PROXY STATEMENT

GENERAL

We are furnishing this proxy statement to stockholders in connection with our board of directors' solicitation of proxies to be used at our annual meeting of stockholders, which will be held on Thursday, May 27, 2004, and at any adjournments of the meeting. This proxy statement and the accompanying form of proxy are being first mailed to our stockholders on or about April 16, 2004. When properly executed and received by our Secretary prior to the meeting, the proxy will be voted as specified in the proxy, unless the proxy is revoked by filing with the Secretary prior to the meeting a written revocation or a properly executed proxy bearing a later date. Unless authority to vote for one or more of the director nominees is specifically withheld according to the instructions, a signed proxy will be voted FOR the election of the three director nominees named in this proxy statement and, unless otherwise indicated, FOR the other proposal described in this proxy statement and in the accompanying notice of meeting.

As of April 7, 2004, the record date for the meeting, there were 59,311,284 shares of our common stock outstanding. Only holders of common stock of record on our books at the close of business on April 7, 2004 are entitled to receive notice of and to vote at the meeting and at any adjournments of the meeting. Each such stockholder is entitled to one vote for each share of common stock registered in his or her name. A majority of the outstanding common stock, represented in person or by proxy at the meeting, will constitute a quorum for the transaction of all business at the meeting. Directors will be elected by a plurality of the votes cast at the meeting. The affirmative vote of a majority of the shares of common stock present at the meeting, in person or by proxy, without regard to broker non-votes, will be required to approve the other proposal described in this proxy statement and in the accompanying notice of meeting. Shares as to which Abstain has been selected on the accompanying proxy will be counted as shares present and entitled to vote for purposes of establishing a quorum and will have the same effect as a vote against the matter. Stockholders are not entitled to cumulate votes in the election of directors.

We will bear the cost of soliciting proxies. In addition to solicitation by use of the mails, our directors, officers or regular employees, without extra compensation, may solicit proxies personally or by telephone or other telecommunication. We have requested persons holding stock for others in their names or in the names of nominees to forward soliciting material to the beneficial owners of those shares, and we will, if requested, reimburse those persons for their reasonable forwarding expenses.

Three of our ten directors are to be elected by the stockholders at the meeting, each to hold office for a three-year term expiring in 2007 or until his or her successor is duly elected and qualified. The board of directors, upon the recommendation of our nominating and governance committee, recommends the election of the three nominees named below. All of the nominees are currently members of our board of directors. Unless authority to vote for any or all of the nominees is specifically withheld according to the instructions, proxies in the enclosed form will be voted FOR the election of each of the three nominees named below.

Our board of directors does not contemplate that any of the nominees will be unable to serve as a director, but if that contingency should occur before the proxies are voted, the persons named in the enclosed proxy reserve the right to vote for such substitute nominees as they, in their discretion, determine.

Board Composition and Committees

The board of directors has determined that Mr. Bjerre-Nielsen, Mr. Cozadd, Ms. Lee, Dr. Mayer, Dr. Mollica, Dr. Nelson, Dr. Riedel, Mr. Rogers and Mr. Rosenlund are independent directors as that term is defined by the National Association of Securities Dealers' listing standards for the Nasdaq Stock Market. During 2003, the board of directors held four meetings. Each director then in office attended at least 75% of the board meetings and meetings of the board committees on which he or she served. The board's standing committees consist of an audit committee, a management development and compensation committee and a nominating and governance committee (formerly the committee on directors).

Audit Committee

The current members of the audit committee are Mr. Cozadd (Chair), Dr. Mollica and Dr. Riedel, each of whom the board of directors has determined is independent pursuant to the National Association of Securities Dealers' listing standards for the Nasdaq Stock Market and applicable SEC rules. The board of directors has determined that each audit committee member has sufficient knowledge in financial and

auditing matters to serve on the audit committee. The board of directors has designated Mr. Cozadd, the audit committee's chairman, as an

Table of Contents

audit committee financial expert as defined under applicable SEC rules. The audit committee serves as an independent and objective party to monitor our financial reporting process and internal control system; retains, pre-approves audit and non-audit services to be performed by, and directly consults with our independent accountants; reviews and appraises the efforts of our independent accountants; and provides an open avenue of communication among our independent accountants, financial and senior management and the board of directors. The audit committee acts pursuant to a written charter, which was recently amended by the board of directors to comply with the Sarbanes-Oxley Act of 2002, as well as the rules and regulations of the SEC and the National Association of Securities Dealers. A copy of our amended audit committee charter, which more specifically sets forth the duties and responsibilities of the audit committee, is attached as Appendix A to this proxy statement. The audit committee's report relating to 2003 appears on page 18 of this proxy statement. The audit committee held eight meetings during 2003.

