MDWERKS, INC. AND SUBSIDIARIES  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
SEPTEMBER 30, 2006

NOTE 1 — BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT  
ACCOUNTING POLICIES

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and such adjustments are of a normal recurring nature. These consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2005 and notes thereto and other pertinent information contained in the Form 10-KSB of MDwerks, Inc. (the “Company”) as filed with the Securities and Exchange Commission (the “Commission”). The results of operations for the nine months ended September 30, 2006 are not necessarily indicative of the results for the full fiscal year ending December 31, 2006.

Organization

On November 16, 2005, a wholly-owned subsidiary of MDwerks, Inc. (f/k/a Western Exploration, Inc., and hereinafter referred to as the “Company”) was merged with and into MDwerks Global Holdings, Inc., a Florida corporation (“MDwerks”), with MDwerks surviving. The Company acquired all of the outstanding capital stock of MDwerks in exchange for issuing 9,352,328 shares of the Company’s common stock, par value \$0.001 per share to MDwerks’ stockholders, which at closing of the Merger Agreement represented approximately 87.4% of the issued and outstanding shares of the Company’s common stock. In connection with the Merger, the Company changed its corporate name to MDwerks, Inc.

The acquisition was accounted for as a reverse merger because, on a post-merger basis, the MDwerks stockholders hold a majority of the outstanding common stock of the Company on a voting and fully diluted basis. As a result, MDwerks was deemed to be the acquirer for accounting purposes. Accordingly, the consolidated financial statements presented, beginning with the period ending December 31, 2005, are those of the Company for all periods prior to the acquisition, and the financial statements of the consolidated companies from the acquisition date forward. The historical stockholders’ deficit of the Company prior to the acquisition has been retroactively restated (a recapitalization) for the equivalent number of shares received in the acquisition after giving effect to any differences in the par value of the Company and MDwerks common stock, with an offset to additional paid-in capital. The restated consolidated accumulated deficit of the accounting acquirer MDwerks carried forward after the acquisition.

On June 7, 2005, MDwerks entered into and consummated Share Exchange Agreements with all of the shareholders of each of the Xeni Companies: Xeni Medical Systems, Inc. (“XMS”); Xeni Financial Services, Corp. (“XFS”); and Xeni Medical Billing, Corp. (“XMB”). Pursuant to each of the Share Exchange Agreements, MDwerks acquired 100% of the issued and outstanding shares of each of the Xeni Companies’ common stock.

The acquisition of the Xeni Companies by MDwerks was accounted for as a reverse merger because, on a post-merger basis, the former Xeni shareholders held a majority of the outstanding common stock of MDwerks on a voting and

fully diluted basis. As a result, Xeni was deemed to be the acquirer for accounting purposes. Accordingly, the financial statements of MDwerks are those of Xeni for all periods presented.

XMS was incorporated under the laws of the state of Delaware on July 21, 2004. XMS provides a Web-based package of electronic claims solutions to the healthcare provider industry through Internet

access to its MDwerks' suite of proprietary products and services so that healthcare providers can significantly improve daily insurance claims transaction processing, administration and management.

XFS was incorporated under the laws of the state of Florida on February 3, 2005. XFS offers financing and advances to health care providers secured by claims processed through the MDwerks system.

XMB was incorporated under the laws of the state of Florida on March 2, 2005. XMB offers health care providers billing services facilitated through the MDwerks system.

Going concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has suffered losses that raise substantial doubt about its ability to continue as a going concern. While the Company is attempting to attain revenue growth and profitability, the growth has not been significant enough to support the Company's daily operations. Management intends to attempt to raise additional funds by way of a public or private offering and make strategic acquisitions. While the Company believes in the viability of its strategy to improve sales volume and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent on the Company's ability to further implement its business plan and generate revenue. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. Management believes that the actions presently being taken to further implement its business plan and generate revenue, including the institutional financing described in Note 7 provide the opportunity for the Company to continue as a going concern.

