Item 1.01 Entry into a Material Definitive Agreement.

On August 4, 2006, the Company issued secured fixed rate bonds in the aggregate principal amount of U.S.\$15,771,997.15 to Scotiabank and Merchant Bank Trinidad and Tobago Limited (Scotiabank) in exchange for U.S.\$15 million in cash. Scotiabank intends to sell the bonds or participation interests therein solely to non-U.S. persons (as such term is defined in Regulation S promulgated under the Securities Act of 1933). The Company will use the net proceeds from the issuance of the bonds to repay a short-term bank line of credit in the amount of approximately \$4 million and to assist the Company in other capital expenditure projects.

The bonds have a fixed interest rate of 5.95% and the principal and accrued interest on the bonds is payable quarterly from the closing date in 40 equal amortized installments. The Company has the right to redeem the bonds in full at any time three years after August 4, 2006 by paying a premium of 1.5% of the outstanding principal and accrued interest on the bonds on the date of redemption.

The Company's obligations under the bonds are secured by fixed and floating charges (i) on all of the Company's assets, including an equitable charge of all of the shares of Cayman Water Company Limited, a wholly-owned subsidiary of the Company, and (ii) on all of Cayman Water Company Limited's assets including its real estate. Cayman Water Company Limited has also guaranteed the Company's payment obligations under the bonds. All these charges rank *pari passu* (equally) with earlier charges granted to Scotiabank & Trust (Cayman) Ltd to secure financial facilities to the Company.

The trust deed for the bonds restricts the Company's ability to enter into new borrowing agreements or any new guarantees without the prior approval of the trustee and limits the Company's capital expenditures, with the exception of capital expenditures to be incurred on certain defined projects, to \$2,000,000 annually. The trust deed also contains financial covenants that require the Company to maintain a debt service coverage ratio of not less than 1.25 to 1, a ratio of long term debt to EBITDA (i.e., earnings before interest, taxes, depreciation and amortization for the 12 months preceding the ratio calculation) not greater than 2.5 to 1 and a ratio of long term debt to equity of not less than 60:40.

The foregoing description of the bond transaction does not purport to be complete and is qualified in its entirety by reference to the documents (the Documents) attached hereto as Exhibits, which are incorporated herein by reference. The Documents are provided to give investors information regarding the Documents' respective terms. They are not provided to give investors factual information about the Company or any other parties thereto. In addition, the representations, warranties and covenants contained in the Documents were made only for purposes of those Documents and as of specific dates, were solely for the benefit of the parties to those Documents, and may be subject to limitations agreed by the contracting parties, including being qualified by disclosures exchanged between the parties in connection with the execution of the Documents. The representations and warranties may have been made for the purposes of allocating contractual risk between the parties to the Documents instead of establishing these matters as facts, and may be subject to standards of materiality applicable to the contracting parties that differ from those applicable to investors. Investors are not third-party beneficiaries under these Documents and should not view the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or conditions of the Company.
