The Company's Board of Directors selected the persons named as proxies in the enclosed proxy.

If you wish to attend the meeting and need directions to 3310 West End Avenue, Suite 700, Nashville, Tennessee, please contact the Company at (615) 269-8175.

The close of business on March 13, 2008 has been fixed as the record date for the determination of shareholders entitled to vote at the meeting. As of the close of business on such date, the Company had 150,000,000 authorized shares of common stock, \$.01 par value (the Common Stock), of which 50,732,642 shares were outstanding and entitled to vote. The Common Stock is the Company's only outstanding class of voting stock.

Each share of Common Stock will have one vote on each matter to be voted upon at the meeting.

ELECTION OF DIRECTORS

The Board of Directors is divided into three classes having three-year terms that expire in successive years. The current three-year term of the Class 3 directors expires at the 2008 annual meeting. The Board of Directors proposes that the nominees described below, all of whom have been nominated by the Board of Directors upon the recommendation of the Company's Corporate Governance Committee and are currently serving as Class 3 directors, be re-elected to Class 3 to serve until the annual meeting of shareholders in 2011 or until their successors have been elected and take office. Each nominee has consented to be a candidate and to serve, if elected.

According to Maryland law, directors are elected by a plurality of the votes cast by the shares entitled to vote in the election at a meeting at which a quorum is present. The Company's Articles of Incorporation do not provide for cumulative voting and, accordingly, each shareholder may cast one vote per share of Common Stock for each nominee.

Unless a proxy specifies otherwise, the persons named in the proxy will vote the shares covered thereby for the nominees designated by the Board of Directors listed below. Should any nominee become unavailable for election, shares covered by a proxy will be voted for a substitute nominee selected by the Board of Directors upon the recommendation of the Corporate Governance Committee of the Board.

The Company pays for each director's expenses incurred to attend accredited director education programs. Three directors attended ISS-accredited programs in 2007. All but one director attended an ISS-accredited program in the past three years.

Security Holder Communication with the Board of Directors

Shareholders and other parties interested in communicating directly with the Board of Directors or an individual director may do so by writing to Healthcare Realty Trust Incorporated, 3310 West End Avenue, Suite 700, Nashville, Tennessee 37203, Attention: Secretary. Directors may at any time review a log of all correspondence received by the Company that is addressed to members of the Board and request copies of any such correspondence.

Independence of Directors

The Board of Directors has adopted a set of Corporate Governance Principles (the Principles), addressing, among other things, standards for evaluating the independence of the Company's directors. The full text of the Principles can be found in the Corporate Governance section of the Company's website (www.healthcarerealty.com). A copy may also be obtained upon request from the Company's Secretary.

Pursuant to the Principles, the Board undertook its annual review of director independence in January 2008. During this review, the Board considered transactions and relationships during the prior year between each director or any member of his or her immediate family and the Company and its subsidiaries, affiliates and equity investors. The Board also examined transactions and relationships between directors or their affiliates and members of the senior management or their affiliates. As provided in the Principles, the purpose of this review was to determine whether any such relationship or transaction was inconsistent with a determination that a director is independent.

To aid in making its annual review of director independence, the Board has adopted categorical standards for determining independence. A director is independent unless:

The director is or has been an employee of the Company within the past three years or has an immediate family member that is or has been an executive officer of the Company within the past three years;

Edgar Filing: HEALTHCARE REALTY TRUST INC - Form DEF 14A

The director, or his or her immediate family member, has received more than \$100,000 per year within any of the past three years in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service);

(A) The director, or his or her immediate family member, is a current partner of a firm that is the Company's internal or external auditor; (B) the director is a current employee of such firm; (C) the director has an immediate family member who is a current employee of such firm and who participates in the firm's audit,

Table of Contents

assurance or tax compliance (but not tax planning) practice; or (D) the director, or his or her immediate family member, was within the last three years (but is no longer) a partner or employee of such firm and personally worked on the Company's audit within that time;

The director, or his or her immediate family member, has been employed as an executive officer of another company where any of the Company's present executives served on that company's compensation committee within the past three years;

The director is a current employee, or has an immediate family member that is an executive officer, of a company that makes payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million, or 2% of such company's consolidated gross revenues within the past three years; or

The director has any other material relationship with the Company, either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company.

As a result of this review, the Board affirmatively determined that all of the directors are independent of the Company and its management under the standards adopted pursuant to the Principles with the exception of David R. Emery, who is employed by the Company as its Chief Executive Officer and is therefore not independent.

Director Nominee Evaluation Process

The Corporate Governance Committee is responsible for developing and implementing policies and practices relating to corporate governance. As part of its duties, the Committee develops and reviews background information on candidates for the Board and makes recommendations to the Board regarding such candidates. The Committee also prepares and supervises the Board's annual review of director independence and the Board's performance self-evaluation. A copy of the Corporate Governance Committee's charter can be found in the Corporate Governance section of the Company's website (www.healthcarerealty.com).

Once the Corporate Governance Committee has identified a prospective nominee, the Committee reviews the information provided to the Committee with the recommendation of the prospective candidate, as well as the Committee's own knowledge of the prospective candidate, which may be supplemented by inquiries to the person making the recommendation or others. The preliminary determination is based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described below. The Committee then evaluates the prospective nominee against the following standards and qualifications:

The ability of the prospective nominee to represent the interests of the shareholders of the Company;

The prospective nominee's standards of integrity, commitment and independence of thought and judgment;

Whether the prospective nominee would meet the Company's criteria for independence as required by the New York Stock Exchange;

The prospective nominee's ability to dedicate sufficient time, energy and attention to the diligent performance of his or her duties, including the prospective nominee's service on other public company boards, as specifically set out in the Company's Corporate Governance Principles; and

The extent to which the prospective nominee contributes to the range of talent, skill and expertise appropriate for the Board.

