Statement of Accounting Policy

The accompanying financial statements include the accounts of Myers Industries, Inc. and subsidiaries (collectively, the Company), and have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures are adequate to make the information not misleading. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Company's latest annual report on Form 10-K.

In the opinion of the Company, the accompanying financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of June 30, 2008, and the results of operations and cash flows for the three and six months ended June 30, 2008 and 2007. The results of operations for the three and six months ended June 30, 2008 are not necessarily indicative of the results of operations that will occur for the year ending December 31, 2008.

Recent Accounting Pronouncements

Standards Adopted

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157), and in February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 157 was issued to eliminate the diversity in practice that exists due to the different definitions of fair value and the limited guidance in applying these definitions. SFAS 157 encourages entities to combine fair value information disclosed under SFAS 157 with other accounting pronouncements, including SFAS No. 107, Disclosures about Fair Value of Financial Instruments, where applicable. Additionally, SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value.

Effective January 1, 2008 the Company adopted SFAS 157 and SFAS 159. In February 2008, the FASB issued FASB Staff Position Nos. FAS 157-1 and FAS 157-2 (FSP 157-1 and FSP 157-2). FSP 157-1 excludes SFAS No. 13, Accounting for Leases, as well as other accounting pronouncements that address fair value measurements for leases, from the scope of SFAS No. 157. FSP 157-2 delays the effective date of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) until fiscal years beginning after November 15, 2008.

The Company did not elect the fair value option for any assets or liabilities under SFAS 159. The adoption of SFAS 157 and SFAS 159 did not materially affect the Company's consolidated financial results of operations, cash flows or financial position.

Standards Issued Not Yet Adopted

In December 2007, the FASB issued Statement No. 141R, Business Combinations, and FASB Statement No. 160, Non-Controlling Interests in Consolidated Financial Statements. Statements 141R and 160 require most identifiable assets, liabilities, non-controlling interests, and goodwill acquired in a business combination to be recorded at full fair value and require non-controlling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with non-controlling shareholders. Both statements are effective for periods beginning after December 15, 2008, and earlier adoption is prohibited. Statement 160 will be applied prospectively to all non-controlling interests, including any that arose before the effective date. The Company will apply the guidance of Statement 141R to business combinations completed on or after January 1, 2009.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of SFAS No. 133. The Statement requires enhanced disclosures about an entity's derivative and hedging

Table of Contents

activities. The Statement is effective for fiscal years and interim periods beginning after November 15, 2008. The Company is evaluating the effect of additional disclosures required by the Statement beginning January 1, 2009.

Acquisitions

On January 9, 2007, the Company acquired all the shares of ITML Horticultural Products, Inc., an Ontario corporation (ITML). ITML designs, manufactures and sells plastic containers and related products for professional floriculture / horticulture grower markets across North America, utilizing injection molding, blow molding, and thermoforming processes. Additionally, ITML utilizes extensive technology and expertise for resin reprocessing and recycling for use in its products. The acquired business had fiscal 2006 annual sales of approximately \$169.5 million. The total purchase price was approximately \$119 million, which includes the assumption of approximately \$64.6 million debt outstanding as of the acquisition date. In addition, the acquisition allows for additional purchase consideration to be paid contingent upon the results of the Company's Lawn and Garden segment in 2008, specifically the achievement of earnings before interest, taxes, depreciation and amortization that are in excess of targeted amounts.

On March 8, 2007, the Company acquired select equipment, molds and inventory related to the Xytec and Combo product lines of Schoeller Arca Systems Inc., a subsidiary of Schoeller Arca Systems N.V., in North America (SASNA). These product lines include collapsible bulk containers used for diverse shipping and handling applications in markets from manufacturing to food to liquid transport. The acquired business had 2006 annual sales of approximately \$50 million. The total purchase price was approximately \$41.6 million, some of which has been allocated to intangible assets including patents, customer relationships and technology with lives ranging from nine to ten years.

