INTRODUCTION

This Rule 13E-3 Transaction Statement (the “Schedule”) is being filed by NZCH Corporation (formerly known as Zap.Com Corporation), a Nevada corporation (the “Company”), and HRG Group, Inc., the majority stockholder of the Company (“HRG”), under Section 13(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and Rule 13e-3 promulgated thereunder, in connection with a proposed “going private” transaction (the “Transaction”) to be implemented by a consolidation of the outstanding common stock, par value \$0.001 per share (the “Common Stock”), of the Company. After careful consideration and in light of the fact that the Company does not have any operations or a business strategy, our Board of Directors (the “Board”) believes that the costs associated with being a public reporting company in the U.S. are not justified by the benefits to the Company and its stockholders. The primary purpose of the Transaction is to reduce the number of record holders of the Company’s Common Stock to fewer than 300, allowing the Company to terminate the registration of its Common Stock under Section 12(g) of the Exchange Act and to suspend its reporting obligations under Section 15(d) of the Exchange Act. After the suspension of our duty to file periodic reports and other information with the Securities and Exchange Commission (the “SEC”), we will cease to file reports and information with the SEC.

To accomplish the reduction in the number of record holders of the Common Stock, the Company will effect a reverse split of its outstanding shares of Common Stock pursuant to Nevada Revised Statutes (“NRS”) 78.207, whereby (i) each 500,000 shares of Common Stock outstanding as of the effective date of the reverse stock split will be combined into one whole share of Common Stock and (ii) the number of authorized shares of Common Stock will be simultaneously and correspondingly reduced (collectively, the “Reverse Stock Split”). In lieu of issuing any fractional shares to any stockholder as a result of the Reverse Stock Split, the Company will make, to any stockholder that would otherwise hold a fractional share after giving effect to the Reverse Stock Split, a cash payment in an amount equal to \$0.02 per pre-split share (the “Cash Payment”). Accordingly, any stockholder owning fewer than 500,000 pre-split shares as of the effective date of the Reverse Stock Split will no longer have an equity interest in the Company and will only be entitled to receive the Cash Payment multiplied by the number of pre-split shares owned by such stockholder. After giving effect to the Reverse Stock Split, HRG, the owner of approximately 99.5% of our Common Stock, is expected to be the sole stockholder of the Company. The total amount of funds necessary to make Cash Payments to stockholders in connection with the Reverse Stock Split will be approximately \$5,472.12. In addition, the expenses incurred to effect the Transaction are estimated to be approximately \$77,000. The funds for the Transaction will come from the Company’s available funds.

Following the Transaction, the Company will have fewer than 300 stockholders of record. As a result, the Company will be eligible to, and intends to, terminate the registration of its Common Stock under Section 12(g) of the Exchange Act and suspend its reporting obligations under Section 15(d) of the Exchange Act, after which time the Company will no longer be subject to the periodic reporting requirements under the Exchange Act.

Under NRS 78.207, the Reverse Stock Split will be effectuated by filing a Certificate of Change with the Nevada Secretary of State, which the Company expects to file no earlier than the twentieth day following the mailing of the Disclosure Statement (as defined below) to stockholders. Nevada law does not require us to obtain any vote or consent of our stockholders to consummate the Reverse Stock Split. Accordingly, we are not seeking stockholder approval for the Reverse Stock Split, or the subsequent deregistration of our Common Stock or the suspension of our duty to file periodic reports and other information with the SEC. Under Nevada law, stockholders are not entitled to dissenter’s rights under NRS Chapter 92A or any other right of appraisal in connection with the Reverse Stock Split. The Reverse Stock Split will be conducted upon the terms and subject to the conditions set forth in the Company’s disclosure statement, which is attached as Exhibit A to this Schedule (the “Disclosure Statement”). The information contained in the Disclosure Statement, including all exhibits thereto, is hereby expressly incorporated herein by reference.

Capitalized terms used but not defined herein shall have the meanings given to them in the Disclosure Statement.

As used herein, “the Company,” “we,” “our” and “us” refers to NZCH Corporation, and the “Transaction” refers to the Reverse Stock Split and the related Cash Payment to the stockholders in lieu of the issuance of fractional shares of our Common Stock, as discussed above.

Exhibit A

Disclosure Statement

Dear NZCH Stockholder,

NZCH Corporation (formerly known as Zap.Com Corporation), a Nevada corporation (“NZCH,” the “Company,” “we,” “us” or “our”), and its majority stockholder, HRG Group, Inc. (“HRG”), intend to engage in a transaction that will reduce the number of record holders of our common stock, par value \$0.001 per share (the “Common Stock”), to fewer than 300, thereby enabling us to terminate the registration of (or “deregister”) our Common Stock under Section 12(g) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and suspend our duty to file periodic reports and other information with the Securities Exchange Commission (the “SEC”) thereunder. This will eliminate the significant expense required to comply with the reporting and related requirements under the Exchange Act. Often referred to as a “going private” transaction, the transaction (the “Transaction”) will consist of a reverse split of our outstanding shares of Common Stock pursuant to Nevada Revised Statutes (“NRS”) 78.207, whereby (i) each 500,000 shares of Common Stock outstanding as of the effective date of the reverse stock split will be combined into one whole share of Common Stock and (ii) the number of authorized shares of Common Stock will be simultaneously and correspondingly reduced (collectively, the “Reverse Stock Split”). In lieu of us issuing any fractional share to any stockholder who would otherwise be entitled to a fractional share of Common Stock after giving effect to the Reverse Stock Split, we will pay each such stockholder an amount in cash equal to \$0.02 multiplied by the number of pre-split shares held by such stockholder. After giving effect to the Reverse Stock Split, HRG, the beneficial owner of approximately 99.5% of the outstanding shares of our Common Stock, is expected to be the Company’s sole stockholder.

After careful consideration and in light of the fact that the Company does not have any operations or a business strategy, our Board of Directors (the “Board”) has concluded that the costs associated with being a public reporting company are not justified by the benefits. After the Transaction and the subsequent deregistration of our Common Stock and suspension of our duty to file periodic reports and other information with the SEC, we will no longer be subject to the reporting and related requirements under the Exchange Act and we will cease to file reports and information with the SEC, as more fully described in the accompanying Disclosure Statement. This will also most likely result in the termination of the quotation of our Common Stock on the Over-the-Counter Bulletin Board Quarterly Trade (see “Effects of the Transaction – Trading Market for our Common Stock” on page 9).

Our Board and HRG have reviewed the Transaction and have determined that the Transaction is in the best interests of the Company because the costs associated with being a public reporting company are not justified by the benefits and is substantively and procedurally fair to the stockholders of the Company, including stockholders who, as a result of the Transaction, will receive cash in lieu of a continuing equity interest in the Company. In connection with its review, our Board and HRG did not retain any financial advisors or receive any report, opinion or appraisal from an outside party as to the value of our Common Stock or the fairness of the Transaction to our stockholders. Following the completion of the Transaction, the Board expects to wind down the Company.