Basis of presentation

The consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). The consolidated statements include the accounts of the Company and its wholly-owned subsidiaries, XMS, XFS and XMB. All significant intercompany balances and transactions have been eliminated.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Cash and cash equivalents

For purposes of the consolidated statements of cash flows, the Company considers all highly liquid instruments purchased with a maturity of three months or less and money market accounts to be cash equivalents.

At various times, the Company has deposits in excess of the Federal Deposit Insurance Corporation limit. The Company has not experienced any losses on these accounts.

#### Accounts and notes receivable

Accounts and notes receivable are reported at their outstanding unpaid principal balances reduced by an allowance for doubtful accounts. The Company estimates doubtful accounts based on

historical bad debts, factors related to specific customers' ability to pay and current economic trends. The Company writes off receivables against the allowance when a balance is determined to be uncollectible. At September 30, 2006 the Company has no allowance for doubtful accounts.

#### Property and equipment

Property and equipment are stated at cost. Depreciation and amortization are provided using the straight-line method over the estimated useful life.

#### Loss per common share

Basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted loss per share is computed by dividing net loss by the weighted average number of shares of common stock, potential common stock and potentially dilutive securities outstanding during each period. As of September 30, 2006, the Company had outstanding options to purchase an aggregate of 1,726,250 shares of common stock, warrants to purchase an aggregate of 1,439,085 shares of common stock, and 566,667 shares of common stock issuable upon conversion of preferred stock which could potentially dilute future earnings per share. Diluted loss per common share has not been presented for the three and nine month periods ended September 30, 2006 since the impact of the stock options and warrants would be antidilutive. At September 30, 2005 the Company did not have any potential dilutive common stock.

## Revenue recognition

The Company follows the guidance of the Securities and Exchange Commission's ("SEC") Staff Accounting Bulletin 104 for revenue recognition. In general, the Company records revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. The following policies reflect specific criteria for the various revenue streams of the Company.

Revenue derived from fees related to claims and contract management services are generally recognized when services are provided to the customer.

The Company provides advance funding services to unaffiliated healthcare providers (the Company's "Customers"). The Customers advances are typically collateralized by Security Agreements granting first position liens on the medical claims submitted by its Customers to third party payors (the "Payors"). The advances are repaid through the remittance of payments of Customers medical claims, by Payors, directly to the Company. The Company withholds from these advances interest, accrued on a daily basis, and an administrative fee and other charges as well as any amount for prior advances that remain unpaid after a specified number of days. These interest charges, administrative fees and other charges are recognized as revenue when earned. There is no right of cancellation or refund provisions in these arrangements and the Company has no further obligations once the services are rendered.

Revenue derived from fees related to rebilling and collection services are generally recognized when the customer's accounts receivable are collected.

Revenue from implementation fees are generally recognized over the term of the customer's agreement. Revenue derived from maintenance, administrative and support fees are generally recognized at the time the services are provided to the customer.

## Stock-based compensation

Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share Based Payment ("SFAS No. 123R") utilizing the modified prospective

method. SFAS No. 123R establishes the financial accounting and reporting standards for stock-based compensation plans. As required by SFAS No. 123R, the Company recognizes the cost resulting from all stock-based payment transactions including shares issued under its stock option plans in the financial statements.

Prior to January 1, 2006, the Company accounted for stock-based employee compensation plans (including shares issued under its stock option plans) in accordance with APB Opinion No. 25 and followed the pro forma net income,

pro forma income per share, and stock-based compensation plan disclosure requirements set forth in the Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation (“SFAS No. 123”).

#### Income Taxes

Income taxes are accounted for under the asset and liability method of Statement of Financial Accounting Standards No. 109, “Accounting for Income Taxes” (“SFAS 109”). Under SFAS 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company has net operating loss carryforwards for tax purposes totaling approximately \$5,516,000 at September 30, 2006 expiring at various times through the year 2026 subject to the Internal Revenue Code Section 382, which places a limitation on the amount of net operating losses that can offset by taxable income after a change in control (generally greater than a 50% change in ownership). The Company recorded a deferred tax asset of approximately \$2,096,000 offset by a full valuation allowance since it is more likely than not that the deferred tax asset will not be realized.