The results for both ITML and SASNA product lines are included in the consolidated results of operations from the date of acquisition. ITML is included in the Company's Lawn and Garden segment and the SASNA product lines are included in the Material Handling North America segment. The allocation of the purchase price and the estimated goodwill and other intangibles are as follows:

Discontinued Operations

In the third quarter of 2006, the Company's Board of Directors approved the plan for divestiture of the Company's Material Handling Europe business segment. On October 20, 2006, the Company entered into a definitive agreement to sell these businesses and the sale was completed on February 1, 2007 with net proceeds of approximately \$68.1 million received. Included in 2007 net income was a gain of approximately \$17.8 million, net of taxes of \$3.3 million, from the disposition of these businesses. These discontinued operations had net sales of \$14.9 million and net income from operations of \$1,886 in 2007 prior to the disposition. In 2008, the Company also recorded net income of approximately \$1.7 million as a result of net proceeds received related to the settlement of certain contingencies in connection with the disposed businesses.

In accordance with U.S. generally accepted accounting principles, the operating results related to these businesses have been included in discontinued operations in the Company's condensed statements of consolidated income for all periods presented.

Merger Agreement

On April 3, 2008, the Company entered into a letter agreement mutually terminating the Agreement and Plan of Merger (the Merger Agreement) with MYEH Corporation, a Delaware corporation (the Parent) and MYEH Acquisition Corporation, an Ohio corporation (MergerCo). Under the terms of the Merger Agreement, MergerCo would have been merged with and into the Company, with the Company continuing as the surviving corporation and becoming a wholly-owned subsidiary of Parent (the Merger). Parent is owned by GS Capital Partners, LP (GSCP) and other private equity funds sponsored by Goldman, Sachs & Co.

The Merger Agreement contained termination rights for both the Company and Parent in the event the Merger was not consummated by December 15, 2007. In December 2007, an agreement was made to extend this date from December 15, 2007 to April 30, 2008. This extension did not provide GSCP additional rights with respect to the potential merger and any consummation of the merger would have remained subject to satisfaction of the conditions to closing in the Merger Agreement. In connection with the extension, GSCP paid the Company a previously agreed upon \$35 million termination fee in December 2007. This non refundable termination fee, net of related expenses of \$8.25 million, was recorded as other income by the Company in the fourth quarter of 2007. In addition, as permitted by the extension, the Company paid a special dividend of \$0.28 per common share totaling approximately \$9.85 million on January 2, 2008 to shareholders of record as of December 20, 2007.

Stock Compensation

In 1999, the Company and its shareholders adopted the 1999 Stock Plan allowing the Board of Directors to grant key employees and Directors options to purchase common stock of the Company at the closing market price on the date of grant. In April 2006, the shareholders approved an amendment to the Plan which provides that, in addition to stock options, grants of restricted stock, stock appreciation rights and other forms of equity compensation consistent with the Plan may be made. Annual grants may not exceed two percent of the total shares of outstanding common stock. In general, options granted and outstanding vest over three to five years and expire ten years from the date of grant. At June 30, 2008, there were 108,245 shares available for future grant under the plan.

Stock compensation expense under SFAS 123R reduced income before taxes approximately \$435,000 and \$329,000 for the three months ended June 30, 2008 and 2007, respectively. Stock compensation expense was approximately \$758,000 and \$658,000 for the six months ended June 30, 2008 and 2007. These expenses are included in selling and administrative expenses in the accompanying Condensed Statement of Consolidated Income. Total unrecognized compensation cost related to non-vested share based compensation arrangements at June 30, 2008 was approximately \$4.1 million, which will be recognized over the next four years.

The fair value of options granted in 2008 was estimated using a Black-Scholes option pricing model based on assumptions set forth in the following table. The Company uses historical data to estimate employee exercise and departure behavior. The risk free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant and through the expected term. The dividend yield is based on the Company's historical dividend yield. The expected volatility is derived from historical volatility of the Company's shares and those of similar companies measured against the market as a whole.