Under NRS 78.207, the Reverse Stock Split will be effectuated by filing a Certificate of Change with the Nevada Secretary of State, which the Company expects to file no earlier than the twentieth day following the mailing of the Disclosure Statement to stockholders. Nevada law does not require us to obtain any vote or consent of our stockholders to consummate the Reverse Stock Split. Accordingly, we are not seeking stockholder approval for the Reverse Stock Split, or the subsequent deregistration of our Common Stock or the suspension of our duty to file periodic reports and other information with the SEC. Under Nevada law, stockholders are not entitled to dissenter’s rights under NRS Chapter 92A or any other right of appraisal in connection with the Reverse Stock Split.

The accompanying Disclosure Statement contains details on the Transaction described in this letter, including important information concerning the Reverse Stock Split, the deregistration of our Common Stock, and the suspension of our duty to file periodic reports and other information with the SEC. We urge you to read the accompanying Disclosure Statement carefully and in its entirety.

Although our Board has approved the Reverse Stock Split and the subsequent deregistration of our Common Stock and suspension of our duty to file periodic reports and other information with the SEC, our Board reserves the right to abandon, postpone or modify the foregoing at any time before they are consummated for any reason.

By order of the Board of Directors of NZCH Corporation.

DISCLOSURE STATEMENT

NZCH Corporation

450 Park Avenue, 29th Floor

New York, New York 10022

NZCH Corporation (formerly known as Zap.Com Corporation), a Nevada corporation (the “Company”), and HRG Group, Inc., the Company's majority stockholder, are furnishing this disclosure statement (the “Disclosure Statement”) to the Company's stockholders pursuant to and in accordance with the requirements of Section 13(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and Rule 13e-3 promulgated thereunder, in connection with the Company's plan to effect a reverse stock split of our common stock, par value \$0.001 per share, with a view to reducing the number of record holders of the Company's common stock to fewer than 300 and subsequently terminating the registration of the Company's common stock under Section 12(g) of the Exchange Act and suspending the Company's duty to file periodic reports and other information with the Securities and Exchange Commission (the “SEC”) thereunder, after which the Company will no longer be subject to the public reporting obligations under federal securities laws, thereby “going private.”

SUMMARY TERM SHEET

The summary term sheet set forth below highlights selected information from this Disclosure Statement about the proposed Transaction. The summary term sheet may not contain all of the information that is important to you. For a more complete description of the Transaction, you should carefully read this Disclosure Statement and all of its Exhibits in their entirety. For your convenience, we have directed your attention to the location in this Disclosure Statement where you can find a more complete discussion of each item listed below.

As used in this Disclosure Statement, “NZCH”, the “Company,” “we,” “our” and “us” refers to NZCH Corporation, and the “Transaction” refers to the Reverse Stock Split (as defined below) together with the related cash payments to the stockholders in lieu of the issuance of fractional shares of our common stock, as discussed below.

The Transaction is considered a “going private” transaction as defined in Rule 13e-3 promulgated under the Exchange Act because it is intended to, and, if completed, will enable us to, terminate the registration of (or deregister) our common stock under Section 12(g) of the Exchange Act and suspend our duty to file periodic reports and other information with the SEC under Section 15(d) thereunder. In connection with the Transaction, we, together with HRG Group, Inc., the beneficial owner of approximately 99.5% of the outstanding shares of our common stock (“HRG”), have filed with the SEC a Rule 13e-3 Transaction Statement on Schedule 13E-3.

Reverse
Stock Split

We will effect a reverse split of our outstanding shares of common stock pursuant to Nevada Revised Statutes (“NRS”) 78.207, whereby (i) each 500,000 shares of Common Stock outstanding as of the effective date of the reverse stock split will be combined into one whole share of Common Stock and (ii) the number of authorized shares of Common Stock will be simultaneously and correspondingly reduced (collectively, the “Reverse Stock Split”). In lieu of issuing any fractional shares to any stockholder as a result of the Reverse Stock Split, the Company will make, to any stockholder that would otherwise hold a fractional share after giving effect to the Reverse Stock Split, a cash payment in an amount equal to \$0.02 per pre-split share (the “Cash Payment”). Accordingly, any stockholder owning fewer than 500,000 pre-split shares as of the effective date of the Reverse Stock Split (each, a “Discontinued Stockholder”), will no longer have an equity interest in the Company and will only be entitled to receive the Cash Payment multiplied by the number of pre-split shares owned by such stockholder.

Pursuant to the Reverse Stock Split and in accordance with NRS 78.207, the number of authorized shares of our common stock will be reduced from 1,500,000,000 shares to 3,000 shares. See “Special Factors—Material Terms” and “Special Factors—Structure of the Transaction” beginning on pages 5 and 11, respectively.

Purpose of
the
Transaction

The primary purpose of the Transaction is to reduce the number of record holders of our common stock to fewer than 300, thereby allowing us to “go private.” We would do so by filing a Form 15, Certificate of Termination of Registration with the SEC under the Exchange Act as soon as possible after the filing of the Certificate of Change with the Nevada Secretary of State (which the Company expects to file no earlier than the twentieth day following the mailing of the Disclosure Statement) so that we would no longer be required to file annual, quarterly or current reports, and we would not be required to comply with the SEC’s proxy rules. The Reverse Stock Split does not require stockholder approval, nor will stockholders have dissenter’s rights or other appraisal rights under Nevada law. After the Transaction, the Company will continue to be subject to and will comply with the requirements of Nevada law, including requirements with respect to stockholder meetings and notices. See “Special Factors—Purpose of the Transaction” and “Special Factors—Effects of the Transaction” beginning on pages 5 and 7, respectively.

Fairness of
the
Transaction

Our Board of Directors, on behalf of the Company, and HRG have reviewed the Transaction and have determined that the Transaction is in the best interests of the Company because it is substantively and procedurally fair to the unaffiliated stockholders of the Company, including unaffiliated Discontinued Stockholders who, as a result of the Transaction, will

receive cash in lieu of a continuing equity interest in the Company. In connection with their review, our Board of Directors and HRG did not retain any financial advisors or receive any report, opinion or appraisal from an outside party as to the value of our common stock or the fairness of the Transaction to our stockholders. See “Special Factors—Fairness of Transaction” beginning on page 9.

Effects of the Transaction

Following the completion of the Transaction, HRG is expected to be the Company’s sole stockholder. The Transaction will eliminate our ability to be traded on the Over-the-Counter Bulletin Board Quarterly Trade (the “OTCQB”). See “Special Factors—Effects of the Transaction” and “Company Information—Security Ownership of Certain Beneficial Owners and Management” beginning on pages 7 and 14, respectively.

Timing of the Transaction

The Company intends to effect the Transaction as soon as practicable after all filing requirements have been satisfied. The effective date of the Reverse Stock Split will be the date on which the Company files a Certificate of Change effecting the Reverse Stock Split with the Nevada Secretary of State, which is expected no earlier than the twentieth day following the mailing of the Disclosure Statement. See “Special Factors—Effects of the Transaction” beginning on page 7.

