Aircastle Limited

We are a global company that acquires and leases high-utility commercial jet aircraft to passenger and cargo airlines throughout the world. High-utility aircraft are generally modern, operationally efficient jets with a large operator base and long useful lives. As of June 30, 2007, our aircraft portfolio consisted of 100 aircraft with 45 lessees located in 28 countries and managed through our offices in the United States, Ireland and Singapore. Typically, our aircraft are subject to net operating leases whereby the lessee is generally responsible for maintaining the aircraft and paying operational and insurance costs although, in a majority of cases, we are obligated to pay a portion of specified maintenance or modification costs. We also make investments in other aviation assets, including debt investments secured by commercial jet aircraft. As of September 24, 2007 we had acquired and committed to acquire aviation assets having an aggregate purchase price equal to \$3.3 billion and \$2.3 billion, respectively, for a total of approximately \$5.6 billion, including 151 aircraft with 57 lessees in 33 countries. Our revenues and income from continuing operations for the three and six months ended June 30, 2007 were \$85.1 million and \$27.2 million and \$155.1 million and \$48.0 million, respectively.

We intend to pay regular quarterly dividends to our shareholders. We plan to grow our dividends per share through the acquisition of additional aviation assets using cash on hand, cash generated from operating activities and available credit facilities. We expect to finance our acquisitions on a long-term basis using relatively low-cost, non-recourse securitizations. Securitizations allow us to raise long-term capital by pledging cash flows of an asset pool, such as aircraft leases. In June 2007, we closed our second securitization, a \$1.17 billion transaction comprising 59 aircraft, which we refer to as Securitization No. 2.

Table of Contents

The table below is a summary of our recent dividend history. These dividends may not be indicative of the amount of any future dividends.

Dividend Period	Pay Date	Dividend Per Share (\$)	Total Dividend (\$ in millions)
Three months ended September 30, 2006	November 15, 2006	0.35	16.4 ⁽¹⁾
Three months ended December 31, 2006	January 15, 2007	0.4375	22.6
Three months ended March 31, 2007	April 13, 2007	0.50	33.6
Three months ended June 30, 2007	July 13, 2007	0.60	40.5
Three months ended September 28, 2007	October 15, 2007	0.65	43.8 ⁽²⁾

(1) Dividends for the three months ended September 30, 2006 were paid in two installments. A dividend of \$0.156 per share was paid on August 15, 2006 for the period July 1, 2006 to August 12, 2006 for the period prior to our initial public offering. A dividend of \$0.194 per share was paid on November 15, 2006 for the period after our initial public offering.

(2)

Our board of directors has declared a dividend of \$0.65 per share for the third quarter of 2007. This dividend is payable on October 15, 2007 to holders of record of our common shares on September 28, 2007. For purposes of this table only, the total dividend set forth above assumes that 67,433,451 common shares will be issued and outstanding as of the record date, which is the number of shares issued and outstanding as of September 25, 2007. Purchasers of common shares in this offering will not receive this dividend.

Competitive Strengths

We believe that the following competitive strengths will allow us to capitalize on the growth opportunities in the global aviation industry:

- **Diversified portfolio of high-utility aircraft.** We have a portfolio of 109 high-utility aircraft, as of September 24, 2007 that is diversified with respect to geographic markets, lease maturities and aircraft type. Our lease expirations are well dispersed, with a weighted average remaining lease term of 4.5 years for aircraft we owned at June 30, 2007 and, as of September 24, 2007, only four of these aircraft have scheduled lease expiries or otherwise are available for lease within the next 12 months and have not been committed for lease or renewal. We believe that our focus on portfolio diversification reduces the risks associated with lessee defaults and any adverse geopolitical or economic issues and results in generally predictable cash flows.
- **Disciplined acquisition approach and broad sourcing network.** We evaluate the risk-adjusted return of any potential acquisition first as a discrete investment and then from a portfolio management perspective. To evaluate potential acquisitions, we employ a rigorous due diligence process focused on: (i) cash flow generation with careful consideration of macro trends, industry cyclicity and product life cycles; (ii) aircraft specifications and maintenance condition; (iii) when applicable, lessee credit worthiness and the local jurisdiction's rules for enforcing a lessor's rights; and (iv) legal and tax implications. We source our acquisitions through well-established relationships with airlines, other aircraft lessors, financial institutions and other aircraft owners.
- **Scaleable business platform.** We operate globally through offices in the United States, Ireland and Singapore, using a modern asset management system designed specifically for aircraft operating lessors and capable of handling a significantly larger aircraft portfolio. We believe that our facilities, systems and personnel currently in place are capable of supporting an increase in our revenue base and asset base without a proportional increase in overhead costs.

S-2

Table of Contents

- **Experienced management team with significant technical expertise.** Our management team has significant experience in the acquisition, leasing, financing, technical management, restructuring/repossession and sale of aviation assets.
- **Innovative long-term debt financing structure.** On June 8, 2007, we closed Securitization No. 2. We have structured our securitizations to provide for the release to us, during the first five years, of the cash flows attributable to the underlying aircraft leases and other relevant contracts after payment of expenses, interest and scheduled principal payments. We intend to use this excess securitization cash flow to pay dividends and to make additional investments in aviation assets. By way of comparison, a typical aircraft securitization starts with significantly higher leverage and allows no release of excess securitization cash flows; instead, those cash flows are required to further amortize, and thus lower the leverage on, the securities.

Growth Strategy

We plan to grow our business and increase our dividends per share by employing the following business strategies:

- Selectively acquire commercial jet aircraft and other aviation assets. We believe the large and growing aircraft market provides significant acquisition opportunities. We plan to leverage our experience to make opportunistic acquisitions of other asset-backed aviation assets, including debt securities secured by aviation assets and other non-aircraft aviation assets. As of September 24, 2007 we had acquired or committed to acquire aviation assets having an aggregate purchase price equal to \$3.3 billion and \$2.3 billion, respectively, for a total of approximately \$5.6 billion.
- Reinvest amounts approximately equal to non-cash depreciation expense in additional aviation assets. Through our strategy of reinvesting amounts approximately equal to non-cash depreciation expense, we will seek to maintain our asset base and grow our dividends.
- Maintain an efficient capital structure. We expect to finance acquisitions on a long-term basis using aircraft lease portfolio securitizations. We believe that our long-term debt structure and dividend payment strategy result in a low cost of capital and a high degree of financial flexibility, allowing us to grow our business and dividends.

