APPENDIX I

AVC PRODUCT LINE
OF KING PHARMACEUTICALS, INC.

Statements of Revenues and Direct Operating Expenses

For the Year Ended December 31, 1999
and the Nine Months Ended September 30, 2000
Together with Report of Independent Accountants

5

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Shareholders of
King Pharmaceuticals, Inc.:

Edgar Filing: NOVAVAX INC - Form 8-K/A

We have audited the accompanying Statements of Revenues and Direct Operating Expenses of the AVC Product Line of King Pharmaceuticals, Inc. for the year ended December 31, 1999 and the nine months ended September 30, 2000. These statements of Revenues and Direct Operating Expenses are the responsibility of the Company's management. Our responsibility is to express an opinion on these statements of Revenues and Direct Operating Expenses based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Statements of Revenues and Direct Operating Expenses are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Statements of Revenues and Direct Operating Expenses. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Statements of Revenues and Direct Operating Expenses. We believe that our audits provide a reasonable basis for our opinion.

The accompanying Statements of Revenues and Direct Operating Expenses were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission (for inclusion in the current report on Form 8-K/A of Novavax, Inc.) as described in Note 1 and is not intended to be a complete presentation of the AVC Product Line's revenues and expenses.

In our opinion, the Statements of Revenues and Direct Operating Expenses referred to above present fairly, in all material respects, the results of operations described in Note 1 of the Statement of Revenues and Direct Operating Expenses for the year ended December 31, 1999 and the nine months ended September 30, 2000, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO STATEMENTS OF REVENUES AND DIRECT OPERATING EXPENSES

FOR THE YEAR ENDED DECEMBER 31, 1999
AND THE NINE MONTHS ENDED SEPTEMBER 30, 2000
(IN THOUSANDS)

1. Basis of Presentation:

The accompanying statements were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission for inclusion in the current report on Form 8-K/A of Novavax, Inc., ("Novavax") and is not intended to be a complete presentation of the AVC Product Line of King Pharmaceuticals, Inc. (the "AVC Product Line") revenues and expenses. King Pharmaceuticals, Inc. ("King") does not prepare financial statements of the AVC Product Line, which would be intended to report a complete presentation of financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States of America. Accordingly, the accompanying statements do not purport to present the results of operations of the AVC Product Line that would have resulted if King had operated its AVC Product Line as an independent company.

An Agreement for the Purchase and Sale of Assets relating to the AVC Product Line ("Purchase Agreement") was entered into between King and Novavax on January 8, 2001. Novavax acquired certain assets related to the AVC Product Line for \$3,332, as defined in the Purchase Agreement. The purchase price is subject to a contingent payment by King to Novavax of up to \$2,000 if net sales of the AVC product line do not exceed \$850 for each of the calendar years 2001 through 2004.

The assets acquired as of January 8, 2001 represent certain intangible assets as defined in the Purchase Agreement. These assets include the right to the tradename in the United States and the goodwill associated with the tradename; the know-how relating to production, manufacturing, packaging, release, validation and stability of the products in the United States; the right to the new drug application for the AVC Product Line; and the trademark of the AVC Product Line.

Edgar Filing: NOVAVAX INC - Form 8-K/A

In addition to the Purchase Agreement, a supply agreement was also entered into on January 8, 2001 between King and Novavax. Pursuant to the supply agreement, King will supply Novavax the AVC Product Line at a price equal to 110% of King's cost for an initial term of twelve months from the effective date. The supply agreement will be automatically extended for an additional twelve months unless one of the parties terminate the agreement.

AND THE NINE MONTHS ENDED SEPTEMBER 30, 2000
(IN THOUSANDS)

2. Summary of Significant Accounting Policies:

REVENUE RECOGNITION

Sales are reported net of an estimate for returns and allowances, cash discounts, rebates and chargebacks. During the fourth quarter of 2000, King changed its accounting policy for recognizing product sales in accordance with the SEC's Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements." Previously, sales were recognized upon shipment to the customer. The new policy recognizes that risks of ownership in some transactions do not substantively transfer to customers until the product has been received by them without regard to when legal title has transferred.

NET SALES

Net sales include certain sales deductions. Sales deductions include deductions specifically attributable to the AVC Product Line and deductions allocated to the AVC Product Line by management. Management believes this method of allocation is reasonable. The types of deductions included in the calculation of net sales are as follows:

- Sales Returns - Sales returns are directly attributable to identifiable products based on actual sales returns.
- Cash Discounts - Cash discounts are allocated to the AVC Product Line monthly, as a percentage of actual gross sales to total gross sales of King.
- Sales Rebates - Rebates are allocated to the AVC Product Line monthly based on gross sales, using a historical percentage of gross sales.
- Chargebacks - Chargebacks are allocated to the AVC Product Line monthly based on gross sales, using a historical percentage of gross sales.

Year ended	Nine months ended
December 31, 1999	September 30, 2000

FOR THE YEAR ENDED DECEMBER 31, 1999
AND THE NINE MONTHS ENDED SEPTEMBER 30, 2000
(IN THOUSANDS)

2. Summary of Significant Accounting Policies, continued:

COST OF SALES

The products included in the AVC Product Line are manufactured by a third party. Cost of sales include direct costs paid to the third-party manufacturer.

SELLING, GENERAL AND ADMINISTRATIVE COSTS

Selling costs consist primarily of sales force employment costs (salaries and bonuses). General and administrative costs include expenses for administrative services, such as finance, human resources, legal, information systems, and other corporate affairs. These costs are allocated based on a percentage of net sales. Such percentage is determined by dividing total King selling, general and administrative costs by total King net sales. Management believes this method of allocation is reasonable.

