Item 2.02. Results of Operations and Financial Condition.

On January 17, 2006, Digi International Inc. (the Company) reported its financial results for the first quarter of fiscal 2006. See the Company s press release dated January 17, 2006, which is furnished as Exhibit 99 and incorporated by reference in this Current Report on Form 8-K.

NON-GAAP FINANCIAL MEASURES

The press release furnished as Exhibit 99 and certain information the Company intends to disclose on the conference call scheduled for 5:00 p.m. eastern time on January 17, 2006 include certain non-GAAP financial measures. These measures include (i) earnings per diluted share excluding the impact of stock-based compensation expense, (ii) operating income excluding intangibles amortization and stock-based compensation expense, (iii) earnings before taxes, depreciation, amortization and stock-based compensation expense and (iv) guidance disclosed by the Company related to earnings per diluted share excluding the impact of stock-based compensation expense. The reconciliations of these measures to the most directly comparable GAAP financial measures are included below.

With respect to operating income that excludes intangibles amortization, management believes that this measure more accurately focuses on the costs that can be meaningfully controlled by the Company, and therefore permits a more meaningful comparison from period to period. Similarly, management believes that earnings before taxes, depreciation and amortization helps investors compare operating results and corporate performance exclusive of the impact of the Company s capital structure and the method by which assets were acquired. Management believes that providing earnings and earnings per diluted share exclusive of the impact of stock-based compensation expense, both on a historical basis and with respect to the Company s guidance, allows investors to compare results and expected results with results for prior periods that did not include stock-based compensation expense. Management uses these various non-GAAP measures to monitor and evaluate ongoing operating results and trends and to gain an understanding of the comparative operating performance of the Company.