Management Development and Compensation Committee

The current members of the management development and compensation committee are Dr. Riedel (Chair), Mr. Bjerre-Nielsen and Mr. Rogers, each of whom the board of directors has determined is independent pursuant to the National Association of Securities Dealers listing standards for the Nasdaq Stock Market. The management development and compensation committee is responsible for ensuring an orderly plan for the succession and development of senior management and that compensation philosophy and policies are consistent with our strategic business objectives and market practices while providing incentives to attract key talent. Among its duties, the management development and compensation committee administers our 2002 Omnibus Incentive Plan, makes recommendations to the board regarding our other stock and compensation plans, recommends compensation of certain officers (including our chief executive officer) and management, and approves stock option and other award grant levels. The management development and compensation committee acts pursuant to a written charter adopted by the board of directors. The management development and compensation committee's report relating to 2003 appears on page 13 of this proxy statement. The management development and compensation committee held four meetings during 2003.

Nominating and Governance Committee

The current members of the nominating and governance committee are Dr. Mollica (Chair), Dr. Mayer, Ms. Lee and Dr. Nelson, each of whom the board of directors has determined is independent pursuant to the National Association of Securities Dealers listing standards for the Nasdaq Stock Market. The nominating and governance committee is charged with qualifying and recommending candidates for board membership, assessing the performance and compensation of the board and related duties to ensure appropriate board governance processes are in place and evaluated at periodic intervals. Among its duties and responsibilities, the nominating and governance committee assesses the performance of the board of directors and individual directors; recommends criteria for evaluating the performance of the chairman of the board in discharging his duties; recommends to the board criteria for board membership; reports annually on director compensation and makes recommendations regarding compensation of non-employee directors; establishes a nominating process, including a process for identifying stockholder nominees; qualifies and recommends candidates for board membership; and reviews annually the committee structure of the board and recommends changes thereto. Except with respect to directors nominated by our majority stockholders, as described below under Agreement Regarding Board Composition, the process followed by the nominating and governance committee to identify and evaluate candidates includes requests to board members, the chief executive officer, and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and their qualifications, and interviews of selected candidates.

As stated above, the nominating and governance committee also considers and establishes procedures regarding recommendations for nomination to the board submitted by stockholders. Such recommendations for nomination, together with appropriate biographical information, should be sent to the Chairman of the Nominating and Governance Committee, c/o the Corporate Secretary's Office, Genencor International, Inc., 925 Page Mill Road, Palo Alto, California 94304. The qualifications of recommended candidates will be reviewed by the nominating and governance committee.

Table of Contents

In evaluating the suitability of candidates (other than our chief executive officer) to serve on the board of directors, including stockholder nominees, the nominating and governance committee will seek candidates who are independent pursuant to the National Association of Securities Dealers' listing standards for the Nasdaq Stock Market and meet certain selection criteria established by the nominating and governance committee. The nominating and governance committee also will consider an individual's skills, character and professional ethics, judgment, leadership experience, business experience and acumen, familiarity with relevant industry issues, national and international experience, and other relevant criteria that may contribute to our success. This evaluation is performed in light of the skill set and other characteristics that would most complement those of the current directors, including the diversity, maturity, skills and experience of the board as a whole.

The nominating and governance committee acts pursuant to a written charter adopted by the board of directors, a copy of which is attached as Appendix B to this proxy statement. The nominating and governance committee held three meetings during 2003.