Continuing Stockholders

HRG is expected to be the only continuing stockholder upon completion of the Transaction.

Source of Funds

The total amount of funds necessary to make Cash Payments to stockholders in connection with the Transaction and for related expenses is estimated to be approximately \$82,000. The funds for the Transaction will come from our currently available cash. See “Other Matters Related to the Transaction— Source and Amount of Funds” beginning on page 13.

Tax Consequences

A stockholder who receives a cash payment for a fractional share of our common stock as a result of the Transaction and does not continue to hold our shares directly, or indirectly by virtue of being related to a person who continues to hold shares of our common stock directly, immediately after the Transaction, will recognize gain or loss, for U.S. federal income tax purposes, equal to the difference between the amount of cash received for the common stock and the stockholder’s aggregate adjusted tax basis in such stock. This gain or loss will be capital gain or loss for U.S. federal income tax purposes if the shares were held as a capital asset and will be long-term if the stockholder’s holding period in the shares is more than one year at the time of the Transaction. The specific U.S. federal income tax consequences to a stockholder will depend on the specific circumstances of such stockholder. See “Other Matters Related to the Transaction—Certain Material U.S. Federal Income Tax Consequences” beginning on page 12. You are urged to consult with your own tax advisor regarding the tax consequences of the Transaction in light of your own particular circumstances.

Payment and Exchange of Shares

Our transfer agent will send each Discontinued Stockholder the Cash Payment and a cover letter from the Company approximately ten (10) days after the effective

date of the Reverse Stock Split. See “Special Factors—Effects of the Transaction” beginning on page 7.

No Dissenter’s
or Appraisal
Rights

Nevada law does not require us to obtain any vote or consent of our stockholders to consummate the Reverse Stock Split. Accordingly, we are not seeking stockholder approval for the Reverse Stock Split, or the subsequent deregistration of our common stock or the suspension of our duty to file periodic reports and other information with the SEC. Under Nevada law, stockholders are not entitled to dissenter’s rights under NRS Chapter 92A or any other right of appraisal in connection with the Reverse Stock Split. See “Other Matters Related to the Transaction—No Dissenter’s or Appraisal Rights” and “Other Matters Related to the Transaction—No Stockholder Approval Required” beginning on page 12.

Stockholders
with Shares
Held in Street
Name

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in “street name” with respect to those shares, and this Disclosure Statement is being forwarded to you by your broker or other nominee. Your broker or other nominee is considered, with respect to those shares, the stockholder of record. Although the Transaction is designed to reduce the number of stockholders of record, we intend to provide Cash Payments to Discontinued Stockholders holding our common stock in street name in substantially the same manner as stockholders whose shares are registered in their names for purposes of the Transaction. However, banks, brokers or other nominees may have different procedures, and stockholders holding our common stock in street name should contact their bank, broker or nominee regarding the treatment of their shares.

Reservation

Our Board of Directors retains the right to abandon, postpone or modify the Transaction and the subsequent deregistration of our common stock under the Exchange Act and suspension of our duty to file periodic reports and other information with the SEC thereunder if it determines that it is not in the best interest of the Company and its stockholders. A number of factors or circumstances could cause our Board of Directors to abandon, postpone or modify the Transaction and such deregistration and suspension, including, without limitation, the following:

If, immediately prior to the Transaction, our Board of Directors does not believe that the Transaction will sufficiently reduce the number of record holders of our common stock to a level that reasonably assures us that the Company would not be required under the Exchange Act to revert to a public reporting company in the foreseeable future after the Transaction is completed, then our Board of Directors may elect to abandon, postpone or modify the Transaction.

Even if the aggregate Cash Payments to Discontinued Stockholders necessary to complete the Transaction are within the budgetary guideline set by our Board of Directors, our Board of Directors may elect to abandon, postpone or modify the Transaction if the then economic conditions or the financial condition of the Company, or their outlooks, be such that, in the judgment of our Board of Directors, it is no longer advisable to use the Company’s cash resources to effect the Transaction.

If the Company has insufficient cash necessary to complete the Transaction, then our Board of Directors may elect to abandon, postpone

or modify the Transaction.

If our Board of Directors determines that it is in the best interest of the Company and its stockholders for the Company to enter into any strategic transaction that may arise in the future, such as an asset or stock sale or a business combination transaction, then our Board of Directors may elect to abandon, postpone or modify the Transaction.

If for any other reason our Board of Directors determines that the Transaction is no longer in the best interest of the Company and its stockholders, then our Board of Directors may elect to abandon, postpone or modify the Transaction.

See “Special Factors—Reservation” beginning on page 11.

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

This Disclosure Statement contains certain statements that are “forward-looking statements.” Those statements may include statements regarding the intent, belief or current expectations of the Company or its officers with respect to: (i) the Company’s strategic plans and ability to complete and benefit from the Transaction; (ii) the expenses associated with the Transaction and the subsequent deregistration of our common stock under the Exchange Act and suspension of our duty to file periodic reports and other information with the SEC thereunder; (iii) the number of stockholders following the Reverse Stock Split; and (iv) the Company’s financial condition, results of operations, capital resources and business prospects following the Transaction. These forward-looking statements are based on a number of assumptions and currently available information, and are subject to a variety of risks and uncertainties. Although the Company believes that the assumptions on which the forward-looking statements contained herein are based are reasonable, any of those assumptions could prove to be inaccurate given the inherent uncertainties as to the occurrence or nonoccurrence of future events. There is no assurance that the forward-looking statements contained in this Disclosure Statement will prove to be accurate. The inclusion of a forward-looking statement herein should not be regarded as a representation by the Company that its objectives will be achieved.

SPECIAL FACTORS

Material Terms

Our Board of Directors has authorized the Reverse Stock Split, including the corresponding decrease in the number of authorized shares of our common stock, in order to reduce the number of record holders of our common stock to fewer than 300. As a result of the Reverse Stock Split, Discontinued Stockholders (i.e., those holding fewer than 500,000 pre-split shares as of the effective date of the Reverse Stock Split) will have no further interest in the Company, will no longer be stockholders of the Company and will become entitled to receive only the Cash Payment of \$0.02 multiplied by the number of pre-split shares owned by them. HRG is expected to be the sole stockholder of the Company after the Reverse Stock Split. All fractional shares resulting from the Reverse Stock Split, to the extent deemed acquired by the Company in the Transaction, will be deemed to have been cancelled and returned to the status of authorized but unissued shares.

In lieu of issuing any fractional shares otherwise issuable to Discontinued Stockholders as a result of the Reverse Stock Split, we will make the Cash Payment of \$0.02 per pre-split share to such stockholders.

Purpose of the Transaction

The purpose of the Transaction is to reduce the number of record holders of our common stock to fewer than 300, thereby enabling us to deregister our common stock under the Exchange Act and suspend our duty to file periodic reports and other information with the SEC thereunder. This will enable us to terminate the Company’s status as a public reporting company with the SEC and reduce the financial and administrative costs incurred with respect to such status.