Risk free interest rate	3.38%
Expected dividend yield	1.91%
Expected life of award (years)	5.25
Expected volatility	41.41%
Fair value per option share	\$ 4.10

The following table summarizes the stock option activity for the six months ended June 30, 2008:

In addition, at June 30, 2008 the Company has 132,500 shares of restricted stock outstanding. The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option. The total intrinsic value of the options exercised during the six months ended June 30, 2008 and 2007 was approximately \$59,000 and \$587,000 respectively.

Income Taxes

On January 1, 2007, the Company adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes a recognition threshold and measurement process for recording in the financial statements uncertain tax positions taken or expected to be taken in a tax return. Additionally, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition for uncertain tax positions.

The Company recognizes accrued amounts of interest and penalties related to its uncertain tax positions as part of its income tax expense within its consolidated statements of income.

As of December 31, 2007, the total amount of gross unrecognized tax benefits was \$1,880,000 of which \$1,431,000 would reduce the Company's effective tax rate. The amount of accrued interest expense as a liability within the Company's consolidated financial position at December 31, 2007 was \$279,000. No material changes have occurred in

the liability for unrecognized tax benefits during the six months ended June 30, 2008. The Company does not expect any significant changes to its unrecognized tax benefit balance over the next twelve months.

As of June 30, 2008, the Company and its significant subsidiaries are subject to examination for years after 2003 in Brazil, Canada, United States and certain states within the United States. The Company is also subject to examinations after 2004 in France, United Kingdom and remaining states within the United States.

The Company previously disclosed in its financial statements for the year ended December 31, 2007, that it did not expect to make a contribution to its defined benefit plans and, as of June 30, 2008, no contributions have been made.

Contingencies

The Company is in the ordinary course of business, a defendant in various lawsuits and a party to various other legal proceedings, some of which are covered in whole or in part by insurance. We believe that the outcome of these lawsuits and other proceedings will not individually or in the aggregate have a future material adverse effect on our consolidated financial position, results of operations or cash flows.

Segment Information

The Company's business units have separate management teams and offer different products and services. Using the criteria of SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, these business units have been aggregated into four reportable business segments. These include three manufacturing segments encompassing a diverse mix of plastic and rubber products: 1) Material Handling North America, 2) Automotive and Custom, and 3) Lawn and Garden. The fourth segment is Distribution of tire, wheel, and undervehicle service products. The aggregation of operating business segments is based on management by the chief operating decision maker for the segment as well as similarities of products, production processes, distribution methods and economic characteristics.

Operating income for each business segment is based on net sales less cost of products sold, and the related selling, administrative and general expenses. In computing business segment operating income, general corporate overhead expenses and interest expenses are not included.

Part I Financial Information**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**
Results of Operations*Comparison of the Second Quarter of 2008 to the Second Quarter of 2007***Net Sales:**

Segment	Quarter Ended June 30,		Change	% Change
	2008	2007		
Lawn & Garden	\$ 62.9	\$ 72.2	\$ (9.3)	(13%)
Material Handling North America	\$ 61.6	\$ 63.6	\$ (2.0)	(3%)
Distribution	\$ 49.2	\$ 50.7	\$ (1.5)	(3%)
Auto & Custom	\$ 47.8	\$ 44.5	\$ 3.3	7%
Intra-segment elimination	\$ (6.9)	\$ (5.3)	\$ (1.6)	(30%)
TOTAL	\$ 214.6	\$ 225.6	\$ (11.0)	(5%)

Net sales for the quarter ended June 30, 2008 were \$214.6 million, a decrease of 5% from the \$225.6 million reported in the second quarter of 2007. Sales in the second quarter of 2008 were adversely affected by the weakness in the general economy, which impacted virtually all the markets in which the Company sells. The sales decline is primarily due to lower sales volumes which more than offset gains from increases in selling prices.

Net sales in the Lawn and Garden segment for the quarter ended June 30, 2008 were down \$9.3 million or 13% compared the second quarter of 2007. Sales in 2008 reflect a slow start to the consumer purchasing and planting season due to colder spring weather and above average rainfall in many parts of the U.S., as well as reduced demand as a result of continued weakness in the housing construction market. In the Material Handling segment, sales declined \$2.0 million in the second quarter of 2008, a decrease of 3% as compared to the same period in 2007. The decrease reflects the impact of volume declines in general industrial, automotive and other sectors as customers delayed purchases of capital intensive reusable containers and pallet systems due to economic concerns.