The Committee also considers such other relevant factors as it deems appropriate, including the current composition of the Board, the need for Audit Committee expertise and the evaluations of other prospective nominees. In connection with this evaluation, the Committee determines whether to interview the prospective nominee, and if warranted, one or more members of the Committee, and others as appropriate, interview prospective nominees in person or by telephone. After completing this evaluation and interview, the Committee makes a recommendation to the full Board as to the persons who should be nominated by the Board, and the Board determines after considering the recommendation and report of the Committee.

A description of all relationships, arrangements, and understandings between the shareholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the shareholder;

The written consent of each nominee to serve as a director of the Company if so elected, with such written consent attached thereto.

The Bylaws of the Company provide that any shareholder who is entitled to vote for the election of directors at a meeting called for such purpose may nominate persons for election to the Board of Directors subject to the following notice requirements. COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee, which is composed entirely of non-employee, independent directors, administers the Company's executive compensation programs. In performing its duties, the Compensation Committee:

Reviews and implements the Compensation Committee charter and reports to the Board.

Annually discusses and approves corporate goals and objectives relevant to the compensation of the Company's executive officers and key employees.

Establishes a general compensation policy and approves salaries paid to the Chief Executive Officer and the other executive officers named in the Summary Compensation Table (the "Named Executive Officers") and fees paid to directors. The Named Executive Officers are the Company's only executive officers.

Administers the Company's incentive plans, bonus plans and employee stock purchase plans.

Determines, subject to the provisions of the Company's plans, the directors, officers and employees of the Company eligible to participate in each of the plans, the extent of such participation and the terms and conditions under which benefits may be vested, received or exercised.

Gives consideration to the development and succession of the Company's executive officers and considers potential successors to the Company's Chief Executive Officer.

Comprehensive Compensation Policy

The Company's principal measures of corporate success are growth in funds from operations ("FFO") and funds available for distribution ("FAD") and reducing the percentage of FFO and FAD used to pay dividends. The Compensation Committee believes that a number of performance criteria factor into these measures, including:

occupancy rates of the Company's real estate properties;

net operating income improvement from period to period of the Company's managed real estate portfolio;

asset management; and

performance of new investments.

The Company's long-term incentive compensation program is designed to link compensation to the Company's overall performance in the above criteria. Since inception, the Company has used restricted stock grants as the primary means of delivering long-term incentive compensation to its officers. Officers share in the Company's success through increasing stock ownership. The Company does not utilize stock options or similar rights in the compensation of its management group (the only Company stock options outstanding are in connection with employee elections to purchase under the Company's 2000 Employee Stock Purchase Plan). The program does not consider individual performance in setting compensation, although the Compensation Committee could choose to reward outstanding individual performances. Awards under the Company's incentive plans have reflected the Company's evolving status into an operating entity with greater emphasis on managing and replacing a maturing portfolio by providing incentives to all of its officers who will direct their individual and collective efforts toward insuring the continued distribution of dividends to shareholders.

The Compensation Committee believes that the compensation of the Company's officers, including the Named Executive Officers, should provide a competitive level (but less than top of the market) of total compensation necessary to attract and retain talented and experienced officers, and motivate them to contribute to the Company's success. To date, the Compensation Committee believes that this approach has been successful in retaining officers.

The Company's compensation program for its executive officers consists of three key elements:

Short-term compensation consisting of annual base salaries competitive with that paid to officers in comparable positions at comparable real estate companies;

Table of Contents

Long-term equity-based compensation in the form of restricted stock or other such awards based on the Company's performance and elective deferral of cash compensation; and

Certain perquisites designed to improve the performance of the Named Executive Officers.

The Compensation Committee believes that there are no material differences in the compensation policies and decisions relating to the compensation of the Named Executive Officers, except for Mr. Emery's participation in the Company's Executive Retirement Plan, in which the other Named Executive Officers are not participants. The Executive Retirement Plan is discussed in greater detail on page 26 of this Proxy Statement. The Executive Retirement Plan was established early in the Company's existence for the benefit of the founding officers. The Compensation Committee believes that this distinction is appropriate given the founder status of Mr. Emery.

Compensation Methodology

Compensation Committee's Governance. The Compensation Committee approves salaries and makes other compensation decisions for the Company's Named Executive Officers and its directors. Salaries and other compensation decisions for all other officers and employees are made by management within the parameters of the Company's compensation policies and plans.

The Compensation Committee meets four times a year in conjunction with the quarterly meetings of the full Board of Directors and more often if necessary. Prior to each regular meeting, members of the Company's management send materials to each of the Compensation Committee members, including minutes of the previous meeting, an agenda and recommendations for the upcoming meeting, and other materials relevant to the agenda items. During 2007, the Company's Chief Executive Officer, Chief Financial Officer, General Counsel, and outside legal counsel also attended the Compensation Committee meetings. These officers provide information and discuss performance measures with the Compensation Committee relating to officer compensation. After every quarterly meeting, the Compensation Committee holds an executive session consisting only of the committee members and frequently holds executive sessions with the Chief Executive Officer.

In 2006, management began a practice of using comprehensive executive compensation worksheets (commonly referred to as tally sheets) that set forth the Company's total compensation obligations to its Named Executive Officers under various scenarios. The tally sheets for each Named Executive Officer are distributed to the members of the Compensation Committee for discussion and are used in the preparation of the compensation tables in this Proxy Statement. The overall purpose of these tally sheets is to bring together, in one place, all of the elements of actual and potential future compensation of the Named Executive Officers, including information about wealth accumulation.

In its most recent review of the tally sheets, the Compensation Committee determined that annual compensation amounts for the Named Executive Officers remained consistent with the Compensation Committee's expectations, taking into account the scheduled market-based and cost-of-living adjustments to annual base compensation, as further discussed below.

