his 55th birthday, Mr. Shapiro's employment with the Company is involuntarily terminated by the Company (other than for Cause or as a result of his death or Permanent Disability, each as defined in the Company's Key Executive Severance Protection Plan), Mr. Shapiro will receive upon termination of his employment with the Company a supplemental pension benefit equal to the difference between the benefit calculated using his actual service and the benefit calculated assuming Mr. Shapiro had an additional three years of credited service. This supplemental pension benefit will be calculated using the provisions of the qualified Pension Plan and the non-qualified Supplemental Benefits Plan in effect at the time Mr. Shapiro's employment with the Company is terminated.

The Company has also agreed to provide certain employees formerly employed in the Company's Seattle, Washington office, including Mr. Hanower, with additional pension-related benefits if their employment terminates prior to age 60 equal to the lump sum value of the additional benefits the employee would have received under the Company's Pension Plan and Supplemental Benefits Plan if the employee had retired upon early retirement at age 60, based on the assumptions that the employee's base salary increases 6% per year, the employee receives the maximum bonus opportunity each year, and the Social Security integration level increases at 5% per year.

Under the Burlington Resources Inc. Senior Executive Survivor Benefit Plan, if a senior executive dies while employed by the Company or a subsidiary, the Company will pay to the executive's beneficiary a survivor's benefit equal to, after payment of all applicable taxes, two and one-half times the executive's annual salary. The benefit is payable in equal installments over a thirty month period.

Under the Company's Performance Share Unit Plan, participants, including the named executive officers listed in the Summary Compensation Table, vest upon Change in Control (as defined in the Change in Control Severance Plan) in a percentage of their performance share units equal to the percentage of the performance cycle represented by the period up to the Change in Control (to the extent not already vested). In addition, upon a Change in Control, the participant's vested performance share units and previous deferrals would become immediately payable unless the participant had elected in advance of the Change in Control to continue to defer payments.

**APPOINTMENT AND RATIFICATION

The Audit Committee of the Board of Directors is required by law and applicable NYSE rules to be directly responsible for the appointment, compensation and retention of the Company's independent auditor. If the stockholders fail to ratify the selection, the Audit Committee may, but is not required to, reconsider whether to retain that firm. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different auditor at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

Representatives of PWC will be present at the Annual Meeting with the opportunity to make a statement and to respond to appropriate questions.

ELECTRONIC PROXY VOTING

Registered shareholders can vote their shares via (1) a toll-free telephone call from the U.S. and Canada; (2) the Internet; or (3) by mailing their signed proxy card. The telephone and Internet voting procedures are designed to authenticate shareholders' identities, to allow shareholders to vote their shares and to confirm that their instructions have been properly recorded. Specific instructions to be followed by any registered shareholder interested in voting via telephone or the Internet are set forth on the enclosed proxy card.

HOUSEHOLDING OF ANNUAL MEETING MATERIALS

The Securities and Exchange Commission rules regarding the delivery of proxy statements and annual reports permit the Company, in specified circumstances, to deliver a single set of these reports to any address at which two or more stockholders reside. This method of delivery, often referred to as householding, will reduce the amount of duplicative information that security holders receive and lower printing and mailing costs for the Company. Each stockholder will continue to receive a separate proxy card.

We have delivered only one proxy statement and annual report to eligible stockholders who share an address, unless we received contrary instructions from any such stockholder prior to the mailing date. If a stockholder prefers to receive separate copies of the Company's proxy statement or annual report, either now or in the future, the Company will promptly deliver, upon written or oral request, a separate copy of the proxy statement or annual report, as requested, to any stockholder at the shared address to which a single copy was delivered. Such requests should be communicated to the Company's transfer agent, EquiServe Trust Company, N.A. either by sending a request in writing to P.O. Box 43010, Providence, Rhode Island 02940 or by calling 1-800-736-3001.

If you are currently a stockholder sharing an address with another stockholder and wish to have only one proxy statement and annual report delivered to the household in the future, please contact EquiServe at the address or telephone number indicated above.