Net sales in the Distribution segment decreased \$1.5 million or 3% in the second quarter of 2008 compared to the prior year. Sales performance reflected soft demand for supplies and equipment due to weak sales of replacement passenger and truck tires, the impact of higher fuel prices on miles driven, as well as reduced service needs for heavy equipment tires due to the downturn in housing construction. In the Auto and Custom segment, net sales for the second quarter of 2008 increased \$3.3 million, or 7% compared to the prior year, as higher selling prices and gains in niche custom molding markets offset volume declines in automotive and heavy truck markets.

Cost of Sales & Gross Profit:

Cost of Sales and Gross Profit	Quarter Ended June 30,	
	2008	2007
Cost of sales	\$ 165.2	\$ 167.8
Gross profit	\$ 49.4	\$ 57.8
Gross profit as a percentage of sales	23.0%	25.6%

Gross profit in the second quarter of 2008 was \$49.4 million, a decrease of 15% compared with the \$57.8 million reported in the prior year. Gross profit margin also declined to 23.0% in the quarter ended June 30, 2008 compared

with 25.6% in the prior year. The decline in gross profit and margin was primarily due to significantly higher raw material costs, particularly for plastic resins. Prices for high-density polyethylene and polypropylene resins were more than 30% higher in the second quarter of 2008 compared to the second quarter 2007. Widespread weakness in the U.S. economy and the resulting competitive pressures on selling prices, combined with the impact of lower volumes on absorption of manufacturing costs, also contributed to the reduction in gross profit margins.

Table of Contents**Selling, General and Administrative (SG&A) Expenses from Continuing Operations:**

SG&A Expenses	Quarter Ended		Change
	2008	2007	
SG&A expenses	\$42.0	\$49.7	\$(7.7)
SG&A expenses as a percentage of sales	19.6%	22.0%	(2.4)%

Selling and administrative expenses for the quarter ended June 30, 2008 included \$1.4 million of unusual charges including \$0.9 million related to an executive retirement plan and \$0.5 million for severance. In total, operating expenses for the second quarter of 2008 were \$42.0 million, a decrease of \$7.7 million or 15% compared with the prior year. This decrease reflects the ongoing impact of cost control initiatives, as well as the fact that operating expenses in the second quarter of 2007 included approximately \$5.6 million of unusual charges, including: restructuring expenses, costs related to the Company's terminated merger transaction and foreign currency transaction losses.

Outstanding borrowings	\$207.5	\$245.3	\$(37.8)	(15)%
Average borrowing rate	5.40%	6.97%	(1.6)%	(22)%

Net interest expense was \$2.8 million for quarter ended June 30, 2008, a decrease of 36% compared to \$4.4 million in the prior year. The decrease was the result of a reduction in average borrowing levels and lower interest rates in the current quarter.

Income Before Taxes from Continuing Operations:

Segment	Quarter Ended June 30,			%
	2008	2007	Change	Change
Lawn & Garden	\$ (1.1)	\$ (0.9)	\$ (0.2)	(22)%
Material Handling	\$ 4.1	\$ 7.1	\$ (3.0)	(42)%
Distribution	\$ 5.6	\$ 5.5	\$ 0.1	(2)%
Auto & Custom	\$ 3.6	\$ 3.0	\$ 0.6	20%
Corporate and interest	\$ (7.6)	\$ (10.9)	\$ 3.3	30%
TOTAL	\$ 4.6	\$ 3.7	\$ 1.0	27%

Income before taxes from continuing operations was \$4.6 million in the second quarter of 2008, an increase of 27% compared with the \$3.7 million reported in the second quarter of 2007. Key factors affecting 2008 income include lower volumes due to softness in the economy and significantly higher raw material costs, however, the reduction in interest expense and the impact of \$8.2 million in unusual charges in the second quarter of 2007 resulted in an increase in income before taxes in the current year.

