This filing contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, (i) statements about the benefits of a merger between SunTrust Banks, Inc. and Wachovia Corporation, including future financial and operating results, cost savings and accretion to reported and cash earnings that may be realized from such merger; (ii) statements with respect to SunTrust's plans, objectives, expectations and intentions and other statements that are not historical facts; and (iii) other statements identified by words such as "believes", "expects", "anticipates", "estimates", "intends", "plans", "targets", "projects" and similar expressions. These statements are based upon the current beliefs and expectations of SunTrust's management and are subject to significant risks and uncertainties. Actual results may differ from those set forth in the forward-looking statements.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements: (1) the businesses of SunTrust and Wachovia may not be integrated successfully or such integration may be more difficult, time-consuming or costly than expected; (2) expected revenue synergies and cost savings from the merger may not be fully realized or realized within the expected time frame; (3) revenues following the merger may be lower than expected; (4) deposit attrition, operating costs, customer loss and business disruption, including, without limitation, difficulties in maintaining relationships with employees, customers, clients or suppliers, may be greater than expected following the merger; (5) the regulatory approvals required for the merger may not be obtained on the proposed terms or on the anticipated schedule; (6) the failure of SunTrust's and Wachovia's stockholders to approve the merger; (7) competitive pressures among depository and other financial institutions may increase significantly and may have an effect on pricing, spending, third-party relationships and revenues; (8) the strength of the United States economy in general and the strength of the local economies in which the combined company will conduct operations may be different than expected, resulting in, among other things, a deterioration in credit quality or a reduced demand for credit, including the resultant effect on the combined company's loan portfolio and allowance for loan losses; (9) changes in the U.S. and foreign legal and regulatory framework; and (10) adverse conditions in the stock market, the public debt market and other capital markets (including changes in interest rate conditions) and the impact of such conditions on the combined company's capital markets and asset management activities. Additional factors that could cause SunTrust's results to differ materially from those described in the forward-looking statements can be found in SunTrust's reports (such as Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K) filed with the Securities and Exchange Commission and available at the SEC's Internet site (<http://www.sec.gov>). THE FOLLOWING IS A DESCRIPTION OF CERTAIN ADDITIONS TO THE CONTENT OF THE WEB SITE WWW.SUNTRUSTWACHOVIAPROPOSAL.COM:

The upper right hand corner of the home page of the web site now displays the following text:

"Calculate the value of your SunTrust premium as of market close on [DATE]."

Below this text there is an area labeled "shares" where the user can input the number of shares of Wachovia Corporation he/she holds. Upon pressing a button labeled "CALCULATE," a new window appears containing the following text:

"As of market close on [DATE], SunTrust's proposal provides you with a [PERCENTAGE]% premium over First Union's offer.

This means \$[NUMBER] more value for you."

The per share dollar amount and percentage of the premium represented by the SunTrust merger proposal are updated daily based on the closing stock prices of SunTrust and First Union Corporation and the respective exchange ratios under the SunTrust merger proposal (1.081x) and the proposed First Union merger (2x). The calculation of the aggregate dollar amount of the SunTrust premium for a person using the website is performed by a program that multiplies the total number of Wachovia shares that the user inputs by the per share dollar amount of the SunTrust premium.
