- (a) Exhibit:
- 99.1 First Financial Bancorp. Press Release dated July 21, 2003.

Item 9. Regulation FD Disclosure.

On July 21, 2003, First Financial Bancorp. issued its earnings press release that included the results of operations and financial condition for the second quarter of 2003. A copy of the earnings press release is attached as Exhibit 99.1. This information is being provided under Items 9 and 12 Disclosure of Results of Operations and Financial Condition.

The earnings press release includes two non-GAAP financial measures. The first non-GAAP financial measure appears in the first paragraph under the heading. Net Interest Income. The second appears in the table entitled. Additional Data. Fully Tax Equivalent Net Interest Income. The tax equivalent adjustment to net interest income recognizes the income tax savings when comparing taxable and tax-exempt assets and assumes a 35% tax rate. Management believes that it is a standard practice in the banking industry to present net interest margin and net interest income on a fully tax equivalent basis. Therefore, management believes, these measures provide useful information to investors by allowing them to make peer comparisons. Management also uses these measures to make peer comparisons.

Below is a table showing net interest income calculated and presented in accordance with GAAP and the adjustments made to arrive at the non-GAAP financial measure net interest income tax equivalent. The table also shows net interest margin calculated and presented in accordance with GAAP and the method used to arrive at the non-GAAP financial measure net interest margin (fully tax equivalent).