Recent Developments

On January 22, 2007, we entered into an acquisition agreement (the “GAIF Acquisition Agreement”) with Guggenheim Aviation Fund LP (“GAIF”) under which we agreed to acquire 38 aircraft for an aggregate base purchase price of approximately \$1.595 billion subject to certain agreed adjustments. The aircraft we will acquire under the GAIF Acquisition Agreement are scheduled to be delivered to us through February 2009. For certain of the aircraft, we have agreed to make an accelerated payment to the relevant seller and acquire its right to obligations under the seller’s purchase acquisition or freighter conversion agreement, with final payment and delivery of the aircraft to us being made upon delivery by the manufacturer or seller, or completion of the conversion process. As of June 30, 2007, we completed the acquisition of 24 of the aircraft to be delivered under the GAIF Acquisition Agreement, for approximately \$780.4 million.

On June 8, 2007, we completed Securitization No. 2, a \$1.17 billion transaction comprising 59 aircraft and having a legal final maturity of June 8, 2037. As of June 30, 2007, 39 of the

S-3

Table of Contents

aircraft had been transferred into the securitization and we paid certain expenses incurred of approximately \$12.6 million in connection with closing Securitization No. 2. At June 30, 2007, proceeds in the amount of \$500.6 million were held as restricted cash for the purchase of the remaining 20 aircraft, all of which transferred during the third quarter of 2007, resulting in the release of all of such restricted cash to us. We used a portion of the proceeds from Securitization No. 2 to repay amounts owed under Amended Credit Facility No. 2. The indebtedness incurred in connection with Securitization No. 2 provides for monthly payments of interest at a floating rate of one-month LIBOR plus 0.26%, which at June 30, 2007 was 5.58% per annum, and scheduled repayment of principal at maturity.

On June 20, 2007, we entered into an acquisition agreement (the “Airbus A330F Agreement”) with Airbus SAS under which we agreed to acquire 15 new Airbus Model A330-200F freighter aircraft (the “A330F Aircraft”). Five of the aircraft we will acquire under the Airbus A330F Agreement are scheduled to be delivered in 2010 with the remainder to be delivered in 2011.

As of June 30, 2007, we had commitments to acquire aircraft, and to convert aircraft to freighter configuration, of approximately \$2.36 billion, including our anticipated commitments with respect to the 15 new A330F Aircraft and the balance of the aircraft to be delivered under the GAIF Acquisition Agreement.

Third Quarter Financial Information

Although we have not reached the end of the third quarter of 2007 and, therefore, we do not have final results for the third quarter of 2007, we currently expect that our aircraft lease rental revenues will increase from the comparable period of 2006 due primarily to the purchase of additional aircraft. As of September 24, 2007, all of the 109 aircraft we owned were on lease and our contractual lease rental revenue for these aircraft was \$35.6 million per month.

Board of Directors

Under our Amended and Restated Shareholders Agreement, which we refer to as our Shareholders Agreement, FIG Advisors LLC, an affiliate of Fortress, is permitted to designate a specified number of individuals to be elected to our board of directors depending on the percentage of our voting power beneficially owned by certain Fortress funds. Upon completion of this offering, Fortress funds will own between 25% and 50% of the voting power of the Company. As a result, in accordance with our Shareholders Agreement, the number of our directors entitled to be designated by FIG Advisors LLC will decrease from four to three directors. In connection with this offering, a special committee of our board of directors, comprised solely of independent directors, has waived the requirement under our Shareholders Agreement that FIG Advisors LLC cause one of the directors designated by it to resign from our board of directors as a result of the Fortress funds no longer owning more than 50% of our voting power. The special committee concluded that waiving such requirement under the Shareholders Agreement and continuing the current composition of our board, with a majority of independent directors, was in the best interests of our shareholders.

Fortress

Fortress is a global alternative asset manager with approximately \$43.3 billion in assets under management as of June 30, 2007. Fortress manages private equity funds, hedge funds and publicly traded alternative investment vehicles. The private equity funds total approximately \$23.4 billion of the firm's assets under management as of June 30, 2007. Fortress was founded in 1998, is headquartered in New York and has affiliates with offices in Dallas, San Diego, Los Angeles, Toronto, London, Rome, Hong Kong, Frankfurt and Sydney.

Risk factors Please read the section entitled “Risk Factors” beginning on page S-8 of this prospectus supplement and in the documents incorporated by reference for a discussion of some of the factors you should carefully consider before deciding to invest in our common shares.

Important tax considerations We expect that we will be treated as a passive foreign investment company, or PFIC, for U.S. federal income tax purposes. In order to avoid possible deferred tax and interest charges under the U.S. Internal Revenue Code and regulations thereunder, you will need to make a “qualified electing fund,” or QEF, election, with respect to your investment in our common shares and with respect to each of our PFIC subsidiaries. Investors who are U.S. persons should consult with their tax advisors as to whether or not to make such election and the related consequences and should carefully review the information set forth under “Material Tax Considerations — Material United States Federal Income Tax Considerations — Consequences to U.S. Holders — Passive Foreign Investment Company Status and Related Tax Consequences” and in the documents incorporated by reference for additional information.

See “Management — Equity Incentive Plan” in the documents incorporated by reference.

Except as otherwise indicated, all information in this prospectus assumes no exercise by the underwriters of their option to purchase up to 1,000,000 additional common shares from us and 1,000,000 additional common shares from the selling shareholders, to cover over-allotments, if any.

Risk Factors

Investing in our common shares involves a high degree of risk. Before deciding to invest in our common shares, you should carefully consider the following risk factors and those incorporated by reference, including in the section entitled “Risk Factors” in our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2007, as well as other information contained or incorporated by reference in this prospectus supplement or the accompanying prospectus. The occurrence of any of these risks could materially and adversely affect our business, prospects, financial condition, results of operations and cash flow, in which case, the trading price of our common shares would decline and you could lose all or part of your investment.