Agreement Regarding Board Composition

We and our majority stockholders, Eastman Chemical Company and Danisco A/S, including their affiliates, are parties to a stockholder agreement which requires us to have a 10-member classified board of directors consisting of three directors nominated by Eastman Chemical Company, three directors nominated by Danisco A/S, our Chief Executive Officer, and three other directors. If either Eastman Chemical Company or Danisco A/S reduces its ownership interest to less than 20% of our outstanding common stock, then its respective director nomination rights will be reduced to two directors, and its nomination rights will terminate when it owns 10% or less of our outstanding common stock.

Stockholder Communications

Stockholders may send correspondence by mail to the full board of directors or to individual directors. Stockholders should address such correspondence to the board of directors or the relevant board members in care of the Corporate Secretary's Office, Genencor International, Inc., 925 Page Mill Road, Palo Alto, California 94304.

All stockholder correspondence will be compiled by our Corporate Secretary and forwarded as appropriate. In general, correspondence relating to corporate governance issues, long-term corporate strategy or similar substantive matters will be forwarded to the board of directors, one of the aforementioned committees of the board, or a member thereof for review. Correspondence relating to the ordinary course of business affairs, personal grievances, and matters as to which we tend to receive repetitive or duplicative communications are usually more appropriately addressed by the officers or their designees and will be forwarded to such persons accordingly.

Compensation of Directors

We routinely review the competitiveness of our board compensation. After adjustments recommended by the nominating and governance committee and approved by the full board in December 2003, we now make available to all non-employee directors, including employees of our majority stockholders, the following: an initial discretionary grant of an option to purchase up to 25,000 shares of our common stock and an annual discretionary grant of options to purchase up to 14,000 shares of our common stock, \$1,000 for attendance at each full-day board meeting and \$500 for attendance at each half-day board meeting, \$1,000 for attendance at each meeting of a committee on which that director serves, and \$40,000 per year. We further provide the respective chairs of our management development and compensation committee and nominating and governance committee an annual retainer fee of \$7,500 and the chair of our audit committee an annual retainer fee of \$10,000. All of our directors receive travel expense reimbursement and director's liability insurance coverage. Currently, directors who are employees of our majority stockholders, Eastman Chemical Company, Danisco A/S and their affiliates, do not accept any compensation, including grants of options to purchase shares of our common stock, due to their respective companies' internal policies.

Thomas J. Pekich	52,000	3.07%	\$ 14.52	6/6/13	297,440

(1) The hypothetical grant date present value for the options granted during 2003 is presented pursuant to the rules of the SEC and is calculated under the modified Black-Scholes Model for pricing options, a mathematical formula used to value options traded on stock exchanges. This formula considers a number of factors in forecasting an option's present value. Factors used to value the options shown on the table include the expected volatility rate of the shares underlying the options (47.5%), risk free rate of return (2.3%), projected time of exercise (4 years) and projected risk of forfeiture rate for vesting period (0% per annum). The actual before-tax amount, if any, realized upon the exercise of stock options will depend upon the excess, if any, of the market price of the common stock over the exercise price per share of the common stock at the time an option is exercised. The hypothetical grant date present value of the options reflected on this table may not be realized.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

Our employment agreement with Jean-Jacques Bienaimé, our current Chairman, Chief Executive Officer and President, provides for a two year term with automatic one year extensions unless otherwise agreed. The employment agreement provides for an annual salary of \$546,000 and provides that Mr. Bienaimé's salary may be increased from time to time by action of our board of directors or by our management development and compensation committee, and these increases constitute amendments to Mr. Bienaimé's employment agreement. Pursuant to the employment agreement, Mr. Bienaimé received an initial grant of an option to purchase 550,000 shares of our common stock, a restricted stock award of 75,000 shares (which Mr. Bienaimé converted into restricted stock units in 2003) and a \$350,000 sign-on bonus (payable one-half on hire and one-half in March 2003). Mr. Bienaimé is entitled to participate in our retirement, stock option, pension, insurance, profit-sharing, bonus and similar plans as in effect from time to time. In the event that we terminate Mr. Bienaimé's employment without cause, including in connection with a change in our ownership or control, he will receive severance in the form of continued compensation for 24 months at his then current annual salary rate and continuation of company-paid benefits for 24 months.

