Item 12. Results of Operations and Financial Condition.

On March 17, 2004 the Company issued a press release concerning its results of operations for the quarter and fiscal year ended December 31, 2003 and providing information regarding a conference call to be held at 3:00 CST on November 18, 2003 to discuss these results.

The text of this release is as follows:

**TeraForce Reports
Fourth Quarter and Full Year 2003 Results**

**NEWS
RELEASE**

*Net Revenues Increase
Cash Flow From Operations Positive in Fourth Quarter
Credit Facility Extended*

Contact: Patty Dickerson, Investor Relations 469-330-4969
pdickerson@teraforce-tech.com

RICHARDSON, TEXAS (March 17, 2004) - TeraForce Technology Corporation (OTCBB: TERA) today announced financial results for the fourth quarter and fiscal year ended December 31, 2003.

Highlights

Fourth quarter net revenues \$2,170,000

Fourth quarter net cash provided by operating activities \$129,000

Fourth quarter gross profit \$937,000

Maturity of bank credit facility extended into 2005

Management Commentary

TeraForce chairman and chief executive officer Herman Frietsch commented, "The almost 30% increase in net revenue and the cash positive operations in the fourth quarter of 2003 highlight a fundamental advance in the performance and prospects of our embedded computing business."

In November we completed what we expect will be both strategically and financially a highly beneficial technology licensing and product development arrangement with Curtiss-Wright's VISTA Controls unit. This agreement is initially generating approximately \$3,500,000 in licensing revenues that we expect to recognize in 2004. It also funds and accelerates the availability of ruggedized versions of our leading products, which we believe will lead to larger program opportunities and greater sales.

Our increasing revenues and market position during 2003 also supported our financing activities that secured the funding required for our growth and enabled us to improve our debt terms and maturities.

For 2004, we anticipate both increasing orders from programs in which we have secured design wins and strong market growth with expanding opportunities for increasing revenues. Accordingly, we are broadening our sales and marketing activities and also expect to capitalize on our VISTA/Curtiss-Wright relationship and the availability of our

ruggedized products.

Based on these factors, combined with sustained margin improvements and expense discipline, I believe we will achieve positive cash flow and profitable results during 2004. First half results will benefit from licensing revenues while we continue to build momentum in our program-based orders. In addition, our

-more-

financial position and financing flexibility have been materially improved by a new agreement that extends the maturity of our guaranteed bank debt into April of 2005.

Financial Results

Net revenues for the fourth quarter of 2003 were \$2,170,000, compared to \$1,029,000 in the same quarter last year and \$1,699,000 in the third quarter of 2003. For the full year of 2003, net revenues were \$6,207,000 compared to \$5,036,000 in 2002.

In the fourth quarter of 2003 net cash provided by operating activities amounted to \$129,000. In the fourth quarter of 2002 net cash used in operating activities was \$1,156,000 and in the third quarter of 2003 net cash used in operating activities was \$2,976,000.

Gross profit for the fourth quarter of 2003 was \$937,000. This compares to gross profit for the fourth quarter last year of \$39,000 and \$591,000 for the third quarter of 2003. The operating loss for the fourth quarter of 2003 amounted to \$759,000 versus \$1,913,000 in the fourth quarter of 2002 and \$1,611,000 in the third quarter of 2003. Net revenues and the operating loss in the fourth quarter of 2003 do not reflect approximately \$1,550,000 in license fees received during the quarter related to our agreements with VISTA Controls. The Company expects to recognize revenue related to these and other payments during 2004.

The net loss for the fourth quarter of 2004 was \$1,882,000 (\$0.01 per share) as compared to \$2,993,000 (\$0.03 per share) in the fourth quarter of 2002. For the year ended December 31, 2003, the net loss was \$8,559,000 (\$0.07 per share) versus a loss of \$4,350,000 (\$0.05 per share) in the previous year. The net loss for 2002 reflects income of \$6,300,000 from the settlement of litigation.

Net income for 2003 includes non-cash charges totaling approximately \$2,599,000, consisting of approximately \$1,151,000 from our share of the net loss of and the adjustment in the carrying value of the Company's interest in and receivable from Intellect Technologies, Inc. and approximately \$1,448,000 related to the amortization of warrant and other costs arising from financing transactions.

The Company also announced that it has negotiated an extension of its \$4,200,000 bank credit facility. The amended facility matures in April 2005 and provides for mandatory reductions of \$300,000 in June and December 2004. The facility had been scheduled to mature in June 2004.

Conference Call Scheduled

The Company will also host a management conference call Thursday, March 18, 2004 at 3:00 p.m. Central Standard Time, to review the matters discussed in this release. Stockholders and investors interested in attending the conference call should dial 904-779-4773 ten minutes prior to the call, reservation code 22454607. A live webcast of the conference call will also be available on the TeraForce website <http://www.teraforcetechnology.com/>.

A replay of the conference call will be available later that day from 5:00 p.m. Eastern Standard Time through 5:00 p.m. Eastern Daylight Time on April 18, 2004. To access the playback, please call 402-220-2491. The reservation code for the replay is 22454607. A replay will be available online through the TeraForce website <http://www.teraforcetechnology.com/>.

About TeraForce Technology Corporation

Based in Richardson, Texas, TeraForce Technology Corporation (OTCBB: TERA) designs, develops, produces and sells high-density embedded computing platforms and digital signal processing products, primarily for applications in the defense electronics industry. TeraForce's primary operating unit is DNA Computing Solutions, Inc., www.dnacomputingsolutions.com.

Except for the historical information contained herein, the statements in this announcement are forward looking statements which involve risks and uncertainties that could cause actual results to differ