Risks Related to This Offering

The market price and trading volume of our common shares may be volatile or may decline regardless of our operating performance, which could result in rapid and substantial losses for our shareholders.

The trading volume in our common shares may fluctuate and cause significant price variations to occur. If the market price of our common shares declines significantly, you may be unable to resell your shares at or above your purchase price.

The market price or trading volume of our common shares could be highly volatile and may decline significantly in the future in response to various factors, many of which are beyond our control, including:

- variations in our quarterly or annual operating results;
- failure to meet our earnings estimates or those of analysts;
- actual or anticipated accounting issues;
- publication of research reports about us, other aircraft lessors or the aviation industry or the failure of securities analysts to cover our common shares after this offering;
- additions or departures of key management personnel;
- adverse market reaction to any indebtedness we may incur or preference or common shares we may issue in the future;
- changes in our dividend payment policy or failure to execute our existing policy;

- actions by shareholders;
- changes in market valuations of similar companies;
- announcements by us or our competitors of significant contracts, acquisitions, dispositions, strategic partnerships, joint ventures or capital commitments;
- speculation in the press or investment community;
- increases in market interest rates that may lead purchasers of our common shares to demand a higher dividend yield;
- reduced liquidity or increased volatility in the capital markets generally;
- changes or proposed changes in laws or regulations affecting the aviation industry or enforcement of these laws and regulations, or announcements relating to these matters; and

S-8

Table of Contents

- general market, political and economic conditions and local conditions in the markets in which our lessees are located.

In addition, the equity markets in general have frequently experienced substantial price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies traded in those markets. Changes in economic conditions in the U.S., Europe or globally could also impact our ability to grow profitably. These broad market and industry factors may materially affect the market price of our common shares, regardless of our business or operating performance. In the past, following periods of volatility in the market price of a company's securities, securities class-action litigation has often been instituted against that company. Such litigation, if instituted against us, could cause us to incur substantial costs and divert management's attention and resources, which could have a material adverse effect on our business, financial condition and results of operations.

Future debt, which would be senior to our common shares upon liquidation, and additional equity securities, which would dilute the percentage ownership of our then current common shareholders and may be senior to our common shares for the purposes of dividends and liquidation distributions, may adversely affect the market price of our common shares.

In the future, we may attempt to increase our capital resources by incurring debt or issuing additional equity securities, including commercial paper, medium-term notes, senior or subordinated notes or loans and series of preference shares or common shares. Upon liquidation, holders of our debt securities and preference shares and lenders with respect to other borrowings would receive a distribution of our available assets prior to the holders of our common shares. Additional equity offerings would dilute the holdings of our then current common shareholders and could reduce the market price of our common shares, or both. Preference shares, if issued, could have a preference on liquidating distributions or a preference on dividend payments. Restrictive provisions in our debt and/or preference shares could limit our ability to make a distribution to the holders of our common shares. Because our decision to incur more debt or issue additional equity securities in the future will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future capital raising activities. Thus, holders of our common shares bear the risk of our future debt and equity issuances reducing the market price of our common shares and diluting their percentage ownership in us. See "Description of Share Capital" in the accompanying prospectus.

The market price of our common shares could be negatively affected by sales of substantial amounts of our common shares in the public markets.

After this offering, there will be 78,433,451 common shares outstanding, assuming the exercise in full by the underwriters of their over-allotment option. All the common shares sold in this offering will be freely transferable, except for any shares held by our “affiliates,” as that term is defined in Rule 144 under the Securities Act of 1933, as amended, or the Securities Act.

Pursuant to our Amended and Restated Shareholders Agreement, the Fortress funds and certain Fortress affiliates and permitted third-party transferees have the right, in certain circumstances, to require us to register under the Securities Act for sale into the public markets their common shares, which, assuming the underwriters do not exercise their over-allotment option, will be an aggregate of 30,375,000 of our common shares, excluding shares offered by selling shareholders. We currently have in effect a registration statement by which such shares may be sold into the public markets subject to the terms of the lock-up arrangement described below. See “Certain Relationships and Related Party Transactions — Shareholders Agreement” in the documents incorporated by reference in this prospectus supplement.

S-9

Table of Contents

The selling shareholders, we, our executive officers and directors, and Fortress have agreed with the underwriters that, subject to certain exceptions, for a period of 90 days after the date of this prospectus, the Fortress funds, we and they will not directly or indirectly offer, pledge, announce the intention to sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer, dispose of or hedge, directly or indirectly, our common shares or any securities convertible into or exercisable or exchangeable for our common shares, or enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences associated with the ownership of common shares, or cause a registration statement covering our common shares to be filed, without the prior written consent of the representatives. See “Underwriting.” The representatives may waive these restrictions at their discretion.

In addition, following the completion of our initial public offering in August 2006, we filed a registration statement on Form S-8 under the Securities Act to register an aggregate of 4,000,000 of our common shares reserved for issuance under our equity incentive plan, subject to annual increases of 100,000 common shares per year, beginning in 2007 and continuing through and including 2016. Subject to any restrictions imposed on the shares and options granted under our equity incentive plan, shares registered under the registration statement on Form S-8 are available for sale into the public markets subject to the 90-day lock-up agreements referred to above.

The market price of our common shares may decline significantly when the aforementioned lock-up agreements expire. A decline in the price of our common shares might impede our ability to raise capital through the issuance of additional common shares or other equity securities.

The issuance of additional common shares in connection with acquisitions or otherwise will dilute all other shareholdings.

After this offering, assuming the exercise in full by the underwriters of their over-allotment option, we will have an aggregate of 168,788,823 common shares authorized but unissued and not reserved for issuance under our equity incentive plan. We may issue all of these common shares without any action or approval by our shareholders. We intend to continue to actively pursue acquisitions of aviation assets and may issue common shares in connection with these acquisitions. Any common shares issued in connection with our acquisitions, our equity incentive plan, the exercise of outstanding share options or warrants or otherwise would dilute the percentage ownership held by the investors who purchase common shares in this offering and could adversely affect the market price of our common

shares.