In the Lawn and Garden segment, the Company reported a loss of \$1.1 million in the second quarter of 2008 compared with a loss of \$0.9 million in the prior year. Reduced sales volumes and significantly higher raw material costs were the primary reasons for the decline in profitability in this segment which more than offset the reduction of approximately \$2.5 million in foreign currency transaction losses and other unusual charges in the second quarter of 2007. Income before taxes in the Material Handling segment was down 42% from \$7.1 million in the second quarter of 2007. The key factors affecting Material Handling profitability for the second quarter of 2008 were lower sales volume and significantly higher raw material costs.

Part I Financial Information

Income before taxes in the Distribution segment was \$5.6 million for second quarter of 2008, an increase of 2% as compared to the \$5.5 million reported in the second quarter of 2007. Favorable product mix and pricing adjustments combined with operating cost reductions were the key factors affecting profitability in this segment for the second quarter of 2008. Income before taxes in the Auto & Custom segment was \$3.6 million in the second quarter of 2008, an increase of 20% as compared to \$3.0 million in second quarter of 2007. Despite higher prices for rubber and plastic raw materials, the impact of selling price adjustments, cost controls and savings from restructuring programs in 2007 contributed to an increase in profitability for this segment in the second quarter of 2008.

Income Taxes:

Consolidated Income Taxes	Quarter Ended June 30,	
	2008	2007
Income before taxes	\$ 4.6	\$ 3.7
Income taxes	\$ 1.7	\$ 1.2
Effective tax rate	37.5%	31.9%

Income tax expense as a percentage of pretax income increased to 37.5% for the quarter ended June 30, 2008 compared to 31.9% in the prior year. The lower effective tax rate for the quarter ended June 30, 2007 was primarily the result of foreign tax rate differences from lower enacted tax rates on deferred tax liabilities in Canada. In addition, in 2008 the Company has recorded an increase in the income tax provision due to changes in the nature of tax laws in several states which previously had been classified in selling and administrative expense.

Comparison of the Six Months Ended June 30, 2008 to the Six Months Ended June 30, 2007**Net Sales:**

Segment	Six Months Ended June 30,			% Change
	2008	2007	Change	
Lawn & Garden	\$ 155.3	\$ 166.1	\$ (10.8)	(7%)
Material Handling North America	\$ 134.3	\$ 130.1	\$ 4.2	3%
Distribution	\$ 93.7	\$ 97.0	\$ (3.3)	(3%)
Auto & Custom	\$ 94.2	\$ 89.7	\$ 4.5	5%
Intra-segment elimination	\$ (13.5)	\$ (10.8)	\$ (2.7)	(25%)
TOTAL	\$ 464.0	\$ 472.1	\$ (8.1)	(2%)

Net sales for the six months ended June 30, 2008 were \$464.0 million, a decrease of 2% from the \$472.1 million reported in the first half of 2007. Sales in 2008 were adversely affected by the weakness in the general economy, which impacted virtually all segments of the Company's business and all markets in which the Company sells. The sales decline is due to lower sales volumes which more than offset the benefit from increased selling prices.

Net sales in the Lawn and Garden segment for the six months ended June 30, 2008 were down \$10.8 million or 7% compared to the first half of 2007. Sales in 2008 reflect a slow start to the consumer purchasing and planting season due to colder spring weather and above average rainfall in many parts of the U.S., as well as reduced demand as a result of weakness in the housing construction market. In the Material Handling segment sales increased \$4.2 million or 3% in the first six months of 2008 as compared to the prior year period. The increase reflects the impact of price

increases and higher sales of reusable agricultural containers and catalog products which offset volume declines in general industrial, automotive and other sectors as customers delayed purchases of capital intensive reusable containers and pallets due to economic concerns.