In determining whether the number of our stockholders of record falls below 300 as a result of the Reverse Stock Split, we must count stockholders of record in accordance with Rule 12g5-1 under the Exchange Act. Rule 12g5-1 provides, with certain exceptions, that in determining whether issuers, including the Company, are subject to the registration provisions of the Exchange Act, securities are considered to be “held of record” by each person who is identified as the owner of such securities on the respective records of security holders maintained by or on behalf of the issuers.

As a result of the Reverse Stock Split, we anticipate that the number of shares of our common stock issued and outstanding will be reduced from 49,773,606 (the number outstanding as of December 22, 2017) to approximately 99. HRG is the only stockholder of the Company that owns more than 500,000 shares, and therefore it is anticipated that: (i) the total number of record holders of our common stock will be reduced from approximately 1,006 to one and (ii) the total number of holders holding our common stock in street name will be reduced from approximately 3,857 to zero.

Pursuant to NRS 78.207, the Company can consummate the Reverse Stock Split without the need to obtain stockholder approval, and pursuant to the Reverse Stock Split, the number of authorized shares of our common stock will be decreased correspondingly from 1,500,000,000 to 3,000.

We estimate that the total cash to be paid to Discontinued Stockholders will be approximately \$5,472.12. In addition, the expenses incurred

5

to effect the Transaction are estimated to be \$77,000. These costs and expenses are expected to be paid out of our currently available cash.

Following the Reverse Stock Split, we intend to file with the SEC a Form 15 to deregister our common stock. Upon the filing of the Form 15, our obligation to file periodic reports under the Exchange Act will be immediately suspended. Deregistration of our common stock will be effective 90 days after filing of the Form 15. Upon deregistration of our common stock, our obligation to comply with the requirements of the proxy rules and to file proxy statements under Section 14 of the Exchange Act will also be terminated. We will not be required to file periodic reports with the SEC in the future unless we subsequently file another registration statement under the Securities Act or again have record holders of our common stock which exceed the limits under the Exchange Act on the first day of a subsequent fiscal year.

Background of the Transaction

The Company was formed in 1998 as a subsidiary of Zapata Corporation (now known as HRG Group, Inc.) and was spun off by its parent to its parent's stockholders in 1999. We have been a public reporting company since November 30, 1999 when our common stock was first quoted on the predecessor market to the OTCQB. The Company initially expected to create and operate a global network of internet websites, and as a public reporting company, expected to be able to leverage our public company equity to raise capital and pursue acquisitions to help grow our business and expand our operations. However, the Company never derived significant revenue from its activities and in December 2000, the Company's then-serving board of directors concluded that the Company's operations were not likely to be profitable in the foreseeable future and ceased its business operations. In recent years, we have been unable to raise significant capital or complete acquisitions, have not had any business operations and have derived only minimal benefits from being a public reporting company. The relatively low trading volume of our common stock and our low market capitalization have reduced the traditional liquidity benefits of being a public reporting company to our stockholders. Additionally, our common stock has failed to attract significant interest from institutional investors or market analysts, which could have created a more active and liquid market for our common stock. Our Board of Directors does not presently intend to raise capital through sales of our securities in a public offering or acquire other businesses or entities using our securities as consideration.

As a result of the foregoing, we are not likely to make use of the advantages for raising capital, effecting acquisitions or other purposes that our status as a public reporting company may offer. Based on our past history, the Company's management, our Board of Directors and HRG have, from time to time, evaluated: (i) the advantages and disadvantages of being a public reporting company, including the costs with respect to filing reports and other information with the SEC, complying with certain of the rules and regulations under the Sarbanes-Oxley Act of 2002, and complying with applicable corporate governance requirements, and (ii) transactions which may present alternatives to us being a public reporting company.

In light of the minimal benefits the Company enjoys from its public company reporting status and the significant financial and administrative costs associated with such status, our Board of Directors and HRG have, from time to time, during the past few months considered alternatives to NZCH being a public reporting company, including the deregistration of our common stock under the Exchange Act and the suspension of our duty to file periodic reports with the SEC thereunder.

Reasons for the Transaction

Although we have been a public reporting company since November 30, 1999, we have not conducted meaningful business activities since 2000 and believe we have derived only minimal benefits from being a public reporting company. Benefits of being a public reporting company ("Public Company Benefits") typically include:

- access to the public markets for liquidity purposes for our stockholders;
- access to the public markets for purposes of raising capital through the sale of securities; and
- the ability to make acquisitions using securities as consideration.

Our common stock has failed to attract significant interest from institutional investors or market analysts. This has resulted in a relatively low trading volume and market capitalization, which has limited the liquidity benefit to our stockholders. In addition, the legal requirements of public reporting companies create large administrative and financial costs for us. As a

small company with limited managerial resources and no source of revenue, we believe that these financial resources and this time could more effectively be devoted to other purposes.

Our Board of Directors and HRG believe that consummating a “going private” transaction is a necessary step to reduce corporate overhead costs by eliminating the costs associated with being a public reporting company, including with respect to filing reports with the SEC, complying with certain of the rules and regulations under the Sarbanes-Oxley Act of 2002, and complying with applicable corporate governance requirements. Furthermore, our Board of Directors and HRG have determined that the costs of being a public reporting company currently outweigh the Public Company Benefits and, thus, that it is no longer in the best interests of the Company or its stockholders, including unaffiliated stockholders, for the Company to remain a public reporting company, for the reasons described below. The primary purpose of the Transaction is to reduce the number of record holders of our common stock to fewer than 300 to enable us to elect to deregister our common stock under the Exchange Act and suspend our duty to file periodic reports and other information with the SEC thereunder. The Board of Directors and HRG believe that the Transaction provides the most certainty for the Company to achieve this purpose.

Exchange Act Reporting Costs. The Company incurs significant direct and indirect costs in complying with its periodic reporting and other obligations under the Exchange Act (collectively, the “Public Company Costs”), including the legal, accounting, printing, mailing, public relations, compliance and administrative costs of preparing, reviewing, filing, printing and distributing the reports and other filings required under the Exchange Act; the broker and transfer agent charges for forwarding materials to beneficial holders of our common stock; management’s time and attention expended in preparing and reviewing such reports and other filings; and the substantially higher premiums for directors’ and officers’ insurance policies payable by public reporting companies. The Company’s direct, out-of-pocket costs comprising the Public Company Costs have been approximately \$125,000 per year.

Liquidity for Stockholders. Our Board of Directors believes that holders of our common stock may be deterred from selling their shares because of the lack of an active trading market and because of disproportionately high brokerage costs compounded with the current trading price of our common stock. The trading volume in our common stock has been, and continues to be, limited. Our common stock does not trade every day. Our Board of Directors believes that the Transaction would give stockholders who are cashed out an opportunity to receive a fair price in cash for their shares without having to pay disproportionately high brokerage commissions.