Market interest rates may have an effect on the value of our common shares.

One of the factors that investors may consider in deciding whether to buy or sell our common shares is our dividend rate as a percentage of our share price relative to market interest rates. If market interest rates increase, prospective investors may desire a higher dividend yield on our common shares or seek securities paying higher dividends or interest. As a result, interest rate fluctuations and capital market conditions can affect the market value of our common shares.

Use of Proceeds

Net proceeds to us from the sale of the 10,000,000 common shares offered by us hereby are estimated to be approximately \$ million, after deducting the estimated underwriting discounts and commissions and offering expenses payable by us. We will not receive any proceeds from the sale of our common shares by the selling shareholders, including any shares sold by the selling shareholders pursuant to the underwriters' over-allotment option.

We expect to use the net proceeds from shares offered by us in this offering to repay \$272.0 million under Amended Credit Facility No. 2, to repay amounts outstanding, if any, under our Revolving Credit Facility and for general corporate purposes. Pending these uses, we intend to invest the net proceeds in short-term interest bearing instruments or money market accounts.

As of September 25, 2007, we had letters of credit outstanding of \$13.9 million and no borrowings outstanding under our Revolving Credit Facility, which is scheduled to mature on June 15, 2008.

As of September 25, 2007, we had \$272.0 million outstanding under Amended Credit Facility No. 2, which is scheduled to mature on December 15, 2008. Borrowings under Amended Credit Facility No. 2 bear interest at the one-month LIBOR rate plus 1.25% which, at September 25, 2007, was 7.00%.

Borrowings currently outstanding under Amended Credit Facility No. 2 were used to finance a portion of the purchase price of certain of our aircraft. Amounts repaid under Amended Credit Facility No. 2 may be reborrowed from time to time, subject to compliance with borrowing conditions.

Certain of the underwriters or their affiliates are lenders under Amended Credit Facility No. 2 and the Revolving Credit Facility and will receive their pro rata share of amounts repaid thereunder with the net proceeds of this offering. See "Underwriting."

(1) Dividends for the three months ended September 30, 2006 were paid in two installments. A dividend of \$0.156 per share was paid on August 15, 2006 for the period July 1, 2006 to August 12, 2006 for the period prior to our initial public offering. A dividend of \$0.194 per share was paid on November 15, 2006 for the period after our initial public offering.

(2) Our board of directors has declared a dividend of \$0.65 per share for the third quarter of 2007. This dividend is payable on October 15, 2007 to holders of record of our common shares on September 28, 2007. Purchasers of common shares in this offering will not receive this dividend.

On September 25, 2007, the closing sale price of our common shares as reported on the New York Stock Exchange was \$35.99 per share.

The payment of dividends is subject to the discretion of our board of directors and will depend on many factors, including our ability to make and finance acquisitions, our ability to negotiate favorable lease and other contractual terms, the level of demand for our aircraft, the economic condition of the commercial aviation industry generally, the financial condition and liquidity of our lessees, the lease rates we charge and realize, our leasing costs, unexpected or increased expenses, the level and timing of capital expenditures, principal repayments and other capital needs, the value of our aircraft portfolio, our results of operations, financial condition and liquidity, general business conditions, restrictions imposed by financing agreements (including our credit facilities), legal restrictions on the payment of dividends and other factors that our board of directors deems relevant. We are not permitted to pay dividends on our common shares to the extent a default or an event of default exists under our Revolving Credit Facility.

Selling Shareholders

The following table presents certain information regarding the beneficial ownership of our common shares outstanding as of September 25, 2007 to be sold in this offering by the selling shareholders. Please see the “Certain Relationships and Related Party Transactions” section of the proxy statement for our annual meeting of shareholders held on May 17, 2007 which is incorporated by reference into this prospectus supplement and the accompanying prospectus for a description of material relationships between us and the selling shareholders.

We have determined beneficial ownership in accordance with the rules of the Securities and Exchange Commission. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, the number of common shares subject to options or warrants held by that person that are currently exercisable or

Edgar Filing: Aircastle LTD - Form 424B3

exercisable within 60 days of the date hereof are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. Except as indicated in the footnotes to the following table or pursuant to applicable community property laws, each shareholder named in the table has sole voting and investment power with respect to the shares set forth opposite such shareholder's name. The percentages of beneficial ownership set forth below are based on 67,433,451 common shares outstanding on September 25, 2007.

Material Tax Considerations

Bermuda Tax Considerations

At the present time, there is no Bermuda income or profits tax, withholding tax, capital gains tax, capital transfer tax, estate duty or inheritance tax payable by us or by our shareholders in respect of our shares. We have obtained an assurance from the Minister of Finance of Bermuda under the Exempted Undertakings Tax Protection Act 1966 that, in the event that any legislation is enacted in Bermuda imposing any tax computed on profits or income, or computed on any capital asset, gain or appreciation or any tax in the nature of estate duty or inheritance tax, such tax shall not, until March 28, 2016, be applicable to us or to any of our operations or to our shares, debentures or other obligations except insofar as such tax applies to persons ordinarily resident in Bermuda or to any taxes payable by us in respect of

real property owned or leased by us in Bermuda.

Irish Taxation of the ACS Group

ACS Aircraft Finance Ireland plc, ACS Ireland 2 and any of their respective subsidiaries that are Irish-tax-resident members, and any other subsidiaries of AL that are Irish-tax-resident members should be subject to Irish corporate tax on their net trading income, including leasing income, at a 12.5% rate and on non-trading income at a rate of 25%. There can be no assurance that these tax rates will not be changed in the future.

A company will not be subject to Irish income tax if it is not Irish tax-resident, has no branch or agency in Ireland and has no Irish-source income. The non-Irish-resident subsidiaries of AL should not be subject to Irish income tax on their non-Irish source income. Lease rentals paid by Irish-resident subsidiary companies of Bermuda entities, although not subject to withholding tax, may constitute Irish-source income of the lessor which may, therefore, have a technical liability to Irish income tax. However, as a matter of practice, the Irish tax authorities do not pursue collection of any such liability for Irish tax on the part of persons who are not resident in Ireland. However, there can be no assurance that these companies will not be subject to Irish tax on some or all of their income.