#### Recent accounting pronouncements

In February 2006, the Financial Accounting Standards Board issued Statement No. 155 (“SFAS No 155”), “Accounting for Certain Hybrid Instruments: An Amendment of FASB Statements No. 133 and 140”. Management does not believe that this statement will have a significant impact as the Company does not use such instruments.

In May 2006, the SEC announced that the compliance date for non-accelerated filers pursuant to Section 404 of the Sarbanes-Oxley Act had been extended. Under the latest extension, a company that is not required to file its annual and quarterly reports on an accelerated basis must begin to comply with the internal control over financial reporting requirements for its first fiscal year ending on or after July 15, 2008, which, for us, is effective for fiscal 2008 beginning January 1, 2008. This is a one-year extension from the previously established July 15, 2007 compliance date established in September 2005. The SEC similarly extended the compliance date for these companies relating to requirements regarding evaluation of internal control over financial reporting and management certification requirements. We are currently evaluating the impact of Section 404 of the Sarbanes-Oxley Act on our results of operations, cash flows or financial condition.

In July 2006, the Financial Accounting Standards Board (“FASB”) issued FASB Interpretation No. 48, “Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109” (“FIN 48”), which provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position may be recognized only if it is “more

likely than not” that the position is sustainable based on its technical merits. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006. The Company does not expect FIN 48 will have a material effect on its consolidated financial condition or results of operations.

In September 2006, the SEC issued Staff Accounting Bulletin (“SAB”) 108 which provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. SAB 108 is effective for the first interim period following the first fiscal year ending after November 15, 2006, which, for us, is effective for fiscal 2007 beginning January 1, 2007. We believe that the adoption of SAB 108 will not have a material impact on our results of operations, cash flows or financial condition.

Reclassifications

For comparability, certain September 30, 2005 amounts have been reclassified, where appropriate, to conform to the financial statement presentation used at September 30, 2006.

NOTE 2 — NOTES RECEIVABLE

At September 30, 2006, the Company advanced three healthcare providers under lines of credit and note agreements, respectively, aggregating \$365,473. Advances under the line of credit are due to be repaid out of providers’ claims collections, as defined in the agreement. The note receivable under a note agreement is payable as the provider collects certain receivables. The Company charged the health care providers interest and other charges as defined in the agreements. At September 30, 2006, no amounts were past due.

NOTE 3 — PROPERTY AND EQUIPMENT

At September 30, 2006, property and equipment consisted of the following:

	Estimated Life	
Office furniture and equipment	5-7 Years	\$ 15,027
Computer equipment and software	3-5 Years	150,520
		165,547
Less: accumulated depreciation		(36,235)
		\$ 129,312

NOTE 4 — NOTES PAYABLE

At September 30, 2006, the Company has notes payable of \$65,000 to unrelated parties that bear interest at 8%. The outstanding principal and all accrued and unpaid interest is due and payable on November 30, 2006. At the Company’s option, all or any part of the outstanding principal balance and accrued interest may be prepaid. In the event the Company raises \$2.5 million or more in a financing transaction involving the sale of equity securities, the notes shall become due and payable at the closing of such transaction. Additionally, in such event, the Company shall grant to the note holders four-year warrants to purchase an aggregate of 90,000 shares of the Company’s common stock or the Company’s successor parent company at \$1.25 per share. On July 5, 2006, the Company granted the 90,000 warrants to the note holders (see note 6). In February, 2006, \$45,000 of these notes payable plus accrued interest of \$1,342 were converted into 92,685 shares of the Company’s common stock in full satisfaction of a portion the notes payable (see note 6).

