-

ITEM 7.01. Regulation FD Disclosure

On February 7, 2006, UAL Corporation (the Company) will provide information to attendees of the JPMorgan Annual High Yield Conference 2006 in Miami, Florida. Certain information about the Company that will be disclosed at this presentation is attached hereto as Exhibit 99.1 and incorporated herein by reference.

Certain statements throughout the exhibit to this report are forward-looking and thus reflect our current expectations and beliefs with respect to certain current and future events and financial performance. Such forward-looking statements are and will be subject to many risks and uncertainties relating to our operations and business environment that may cause actual results to differ materially from any future results expressed or implied in such forward-looking statements. Words such as expect, plans, anticipates, indicates, believes, forecast, outlook and similar expressions are intended to identify forward-looking statements. Additionally, forward-looking statements include statements which do not relate solely to historical facts, such as statements which identify uncertainties or trends, discuss the possible future effects of current known trends or uncertainties or which indicate that the future effects of known trends or uncertainties cannot be predicted, guaranteed or assured. All forward-looking statements in this report are based upon information available to us on the date of this report. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise.

Our actual results could differ materially from these forward-looking statements due to numerous factors including, without limitation, the following: our ability to comply with the terms of our senior secured revolving credit facility and term loan, as well as other financing arrangements; the costs and availability of financing; our ability to execute our business plan; our ability to utilize our net operating losses; our ability to attract, motivate and/or retain key employees; our ability to attract and retain customers; demand for transportation in the markets in which we operate; general economic conditions (including interest rates, foreign currency exchange rates, crude oil prices, costs of aviation fuel and refining capacity in relevant markets); our ability to cost-effectively hedge against increases in the price of aviation fuel; the effects of any hostilities, act of war or terrorist attack; the ability of other air carriers with whom we have alliances or partnerships to provide the services contemplated by the respective arrangements with such carriers; the costs and availability of aircraft insurance; the costs associated with security measures and practices; labor costs; competitive pressures on pricing (particularly from lower-cost competitors) and on demand; capacity decisions of our competitors, U.S. or foreign governmental legislation, regulation and other actions; our ability to maintain satisfactory labor relations; any disruptions to operations due to any potential actions by our labor groups; weather conditions; as well as other risks and uncertainties set forth from time to time in the reports we file with United States Securities and Exchange Commission. Consequently, the forward-looking statements should not be regarded as representations or warranties by the Company that such matters will be realized. We disclaim any intent or obligation to update or revise any of the forward-looking statements, whether in response to new information, unforeseen events, changed circumstances or otherwise.

The financial projections included in the exhibit were not prepared to comply with the guidelines for prospective financial statements published by the American Institute of Certified Public Accountants and the rules and regulations of the United States Securities Exchange Commission. The Company's independent accountants have neither examined nor compiled the accompanying financial projections and accordingly do not express an opinion or any other form of assurance with respect to the financial projections, assume no responsibility for the financial projections and disclaim any association with the financial projections. The Company does not regularly publish projections of its anticipated financial position or results of operations and does not commit to update or otherwise revise these financial projections to reflect events or circumstances existing or arising after the date of this document or to reflect the occurrence of unanticipated events. The financial projections are based on estimates and assumptions, including those set forth in the preceding paragraph, that may not be realized. These estimates and assumptions are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are outside the Company's control. No representations can be or are made as to whether the actual results will be within the range set forth in the financial projections. Therefore, although the projections are necessarily presented with numerical specificity, the actual results of operations achieved during the projection period will vary from the projected results. These variations may be material. Accordingly, no representation can be made or is being made with respect to the

accuracy of the financial projections or the ability of

the Company to achieve the financial projections. Some assumptions inevitably will not materialize, and events and circumstances occurring subsequent to the date on which the financial projections were prepared may be different from those assumed, or may be unanticipated, and therefore may affect financial results in a material and possibly adverse manner. Persons or entities reviewing the exhibit and the financial projections must make their own determination as to the reasonableness of the assumptions and the reliability of the financial projections.