AMORTIZATION

Amortization is computed over the estimated useful life of the product, 30 years, using the straight-line method.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Revenues and expenses, and disclosure of contingent assets and liabilities are affected by such estimates and assumptions. Actual results could differ from those estimates.

APPENDIX II

UNAUDITED PRO FORMA COMBINED FINANCIAL INFORMATION

The Unaudited Pro Forma Combined Statements of Operations assume that the acquisition of the AVC Product Line ("AVC") had occurred on January 1, 1999, combining the results of operations of Novavax, Inc. (the "Company") and AVC for the year ended December 31, 1999 and for the nine months ended September 30, 2000. The Unaudited Pro Forma Combined Condensed Balance Sheet as of September 30, 2000 reflects the acquisition as if it had occurred on September 30, 2000.

On January 8, 2001, Novavax acquired certain intangible assets related to the AVC(TM) Product Line of sulfanilamide based vaginal anti-infective cream and suppositories in the United States and Puerto Rico from King Pharmaceuticals, Inc. ("King") for \$3.3 million. In addition, Novavax agreed to purchase all AVC inventories that had expiration dates greater than 18 months. The value of this inventory was approximately \$400,000 and was delivered to Novavax in February 2001. No further liabilities were assumed.

Edgar Filing: NOVAVAX INC - Form 8-K/A

The proforma information is based on the historical financial statements of the Company and the historical statement of revenues and direct operating expenses of AVC, after giving effect to the acquisition using the purchase method of accounting and assumptions and adjustments considered appropriate by the Company, certain of which are described in the accompanying Notes to Unaudited Pro Forma Combined Financial Information. The pro forma information is provided for illustrative purposes only and is not necessarily indicative of the results of operations or financial condition that actually would have been obtained if the acquisition had occurred on the dates indicated or of the results that may be obtained in the future.

The Unaudited Pro Forma Combined Financial Information should be read in conjunction with the historical financial statements and the related notes thereto of the Company and the historical statement of revenues and direct operating expenses of AVC. The historical statement of revenues and direct operating expenses of AVC and the related notes thereto are included herein. The historical financial statements of Novavax, Inc. and the related notes thereto have been previously filed with the Securities and Exchange Commission and are available from the Company upon written request.

Edgar Filing: NOVAVAX INC - Form 8-K/A

NOVAVAX, INC.

NOTES TO UNAUDITED PRO FORMA COMBINED FINANCIAL INFORMATION

NOTE 1. BASIS OF PRESENTATION

Novavax, Inc. ("Novavax" or the "Company") is a biopharmaceutical company focused on the research and development of proprietary drug delivery and encapsulation technologies. The AVC Product Line had been acquired and marketed by King Pharmaceuticals, Inc. ("King") through King's women's health care sales force since January 1999.

The Unaudited Pro Forma Combined Statements of Operations assume that the acquisition of the AVC Product Line ("AVC") had occurred on January 1, 1999, combining the results of operations of Novavax, Inc. (the "Company") and Statements of Revenues and Direct Operating Expenses of AVC for the year ended December 31, 1999 and for the nine months ended September 30, 2000. The Unaudited Pro Forma Combined Condensed Balance Sheet as of September 30, 2000 reflects the acquisition as if it had occurred on September 30, 2000.

The Unaudited Pro Forma statements were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission for inclusion in the current report on Form 8-K/A of Novavax, and are not intended to be a complete presentation of AVC and Novavax's combined results of operations. King did not prepare financial statements of AVC, which would be intended to report a complete presentation of financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States of America. Accordingly, the accompanying Unaudited Pro Forma statements do not purport to present the actual results of operations of AVC that would have resulted if Novavax had acquired AVC in January 1999.

NOTE 2. ACQUISITION OF BIOMEDICAL SERVICES DIVISION

On January 8, 2001, Novavax acquired certain assets related to the AVC Product Line of sulfanilamide based vaginal anti-infective cream and suppositories in the United States and Puerto Rico from King for \$3.3 million. The assets acquired represent certain intangible assets as defined in the Agreement for the Purchase and Sale of Assets relating to the AVC Product Line ("Purchase Agreement"). These assets include the right to the tradename in the United States and the goodwill associated with the tradename; the know-how relating to production, manufacturing, packaging, release, validation and stability of the products in the United States; and the right to the new drug application for AVC. In addition to the Purchase Agreement, a Supply Agreement was also entered into on January 8, 2001 between King and Novavax. Pursuant to the Supply Agreement, King will supply Novavax the AVC Product Line at a price equal to 110% of King's cost for an initial term of twelve months from the effective date. The Supply Agreement will be automatically extended for an additional twelve months unless one of the parties terminate the agreement. Novavax initially agreed to purchase all AVC inventories that had expiration dates greater than 18 months. The value of this inventory was approximately \$400,000 and was delivered to Novavax in February 2001. No other liabilities were assumed.

17

NOTE 3. PRO FORMA ADJUSTMENTS

- (a) Represents cash purchase price of AVC of \$3,332,000 .
- (b) Estimated increase in cost of sales related to contractual 10% service fee for processing inventory purchases.
- (c) Amortization of acquisition cost of AVC product line with an estimated

Edgar Filing: NOVAVAX INC - Form 8-K/A

- useful life of seven years
- (d) Estimated interest expense resulting from the use of \$3,332,000 in cash to acquire AVC.