Net sales in the Distribution segment decreased \$3.3 million or 3% in the first six months of 2008 compared to the prior year. Sales performance reflected soft sales of replacement passenger and truck tires, the impact of higher fuel prices on miles driven and reduced service needs for heavy equipment tires due to the downturn in housing construction. In the Auto and Custom segment, net sales for the six months ended June 30, 2008 increased \$4.5 million, or 5% compared to the prior year, as higher selling prices and gains in niche custom molding markets offset volume declines in automotive and heavy truck markets.

Part I Financial Information**Cost of Sales & Gross Profit from Continuing Operations:**

	Six Months Ended	
	June 30,	
Cost of Sales and Gross Profit	2008	2007
Cost of sales	\$354.6	\$340.5
Gross profit	\$109.4	\$131.6
Gross profit as a percentage of sales	23.6%	27.9%

Gross profit in the six months ended June 30, 2008 was \$109.4 million, a decrease of 17% compared with the \$131.6 million reported in the prior year. Gross profit margin also declined to 23.6% for the first six months of 2008 compared with 27.9% in the prior year. The decline in gross profit and margin was primarily due to significantly higher raw material costs, particularly for plastic resins. Prices for high-density polyethylene and polypropylene resins were approximately 30% higher on average in the first six months of 2008 compared to the first half of 2007. The negative impact of higher raw material costs in 2008 more than offset the fact that cost of sales in the first six months of 2007 included restructuring expenses to consolidate manufacturing facilities and purchase accounting adjustments totaling \$4.4 million in the aggregate. In addition, widespread weakness in the U.S. economy and the resulting competitive pressures on selling prices combined with the impact of lower volumes on absorption of manufacturing costs also contributed to the reduction in gross profit margins in 2008.

Selling, General and Administrative (SG&A) Expenses from Continuing Operations:

	Six Months Ended

SG&A expenses	\$85.2	\$96.5	\$(11.3)
SG&A expenses as a percentage of sales	18.3%	20.4%	(2.1)%

Selling and administrative expenses for the six months ended June 30, 2008 included \$1.4 million of unusual charges including \$0.9 million related to an executive retirement plan and \$0.5 million for severance. In total, operating expenses for the first half of 2008 were \$85.2 million, a decrease of \$11.3 million or 12% compared with the prior year. This decrease reflects the lower sales volumes in 2008 and the fact that operating expenses in the six months ended June 30, 2007 included approximately \$6.9 million of unusual charges, including: restructuring expenses, costs related to the Company's terminated merger transaction and foreign currency transaction losses. Excluding the impact of the unusual items, operating expense leverage in the first six months of 2008 improved due to the benefit of cost control programs and ongoing productivity initiatives.

Net interest expense was \$5.8 million for six months ended June 30, 2008, a decrease of 28% compared to \$8.0 million in the prior year. The reduction in 2008 interest expense was the result of a reduction in average borrowing levels and lower interest rates in the current year.

Corporate and interest	\$ (15.4)	\$ (20.4)	\$ 5.0	25%
TOTAL	\$ 18.4	\$ 27.1	\$ (8.7)	(32%)

Income before taxes from continuing operations was \$18.4 million in the first six months of 2008, a decrease of 32% compared with the \$27.1 million reported in the first half of 2007. Key factors reducing 2008 income include lower volumes due to softness in the economy and significantly higher raw material costs. In 2007, income before taxes included \$11.5 million for restructuring expenses, foreign currency transaction losses, costs incurred in connection with the terminated merger agreement and other unusual items.

In the Lawn and Garden segment, the Company reported income before taxes of \$6.9 million in the first half of 2008 compared to \$9.9 million in the prior year. Reduced sales volumes and significantly higher raw material costs were the primary reasons for the decline in profitability in this segment. These factors more than offset the reduction of approximately \$6.1 million in foreign currency transaction losses, purchase accounting and other unusual charges in the first half of 2007. Income before taxes in the Material Handling segment was down 42% from \$21.9 million in the first six months of 2007 to \$12.7 million in 2008. The key factors affecting Material Handling profitability for the second quarter of 2008 were lower sales volume and significantly higher raw material costs which offset the impact of approximately \$2.6 million in restructuring and other unusual charges in the first half of 2007.