## NOTE 4 — NOTES PAYABLE (continued)

On August 24, 2006, the Company received gross proceeds of \$250,000 (net proceeds of \$236,566, after expenses) in connection with a financing provided by an unrelated party. In connection with the financing, the Company issued a 7% Secured Promissory Note in the original principal amount of \$250,000 (the "7% Secured Note") and a three year warrant to purchase 111,111 shares of our common stock at a price of \$2.25 per share. The 7% Secured Note bears interest at the rate of 7% per year, payable monthly in arrears and will become due and payable on August 24, 2007. This 7% Secured Note is subject to certain mandatory prepayment provisions as defined in the Secured Promissory Note. In connection with this 7% Secured Note, the Company's subsidiary, Xeni Financial Services, Corp. These notes bear interest at 10% per year, and both interest and principal are due on January 21, 2007. The Company is entitled to one 60-day extension of the Maturity Date. In connection with the financing, the Company issued 10,000 shares of its common stock at a fair market value on the date of grant of \$39,800 or \$3.98 per share which was recorded as a discount on notes payable to be amortized over the term of the Notes. In addition, the Company paid a total cash fee of \$23,434 in connection with the above promissory notes for placement agent fees and related expenses. Accordingly, these fees were treated as deferred issuance cost to be amortized over their respective note terms. For the nine months ended September 30, 2006, amortization of deferred issuance cost amounted to \$3,120.

The promissory notes are as follows at September 30, 2006:

NOTE 6 — STOCKHOLDERS' DEFICIENCY

Preferred stock

The Company is authorized to issue 10,000,000 shares of preferred stock, \$.001 par value, with such designations, rights and preferences as may be determined from time to time by the Board of Directors.

On February 1, 2006, the Board of Directors of the Company authorized the creation of 1,000 shares of \$.001 par value Series A Convertible Preferred Stock with a liquidation value of \$60,000 per share (subject to adjustment in the event of stock splits, combinations or similar events). The Series A Convertible Preferred Stock shall not be entitled to receive dividends or other distributions from the Company. Each holder of record of shares of the Series A Convertible Preferred Stock shall have the right at such holder's option, at any time and from time to time, to convert any of such shares of Series A convertible preferred stock into fully paid shares of common stock. Each share of Series A Convertible Preferred Stock shall initially be convertible into 20,000 shares of common stock (the "Conversion Rate"), subject to adjustment due to consolidation, merger or sale or common stock dividends. The holders of shares of Series A Convertible Preferred Stock shall be entitled to vote on all matters submitted to a vote of the stockholders of the Company and shall have such number of votes equal to the number of shares of the Company's common stock into which such holders' shares of Series A Convertible Preferred Stock are convertible.

Between February 1, 2006 and June 30, 2006, the Company conducted a series of closings under private placement offering of Units consisting of one share of Series A Convertible Preferred Stock and a three-year warrant to purchase up to 20,000 shares of our Common Stock at a purchase price of \$3.00 per share. The Company sold an aggregate of 28.33 Units to accredited investors pursuant to the terms of a confidential private placement memorandum, dated February 1, 2006, used in connection with this offering. The Company realized net proceeds from this private placement of \$1,426,391 after payment of commissions and expenses. The private placement was made solely to "accredited investors," as that term is defined in Regulation D under the Securities Act of 1933. The shares of Series A Preferred Stock and warrants to purchase shares of Common Stock were not registered under the Securities Act of 1933, or the securities laws of any state, and were offered and sold in reliance on the exemption from registration offered by Section 4(2) and Regulation D (Rule 506) under the Securities Act of 1933 and corresponding provisions of state securities laws.

In accordance with Emerging Issues Task Force ("EITF") 98-5 and EITF 00-27, the Series A Convertible Preferred Stock was considered to have an embedded beneficial conversion feature (ECF) because the conversion price was less than the fair value of the Company's common stock. This Series A Convertible Preferred Stock was fully convertible at the issuance date, therefore a portion of proceeds allocated to the Series A Convertible Preferred Stock was determined to be the value of the beneficial conversion feature and was recorded as a deemed dividend.

