CNH Global N.V.

Summary North American Retail Unit Sales Activity
For Selected Agricultural and Construction Equipment,
During the Month of May and Cumulative for 5 Months, 2002,
And Indicators of North American Dealer Inventory Levels for Selected
Agricultural Equipment at the End of April 2002
Relative to Industry Results or Levels, Compared with Prior Year Periods

The following table summarizes selected agricultural and construction equipment industry retail unit sales results in North America as compared with prior year periods. Industry results for the current periods are expressed as a percentage change from the prior year periods, by major product category. The percentage change reflects only industry retail unit sales results and is derived from flash, or preliminary actual, data of the U.S. Association of Equipment Manufacturers ('AEM') and of the Canadian Farm and Industrial Equipment Institute ('CFIEI').

These industry data are based on unit sales as preliminarily reported by AEM and CFIEI member companies and include most, but not all, of the equipment sold in each of the categories. The data are subject to revision from time to time and caution should be maintained when using the data for any purpose. Actual results will vary and may not be known for some time. Over time, industry results will be adjusted to reflect actual sales differences, reclassifications, or other factors. Retail unit sales will fluctuate from month to month due to several factors, including timing of new products and new product introductions, product availability, and sales programs. CNH Global N.V.'s performance for the same periods is described relative to the change in industry results.

Also included in the table are indicators of North American dealer inventory levels. Industry data are derived from the flash, or preliminary actual, data of the AEM and CFIEI and expressed as the number of months of inventory on hand, based on the simple average of the previous 12 months retail unit sales results. CNH Global N.V.'s dealer's inventory levels for the same periods are described relative to the industry levels.

This information reflects point-in-time data that is not necessarily representative of either the market nor of CNH Global N.V.'s relative performance going forward, nor does it reflect or imply any forward-looking information regarding the market or CNH Global N.V.'s relative performance in that market.

Copies of the relevant Agricultural Flash report from AEM and CFIEI follow the table.

SUMMARY OF NORTH AMERICAN RETAIL ACTIVITY

CATEGORY	TOTAL NORTH AMERICAN INDUSTRY	CNH RELATIVE (ALL BR
RETAIL UNIT SALES: MONTH OF MAY 2002		
Agricultural Tractors: under 40 horsepower (2WD)	+ 6.0%	up moderately more

COMBINES (Self-Propelled)	380	444	-14.40%	1,649	1,835

[Graphic data included at this point in the Flash Report has been omitted due to the inability of it being reproduced in the Edgarization process. Such data is available from the Association of Equipment Manufacturers.]

Published monthly, the AEM Agriculture Flash Report compares monthly data from the current and past year of the U.S. unit retail sales of two and four wheel drive tractors and self-propelled combines. Data shown on the report are estimates which are subject to revisions when final detail data become available.

Because of the seasonal nature of the industry, comparisons of monthly data from one period to another should be done with extreme caution. Data presented in the report represents most, but not all, of the manufacturers in each product category being sold at retail in the 50 states and the District of Columbia.

Ag Flash Report is updated by the 15th of the month.

May 2002 Flash Report
Canada Report - Retail Sales in Units
(Report released June 12, 2002)

The Canadian Farm & Industrial Equipment Institute, Burlington, Ontario today announced retail sales of farm tractors and combine harvesters in Canada for the month.

These data are based on unit sales reported by CFIEI member companies. This report includes most, but not all of the machines and implements sold in each of these categories. These data are subject to revision from time to time and caution should be maintained when using the data for any purpose.

Equipment	MAY 2002	MAY 2001	MAY % Chg.	MAY YEAR-TO-DATE 2002	MAY YEAR-TO-DATE 2001	MAY YEAR-TO-DATE % Chg.
2 WHEEL TRACTORS						
UNDER 40 HP	693	635	9.1%	1,840	1,824	0.9
40& UNDER 100 HP	688	731	-5.9%	2,705	2,541	6.5
100 HP & OVER	481	415	15.9%	1,715	1,540	11.4