Material United States Federal Income Tax Considerations

The following is a discussion of the material U.S. federal income tax considerations applicable to the purchase, ownership and disposition of common shares by U.S. Holders (as defined below) and Non-U.S. Holders (as defined below). This discussion deals only with our common shares held as capital assets by holders who purchase common shares in this offering. This discussion does not cover all aspects of U.S. federal income taxation that may be relevant to the purchase, ownership or disposition of our common shares by prospective investors in light of their particular circumstances. In particular, this discussion does not address all of the tax considerations that may be relevant to certain types of investors subject to special treatment under U.S. federal income tax laws, such as the following:

- brokers or dealers in securities or currencies;
- financial institutions;
- pension plans;
- regulated investment companies;
- real estate investment trusts;

S-17

Table of Contents

- cooperatives;
- tax-exempt entities;
- insurance companies;
- persons holding common shares as part of a hedging, integrated, conversion or constructive sale transaction or a straddle;
- traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;
- persons liable for alternative minimum tax;
- U.S. expatriates;
- partnerships or entities or arrangements treated as partnerships or other pass through entities for U.S. federal tax purposes (or investors therein); or
- U.S. Holders (as defined below) whose “functional currency” is not the U.S. dollar.

Furthermore, this discussion is based upon the provisions of the Internal Revenue Code of 1986, as amended (the “Code”), the Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as of the date hereof. Such authorities may be repealed, revoked, modified or subject to differing interpretations, possibly on a retroactive basis, so as to result in U.S. federal income tax consequences different from those discussed below. This discussion does not address any state, local or non-U.S. tax considerations.

For purposes of this discussion, you will be considered a “U.S. Holder” if you beneficially own our common shares and you are for U.S. federal income tax purposes one of the following:

- a citizen or an individual resident of the United States;
- a corporation (or other entity taxable as a corporation) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if you (i) are subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all of your substantial decisions or (ii) have a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

You will be considered a “Non-U.S. Holder” if you beneficially own our common shares and you are not a U.S. Holder or a partnership or an entity or arrangement treated as a partnership for U.S. federal income tax purposes. If you are a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes, the U.S. federal income tax treatment of your partners generally will depend upon the status of such partners and your activities.

If you are considering the purchase of our common shares, we urge you to consult your own tax advisors concerning the particular U.S. federal income tax consequences to you of the purchase, ownership and disposition of our common shares, as well as any consequences to you arising under state, local and non-U.S. tax laws.

Taxation of Aircastle

AL expects that it will not be treated as engaged in a trade or business in the United States and thus will not be subject to U.S. federal income taxation. No assurances can be given, however, in this regard. Certain subsidiaries of AL may be treated as engaged in a trade business in the United States. Unless otherwise exempted by an applicable income tax treaty, a non-U.S. corporation that is engaged in a trade or business in the United States is generally subject to U.S. federal income taxation, at the graduated tax rates applicable to U.S. corporations, on the portion of such non-U.S. corporation’s income that is “effectively connected” with such trade or business. In addition, such non-U.S. corporation may be subject to the U.S. federal branch profits tax on its effectively connected earnings and profits at a rate of 30%, or at such lower rate as may be specified by an applicable income tax treaty.

We expect that each of our Irish subsidiaries will be eligible to claim the benefits of the Convention between the Government of the United States of America and the Government of Ireland for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income (the “Irish Treaty”). Accordingly, even if such Irish subsidiaries earn income that otherwise would be treated as effectively connected with a trade or business in the United States, such income is expected to be exempt from U.S. tax under the Irish Treaty to the extent that it is (i) rental income attributable to aircraft used in international traffic or (ii) gain from the sale of aircraft used in

international traffic. For this purpose, “international traffic” means transportation except where flights are solely between places within the United States. Although any income of the Irish subsidiaries that is attributable to aircraft used for flights solely between places within the United States may be subject to U.S. federal income taxation at a maximum rate of 35%, such income would be subject to a reduced 5% branch profits tax under the Irish Treaty. No assurances can be given, however, that each of the Irish subsidiaries will qualify each year for the benefits of the Irish Treaty.

Although Aircastle Bermuda may be treated as engaged in a trade or business in the United States, we expect that Aircastle Bermuda generally will not earn income that is treated as effectively connected with a U.S. trade or business. Accordingly, we expect that Aircastle Bermuda generally will not be subject to U.S. federal income taxation on a net income basis. No assurances can be given, however, that Aircastle Bermuda will be able to avoid generating income (unless exempt from tax pursuant to Section 883 of the Code as described below) that is effectively connected with a U.S. trade or business. We expect that Aircastle Bermuda’s U.S. source rental income generally will be subject to U.S. federal taxation, on a gross income basis, at a rate of not in excess of 4% as provided in Section 887 of the Code. If, contrary to expectations, we do not comply with certain administrative guidelines of the IRS, such that 90% or more of Aircastle Bermuda’s U.S. source rental income were attributable to the activities of personnel based in the United States, Aircastle Bermuda’s U.S. source rental income could be treated as income effectively connected with the conduct of a trade or business in the United States. In such case, Aircastle Bermuda’s U.S. source rental income would be subject to U.S. federal income taxation at a maximum rate of 35%. In addition, Aircastle Bermuda would be subject to the U.S. federal branch profits tax on its effectively connected earnings and profits at a rate of 30%.

Section 883 of the Code provides an exemption from U.S. federal income taxation for income derived from aircraft used in international traffic by certain foreign corporations. To qualify for this exemption in respect of rental income, the lessor of the aircraft must be organized in a country that grants a comparable exemption to U.S. lessors (Bermuda and Ireland each do), and either the direct and indirect shareholders of the lessor must satisfy certain residency requirements or certain other requirements must be satisfied. We and our subsidiaries have not

S-19

Table of Contents

qualified for this exemption to date, although we may so qualify in the future, in which case income earned by us from aircraft used in international traffic would not be subject to U.S. federal income tax.