The Compensation Committee reviews and approves, in advance, employment, severance or similar arrangements or payments to be made to any Named Executive Officer. The Compensation Committee annually reviews all of the perquisites paid to the Named Executive Officers, as well as their compliance with the Company's policies regarding perquisites.

Compensation Consultant. The Compensation Committee retains Ernst & Young LLP, Atlanta, Georgia (Ernst & Young) as a compensation consultant, who advises it regarding market trends and practices in executive compensation

and with respect to specific compensation decisions. The consultant also provides, at the Compensation Committee's request, a market survey containing data on the levels of compensation at comparable real estate companies. The consultant may also attend Compensation Committee meetings at the Committee's request. Ernst & Young participated by telephone in one of the Compensation Committee's six meetings in 2007. In May, 2006, the Compensation Committee engaged Ernst & Young to provide the following consulting services:

A review of the competitiveness of the compensation amounts currently offered by the Company to its officers, including an examination of base salary, annual and long-term incentives.

Table of Contents

A review of the financial efficiency and alignment to business strategy of the Company's executive compensation programs, including an examination of the Company's dilution profile (shares reserved for issuance, annual share usage, etc.) versus peers and executive beneficial ownership versus peers.

To make observations regarding the potential alignment of the Company's executive compensation practices with the Company's overall business strategy and the evolving executive compensation landscape.

During 2007, Ernst & Young provided the Compensation Committee with an overview of compensation trends in the industry. Ernst & Young also reviewed draft forms of the Long-Term Incentive Program on behalf of the Compensation Committee prior to the adoption of the program.

When making compensation decisions, the Compensation Committee reviews the compensation of executive officers of other companies considered to be peer companies, a practice often referred to as benchmarking. The 2006 Ernst & Young study was the first comprehensive market study of Named Executive Officer compensation performed for the Company since 2003. In performing its services, Ernst & Young interacted collaboratively with the Compensation Committee and the Company's Executive Officers. Ernst & Young performed its services as follows:

It collected data from management regarding the Company's organizational structure, position descriptions, compensation arrangements for the key employees, and analyzed retirement plan documents and financial/operating data.

It constructed a custom peer group of 17 publicly-traded real estate companies. These companies were believed by management and the Compensation Committee to be comparable to the Company in terms of industry focus, revenue size, historical and projected growth and/or performance and market capitalization, among other factors. The 17 companies in the 2006 peer group were:

Arden Realty, Inc.	Health Care REIT, Inc.
BRE Properties, Inc.	Highwoods Properties, Inc.
Camden Property Trust	LTC Properties, Inc.
CarrAmerica Realty Corporation	Mack Cali Realty Corporation
CenterPoint Properties Trust	Nationwide Health Properties, Inc.
Colonial Properties Trust	Omega Healthcare Investors, Inc.
Cousins Properties Incorporated	Shurgard Storage Centers, Inc.
First Industrial Realty Trust, Inc.	Ventas, Inc.
Health Care Property Investors, Inc.	

It reviewed each of the peer group companies' executive compensation programs, practices and amounts, including competitive levels of total direct compensation (base salary plus annual incentives plus long-term incentives) for the Named Executive Officers and competitive levels of shares reserved for executive compensation plans, annual share usage, beneficial ownership and type of equity programs employed.

It conducted a published survey analysis of competitive compensation levels for the Named Executive Officer positions, using data gathered from its published survey library.

It concluded that the Company's compensation of its named executive officers generally trailed the median compensation levels of the peer group and reported its findings and observations to the Compensation Committee.

The Compensation Committee's policy is to meet annually with the compensation consultant to discuss executive compensation trends. Historically, Ernst & Young has also provided services related to the compensation of the Company's Board of Directors, but it did not provide such services during 2007.

Ernst & Young received total compensation of \$6,150 for its services in 2007.

Components of Compensation

Annual Base Compensation. Annual base compensation is determined by a market-based formula based upon the total cash compensation (including bonuses) paid by comparable companies for similar positions. The

Table of Contents

Compensation Committee reviewed the Ernst & Young market compensation salary survey performed in 2006 as described above and found that annual cash compensation paid to the Named Executive Officers has been substantially less than cash compensation paid for similar positions within the peer group of companies surveyed.

In December 2006, based on the findings of Ernst & Young, the Compensation Committee determined annual base compensation for its Named Executive Officers for 2007 equal to the median (50th percentile) total cash compensation (including annual incentive bonuses) of comparable positions in the Ernst & Young peer group survey, and added a tenure adjustment to the median amount based on the officer's length of service. The tenure adjustment is calculated as 1/20th of the difference between the median total cash compensation and the 75th percentile total cash compensation for the position for each year of the officer's service to the Company. The Compensation Committee used the Ernst & Young 2006 peer group survey as a benchmark for annual base compensation for the Named Executive Officers for 2007 and 2008 and intends to do the same in 2009. Of the increase in annual base compensation for 2007 over 2006, twenty-five percent was paid to each Named Executive Officer in cash and seventy-five percent was paid in the form of a restricted stock grant having an eight-year vesting period. These restricted stock grants, in lieu of cash, allowed the Company to amortize the restricted stock value in accordance with accounting principles generally accepted in the United States versus recording the full amount to compensation expense in 2007.