Lack of Capital from Public Markets. In addition to the Public Company Costs, the Company is not able to, and does not presently intend to exploit, many of the Public Company Benefits. The current trading price of our common stock would make using it as a vehicle to raise capital or to provide acquisition consideration extremely dilutive to our stockholders. As a result, the Company is not receiving any of the traditional Public Company Benefits, yet, the Public Company Costs continue to increase, substantially depleting the limited resources of the Company. Our Board of Directors believes that the Public Company Costs, if continued, would be detrimental to the financial condition of the Company.

Other Public Company Benefits which exist for the benefit of public stockholders include: (i) the rights and protections afforded stockholders by the federal securities laws; (ii) the substantive requirements of the federal securities laws, which are imposed on public companies; and (iii) limitations and reporting requirements imposed on officers and directors of public companies, including restrictions on short-swing trading and the reporting obligations of officers and directors. These benefits were not considered to outweigh the Public Company Costs due to the small size of the Company, its limited staffing and the lack of a liquid trading market for our common stock. Accordingly, our Board of Directors and HRG have determined that the Public Company Costs, currently and in the foreseeable future, will continue to outweigh the Public Company Benefits and, thus, it is no longer in the best interests of the Company or its stockholders, including its unaffiliated stockholders, for the Company to remain a public reporting company.

Effects of the Transaction

Effects of the Transaction on Our Stockholders. Based on information available to us, we estimate that the Transaction will reduce the total number of record holders of our common stock from approximately 1,006 to one. HRG is expected to be the sole stockholder of the Company after the completion of the Transaction. The reduction in the number of our record stockholders below 300 will enable us to deregister our common stock under the Exchange Act and suspend our duty to file periodic reports and other information with the SEC thereunder, which will substantially

reduce the information required to be furnished by us to the public.

7

We intend to deregister our common stock and suspend our duty to file periodic reports and other information as soon as practicable following the filing of the Certificate of Change with the Nevada Secretary of State. See “Special Factors—Purpose of the Transaction.” However, our Board of Directors reserves the right, in its discretion, to abandon, postpone or modify the Transaction prior to the effective date of the Reverse Stock Split if it determines that doing so is in our best interests and the best interests of our stockholders. See “Special Factors—Reservation” beginning on page 11.

When the Transaction is consummated, stockholders owning fewer than 500,000 pre-split shares will no longer have any equity interest in the Company. Such stockholders owning fewer than 500,000 pre-split shares will, following the Transaction, have their pre-split shares cancelled and converted into the right to receive the Cash Payment.

Approximately ten days following the filing of the Certificate of Change with the Nevada Secretary of State (which the Company expects to file no earlier than the twentieth day following the mailing of the Disclosure Statement), our transfer agent will deliver the Cash Payment, along with a cover letter from the Company, to Discontinued Stockholders at the addresses set forth in the books and records of the Paying Agent.

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in “street name” with respect to those shares. Your broker or other nominee is considered, with respect to those shares, the stockholder of record. Although the Transaction is designed to reduce the number of stockholders of record, we intend to provide Cash Payments to Discontinued Stockholders holding our common stock in street name through a broker or other nominee in the same manner as stockholders whose shares are registered in their names for purposes of the Transaction. Nominees will be instructed to effect the Transaction for their beneficial owners. However, nominees may have different administrative procedures with respect to how they communicate with beneficial owners, and stockholders owning shares in street name should contact their nominee(s).

HRG, the beneficial owner of approximately 99.5% of the shares our outstanding common stock, is expected to be the Company’s sole stockholder after the completion of the Transaction. Following the completion of the Transaction, the Board of Directors expects to wind down the Company.

Effects of the Transaction on Our Affiliates. None of our officers or directors own shares of our common stock, nor do they own any options or other equity awards in which our common stock is the underlying security. Therefore, none of our officers or directors will be eligible for the Cash Payment. Additionally, following the completion of the Transaction, our officers, directors and HRG, the only stockholder owning at least 10% of our common stock, will no longer be subject to the reporting requirements of Section 16 of the Exchange Act or be subject to the short-swing profit recapture provisions thereunder. Following the Transaction, HRG is expected to be the Company’s sole stockholder.

Potential Disadvantages of the Transaction to Stockholders. While we believe that the Transaction will result in the benefits described above, several disadvantages should also be noted:

the Transaction will require Discontinued Stockholders to involuntarily surrender their shares in exchange for cash, rather than choosing their own time and price for disposing of their shares of our common stock;

after the Transaction, we will deregister our common stock under the Exchange Act and suspend our duty to file periodic reports and other information with the SEC thereunder and, therefore, we will no longer be subject to the reporting requirements under the Exchange Act, such as periodic filings of financial statements and proxy or information statement disclosures in connection with stockholder meetings;

we will no longer report our quarterly or annual results of operations or activities in reports filed with the SEC under the Exchange Act;

the reporting and short-swing profit recapture provisions of Section 16 of the Exchange Act will no longer apply to our executive officers, directors and HRG;

the financial statements may be less comprehensive than the financial statements we are required to maintain and report as a public reporting company; and

Discontinued Stockholders will, after giving effect to the Transaction, no longer have any equity interest in the Company.

Financial Effects of the Transaction. Completion of the Transaction will require us to spend approximately \$77,000 which includes legal, financial and other fees and costs related to the Transaction. This estimate does not include the cost of the aggregate cash payment to Discontinued Stockholders, which we estimate will be approximately \$5,472.12. These costs will be offset by the costs we would otherwise incur as a public reporting company to comply with SEC reporting requirements, which we estimate to be approximately \$125,000 per year.

Trading Market for Our Common Stock. Currently, our common stock is quoted on the OTCQB tier of the OTC Markets under the symbol “ZPCM.” The OTC Markets is a listing service, formerly known as the Pink Sheets, that offers financial and other information about issuers of securities, and collects and publishes quotes of market makers for over-the-counter securities. Following the Reverse Stock Split, our common stock will no longer be quoted on the OTCQB.

Fairness of the Transaction

Our Board of Directors, on behalf of the Company, and HRG have fully reviewed and considered the terms, purpose, alternatives and effects of the Transaction and have determined, on behalf of the Company in the case of NZCH, that the Transaction is in the best interests of the Company and is substantively and procedurally fair to the affiliated and unaffiliated stockholders of the Company, including our unaffiliated Discontinued Stockholders who will be cashed out as a result of the Transaction. After studying the Transaction and its anticipated effects on our stockholders (including the Discontinued Stockholders), our Board of Directors unanimously approved the Transaction and deemed it substantively and procedurally fair to all of the Company's affiliated and unaffiliated stockholders and to the Company. In addition, HRG has determined that the Transaction and its anticipated effects on unaffiliated stockholders is substantively and procedurally fair to unaffiliated stockholders.