Consequences to U.S. Holders

The following discussion applies to you only if you are a U.S. Holder.

Dividends

Subject to the passive foreign investment company rules and the controlled foreign corporation rules discussed below, distributions of cash or property that we pay in respect of our common shares will constitute dividends for U.S. federal income tax purposes to the extent paid out of our current or accumulated earnings and profits (as determined for U.S. federal income tax purposes) and will be includible in your gross income upon receipt. Distributions to you in excess of our earnings and profits will be treated first as a return of capital (with a corresponding reduction in your tax basis in the common shares) to the extent of your tax basis in the common shares on which the distribution was made, and then as capital gain from the sale or exchange of such common shares. We expect that our distributions will not be eligible for the dividends-received deduction for corporate U.S. Holders or “qualified dividend income” (which is

taxable at the rates generally applicable to long-term capital gains) for U.S. Holders taxed as individuals.

Sale, Exchange or Other Taxable Disposition of Common Shares

Subject to the passive foreign investment company rules and the controlled foreign corporation rules discussed below, upon the sale, exchange or other taxable disposition of common shares, you will recognize capital gain or loss equal to the difference between the amount realized on such sale, exchange or taxable disposition and your tax basis in the common shares sold. Such gain or loss generally will be long-term capital gain or loss if your holding period with respect to such common shares is more than one year at the time of its disposition. The deductibility of capital losses is subject to limitations.

Passive Foreign Investment Company Status and Related Tax Consequences

We expect AL and certain of its subsidiaries to be PFICs for U.S. federal income tax purposes. Accordingly, you will be subject to different taxation rules with respect to an investment in our common shares depending on whether you make a QEF election with respect to your investment in common shares and with respect to the subsidiaries of AL that are treated as PFICs. Different rules may apply to you if you are a “10% U.S. Holder” (as described below under Controlled Foreign Corporation Status and Related Tax Consequences).

If you make timely QEF elections with respect to your common shares and the subsidiaries of AL that are treated as PFICs, you must report for U.S. federal income tax purposes your pro rata share of each PFIC’s ordinary earnings and net capital gain, if any, for each taxable year for which it is a PFIC that ends with or within your taxable year, regardless of whether or not you received any distributions on the common shares you own. No portion of any such inclusions of ordinary earnings would be eligible to be treated as “qualified dividend income.” If you are a non-corporate U.S. Holder, any such net capital gain inclusions would be eligible for taxation at the preferential capital gains tax rates. If you are a regulated investment company, such ordinary earnings and net capital gain inclusions will be treated as qualifying income described in Section 851(b)(2)(A) of the Code. Your adjusted tax basis in your common shares would be increased to reflect any taxed but undistributed earnings and profits. Any distribution of earnings and profits that previously had been taxed would not be taxed again when you receive such

S-20

Table of Contents

distribution, but it would result in a corresponding reduction in the adjusted tax basis in your common shares. You would not, however, be entitled to a deduction for your pro rata share of any losses that any such PFIC incurs with respect to any year. You generally would recognize capital gain or loss on the sale, exchange or other disposition of common shares. You may make timely QEF elections with respect to your investment in common shares by filing one copy of IRS Form 8621 with your U.S. federal income tax return for the first year in which you hold our common shares. AL will provide you with all necessary information in order for you to make QEF elections as described above. Another election generally available with respect to publicly traded PFICs, the “mark-to-market” election, will not be available with respect to the subsidiaries of AL, making such an election ineffectual with respect to an investment in AL common shares.

Finally, if you do not make QEF elections with respect to your investment in common shares and to any subsidiary of AL that is a PFIC, you would be subject to special rules with respect to (i) any excess distribution (i.e., the portion of any distributions you receive on your common shares in a taxable year in excess of 125% of the average annual distributions you received in the three preceding taxable years, or, if shorter, your holding period for the common

shares), and (ii) any gain realized on the sale, exchange or other disposition of common shares. Under these special rules:

- the excess distribution or gain would be allocated ratably over the aggregate holding period for the common shares;
- the amount allocated to the current taxable year would be taxed as ordinary income and would not be “qualified dividend income”; and
- the amount allocated to each of the other taxable years would be subject to tax at the highest rate of tax in effect for the applicable class of taxpayer for that year, and an interest charge for the deemed deferral benefit would be imposed with respect to the resulting tax attributable to each such other taxable year.

If you do not make QEF elections with respect to AL and its subsidiaries that are treated as PFICs, if the stock of a subsidiary of AL that is treated as a PFIC is sold or otherwise disposed of, you will be required to recognize gain in an amount equal to your pro rata share of the gain realized by the direct owner of the disposed PFIC stock. The amount of such gain will be treated as an excess distribution and will be subject to the rules set forth above with respect to excess distributions.

These special rules should not apply to a beneficial owner of our common shares that is a pension, profit sharing or other retirement trust or other tax-exempt organization that does not borrow money or otherwise utilize leverage in connection with its acquisition of our common shares.

YOU SHOULD CONSULT YOUR TAX ADVISOR ABOUT THE APPLICATION OF THE PFIC RULES TO YOUR PARTICULAR SITUATION.

Controlled Foreign Corporation Status and Related Tax Consequences

We also expect that AL and certain of its subsidiaries currently are CFCs for U.S. federal income tax purposes. AL will be a CFC for any year in which U.S. Holders that each own (directly, indirectly or by attribution) at least 10% of AL’s voting shares (each a “10% U.S. Holder”) together own more than 50% of the total combined voting power of all classes of AL’s voting shares or more than 50% of the total value of AL’s shares. The classification of AL as a CFC has many complex results, one of which is that if you are a 10% U.S. Holder on the last day of AL’s taxable year, you will be required to recognize as ordinary income your pro rata share of certain income of AL and its subsidiaries (including both ordinary earnings and capital gains) for the

S-21

Table of Contents

taxable year, whether or not you receive any distributions on your common shares during that taxable year. In addition, special foreign tax credit rules would apply. Your adjusted tax basis in your common shares would be increased to reflect any taxed but undistributed earnings and profits. Any distribution of earnings and profits that previously had been taxed would result in a corresponding reduction in your adjusted tax basis in your common shares and would not be taxed again when you receive such distribution. Subject to a special limitation in the case of individual 10% U.S. Holders that have held their common shares for more than one year, if you are a 10% U.S. Holder, any gain from disposition of your common shares will be treated as dividend income to the extent of accumulated earnings attributable to such common shares during the time you held such common shares.