Further, in the event we terminate Mr. Bienaimé's employment without cause following a change in our ownership or control in which more than 50 percent of our outstanding shares of common stock are acquired by an unaffiliated third party, in lieu of the foregoing severance, he will receive an enhanced severance (Enhanced Severance) in the form of continued cash compensation for 30 months equal to the sum of his then current annual salary rate plus bonus at 100 percent of target, continuation of company-paid benefits for 30 months, and the monetary equivalent of the crediting of an additional 5 years of service to our pension and retiree medical plans for purposes of determining benefits payable under these plans. In either severance event, we will provide customary outplacement services up to \$12,000 and will compensate Mr. Bienaimé for the applicable 24 or 30 month-period, respectively, if his employment is terminated due to a permanent disability.

We have entered into employment agreements with each of the other named executives. These employment agreements each have a one year term with automatic one year renewals unless otherwise agreed, with bonus compensation to be determined by our board of directors or our management development and compensation committee. Each named executive's salary has increased from time to time by action of our management

development and compensation committee, and these increases constitute amendments to his or her employment agreement. Each named executive is entitled to participate in our retirement, stock option, pension, insurance, profit-sharing, bonus and similar plans as in effect from time to time. In the event that we terminate a named executive's employment without cause, including in connection with a change in our ownership or control, he or she will receive severance in the form of either (i) continued compensation for 18 months at his or her then current annual salary rate, continuation of company-paid benefits for 18 months, and outplacement services of \$12,000 or (ii) the Enhanced Severance termination compensation for 30 months as described above with the bonus portion of such compensation reduced to the target bonus percentage applicable to each such executive. Finally, we will continue to compensate each of these individuals for the applicable 18 or 30-month period, respectively, if that person's employment is terminated due to a permanent disability.

Report of Management Development and Compensation Committee

Executive Compensation Philosophy

The fundamental compensation philosophy of our board of directors is that there should be a substantial and meaningful connection between executive compensation and stockholder value. Under the supervision of our management development and compensation committee (the Committee), which is comprised of independent directors and which also administers many of our benefit plans, we have developed and implemented compensation policies, plans and programs designed to enhance our performance as well as increase stockholder value by aligning closely the financial interests of our executive officers with those of our stockholders. In furtherance of these goals, annual base salaries are intended to serve as only a portion of an executive's total achievable compensation. The board of directors believes that attracting and retaining executives of high quality is essential to our growth and success. The board of directors further believes that our long-term success is enhanced by a comprehensive compensation program that includes different types of incentives for motivating executives and rewarding outstanding contributions, including awards that link compensation to applicable measures of our performance. We rely to a large degree on annual and long-term incentive compensation to attract and retain executives of outstanding ability and to motivate them to perform to the full extent of their abilities. Both the annual and long-term components of the incentive compensation policy are closely tied to our performance, profitability and stockholder value. In years of outstanding achievement, executive officers will be substantially rewarded for their respective contributions to our success through a combination of base salary, variable pay and stock-based incentive awards.

Executive Officer Compensation

Our current total compensation program for executive officers consists of cash compensation in the form of base salaries and bonuses as well as long-term incentives, all of which are described below.

Base Salaries

Base salaries are fixed at levels that the Committee believes to be generally competitive with amounts paid to highly qualified senior executives at other similarly-sized companies engaged in businesses similar to ours. Salaries are reviewed on an annual basis in the first quarter and may be increased based on the individual's position relative to competitive market data, experience and performance and the Committee's consensus that the individual's contribution has increased stockholder value.

Variable Pay Plan

In general, we intend that our annual cash compensation incentives for our executive officers (including our Chief Executive Officer, who receives a comparable bonus pursuant to our Omnibus Incentive Plan described below) reflect our belief that management's contribution to improving our performance and stockholder return is related to revenue and earnings. Under our current incentive compensation program administered through our variable pay plan, bonuses are tied to financial measures and other performance milestones established by the Committee. The variable pay plan covers our regular employees in the United States and certain foreign locations. Under the current variable pay plan, early each year, our board of directors, through the Committee,

Table of Contents

assesses our performance for the prior year against goals set previously for that year and makes an award determination. The target awards for plan participants, including the named executives, range from 5% to 100% of eligible earnings, depending on each participant's individual salary band level. For any variable pay plan participant, the actual amount of an award will be contingent upon the level of achievement by us relative to pre-established goals. The total variable pay plan award pool for executives is currently set by the achievement of total revenue and EBITDA (i.e., earnings before interest, taxes, depreciation and amortization) targets, as well as technology, transactional and business development milestones, with the targets recommended annually by our management and reviewed and approved by the Committee. Awards can vary from zero, if company goals are not met or if individual performance is unsatisfactory, to one and a half times the target if company goals are exceeded.