In addition to the tenure-based salary adjustment discussed in the preceding paragraph, for 2008, annual base compensation for the Named Executive Officers has increased over the 2007 amounts by a 3% cost of living adjustment. Fifty percent of the difference between the annual base compensation for 2008, as compared with annual base compensation for 2006, will be paid in the form of a restricted stock grant and the remaining fifty percent of the difference will be paid in cash. For 2009, annual base compensation for the Named Executive Officers is expected to increase over the 2008 amounts by a cost of living adjustment. Twenty-five percent of the difference between the annual base compensation for 2009, as compared with annual base compensation for 2006, will be paid in the form of a restricted stock grant and the remaining seventy-five percent of the difference will be paid in cash. It is expected that the peer group survey will be performed again in 2009, the median and 75th percentile comparables will be re-calculated and each officer's base compensation for 2010 will be adjusted based on the new information using the same methodology. For 2008, the base compensation of the Company's Named Executive Officers have been set as follows:

Named Executive Officer	Cash	2008 Base Compensation		Total
		# of Shares of Restricted Stock	\$ Value of Restricted Stock(1)	
David R. Emery <i>Chairman of the Board and Chief Executive Officer</i>	\$ 809,426	10,897	\$ 276,675	\$ 1,086,101
Scott W. Holmes <i>Executive Vice President and Chief Financial Officer</i>	\$ 472,330	5,357	\$ 136,014	\$ 608,344
John M. Bryant, Jr. <i>Executive Vice President and General Counsel</i>	\$ 393,465	4,582	\$ 116,337	\$ 509,802
B. Douglas Whitman, II <i>Executive Vice President and Chief Operating Officer</i>	\$ 350,109	4,073	\$ 103,413	\$ 453,522

(1)

Based on the market closing price of the Company's common stock on December 31, 2007 of \$25.39. These shares of restricted stock are subject to an eight-year vesting period.

While the Compensation Committee recognizes that determining base salaries based solely on market competitiveness data does not directly tie this component to the achievement of the Company's overall measures of business success, it believes that having a cash compensation system which is completely market driven reduces the acrimony and politicization of the compensation process. The Company's officer group is small enough that they should be totally focused on the Company's performance. Officers who are not so focused are mentored or, if necessary, terminated. Moreover, the Compensation Committee views cash compensation as one element of overall compensation and not necessarily as the principal instrument to provide incentive to the officers.

Table of Contents

Bonuses. While the Company has not typically awarded cash bonuses to Named Executive Officers, it may do so at its discretion. The Compensation Committee believes that annual cash bonuses may not provide effective incentives to employees to further the Company's long-term goals. As a result, the Company included bonus levels in peer companies in its base salary formula.

Stock Ownership. The Compensation Committee believes that it is in the Company's best interest to encourage all employees, especially the Named Executive Officers, to increase their equity position in the Company to promote share ownership and further align officer and shareholder interests. The Company, however, does not have any policies requiring minimum stock ownership of its Named Executive Officers or directors.

Awards under the Company's incentive plans have reflected the Company's evolving status into an operating entity with greater emphasis on managing and replacing a maturing portfolio by providing incentives to all of its officers who will direct their individual and collective efforts toward insuring the continued successful delivery of dividends to shareholders. The Compensation Committee also believes that by increasing and broadening the officers' ownership stake in the Company, future awards under its incentive plans should be an effective tool in retaining this broader group of officers. The Compensation Committee periodically reviews the Company's stock plans and retains the authority to make changes to those plans as deemed necessary. During 2007, the Company had three stock programs whereby its officers might be granted restricted shares of stock. The Company's Long-Term Incentive Program, adopted on December 10, 2007, is comprised of two distinct features: the Salary Deferral Plan and the Performance Award Program. A third program, the Optional Restricted Stock Vesting Deferral Plan (the "Optional Deferral Plan"), allows an officer to further defer receipt of restricted shares awarded under the Salary Deferral Plan, the Performance Award Program, or any predecessor plans.

Salary Deferral Plan. Under the Salary Deferral Plan, officers may elect to defer up to 40% of their base salary in the form of restricted shares of stock. The number of shares can be increased by a multiple of the deferred amount depending on the length of the vesting period selected by the officer. This program is designed to provide the Company's officers with an incentive to remain with the Company long-term.

Performance Award Program. The Long-Term Incentive Program was adopted under the 2007 Employees Stock Incentive Plan (the "2007 Incentive Plan") and provides the Compensation Committee a framework for providing certain incentive grants under the 2007 Incentive Plan. Pursuant to the performance award provisions of the Long-Term Incentive Program, all officers, including the Named Executive Officers, can receive restricted shares of stock based upon an analysis of the Company's performance under a set of criteria. The Company designates an amount each year to a memorandum account for each officer equal to 25% of the officer's base salary, as defined in the 2007 Incentive Plan, for the current year. Restricted shares are issued from the available balance in the memorandum account based on the performance of the Company. If the Compensation Committee determines that the Company has not sufficiently performed against the measurement criteria, no shares are granted to the employees and the memorandum account balance continues to build up until when, or if, such performance measures are met. The Compensation Committee may grant performance awards in excess of the memorandum account when exceptional performance is demonstrated. No awards have been granted from the memorandum account balances since 2004.

The measurement criteria does not include the setting of performance targets in advance. Rather, the criteria provides a set of guidelines through which the Compensation Committee uses its discretion to review the performance of the Company and the efforts of the Named Executive Officers in past periods. The Compensation Committee believes that this system allows it the benefit of taking into account all relevant information, including market forces and events outside the control of the Named Executive Officers.

Awards may be granted to each officer upon the Compensation Committee's determination and in its discretion and are subject to such vesting periods and requirements as the Compensation Committee determines. Management of the

Company may annually propose performance awards under the Long-Term Incentive Program to the Compensation Committee.

If management proposes performance awards under the Long-Term Incentive Program, the proposal is required to include: the aggregate size and amount of the awards; a schedule of officers that are proposed to participate and the allocation of awards by officer; and an analysis of the Company's performance for the previous

Table of Contents

year. The measurement of the Company's performance is based on performance for the twelve month period ended September 30 and must include an analysis of the following criteria:

Portfolio performance, which must include an evaluation of occupancy, net operating income (NOI) improvement and asset management;

Investment performance, which must include an evaluation of the portfolio suitability, accretive effect and long-term attributes of investments;

Cash flow performance, which must include an evaluation of the Company's FAD, FFO, FAD per share, FFO per share and cash flow from operations; and

Affordability, which must include an evaluation of the effects of the proposed awards on future earnings.