For any year in which AL is both a PFIC and a CFC, if you are a 10% U.S. Holder, you would be subject to the CFC rules and not the PFIC rules with respect to your investment in common shares.

YOU SHOULD CONSULT YOUR TAX ADVISOR ABOUT THE APPLICATION OF THE CFC RULES TO YOUR PARTICULAR SITUATION.

Information Reporting and Backup Withholding

In general, information will be reported to the IRS each year regarding the amount of any dividends on our common shares and the proceeds of any sale of our common shares paid to you during such year unless you are an exempt recipient (such as a corporation). A backup withholding tax will apply to such payments if you fail to provide your taxpayer identification number or to make required certifications or you have been notified by the IRS that you are subject to backup withholding. Backup withholding is not an additional tax and any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against your U.S. federal income tax liability provided that you timely furnish the required information to the IRS.

If you are a U.S. Holder that owns more than 10% of the aggregate value of our common shares (or you are an officer or director of AL and you are a United States citizen or resident) you may be required to file an information return on IRS Form 5471. A U.S. Holder that purchases common shares with cash generally will be required to file Form 926 with the IRS if (i) immediately after the transfers such investor holds, directly or indirectly, at least 10% of our voting shares, or (ii) the amount of cash transferred in exchange for common shares during the 12-month period ending on the date of the transfer exceeds \$100,000. In the event a U.S. Holder fails to file any such required form, such holder could be required to pay a substantial penalty. In addition, depending on your particular circumstances, you may be required to file certain other IRS information returns with respect to an investment in common shares.

Consequences to Non-U.S. Holders

The following discussion applies to you only if you are a Non-U.S. Holder. Special rules may apply to you if you are a CFC or a PFIC or are otherwise subject to special treatment under the Code. In such case, you should consult your own tax advisor to determine the U.S. federal, state, local and non-U.S. tax consequences that may be relevant to you with respect to an investment in common shares.

Dividends

You generally will not be subject to U.S. federal income tax or withholding tax on dividends received from us with respect to the common shares, unless that income is effectively connected with your conduct of a trade or business in the United States. If you are entitled to the benefits of a U.S. income tax treaty with respect to those dividends, that income is generally taxable only if it is attributable to a permanent establishment maintained by you in the United States.

Sale, Exchange or Other Taxable Disposition of Common Shares

You generally will not be subject to U.S. federal income tax or withholding tax with respect to any gain recognized on a sale, exchange or other taxable disposition of shares of our common shares unless:

- the gain is effectively connected with your conduct of a trade or business in the United States, or, if certain tax treaties apply, is attributable to a permanent establishment you maintain in the United States; or
- if you are an individual and you are present in the United States for 183 or more days in the taxable year of the sale, exchange or other taxable disposition, and you meet certain other requirements

If you are an individual and are described in the first bullet above, you will be subject to tax on any gain derived from the sale, exchange or other taxable disposition of common shares under regular graduated U.S. federal income tax rates. If you are an individual and are described in the second bullet above, you will be subject to a flat 30% tax on any gain derived from the sale, exchange or other taxable disposition of common shares that may be offset by U.S. source capital losses (even though you are not considered a resident of the United States). If you are a corporation and are described in the first bullet above, you will be subject to tax on your gain under regular graduated U.S. federal income tax rates and, in addition, may be subject to the branch profits tax on your effectively connected earnings and profits for the taxable year, which would include such gain, at a rate of 30%, or at such lower rate as may be specified by an applicable income tax treaty.

Information Reporting and Backup Withholding

You may be required to establish your exemption from information reporting and backup withholding by certifying your status on Internal Revenue Service Form W-8BEN, W-8ECI or W-8IMY, as applicable.

If you are a Non-U.S. Holder and you sell your common shares to or through a U.S. office of a broker, the payment of the proceeds is subject to both U.S. backup withholding and information reporting unless you certify that you are a non-U.S. person, under penalties of perjury, or you otherwise establish an exemption. If you sell your common shares through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to you outside the United States, then information reporting and backup withholding generally will not apply to that payment. However, U.S. information reporting requirements, but not backup withholding, will apply to a payment of sales proceeds, even if that payment is made to you outside the United States, if you sell your common shares through a non-U.S. office of a broker that is a U.S. person or that has some other contacts with the United States. Such information reporting requirements will not apply, however, if the broker has documentary evidence in its records that you are a non-U.S. person and certain other conditions are met, or you otherwise establish an exemption.

The IRS may make information reported to you and the IRS available under the provisions of an applicable income tax treaty to the tax authorities in the country in which you reside. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against your U.S. federal income tax liability, if any, provided the required information is timely furnished by you to the IRS. You should consult your own tax advisors regarding the filing of a U.S. tax return for claiming a refund of any such backup withholding.

Underwriting

J.P. Morgan Securities Inc., Bear, Stearns & Co. Inc. and Citigroup Global Markets Inc. are acting as joint book-running managers of the offering, and as representatives of the underwriters named below.

We, the selling shareholders and the underwriters named below have entered into an underwriting agreement covering

the common shares to be sold in this offering. Subject to the terms and conditions of the underwriting agreement, we and the selling shareholders have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase, at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus supplement, the number of common shares listed next to its name in the following table:

Name	Number of Shares
J.P. Morgan Securities Inc.	
Bear, Stearns & Co. Inc.	
Citigroup Global Markets Inc.	
Jefferies & Company Inc.	
Lazard Frères & Co. LLC	
Total	20,000,000

The underwriters are committed to purchase all the common shares offered by us and the selling shareholders if they purchase any shares. If an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated. The underwriting agreement also provides that the obligations of the underwriters are subject to certain conditions precedent, including the absence of any material adverse change in our business and the receipt of certain certificates, opinions and letters from us, the selling shareholders, our directors and certain of our officers, counsel for us and counsel for the selling shareholders and our independent auditors.