Fairness of the Substance of the Transaction. In determining the fairness of the Transaction, our Board of Directors and HRG considered the factors discussed below, in addition to the alternative transactions discussed in “Special Factors—Background of the Transaction.” In light of these factors, our Board of Directors and HRG believe that the Transaction is substantively fair to the Company's unaffiliated stockholders, including our unaffiliated Discontinued Stockholders who will be cashed out as a result of the Transaction. Our Board of Directors and HRG did not assign specific weight to the factors set forth below in a formulaic fashion. Because our common stock has not been traded since April 2017 and only traded sporadically before then, our Board of Directors and HRG did not consider whether the Cash Payment constitutes fair value in relation to current market prices or historical market prices. In addition, in light of the fact that the Company has not conducted business operations since December 2000, the Board of Directors and HRG did not calculate a going concern value for the shares of common stock to determine the fairness of the Cash Payment. However, our Board of Directors and HRG did place special emphasis on the fact that the Company has extremely limited assets, does not have any operations or a business plan and the significant cost and time savings expected to be realized from the deregistration of our common stock under the Exchange Act and the suspension of our duty to file periodic reports and other information with the SEC thereunder.

Significant Cost and Time Savings. By deregistering our common stock and suspending our duty to file periodic reports with the SEC, we expect to realize recurring annual cost savings of approximately \$125,000, which represents our Public Company Costs and includes savings from personnel expense relating to the time spent by our management to prepare and review our reports required to be filed with the SEC under the Exchange Act. In addition, our Board of Directors and HRG have determined that the Public Company Costs, currently and in the foreseeable future, will continue to outweigh the Public Company Benefits and, thus, it is no longer in the best interests of the Company or its stockholders, including its unaffiliated stockholders, for the Company to remain a public reporting company. See the “Special Factors—Purpose of the Transaction,” “Special Factors—Reasons for the Transaction” and “Other Matters Related to the Transaction—Potential Conflicts of Interest.”

Opportunity to Liquidate Common Stock . Another factor considered by our Board of Directors and HRG in determining the fairness of the Transaction to holders of our common stock is the opportunity the Company's stockholders have to liquidate their Company holdings. Any stockholder holding fewer than 500,000 shares of our common stock at the effective time of the Reverse Stock Split will receive, in lieu of receiving a fractional post-split share of our common stock, the Cash Payment without paying any brokerage fees or commissions. Our Board of Directors and HRG did not quantify the consideration of any such applicable brokerage fees and commissions since such fees, if any, vary significantly depending upon the method used to acquire or dispose of shares. See “Special Factors—Reasons for the Transaction” and “Special Factors—Structure of the Transaction.”

Assets per Share. Our Board of Directors and HRG considered the fact that the Company had total assets of approximately \$758,794 as of September 30, 2017, or approximately \$0.015 per share. Given the extremely limited assets of the Company, the Board of Directors and HRG determined that the Cash Payment was a fair price for the shares of our common stock being cashed out in the Transaction.

Liquidity of Our Common Stock. Our Board of Directors and HRG considered the lack of an active trading market for our common stock, the lack of any market analyst coverage of the Company and our inability to access the public capital markets as

some of the indications that our stockholders are not receiving the typical Public Company Benefits. Specifically, our Board of Directors and HRG considered that our common stock has not been traded since April 19, 2017. Our Board of Directors and HRG determined that the lack of liquidity of our common stock was an additional indication of fairness to the Discontinued Stockholders. See “Special Factors—Reasons for the Transaction” beginning on page 6. Minimum Effect on Voting Power. The Transaction will have a minimum effect on the voting power of the Company’s stockholders. The shares of our common stock are the only voting shares of the Company and will continue to be the only voting shares after the Transaction. The voting and other rights of our common stock will not be affected by the Transaction. The only effect of the Transaction on the Company’s voting power will be a slight change in the overall ownership percentage of HRG following the Transaction. HRG is already the Company’s majority stockholder. Our Board of Directors and HRG also considered the following possible disadvantages of effecting the Transaction: Termination of Publicly Available Information About the Company. After deregistration of our common stock and suspension of our duty to file periodic reports and other information with the SEC, information regarding the Company (including financial results) that is currently available to the general public and our stockholders will no longer be readily available. Our Board of Directors and HRG believe that the overall benefits to the Company of no longer being a public reporting company substantially outweigh the disadvantages associated with a lack of publicly available information about the Company. See “Special Factors—Effects of the Transaction—Potential Disadvantages of the Transaction to Stockholders” beginning on page 8.

The Company Will No Longer Have the Potential Benefits Normally Associated with Public Reporting Company Status. Another potential disadvantage of the Transaction is that we will no longer have the Public Company Benefits, such as better access to the capital markets for issuances of securities. We would still have access to capital markets, but if we were to conduct a public offering of our securities, we would have to again become a reporting company, and the expenses that we are seeking to eliminate would then be reinstated. Our Board of Directors and HRG believe that the cost savings from ceasing to be a public reporting company outweigh the drawbacks of losing more ready access to the capital markets.

Although potentially relevant to a determination of fairness of the Transaction, the factors listed below, for the reasons given, were determined by our Board of Directors and HRG to not be applicable to the Company and were not considered or were not given any weight by our Board of Directors and HRG.

No Firm Offers. We have not received during the last two years any firm, unconditional offers for a merger or consolidation with or into another company, or vice versa, or a purchase of our securities by another person that would involve a change in our control on terms satisfactory to the Company.

Purchase Price Paid for Repurchases of Our Common Stock. Other than as described elsewhere herein, we have not previously repurchased shares of our common stock and, therefore, our Board of Directors could not consider any such repurchases as the basis for fairness.

Our Board of Directors and HRG believe that all of the factors mentioned above, both favorable and unfavorable, when viewed together, support a conclusion that the Transaction is substantively fair to all of the Company stockholders, including the unaffiliated Discontinued Stockholders who will be cashed out as a result of the Transaction. Our Board of Directors set the Cash Payment at \$0.02 based on the factors described above and, in particular, the extremely limited assets of the Company.

Procedural Fairness of the Transaction. In addition to the fairness of the substance of the Transaction, our Board of Directors and HRG believe that the process by which decisions were made regarding the Transaction is fair to the Company’s unaffiliated stockholders, including the Discontinued Stockholders who will be cashed out as a result of the Transaction.

The Transaction was approved by a majority of our Board of Directors. All members of our Board of Directors are employees of the Company and our majority stockholder, HRG. Therefore, no special committee composed of the independent directors appraised, evaluated or negotiated the Transaction, nor did the Board of Directors or HRG retain an unaffiliated representative to act solely on behalf of unaffiliated security holders for any purposes.

The Company and HRG did not receive a report, opinion or appraisal from an outside party as to the value of our common stock or the fairness of the Transaction to unaffiliated Discontinued Stockholders who will be cashed out as a result of the Transaction or HRG.

Neither NZCH nor HRG has granted unaffiliated stockholders access to their corporate files, except as required by applicable law, nor have they extended the right to retain counsel or appraisal services at NZCH’s or

HRG's expense. With respect to unaffiliated stockholders' access to corporate files, NZCH and HRG believe that this Disclosure Statement, together with their

10

other filings with the SEC, provide adequate information for unaffiliated stockholders. In deciding not to adopt these additional procedures, NZCH and HRG also took into account factors such as NZCH's size, financial capacity and the costs of such procedures.