FFO, FAD and NOI are non-GAAP measures used by the Company as supplemental measures of performance because they provide an understanding of the operating performance of the Company's properties without giving effect to certain significant non-cash items, primarily depreciation and amortization expense.

FFO represents net income (computed in accordance with generally accepted accounting principles), excluding net gains (or losses) on sales of real estate, plus real estate depreciation and amortization.

FAD represents net income (computed in accordance with generally accepted accounting principles), excluding net gains (or losses) on sales of real estate, plus total non-cash items included in cash flows from operating activities.

NOI is used to evaluate the operating performance of the Company's properties. The Company defines NOI as total revenues, including tenant reimbursements and discontinued operations, less property operating expenses, which exclude depreciation and amortization, general and administrative expenses, impairments and interest expense.

In determining whether to grant performance awards under the Long-Term Incentive Program, the Compensation Committee will consider management's proposals and analysis and any and all other information that the Committee deems relevant to its determination. The Compensation Committee has the sole discretion to accept, reject or modify management's proposed awards. The Compensation Committee also has the discretion to designate an aggregate amount of awards for a group of officers other than the Named Executive Officers, to be allocated to individual officers at the discretion of the Chief Executive Officer.

As of January 31, 2008, no performance awards had been granted under the Long-Term Incentive Program. The aggregate balances of the memorandum accounts totaled \$3,697,556 at December 31, 2007, of which \$1,326,845 was attributable to the Named Executive Officers. The Company's previous long-term incentive plan was superseded by the Long-Term Incentive Program. The memorandum account balances that existed in the previous plan were credited to the officers' memorandum accounts under the Long-Term Incentive Program, which is included in the memorandum account balances at December 31, 2007 described above.

Optional Deferral Plan. Under the Optional Deferral Plan, certain officers approved by the Compensation Committee may elect to extend the vesting period of certain restricted shares prior to the original vesting date. This incentive, which helps secure the officer's allegiance to the Company, is also provided because the vesting period subjects the shares and the restriction multiple to the risk of forfeiture in the event an officer voluntarily terminates employment or who is terminated for cause from employment with the Company. Accordingly, if an officer voluntarily leaves or is

terminated for cause, that officer would lose all such shares that had not yet vested.

In addition to the three stock programs mentioned above, all employees meeting minimum service requirements, including the Company's officers, are eligible to purchase shares pursuant to the Company's 2000 Employee Stock Purchase Plan (the Purchase Plan). As further discussed under the heading "Grants of Plan-Based Awards" in the section entitled "EXECUTIVE COMPENSATION" beginning on page 23 of this Proxy Statement, each participant is granted an option on January 1 of each year to purchase up to \$25,000 of the Company's Common Stock under the Purchase Plan.

Table of Contents

Termination and Change-in-Control Arrangements

Under the terms of the Company's compensation plans and its employment agreements with the Named Executive Officers, the Named Executive Officers are entitled to payments and benefits upon the occurrence of specified events including termination of employment and upon a change-in-control of the Company. The specific terms of these arrangements are discussed in this Proxy Statement beginning on page 27 under the heading "Termination and Change in Control Arrangements with Named Executive Officers" under the section entitled "POST-EMPLOYMENT COMPENSATION". In the case of the employment agreements, the terms of these arrangements were agreed to after the course of arms-length negotiations with each Named Executive Officer. In considering the aggregate potential obligations of the Company in the context of the desirability to maintain the employment of these individuals, the Compensation Committee believes that these arrangements are appropriate under the Company's current circumstances.

Perquisites

The Compensation Committee's policy on the provision of executive perquisites with respect to the Named Executive Officers is to allow each of them to receive perquisites up to an amount equal to 10% of their annual base compensation. If the executive receives benefits that would otherwise be considered perquisites in excess of this amount (generally calculated based on the associated tax value), he is required to reimburse the Company the amount of such excess.

The Company provides its executive officers with perquisites that it believes are reasonable, competitive and consistent with the Company's overall executive compensation program. The Company believes that such perquisites help the Company to retain its executive personnel and allows them to operate more effectively. These perquisites include:

Use of the Company's aircraft for personal travel. The Compensation Committee believes that allowing the Company's Named Executive Officers to use Company aircraft for personal travel provides the officers with significant convenience, safety, and security at a relatively low incremental cost to the Company.

Supplemental life and disability insurance. The Company also offers to its Named Executive Officers an opportunity to purchase supplemental term life insurance and supplemental disability insurance at the Company's expense, subject to cost reimbursement pursuant to the perquisite policy discussed above.

Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation over \$1 million paid to a corporation's chief executive officer and the four other most highly compensated executive officers. Qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met. Restricted stock issued under the 1993 and 2003 Employees Restricted Stock Incentive Plan and 2007 Incentive Plan and associated dividends are not subject to the performance-based compensation deduction under Section 162(m). Consequently, compensation expense in the amount of \$5,608,063 in 2007 was not deductible. As a qualifying REIT, the Company does not pay federal income tax; therefore, the unavailability of the Section 162(m) compensation deduction to these amounts did not result in any increase in the Company's federal income tax obligations. The Compensation Committee has not adopted a policy requiring all compensation to be deductible.

Retirement Benefits

The Company has an Executive Retirement Plan under which certain officers designated by the Compensation Committee may receive a specified percentage of the officer's final average earnings. See the section entitled POST-EMPLOYMENT COMPENSATION beginning on page 26 of this Proxy Statement for details of the Executive Retirement Plan.

All Named Executive Officers are eligible to participate in the Company's 401(k) plan, pursuant to which each participant may contribute up to the annual maximum allowed under IRS regulations (\$15,500 for 2007 and 2008). All eligible participants over the age of 50 may also contribute an additional \$5,000 per year to the plan. The

Table of Contents

Company provides a matching contribution for the first three percent of base salary contributed in the plan, up to a maximum of \$2,800 per year per person.