The underwriters propose to offer the common shares directly to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers at that price less a concession of up to \$ per share. Any such dealers may resell shares to certain other brokers or dealers at a discount of up to \$ per share from the public offering price. After the public offering of the shares, the offering price and other selling terms may be changed by the underwriters. Sales of shares made outside of the United States may be made by affiliates of the underwriters.

The underwriters have an option to buy up to 1,000,000 additional common shares from us and 1,000,000 additional common shares from the selling shareholders, to cover sales of shares by the underwriters which exceed the number of shares specified in the table above. The underwriters have 30 days from the date of this prospectus supplement to exercise this over-allotment option. If any shares are purchased pursuant to this over-allotment option, the underwriters will purchase shares in approximately the same proportion as shown in the table above. If any additional common shares are purchased, the underwriters will offer the additional shares on the same terms as those on which the shares are being offered.

The underwriting fee is equal to the public offering price per common share less the amount paid by the underwriters to us and the selling shareholders per common share. The underwriting fee is \$ per share. The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters assuming both no exercise and full exercise of the underwriters' over-allotment option.

We estimate that the total expenses of this offering, including registration, filing and listing fees, printing fees and legal and accounting expenses, but excluding the underwriting discounts and commissions, will be approximately \$million.

A prospectus in electronic format may be made available on the websites maintained by one or more underwriters, or selling group members, if any, participating in the offering. The underwriters may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters and selling group members that may make Internet distributions on the same basis as other allocations. The information on any such website is not part of this prospectus supplement and the accompanying prospectus.

We and the selling shareholders have agreed, subject to certain exceptions, that we and the selling shareholders will not directly or indirectly offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer, dispose of or hedge, directly or indirectly, or enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of our common shares or relating to our common shares or any securities convertible into or exercisable or exchangeable for our common shares, without the prior written consent of the representatives for a period of 90 days after the date of this prospectus supplement. The representatives in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Additionally, our executive officers, directors, Fortress and certain of the Fortress funds have entered into lock-up agreements with the underwriters pursuant to which each of these persons or entities, subject to certain exceptions, for a period of 90 days after the date of this prospectus supplement, may not, without the prior written consent of the representatives, directly or indirectly (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer, dispose of or hedge, directly or indirectly, our common shares (including, without limitation, common shares which may be deemed to be beneficially owned by such executive officers, directors, Fortress or Fortress funds in accordance with the rules and regulations of the Securities and Exchange Commission and securities which may be issued upon exercise of a share option or warrant) or any securities convertible into or exercisable or exchangeable for our common shares; or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of our common shares or relating to our common shares, regardless of whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of common shares or such other securities, in cash or otherwise. In addition, each of such executive officers, directors, Fortress, and the Fortress funds has agreed that, without the prior written consent of the representatives, it will not, during the 90-day restricted period, make any demand for or exercise any right with respect to the registration of our common shares or any securities convertible into or exercisable or exchangeable for our common shares. The representatives in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

In the ordinary course of business, certain of the underwriters and their affiliates have provided and may provide from time to time in the future certain investment banking, commercial

S-25

banking, financial advisory and other services to us and our affiliates for which they have received and may continue to receive customary compensation. In that regard, affiliates of J.P. Morgan Securities Inc., Bear, Stearns & Co. Inc. and Citigroup Global Markets Inc. are lenders under certain of our credit facilities and other debt agreements, and, as noted under “Use of Proceeds” in this prospectus supplement, will receive more than 10% of the net proceeds of this offering when we repay indebtedness under Amended Credit Facility No. 2 and our Revolving Credit Facility. Since more than 10% of the net proceeds of this offering will be paid to affiliates of members of the Financial Industry Regulatory Authority, Inc. (successor to the National Association of Securities Dealers, Inc. or “NASD”) participating in this offering, this offering will be made in accordance with NASD Conduct Rule 2710(h).

Lazard Frères & Co. LLC referred this transaction to Lazard Capital Markets LLC and will receive a referral fee from Lazard Capital Markets LLC in connection therewith.

We may issue common shares or securities convertible into or exercisable or exchangeable for common shares for the benefit of our employees, directors and officers under our equity incentive plan provided that recipients are subject to the lock-up described above.

We and the selling shareholders have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act.

In connection with this offering, the underwriters may engage in stabilizing transactions, which involves making bids for, purchasing and selling common shares in the open market for the purpose of preventing or retarding a decline in the market price of the common shares while this offering is in progress. These stabilizing transactions may include making short sales of the common shares, which involves the sale by the underwriters of a greater number of common shares than they are required to purchase in this offering, and purchasing common shares on the open market to cover positions created by short sales. Short sales may be “covered” shorts, which are short positions in an amount not greater than the underwriters’ over-allotment option referred to above, or may be “naked” shorts, which are short positions in excess of that amount. The underwriters may close out any covered short position either by exercising their over-allotment option, in whole or in part, or by purchasing shares in the open market. In making this determination, the underwriters will consider, among other things, the price of shares available for purchase in the open market compared to the price at which the underwriters may purchase shares through the over-allotment option. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common shares in the open market that could adversely affect investors who purchase in this offering. To the extent that the underwriters create a naked short position, they will purchase shares in the open market to cover the position.

The underwriters have advised us and the selling shareholders that, pursuant to Regulation M of the Securities Act, they may also engage in other activities that stabilize, maintain or otherwise affect the price of the common shares, including the imposition of penalty bids. This means that if the representatives of the underwriters purchase common shares in the open market in stabilizing transactions or to cover short sales, the representatives can require the underwriters that sold those shares as part of this offering to repay the underwriting discount received by them.

These activities may have the effect of raising or maintaining the market price of the common shares or preventing or retarding a decline in the market price of the common shares, and, as a result, the price of the common shares may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The underwriters may carry out these transactions on the NYSE, in the over-the-counter market or otherwise.