Structure of the Transaction

The Transaction consists of a Reverse Stock Split with a cash payment in lieu of receipt of a fractional share by stockholders. The Reverse Stock Split is expected to occur no earlier than the twentieth day following the mailing of the Disclosure Statement to stockholders when the Company files a Certificate of Change with the Nevada Secretary of State. On the effective date of the Reverse Stock Split each stockholder of record will receive one share of common stock for every 500,000 pre-split shares held in his or her account as of such date. Any stockholder of record who holds fewer than 500,000 pre-split shares in his or her account at the time of the Reverse Stock Split will receive a Cash Payment of \$0.02 per pre-split share and will no longer be a stockholder of the Company after the Transaction. HRG is expected to be the Company's sole stockholder upon completion of the Transaction.

We intend to provide Cash Payments to Discontinued Stockholders holding our common stock in street name through a nominee (such as a bank or broker) in the same manner as stockholders whose shares are held of record in their own names, and nominees will be instructed to effect the Transaction for their beneficial holders. However, nominees may have different procedures and stockholders holding shares in street name should contact their nominees.

In general, the Transaction can be illustrated by the following examples:

Example 1. A stockholder holds one share of our common stock in his account before the effective date of the Reverse Stock Split. Instead of receiving a fractional share of our common stock immediately after the Reverse Stock Split, the stockholder will have only the right to receive the Cash Payment due to such stockholder. The stockholder would receive \$0.02 ($\0.02×1 share).

Example 2. A stockholder holds 10 shares of our common stock in street name in a brokerage account as of the effective date of the Reverse Stock Split. We intend to provide Cash Payments to Discontinued Stockholders holding our common stock in street name through a nominee (such as a bank or broker) in the same manner as stockholders whose shares are registered in their names. Nominees will be instructed to effect the Transaction for their beneficial holders. If this occurs, the stockholder holding 10 pre-split shares of our common stock in street name will receive, through the stockholder's broker, a cash payment in the amount of \$0.20 ($\0.02×10). However, nominees may have a different procedure and stockholders holding shares of our common stock in street name should contact their nominee(s).

Example 3. HRG owns 49,500,000 shares of our common stock as of the effective date of the Reverse Stock Split. HRG will own 99 shares of common stock after giving effect to the Reverse Stock Split.

Reservation

Although our Board of Directors has approved the Transaction and subsequent termination of registration of our common stock under the Exchange Act and suspension of our duty to file periodic reports and other information with the SEC thereunder, our Board of Directors reserves the right to abandon, postpone or modify the Transaction and such termination and suspension at any time before they are consummated for any reason. A number of factors or circumstances could cause our Board of Directors to abandon, postpone or modify the Transaction and such deregistration and suspension, including, without limitation, the following:

If, immediately prior to the Transaction, our Board of Directors does not believe that the Transaction will sufficiently reduce the number of record holders of our common stock to a level that reasonably assures us that the Company would not be required under the Exchange Act to revert to a public reporting company in the foreseeable future after the Transaction is completed, then our Board of Directors may elect to abandon, postpone or modify the Transaction. Even if the aggregate cash payments to Discontinued Stockholders necessary to complete the Transaction are within the budgetary guideline set by our Board of Directors, our Board of Directors may elect to abandon, postpone or modify the Transaction if the then economic conditions or the financial condition of the Company, or their outlook, be such that, in the judgment of our Board of Directors, it is no longer advisable to use the Company's cash resources to effect the Transaction.

If the Company has insufficient cash necessary to complete the Transaction, then our Board of Directors may elect to abandon, postpone or modify the Transaction.

If our Board of Directors determines that it is in the best interest of the Company and its stockholders for the Company to enter into a strategic transaction with an interested party, then our Board of Directors may elect to abandon, postpone or modify the Transaction.

If for any other reason, our Board of Directors determines that the Transaction is no longer in the best interest of the Company and its stockholders, then our Board of Directors may elect to abandon, postpone or modify the Transaction. If our Board of Directors decides to abandon, postpone or modify the Transaction, the Company will notify the stockholders of such decision promptly in accordance with applicable rules and regulations.

OTHER MATTERS RELATED TO THE TRANSACTION

Potential Conflicts of Interest

Our directors, executive officers and our majority stockholder, HRG, may have interests in the Transaction that are different from other unaffiliated stockholders' interests, and have relationships that may present conflicts of interest. As of December 22, 2017, approximately 99.5% of the issued and outstanding shares of common stock were held by HRG. By deregistering our common stock under the Exchange Act and suspending our duty to file periodic reports with the SEC thereunder, subsequent to the consummation of the Transaction, HRG will no longer be subject to Section 16 or Section 13 of the Exchange Act with respect to reporting requirements and short swing-profits recapture provisions.

The Public Company Costs have been approximately \$125,000 per year. Upon the completion of the Transaction, the Company will become a wholly owned subsidiary of HRG and will no longer be a public reporting company. Accordingly, HRG will become the direct beneficiary of the costs savings which will be realized. In addition, HRG has historically consolidated the controlling interest of NZCH. Following the Transaction, HRG will consolidate 100% of its interest in NZCH. Given that HRG owns all but 0.5% of the interest of NZCH, the completion of the Transaction will have no material effect on HRG's interest in the net book value and net earnings of NZCH. In addition, as previously disclosed, NZCH and HRG are party to an Amended and Restated Tax Sharing and Indemnity Agreement. Pursuant to such agreement, HRG is already the beneficiary of NZCH's net operating loss carryforwards. In the event that NZCH is liquidated or dissolved following the completion of the Transaction, HRG would retain any remaining historical NZCH net operating loss carryforwards.

No Stockholder Approval Required

The Reverse Stock Split has been approved by our Board of Directors, and no vote of the Company's stockholders is required to effectuate the Reverse Stock Split. Pursuant to NRS 78.207, a corporation that wants to increase or decrease the number of authorized shares of stock, and correspondingly increase or decrease the number of issued and outstanding shares of stock held by each stockholder, may do so by resolution of the board of directors without stockholder approval so long as: (i) stockholders who would be fully cashed out in the transaction and would otherwise be entitled to receive only fractional shares, collectively hold less than 10% of the shares outstanding immediately before the transaction, and (ii) the increase or decrease in any class or series of stock does not adversely affect any preference or other right of any other class or series of stock. The Company anticipates that the Discontinued Stockholders, who will no longer be stockholders of the Company after the Reverse Stock Split, will collectively own in the aggregate less than 10% of our common stock outstanding before the Reverse Stock Split. Further, our common stock is the only class of stock of the Company that is outstanding. Therefore, NRS 78.207 authorizes the Company to consummate the Reverse Stock Split without a vote of the stockholders.

