**Item 2.02. Results of Operations and Financial Condition.**

On February 3, 2010, Travelzoo Inc. (the “Company”) issued a press release to report earnings for the three months and year ended December 31, 2009. The Company has subsequently revised its reported earnings to reflect a change in its income from discontinued operations and net income for the three months and year ended December 31, 2009. The change was as a result of classifying the gain on the sale of the Company’s Asia Pacific business segment of \$3.4 million as an increase to additional paid-in capital within stockholders’ equity, rather than including the gain in income from discontinued operations. The Company initially classified this gain as part of income from discontinued operations, based on informal discussions with its auditors. However, in the course of finalizing the Company’s financial statements, it was determined that the \$3.4 million should be classified as an increase to additional paid-in capital within stockholders’ equity, rather than including the gain in income from discontinued operations, because the Company and the entity that acquired the Asia Pacific business segment are under the common control of the Company’s majority shareholder. In addition, the Company reclassified \$1.1 million of other receivables and \$68,000 of accounts payable to additional paid-in capital as of December 31, 2009. In the unaudited condensed statement of cash flows, the \$2.1 million proceeds from the sale of the Asia Pacific business segment, net of cash provided, is now reflected as cash flows from financing activities rather than cash flow from investing activities.

A copy of the amended unaudited condensed consolidated statements of operations, amended unaudited condensed balance sheets, and amended unaudited condensed consolidated statements of cash flows is included as Exhibit 99.1 and is incorporated herein by reference.