Compensation of Non-Employee Directors

Compensation of non-employee directors is set by the Compensation Committee, based upon periodic peer reviews prepared by the Company, the findings of which are confirmed by Ernst & Young LLP and approved by the Committee.

Cash Compensation. Each non-employee director receives an annual retainer and meeting fee, respectively, with chairpersons of Committees receiving additional annual retainers. See the section entitled **DIRECTOR COMPENSATION** beginning on page 30 of this Proxy Statement for a complete discussion of the cash compensation given to non-employee directors.

Stock Awards. The Company awards non-employee directors an annual grant of 2,000 restricted shares of Company Common Stock. See the section entitled **DIRECTOR COMPENSATION** beginning on page 30 of this Proxy Statement for a complete discussion of the terms of the restricted shares granted to non-employee directors.

Retirement. The Company has a retirement plan for outside directors under which eligible directors may receive upon normal retirement an annual payment for a period equal to the number of years of service as a director but not exceeding 15 years. Grants of Plan-Based Awards

The Company has one plan under which performance-based awards may be made to its officers. All of the Company's officers, including the Named Executive Officers, are eligible to receive performance-based compensation under the 2007 Incentive Plan, under which shares of Common Stock can be issued based upon the Company's performance. The 2007 Incentive Plan is comprised of two distinct programs, the Salary Deferral Plan and the Long-Term Incentive Program both of which are discussed beginning on page 16 of this Proxy Statement. The 2007 Incentive Plan superseded the 2003 Plan. However, the memorandum account balances under the 2003 Plan were carried forward to the 2007 Incentive Plan.

The following table supplements the Summary Compensation Table by providing more detailed disclosure of equity compensation received by the Named Executive Officers during 2007 and the total memorandum account balances as of December 31, 2007.

(a) Determined in accordance with the restriction multiples described below.

- (4) Represents stock options granted during 2007 pursuant to the Purchase Plan.
- (5) Based on the closing price of \$39.54 share of the Company's Common Stock on the New York Stock Exchange on December 31, 2006. If exercised, the option price will be the lesser of 85% of the grant price or 85% of the market closing price on the date of exercise.
- (6) Retired effective March 1, 2007.

Pursuant to the Salary Deferral Plan, officers may elect to defer receipt of cash up to 40% of their base salary in the form of shares of restricted stock. The officer must elect his or her participation level and vesting period for the coming year by the end of the current fiscal year. The restricted shares, granted on January 1 of each year, are priced on the closing market price of the Company's Common Stock on the last trading day of the year preceding the year in which the shares are issued. Pursuant to the Salary Deferral Plan, the number of shares can be increased by a multiple of the deferred amount depending on the length of the vesting period selected by the officer. Each officer who makes this election will be awarded additional shares at no additional cost to the officer according to the following multiple-based formula:

Duration of Restriction Period	Restriction Multiple
3 years	1.3
5 years	1.5
8 years	2.0

This program is designed to provide the Company's officers with an incentive to remain with the Company long-term. The vesting period subjects the shares obtained by the cash deferral and the restriction multiple to the risk of forfeiture in the event an officer voluntarily terminates employment or who is terminated for cause from employment with the

Company. Accordingly, if an officer voluntarily leaves or is terminated for cause, that officer would lose all such shares that had not yet vested.

Certain officers approved by the Compensation Committee are eligible to receive non-performance equity awards under the Company's Optional Deferral Plan. Under the Optional Deferral Plan certain officers may elect to extend the vesting period of certain restricted shares prior to their original vesting date. An officer who elects to extend the vesting date of his shares will receive additional shares at no additional cost to the officer according to the following multiple-based formula:

Duration of Extended Period	Extension Multiple
3 years	1.3
5 years	1.5
8 years	2.0

This incentive, which helps secure the officer's allegiance to the Company, is also provided because the vesting period subjects the shares and the restriction multiple to the risk of forfeiture in the event an officer voluntarily terminates employment or who is terminated for cause from employment with the Company. Accordingly, if an officer voluntarily leaves or is terminated for cause, that officer would lose all such shares that had not yet vested.

Table of Contents

In addition, eligible employees, are granted an option to purchase shares pursuant to the Purchase Plan. Each participant is granted an option on January 1 of each year to purchase up to \$25,000 of the Company's Common Stock. The number of shares is determined by dividing \$25,000 by the closing market price of the Company's Common Stock on December 31 of the preceding year. Participants may purchase shares at a price equal to the lesser of (i) 85% of the grant price or (ii) 85% of the closing market price of the Company's Common Stock on the purchase date. No option can be exercised for more than \$25,000 worth of Common Stock for the life of the option. Each option expires 27 months after it is granted.

POST-EMPLOYMENT COMPENSATION**Retirement Plan Potential Annual Payments and Benefits**

The Company has an Executive Retirement Plan in which currently only Mr. Emery and three other founding non-executive officers of the Company have been designated to participate. The Executive Retirement Plan is an unfunded, defined benefit plan in that the amount of a retiree's pension is calculated using compensation and years of service as an employee, rather than by the market value of the plan's assets as in defined contribution plans.

Under the Executive Retirement Plan, an officer designated to participate by the Compensation Committee may receive upon normal retirement (defined to be when the officer reaches age 65 and has completed five years of service with the Company) an amount equal to 60% of the officer's Final Average Annual Compensation, as defined below, plus 6% of Final Average Annual Compensation for each year of service (but not more than five years) after age 60. Plan benefits are reduced by certain other retirement benefits received by the officer, such as Social Security and the Company's contributions to the participant's 401(k) plan. Final Average Compensation, calculated as the average of the officer's highest three, not necessarily consecutive, years' earnings, is based upon annual cash compensation, including deferrals (but not including incentive-based stock awards or cash bonuses for officers whose annual salary exceeds \$200,000).