2002 Omnibus Incentive Plan (Omnibus Incentive Plan)

The purpose of the Omnibus Incentive Plan is to provide motivation to selected employees, directors and consultants to put forth maximum efforts toward our continued growth, profitability, and success. With the approval of stockholders at the 2002 Annual Meeting, the Omnibus Incentive Plan replaced the 1999 Stock Option and Stock Appreciation Right Plan as our vehicle for providing long-term incentives.

Under the Omnibus Incentive Plan, the Committee has authority to grant incentive stock options to our employees and nonstatutory stock options and SARs to our directors, employees, consultants and advisors. The Omnibus Incentive Plan also authorizes the grant of restricted and unrestricted stock awards, restricted stock units, performance shares (which are stock or stock-based awards contingent upon attaining performance objectives during a performance period), performance units (which are units valued by reference to criteria chosen by the Committee), and other awards established by the Committee that are consistent with the Omnibus Incentive Plan's purpose. The Committee also has the authority under the Omnibus Incentive Plan to apply negative discretion to reduce the amount of an award earned or to modify the payment schedule for such award to the extent reasonably feasible for federal income tax deductibility purposes pursuant to Section 162(m) of the Internal Revenue Code.

The Committee administers the Omnibus Incentive Plan. Subject to the limitations set forth in the plan, the Committee has the authority to select the eligible persons to whom we may grant awards; determine the number of shares subject to options, SARs, or other awards; decide whether an option is an incentive stock option or a nonstatutory option; determine the type of consideration to be paid by a participant when exercising an option; and establish the vesting schedule of options, SARs, and other awards. In granting awards to our executive officers under the Omnibus Incentive Plan, the Committee reviews and considers the respective scope of accountability, strategic and operational goals, and anticipated performance requirements and contributions of each employee. During 2003, the Committee granted to our named executives 32,500 restricted shares and non-statutory options to purchase a total of 209,000 shares of our common stock. See EXECUTIVE COMPENSATION - Stock Options.

Employee Retirement Investment Plan

Executive officers (and all other eligible employees) are also entitled to participate in our employee retirement investment plan, a 401(k) plan. We contribute to the plan by making a limited matching contribution to the accounts of those employees who are contributing to the plan. On an annual basis we also make an additional employer profit sharing contribution on behalf of all employees who are eligible to participate. Employees do not have to contribute to the plan in order to be eligible for the employer profit sharing contribution each year.

Nonqualified Deferred Compensation Plan (NDCP)

In 2003, we adopted a non-qualified deferred compensation plan permitting our executive officers and other eligible employees to defer salary, bonus, restricted stock units and gains from the exercise of stock options. In 2003, Mr. Bienaimé and Dr. Arbige converted 75,000 and 8,500 restricted shares, respectively, into restricted stock units (RSUs) and elected to defer receipt of such RSUs under the NDCP. No 2003 salary or 2002 bonus that was paid in 2003 was deferred under the NDCP in 2003.

Table of Contents

Employee Stock Purchase Plan

Executive officers (and all other eligible employees) are eligible to participate in our employee stock purchase plan, which was adopted in 2001. Under the employee stock purchase plan, employees are permitted to purchase shares of our common stock that are offered for sale by us. The Committee determines a date on which an offering of shares to eligible employees will begin and a date on which the offering will end. Since the plan's inception, the Committee has made offerings every six months. Eligible employees may participate during an offering by enrolling in the employee stock purchase plan and authorizing specified payroll deductions of up to 15% of their base pay rate for the whole period of the offering. At the end of the offering period, the employees use their payroll deductions to purchase shares of common stock at a purchase price established under the employee stock purchase plan. During 2003, Mr. Bienaimé was the only named executive who participated in the plan, acquiring 786 shares.