In accordance with SFAS No. 133 and Emerging Issues Task Force Issue 00-19 (“EITF 00-19”), “Accounting for Derivative Financial Instruments Indexed To, and Potentially Settled in, a Company's Own Stock”, the Company is required to record the fair value of the ECF and warrants as a liability since the Company has to use its “best efforts” to file a registration statement and maintain its effectiveness for a period of two years from the effective date. In accordance with SFAS No. 133, the Company is required to record the fair value of the ECF and warrants as a liability. In connection with the initial sales of the Series A Preferred Stock, the initial estimated fair values allocated to the ECF were \$913,777 which was recorded as a deemed dividend. The initial fair value allocated to the warrants of \$768,751 was allocated to warrant liability. At September 30, 2006, the Company revalued these warrants resulting in a loss on valuation of warrant liability of \$581,198 for the nine months ended September 30, 2006. At September 30, 2006, the fair value of these warrants was \$1,349,949 and is reflected as a warrant liability on the accompanying consolidated balance sheet.

### Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS AND PLAN OF OPERATIONS

#### Overview

On November 16, 2005, we acquired all of the outstanding capital stock of MDwerks Global Holdings, Inc. in connection with the merger of a wholly owned subsidiary of the Company with and into MDwerks Global Holdings, Inc. (the “Merger”), with the former stockholders of MDwerks being issued approximately 9,352,000 shares of common stock of the Company in exchange for all their shares of common stock of MDwerks Global Holdings, Inc. In connection with the Merger, we changed our name to MDwerks, Inc. Simultaneously with the closing of the Merger, we completed the closing of a private placement of units, with each unit consisting of 10,000 shares of our common stock and a warrant to purchase 10,000 shares of our common stock at an exercise price of \$2.50 per share, with gross proceeds of \$1,600,000 and net proceeds to us, after deduction of offering expenses and commissions paid at the closing, of \$1,310,000 (the “Private Placement”). As we have ceased our prior mining operations we will operate the business of MDwerks Global Holdings, Inc. and the Xeni Companies as our sole line of business of MDwerks Global Holdings, Inc. and the Xeni Companies. The following discussion and analysis should be read in conjunction with the financial statements, including footnotes, and other information presented in this prospectus. For purposes of the following discussion and analysis, references to “we”, “our”, “us” or the “Company” refers to MDwerks, Inc. and includes MDwerks Global Holdings, Inc. as its wholly-owned subsidiary and the Xeni Companies as indirect wholly-owned subsidiaries.

MDwerks Global Holdings, Inc. was incorporated under the laws of the state of Florida on October 23, 2003. It was originally formed to provide international telecommunications products and services. In April 2004, MDwerks Global

Holdings, Inc. decided not to pursue the telecommunications business. In December 2004, it decided to focus on a new line of business involving healthcare provider claims processing, funding and related services. On May 25, 2005, MDwerks Global Holdings, Inc. changed its name from Global IP Communications, Inc. to MDwerks Global Holdings, Inc.

On June 7, 2005, MDwerks Global Holdings, Inc. entered into and consummated Share Exchange Agreements with all of the stockholders of each of the Xeni Companies (Xeni Medical, Xeni Financial and Xeni Billing). Pursuant to each of the Share Exchange Agreements, MDwerks Global Holdings, Inc. acquired 100% of the issued and outstanding shares of common stock of each of the Xeni Companies, in exchange for approximately 52,623,000 shares of common stock of MDwerks Global Holdings, Inc. (which shares, together with the shares of the holders of common stock of MDwerks Global Holdings, Inc. prior to the share exchanges were exchanged for approximately 9,352,000 shares of our common stock in connection with the Merger). As a result of the share exchanges, each of the Xeni Companies became a wholly-owned subsidiary of MDwerks Global Holdings, Inc.