The annual pension benefits are to be paid in monthly installments over a period not to exceed the greater of the life of the retired officer or his or her surviving spouse. Assuming the officers currently eligible for retirement retire at the normal retirement date, the Company would begin making benefit payments (other than the \$84,000 currently being paid annually to one officer who has retired from the Company) of approximately \$1.2 million per year, based on assumptions at December 31, 2007, which would increase annually based on CPI. Rather than receiving monthly payments, the retiring officer has the option to request a lump sum retirement payment, equal to the present value of the total expected payments.

The following table discloses the material terms and estimated benefits payable to David R. Emery under the Company's Executive Retirement Plan:

The Company designates an amount each year to a memorandum account for each officer equal to 25% of the officer's base salary for the current year. The amount credited under these memorandum accounts may either be released as an equity award under the terms of the Long-Term Incentive Program or as a cash award upon the officer's retirement, death, disability, termination without cause, or change in control, whether or not the targets had been achieved at that time.

(1) Represents amounts credited to the 2007 Incentive Plan's Long-Term Incentive Program memorandum accounts in the name of each Named Executive Officer.

401(k) Plan

All eligible employees may participate and receive post-employment compensation under a 401(k) plan, pursuant to which each employee may contribute up to 45% of his salary, to an annual maximum of \$15,500. As these contributions are made by the employees out of their respective cash salaries, such contributions do not appear in the Summary Compensation Table as additional compensation for the Named Executive Officers. Additionally, participants in the 401(k) plan receive matching contributions from the Company of up to 3% of their salary, to an annual maximum of \$2,800. Where applicable, the matching contributions are included in the All Other Compensation section of the Summary Compensation Table.

Termination and Change in Control Arrangements with Named Executive Officers*David R. Emery*

Mr. Emery's employment agreement, pursuant to which he serves as Chairman of the Board and Chief Executive Officer of the Company, has a one-year term that is automatically extended on January 1 of each year for an additional year. If Mr. Emery's employment agreement is terminated for any reason other than for cause or upon Mr. Emery's voluntary termination, he is entitled to receive his unpaid salary, earned bonus, vested, released, granted, or reserved stock awards, vested deferred compensation, including the full release of his memorandum account under the 2007 Incentive Plan (other than plan benefits which will be paid in accordance with the applicable plan), and other benefits accrued through the date of termination. In addition, if a termination not for cause occurs, Mr. Emery will receive as severance compensation his base salary for a period of three years following the date of termination and an amount equal to twice his average annual bonus during the two years immediately preceding his termination. Mr. Emery may

elect to receive a lump sum severance amount equal to the present value of such severance payments (using a discount rate equal to the 90-day treasury bill interest rate in effect on the date of delivery of such election notice).

If a change-in-control (as defined in the employment agreement) occurs, Mr. Emery may terminate his agreement and receive his accrued base salary and other benefits described above through the remaining term of the agreement and an amount equal to three times his average annual bonus during the two years immediately preceding the termination. Mr. Emery would also receive as severance compensation his base salary for a period of five years following the date of termination and may elect to receive from the Company the present value of such payments as a lump sum severance payment (calculated as provided above), which may not be less than three times his base salary. In such event, Mr. Emery is entitled to receive a tax gross-up payment as compensation for any excise tax imposed by Section 280(g) of the Internal Revenue Code which would be required to be paid.

Table of Contents

The Company may terminate Mr. Emery's agreement for cause, which is defined to include acts of dishonesty on Mr. Emery's part constituting a felony which has resulted in material injury to the Company and which is intended to result directly or indirectly in substantial gain or personal enrichment to Mr. Emery at the expense of the Company or Mr. Emery's material, substantial and willful breach of the employment agreement which has resulted in material injury to the Company. In the event of Mr. Emery's termination for cause, he shall receive all accrued salary, earned bonus compensation, vested deferred compensation (other than plan benefits which will be payable in accordance with the applicable plan), and other benefits through the date of termination, but shall receive no other severance benefits.

Mr. Emery's agreement may also be terminated if Mr. Emery dies or becomes disabled and his disability continues for a period of 12 consecutive months. In the event of termination of the employment agreement because of Mr. Emery's death or disability, Mr. Emery (or his estate) shall receive his unpaid salary, earned bonus, vested, released, granted or reserved stock awards, vested deferred compensation (other than plan benefits which will be paid in accordance with the applicable plan) and other benefits through the date of termination, but no additional severance except that, if Mr. Emery becomes disabled, the Company will maintain his insurance benefits for the remaining term of his employment agreement.

The Company has agreed to indemnify Mr. Emery for certain liabilities arising from actions taken within the scope of his employment. Mr. Emery's employment agreement contains restrictive covenants pursuant to which Mr. Emery has agreed not to compete with the Company during the period of Mr. Emery's employment and any period following termination of his employment during which he is receiving severance payments except in the event of a change-in-control of the Company.

Other Executive Officers

The Company's other officers—Scott W. Holmes, Executive Vice President and Chief Financial Officer; John M. Bryant, Jr., Executive Vice President and General Counsel; and B. Douglas Whitman, II, Executive Vice President and Chief Operating Officer—have employment agreements with the Company. If an employment agreement is terminated for any reason other than for cause or upon the officer's voluntary termination, he is entitled to receive his unpaid salary, earned bonus, vested, released, granted, or reserved stock awards, vested deferred compensation, including the full release of his memorandum account under the 2007 Incentive Plan (other than plan benefits which will be paid in accordance with the applicable plan), and other benefits through the date of termination. In addition, if a termination not for cause occurs, the officer will receive as severance compensation his base salary for a period of 18 months following the date of termination and an amount equal to twice his average annual bonus during the two years immediately preceding his termination.