No Dissenter's or Appraisal Rights

The Reverse Stock Split will be effectuated pursuant to NRS 78.207. NRS 78.207 provides that dissenter's rights under NRS Chapter 92A are only available if the terms of a reverse stock split effectuated pursuant to that statutory provision includes provisions pursuant to which only money will be paid or scrip will be issued to stockholders who (i) before the increase or decrease in the number of shares becomes effective, hold 1% or more of the outstanding shares of the affected class or series; and (ii) would otherwise be entitled to receive a fraction of a share in exchange for the cancellation of all of their outstanding shares. The Company anticipates that the Discontinued Stockholders, who will no longer be stockholders of the Company after the Reverse Stock Split and will receive the Cash Payment in lieu of a post-split fractional share, will collectively own in the aggregate less than 1% of our common stock

outstanding before the Reverse Stock Split. Therefore, NRS 78.207 does not provide any dissenter's rights to the Company's stockholders in connection with the Reverse Stock Split. Further, the provisions of NRS Chapter 92A do not provide any dissenter's rights or rights of appraisal to the Company's stockholders in connection with the Reverse Stock Split.

Certain Material U.S. Federal Income Tax Consequences

Summarized below are certain material U.S. federal income tax consequences to us and our stockholders resulting from the Transaction. This summary is based upon U.S. federal income tax law, as currently in effect, which is subject to

differing interpretations or change, possibly on a retroactive basis. This summary addresses only those stockholders who have held their shares as capital assets, as defined in the Internal Revenue Code of 1986, as amended (the “Code”). This summary is not an exhaustive discussion of all U.S. federal income taxation considerations that may be important to stockholders in light of their individual circumstances. In addition, this summary does not discuss any state, local, foreign, or other tax considerations. This summary assumes that each stockholder is a United States citizen. It does not address stockholders subject to special rules, such as financial institutions, real estate investment trusts, regulated investment companies, tax-exempt organizations, insurance companies, partnerships, dealers in securities, traders who elect to use the mark-to-market method of accounting, mutual funds, qualified retirement plans, individual retirement accounts, shareholders who are not U.S. persons for U.S. federal income tax purposes, stockholders who hold their shares as part of a straddle, hedge or conversion transaction, or shareholders who are subject to the alternative minimum tax provisions of the Code. Each stockholder is urged to consult his, her or its tax advisor as to the particular federal, state, local, foreign, and other tax consequences, in light of their specific circumstances.

Tax Consequences to the Company. We believe that the Transaction will be treated as a tax-free “recapitalization” pursuant to Section 368(a)(1)(E) of the Code for federal income tax purposes and, accordingly, it should not result in any material federal income tax consequences to us. We will not apply for any ruling from the Internal Revenue Service, nor will we receive an opinion of counsel with respect to the tax consequences of the Transaction.

Tax Consequences to Stockholders Whose Entire Interest in our Common Stock, Both Directly and Indirectly, is Terminated. A stockholder who receives a cash payment for a fractional share of our common stock as a result of the Transaction and does not continue to hold our shares directly, or indirectly by virtue of being related to a person who continues to hold shares of our common stock directly, immediately after the Transaction, will recognize gain or loss, for U.S. federal income tax purposes, equal to the difference between the amount of cash received for the common stock and the stockholder’s aggregate adjusted tax basis in such stock. This gain or loss will be capital gain or loss for U.S. federal income tax purposes if the shares were held as a capital asset and will be long-term if the stockholder’s holding period in the shares is more than one year at the time of the Transaction.

The foregoing discussion summarizing certain federal income tax consequences does not refer to the particular facts and circumstances of any specific stockholder. We urge stockholders to consult their own tax advisors for more specific and definitive advice as to the federal income tax consequences to them of the Transaction, as well as advice as to the application and effect of state, local and foreign income and other tax laws.

Source and Amount of Funds

Based on estimates of the record ownership of our common stock, the number of shares of our common stock outstanding and other information as of December 22, 2017, and assuming that approximately 273,606 pre-split shares of our common stock are cancelled in the Reverse Stock Split, the Company estimates that the total funds required to consummate the Transaction will be approximately \$82,000. Approximately \$5,472.12 of this amount will be used to pay the consideration to stockholders entitled to receive cash for their fractional shares in the Reverse Stock Split and approximately \$77,000 will be used to pay the costs of the Transaction, estimated as follows:

SEC Filing Fees	\$ 0.68
Legal & Accounting Fees	\$ 40,000
Printing and Mailing Costs	\$ 11,700
Transfer and Exchange Agent fees	\$ 25,000

Final costs of the Transaction may be more or less than the estimates shown above. The Company expects to pay the costs of the Transaction, including the amounts to be paid to stockholders holding fewer than 500,000 shares of our common stock, out of currently available cash.

COMPANY INFORMATION

The Company

The Company was incorporated in Nevada in 1998 for the purpose of creating and operating a global network of independently owned websites. During Fiscal 2016, the Company sold its domain names, including the zap.com domain

name. Our principal executive offices are located at 450 Park Avenue, 29th Floor, New York, New York 10022. The Company's telephone number is (212) 906-8555.

HRG, our principal stockholder, owns approximately 99.5% of our outstanding common stock. Information with respect to the directors and executive officers of HRG can be found in HRG's Annual Report on Form 10-K for the fiscal year ended September 30, 2017, filed with the SEC on November 20, 2017. The Company's only related party transactions are its service relationship with HRG and a registration rights agreement. Since its inception, NZCH has utilized the services of HRG's management and staff under a shared services agreement that allocated these costs on a percentage of time basis. HRG has waived its rights under the shared services agreement to be reimbursed for these expenses through December 31, 2016. For Fiscal 2016 and 2015, approximately \$35,262 and \$34,469, respectively, was recorded as contributed capital for these services.

Currently, we have no business operations, other than complying with our reporting requirements under the Exchange Act. While its possible that we may search for assets or businesses to acquire so that we may in the future become an operating company, we expect, although there can be no assurance, that we will wind down our business, liquidate our operations and/or dissolve the Company.

We have broad discretion in selecting a business strategy for the Company and there can be no assurance that we will be successful in implementing such a strategy. If we elect to pursue a business combination, we have broad discretion in identifying and selecting both the industries and the possible acquisition or business combination opportunities. We have not identified a specific industry to focus on and have no present plans, proposals, arrangements or understandings with respect to a business combination or acquisition.

Company Securities

As of December 22, 2017, there were: (i) 1,500,000,000 shares of our common stock and 150,000,000 shares of our preferred stock authorized, of which 49,773,606 shares of our common stock and no shares of our preferred stock were issued and outstanding; and (ii) approximately 1,006 record owners of our common stock. The Company and HRG have not made an underwritten public offering of the Company's common stock in the last three years.

On December 21, 2017, NZCH repurchased 230,905 shares of common stock from HRG at a purchase price of \$0.01 per share for an aggregate purchase price of \$2,309.05. In addition, HRG purchased 528,365 shares of common stock on October 25, 2016 at a purchase price of \$0.015 per share. HRG also purchased 230,282 shares of common stock on December 22, 2016 at a purchase price of \$0.015 per share.