The acquisition of the Xeni Companies was accounted for as a reverse merger, because, after giving effect to the share exchanges, the former stockholders of the Xeni Companies held a majority of the outstanding common stock of MDwerks Global Holdings, Inc. on a voting and fully diluted basis. As a result of the share exchanges, Xeni Medical was deemed to be the acquirer for accounting purposes. Accordingly, the financial statements presented are those of Xeni Medical for all periods prior to the acquisition of the Xeni Companies on June 7, 2005, and the financial statements of the consolidated companies from the acquisition date forward. The historical stockholders' deficiency of the Xeni Companies prior to their acquisition has been retroactively restated for the equivalent number of shares received in the acquisition. The restated consolidated stockholders' deficiency of the accounting acquirer is carried forward after the acquisition.

Xeni Medical provides a web-based package of electronic claims solutions to the healthcare provider industry. Through internet access to our "MDwerks" suite of proprietary products and services, healthcare providers can significantly improve daily insurance claims transaction processing, administration, funding and management.

Xeni Financial offers advance funding to healthcare providers secured by claims processed through the MDwerks system.

Xeni Billing offers healthcare providers billing services facilitated through the MDwerks suite of products and services.

## Table of Contents

We plan, initially, to sell to physician and clinical service group practices, hospitals, rehabilitation centers, nursing homes and certain related practice vendors, including diagnostic testing companies, by using internal and external resources. Internal resources will consist mainly of specialized sales executives with industry knowledge and/or a portfolio of contacts. External resources will consist primarily of independent sales representatives as well as channel associates such as vendors of practice management systems and medical industry specific sales groups such as office management consultants. These sales resources can leverage an existing customer base and contacts. Our marketing is based on prioritizing potential subscribers by size, location and density, need for our products and services and distribution opportunities. Accordingly, we expect to focus our initial marketing efforts in geographic areas such as California, Florida and New York, which contain high concentrations of prospective clients.

Because we have had a limited operating history, it is difficult to accurately forecast our revenues and expenses. Additionally, our operations will continue to be subject to risks inherent in the establishment of a new business, including, among other things, efficiently deploying our capital, developing our product and services offerings, developing and implementing our marketing campaigns and strategies and developing awareness and acceptance of our products. Our ability to generate future revenues will be dependent on a number of factors, many of which are beyond our control, including the pricing of other services, overall demand for our products, market competition and government regulation.

#### Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We apply the Securities and Exchange Commission's Staff Accounting Bulletin 104 for revenue recognition. In general, we record revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. We have identified the policy below as critical to our business operations and understanding of our financial results:

Revenues derived from fees related to claims and contract management services are generally recognized when services are provided to the customer. We provide funding services to unaffiliated healthcare providers. These arrangements typically require us to advance funds to these unaffiliated healthcare providers (our customers) in exchange for liens on the receivables related to invoices remitted to their clients for services performed. The advances are repaid through the remittance of payments of receivables by their clients directly to us. We withhold from these advances interest, an administrative fee and other charges as well as the amount of receivables relating to prior advances that remain unpaid after a specified number of days. These interest charges, administrative fees and other charges are recognized as revenue when earned and are calculated on a daily basis.

Revenues derived from fees related to billing and collection services are generally recognized when the customer's accounts receivable are collected. Revenues from implementation fees are generally recognized upon over the term of the customer agreement. Revenues derived from maintenance, administrative and support fees are generally recognized at the time the services are provided to the customer.

Effective January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share Based Payment ("SFAS No. 123R") utilizing the modified prospective method. SFAS No. 123R establishes the financial accounting and reporting standards for stock-based

compensation plans. As required by SFAS No. 123R, we recognize the cost resulting from all stock-based payment transactions including shares issued under our stock option plans in the financial statements.

We are required to cause such registration statement to become effective on or before the date which is 105 calendar days after the closing date. In addition to it being an event of default under the Senior Notes, if we fail to file such registration statement in the time frame required, fail to cause it to become effective in the time frame required, or fail to maintain the effectiveness of the registration statement as required by the Registration Rights Agreement, the exercise price of the Series D and the Series E Warrants will immediately be reduced by \$0.25 per share and then reduced by an additional \$0.10 per share for each thirty day period thereafter that the registration statement is not filed or effective, as the case may be, up to a maximum reduction of \$0.65.