If a change-in-control (as defined in the employment agreement) occurs, the officer may terminate his agreement and receive his accrued base salary and other benefits described above through the termination date, an amount equal to 1.5 times his base salary through the remaining term of the agreement, and an amount equal to two times his average annual bonus during the two years immediately preceding the termination. Each officer may elect to receive from the Company the present value of such payment (calculated in the same manner as for Mr. Emery) as a lump sum severance payment, which may not be less than 1.5 times the base salary. In such event, the officer is entitled to receive a tax gross-up payment as compensation for any excise tax imposed by Section 280(g) of the Internal Revenue Code which would be required to be paid.

The Company may terminate the officer's agreement for cause, which is defined to include material, substantial and willful dishonesty towards, fraud upon, or deliberate injury or attempted injury to, the Company or the officer's material, substantial and willful breach of the employment agreement which has resulted in material injury to the Company. In the event of the officer's termination for cause, he shall receive all accrued salary, earned bonus compensation, vested deferred compensation (other than plan benefits which will be payable in accordance with the

applicable plan), and other benefits through the date of termination, but shall receive no other severance benefits.

Each agreement may also be terminated if the officer dies or becomes disabled and his disability continues for a period of 12 consecutive months. In the event of termination of the employment agreement because of the officer's death or disability, the officer (or his estate) shall receive his unpaid salary, earned bonus, vested, released, granted

or reserved stock awards, vested deferred compensation (other than plan benefits which will be paid in accordance with the applicable plan) and other benefits through the date of termination, but no additional severance except that, if the officer becomes disabled, the Company will maintain his insurance benefits for the remaining term of his employment agreement.

The Company has agreed to indemnify each of the officers for certain liabilities arising from actions taken within the scope of his employment. Each employment agreement contains restrictive covenants pursuant to which such officer has agreed not to compete with the Company during the period of employment and any period following termination of his employment during which he is receiving severance payments except in the event of a change-in-control of the Company.

The tables below illustrate the compensation that would be received by each of the Named Executive Officers in the event of termination as of December 31, 2007.

DIRECTOR COMPENSATION

Directors who are employees of the Company receive no additional compensation for their services as directors. David R. Emery is the only employee director on the Company's Board. Each non-employee director receives the following compensation from the Company:

An annual retainer of \$24,000 (the chairpersons of the Audit Committee, the Compensation Committee and the Corporate Governance Committee receive additional annual retainers of \$10,000, \$8,000 and \$6,000, respectively);

A meeting fee of \$1,000 for each Board or committee meeting attended, including any telephonic meeting that lasts more than one hour; and

An annual grant of 2,000 restricted shares of Company Common Stock.

Table of Contents**Stock Awards**

Each non-employee director receives an automatic grant of 2,000 restricted shares of the Company's Common Stock at the conclusion of each annual meeting which are restricted for three years from the date of grant. Such shares are subject to forfeiture upon the occurrence of certain events. Restricted shares may not be sold, assigned, pledged or otherwise transferred. Subject to the risk of forfeiture and transfer restrictions, directors shall have all rights as shareholders with respect to restricted shares, including the right to vote and receive dividends or other distributions on such shares. As of January 31, 2008, non-employee directors had received an aggregate of 59,173 restricted shares, of which 40,000 shares remain restricted.

Retirement Plan

The Company has a Retirement Plan for Outside Directors under which a non-employee director may receive upon normal retirement (defined to be when the director reaches age 65 and has completed at least five years of service as a director) payment annually, for a period equal to the number of years of service as a director (but not to exceed 15 years), an amount equal to the director's annual retainer and meeting fee compensation for the plan year immediately preceding retirement from the Board of Directors. Currently this amount would range between \$35,000 and \$49,000, based upon the 2007 plan year. Such benefit payments are to be made to the retired director, his or her beneficiary, or his or her estate in equal quarterly installments for the duration of the applicable payment period. The beneficiary or estate of a director whose death precedes his or her retirement will receive benefits as if the director had retired from the Board of Directors on the day before his or her death.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In addition to establishing the compensation elements described above, the Company has adopted a related party transaction policy to further the goals of the executive compensation program.

The Board of Directors recognizes that related party transactions present a heightened risk of conflicts of interest and/or improper valuation (or the perception thereof) and therefore has adopted the following policy in connection with all related party transactions involving the Company.

Under this policy, no transaction between the Company and an officer, director or five percent stockholder (including any immediate family member or controlled entity) shall be allowed unless:

the Corporate Governance Committee has approved the transaction in accordance with the guidelines set forth in the policy and if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party;

Table of Contents

the transaction is approved by the disinterested members of the Board of Directors; or

the transaction involves compensation approved by the Compensation Committee.

No such approval is necessary for:

transactions available to all employees generally; or

transactions involving less than \$5,000 when aggregated with all similar transactions.

The Board of Directors has determined that the Corporate Governance Committee of the Board is best suited to review and approve related party transactions. Accordingly, at each calendar year's first regularly scheduled Corporate Governance Committee meeting, management shall report any related party transactions to be entered into by the Company for that calendar year, including the proposed aggregate value of such transactions if applicable. After review, the Corporate Governance Committee shall approve or disapprove such transactions and, at each subsequently scheduled meeting, management shall update the Corporate Governance Committee as to any material change to those proposed transactions or any new transactions.

The Board of Directors recognizes that situations exist where a significant opportunity may be presented to management or a member of the Board of Directors that may equally be available to the Company, either directly or via referral. Before such opportunity may be consummated by a related party, such opportunity shall be presented to the Corporate Governance Committee for consideration.

All related party transactions will be disclosed in the Company's applicable federal securities law filings. Furthermore, all related party transactions shall be disclosed to the full Board of Directors.

Management shall assure that all related party transactions are approved in accordance with any requirements of the Company's financing agreements.