Other Benefits

Executive officers (and other eligible employees) are entitled to participate in a group life insurance program, which provides employees with the opportunity to purchase up to four times base salary in term life insurance (up to a maximum of \$1 million) in addition to the two times base salary in term life insurance provided by us. Executive officers also participate in a supplemental life insurance program whereby we pay for the executive officer while actively employed with us the annual premiums designed to provide a paid-up whole life insurance policy at age 60 in the amount of \$500,000 for our chief executive officer and \$300,000 for our other executive officers.

Also, we maintain an insured group long-term disability plan for all eligible employees. The intent of that plan is to provide a benefit equivalent of up to two-thirds of base salary. We have purchased additional long-term disability insurance for certain executive officers to supplement the long-term disability benefit for the portion of that executive officer's compensation that is above the maximum level of the group plan.

Our senior executive relocation policy provides that we will pay or reimburse executives for certain costs of relocation. We have included in this policy provisions for items such as travel and moving expenses, temporary living expenses, and tax consultation. In addition, in connection with permanent relocation of certain senior executives to our headquarters in Palo Alto, California, we previously provided certain executive officers with home down payment assistance in the form of repayable loans, declining housing supplements and home price guarantees. In 2003, the declining housing supplements were frozen for Messrs. Land, Melton and Ranieri. Further information on these repayable loans is provided in CERTAIN TRANSACTIONS - Agreements with Executive Officers and Directors.

Chief Executive Officer Compensation

The key performance measure used to determine Mr. Bienaimé's 2003 compensation package was the Committee's assessment of his ability and dedication to provide the leadership and vision necessary to enhance our long-term value.

Pursuant to his employment agreement (see EXECUTIVE COMPENSATION -Employment Contracts, Termination of Employment and Change-in-Control Arrangements), which was approved by our board of directors in 2002, Mr. Bienaimé's annual base salary from his hire through 2003 was \$525,000. The Committee believes that Mr. Bienaimé's salary was set at a level that is competitive with the amounts paid to other chief executive officers with comparable qualifications, experience and responsibilities at other similarly-sized companies engaged in similar businesses.

Consistent with our executive compensation philosophy, Mr. Bienaimé's total compensation package depends largely on annual incentive compensation. The annual incentive component for 2003 was made up of a cash bonus under the Omnibus Incentive Plan, paid after the end of the year and based on our financial performance and advancement of our strategic initiatives. The annual incentive component of Mr. Bienaimé's compensation was tied to corporate performance, thereby encouraging dedication to improving our profitability and building stockholder value.

Table of Contents

Specifically, Mr. Bienaimé's annual incentive compensation is based upon the same financial measures and other performance milestones established by the Committee for the Variable Pay Plan. Mr. Bienaimé's target award is 100% of his eligible earnings and may vary year to year from zero if company goals are not met or if performance is unsatisfactory, to one and a half times the target if company goals are exceeded. In December 2003, Mr. Bienaimé received \$250,000 as an advance against the 2003 annual incentive compensation to be paid in the first quarter of 2004.

Policy with Respect to Qualifying Compensation Paid to Executive Officers for Deductibility Under Section 162(m) of the Internal Revenue Code

The Committee intends that, whenever reasonably possible, compensation paid to its managers, including its executive officers, should be deductible for federal income tax purposes. The Committee, however, may vote to award compensation, especially to a chief executive officer, that is not fully deductible, if the Committee determines that such award is consistent with its philosophy and is in our company's best interests.

If we register any securities for sale on a form that would be appropriate for sale of the majority stockholders' shares, the majority stockholders can request to have their shares included in the registration statement at our expense. These registration rights are unlimited but the managing underwriter for the registration can reduce the number of shares held by the majority stockholders that are included in the offering to no more than 25% of the offering.

These registration rights will expire in 2010. However, if either of the majority stockholders owns common stock amounting to less than 5% of our outstanding common stock on a fully converted basis, the stockholder agreement automatically terminates as to that stockholder.
