**CDC Software and Pivotal Corporation Announce Results of Pivotal's
Shareholder Vote**

Hong Kong and Vancouver February 23, 2004 CDC Software Corporation (CDC Software), a software unit of chinadotcom corporation (NASDAQ: CHINA; Website: www.corp.china.com), and Pivotal Corporation (Pivotal) (NASDAQ: PVTL and TSX: PVT) today announced that Pivotal's shareholders and optionholders have passed resolutions in support of the proposed arrangement (the Arrangement) under Section 252 of the Company Act (British Columbia) involving Pivotal, Pivotal shareholders, Pivotal optionholders and CDC Software. The extraordinary general meeting of shareholders to consider the transaction was held at 2:00 p.m., February 23, 2004, at Vancouver, Canada.

As previously announced, under the Arrangement, Pivotal shareholders who deposited their shares were entitled to elect to receive, in respect of each common share deposited, either:

(a) US\$2.14 comprised of: (i) a cash payment of US\$1.00; plus (ii) US\$1.14 of CDC shares (the Cash and Share Option); or

(b) a cash payment of US\$2.00 (the Cash Option).

Pursuant to the terms of the Arrangement, Pivotal shareholders who have not specifically indicated an election for the Cash and Share Option are deemed to have elected the Cash Option.

In order to be finalized, the Arrangement must be approved by a final order of the Supreme Court of British Columbia, and an application for such approval is anticipated to be made and heard at approximately 9:45 a.m. (Vancouver time) on February 24, 2004. In addition, the Arrangement is subject to the completion of customary closing procedures, including the satisfaction or waiver of certain conditions precedent, and the confirmation of receipt of certain third party consents. CDC Software and Pivotal continue to anticipate that the completion of this aspect of the Arrangement will take place on or about February 25, 2004.

chinadotcom is a leading integrated enterprise software and mobile applications company in China and internationally. Pivotal is a leading international Customer Relationship Management (CRM) company that provides a complete set of highly flexible, powerful CRM applications and implementation services for mid-sized enterprises, licensed to over 1,700 clients worldwide.

###

About chinadotcom corporation and CDC Software

chinadotcom corporation (NASDAQ: CHINA; Website: www.corp.china.com) is a leading integrated enterprise software and mobile applications company focused on China and internationally. The company has over 1,000 employees with operations in over 14 countries.

CDC Software, a wholly owned subsidiary, is focused on providing Enterprise Resource Planning (ERP) software and solutions in China, as well as internationally. Recently it completed the acquisition of a controlling stake in Industri-Matematik International (IMI), an international provider of mission critical SCM software for multinationals and large enterprises, based in New Jersey, U.S. with key operations in the U.S.

and Europe. It also owns Executive Suite, a sophisticated Business Intelligence (BI) tool with advanced financial analytics functionality based on Microsoft technology, and has invested in CIP Software, a European-based software company with exclusive distribution rights for Executive Suite in Europe, the Middle East and Africa. In addition, the company has established strategic partnerships with leading international software vendors to localize and resell their software products throughout the Asia Pacific region. It currently has over 1,000 customer site installations and 600 enterprise customers in China and internationally. The company recently announced the intention to acquire Ross Systems, Inc. (Ross), a NASDAQ-listed global provider of enterprise software for process manufacturers based in Atlanta, Georgia, U.S. with significant subsidiary operations in Western Europe. The acquisition of Ross is subject to Ross' shareholder approval and certain regulatory approvals.

CDC Outsourcing, a wholly owned subsidiary, aims to take advantage of the global trend of companies looking to outsource to China by positioning its CMM (Capability Maturity Model) Level 3 certified Software Development Center's capabilities as an outsourcing conduit for economical, high-quality software development for the large customer base of our acquired companies. Its current outsourcing capability includes operations in the United Kingdom, Australia, and the US, with some 350 consultants, complemented by a partnership with vMoksha in India with over 500 more outsourcing staff servicing software companies internationally.