Investor is an “accredited investor,” as defined in Regulation D under the Securities Act of 1933, as amended, or the Securities Act. None of the Senior Note, the Series D Warrants, the Series E Warrants or the shares of our common stock underlying such securities were registered under the Securities Act, or the securities laws of any state and were offered and sold in reliance on the exemption from registration afforded by Section 4(2) and Regulation D (Rule 506) under the Securities Act and corresponding provisions of state securities laws, which exempts transactions by an issuer not involving any public offering. We made this determination based on the representations of the Investor, which included, in pertinent part, that the Investor is an “accredited investor” within the meaning of Rule 501 of Regulation D promulgated under the Securities Act, and that the Investor was acquiring the Senior Notes, the Series D Warrants and the Series E Warrants for investment purposes for its own account and not as nominee or agent, and not with a view to the resale or distribution, and that Investor understood such securities may not be sold or otherwise disposed of without registration under the Securities Act or an applicable exemption therefrom.

While we have sufficient funds to conduct our business and operations as they are currently undertaken for the near term, our ability to continue to implement our revenue and profit growth strategy could be adversely affected if we are unable to consummate additional private placement transactions or debt financing, which we are currently pursuing.

We currently have no material commitments for capital expenditures.

Our actual results could differ materially and adversely from those anticipated in such forward-looking statements as a result of certain factors, including those set forth below and elsewhere in this report. Important factors that may cause actual results to differ from projections include, but are not limited to, for example:

- adverse economic conditions;
- inability to raise sufficient additional capital to implement our business plan;
- intense competition, including entry of newly-developed alternative drug technologies;
- unexpected costs and operating deficits, and lower than expected sales and revenue;
- adverse results of any legal proceedings;
- inability to satisfy government and commercial customers using our technology;
- the volatility of our operating results and financial condition;
- inability to attract or retain qualified senior management personnel, including sales and marketing, and technology personnel; and
- other specific risks that may be alluded to in this report.

All statements, other than statements of historical facts, included in this report regarding our strategy, future operations, financial position, estimated revenue or losses, projected costs, prospects and plans and objectives of management are forward-looking statements. When used in this report, the words “will,” “may,” “believe,” “anticipate,”

“intend,” “estimate,” “expect,” “project,” “plan” and similar expressions are intended to identify forward-looking statements although not all forward-looking statements contain such identifying words. All forward-looking statements speak only as of the date of this report. We do not undertake any obligation to update any forward-looking statements or other information contained herein. Potential investors should not place undue reliance on these forward-looking statements. Although we believe that our plans, intentions and expectations reflected in or suggested by the forward-looking statements in this report are reasonable, no one can assure investors that these plans, intentions or expectations will be achieved.

### ITEM 3. CONTROLS AND PROCEDURES

We maintain “disclosure controls and procedures,” as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. We conducted an evaluation (the “Evaluation”), under the supervision and with the participation of our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), of the effectiveness of the design and operation of our disclosure controls and procedures (“Disclosure Controls”) as of the end of the period covered by this report pursuant to Rule 13a-15 of the Exchange Act. Based on this Evaluation, our CEO and CFO concluded that our Disclosure Controls were effective as of the end of the period covered by this report.

We have also evaluated our internal controls for financial reporting, and there have been no significant changes in our internal controls or in other factors that could significantly affect those controls subsequent to the date of their last evaluation.

Our management, including our CEO and CFO, does not expect that our Disclosure Controls and internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management or board override of the control. The design of any

system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. CEO and CFO Certifications appearing immediately following the signatures section of this report are Certifications of the CEO and the CFO. The Certifications are required in accordance with Section 302 of the Sarbanes-Oxley Act of 2002 (the Section 302 Certifications). This item of this report, which you are currently reading is the information concerning the Evaluation referred to in the Section 302 Certifications and this information should be read in conjunction with the Section 302 Certifications for a more complete understanding of the topics presented.