Income before taxes in the Distribution segment was \$9.0 million for first six months of 2008, a decrease of 10% as compared to the \$10.0 million reported in 2007. Lower sales volumes due to soft demand for replacement tires and tire service and the impact of higher fuel prices on miles driven for passenger vehicles and freight transport were key factors affecting profitability in the Distribution segment. Income before taxes in the Auto & Custom segment was

\$5.1 million in the first half of 2008, a decrease of 10% as compared to the \$5.7 million reported in 2007. Soft demand in certain markets and higher prices for plastic and rubber raw materials were the primary factors causing the decline in profitability for this segment in 2008.

Part I Financial Information**Income Taxes:**

	Six Months Ended June 30,	
	2008	2007
Consolidated Income Taxes		
Income before taxes	\$ 18.4	\$ 27.1
Income taxes	\$ 6.8	\$ 9.8
Effective tax rate	37.2%	36.3%

Income tax expense as a percentage of pretax income increased to 37.2% for the six months ended June 30, 2008 compared to 36.3% in the prior year. The lower effective tax rate in 2007 was primarily the result of foreign tax rate differences from lower enacted tax rates on deferred tax liabilities in Canada. In addition, in 2008 the Company has recorded an increase in income tax provision due to changes in the nature of tax laws in several states which previously had been classified in selling and administrative expenses.

Liquidity and Capital Resources

Cash used for operating activities of continuing operations was \$3.0 million for the six months ended June 30, 2008, compared with cash provided by operating activities of \$44.5 million in the prior year. The decrease of \$47.5 million was primarily due to cash used for working capital, which totaled \$36.6 million for the six months ended June 30, 2008, compared with cash provided by working capital of \$9.6 million in the prior year. Income from continuing operations for the six months ended June 30, 2008 was \$11.5 million, a decrease of \$5.8 million compared with \$17.3 million income in the first six months of 2007. The cash impact of this decline in income from continuing operations was largely offset by an increase of \$5.1 million in depreciation, amortization and other non cash expenses which totaled \$22.8 million in the first six months of 2008 compared with \$17.7 million in the prior year. During 2008, cash used for working capital has been significantly impacted by items related to the terminated merger agreement with GS Capital Partners. In 2008, changes in accounts payable and accrued expenses used working capital of \$40.3 million primarily due to payment of income taxes, a special dividend of \$9.85 million and other expenses of \$5.75 million related to the \$35 million pre-payment of the termination fee received in the fourth quarter of 2007.

In addition, during the six months ended June 30, 2008, cash from operating activities increased \$1.7 million as a result of net proceeds received in connection with the settlement of certain contingencies related to the Company's discontinued operations.

Capital expenditures were approximately \$8.3 million in the six months ended June 30, 2008 and are expected to be in the range of \$15 to \$25 million for the year. In addition, the Company has made deposits on machinery and equipment totaling \$9.7 million in 2008. Total debt at June 30, 2008 was approximately \$207.5 million compared with \$170.9 million at December 31, 2007. The Company's Credit Agreement provides available borrowing up to \$250 million and, as of June 30, 2008, the Company had approximately \$151.4 million available under this agreement. Management believes that cash flows from operations and available borrowing under its Credit Agreement will be sufficient to meet expected business requirements including capital expenditures, dividends, working capital and debt service.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company has certain financing arrangements that require interest payments based on floating interest rates. As such, the Company's financial results are subject to changes in the market rate of interest. Our objective in managing the exposure to interest rate changes is to limit the volatility and impact of rate changes on earnings while maintaining the lowest overall borrowing cost. At present, the Company has not entered into any interest rate swaps or other derivative instruments to fix the interest rate on any portion of its financing arrangements with floating rates. Accordingly, based on variable rate debt levels at June 30, 2008, if market rates increase one percent, the Company's interest expense would increase approximately \$1.0 million.

Part I Financial Information

Some of the Company's subsidiaries operate in foreign countries and, as such, their financial results are subject to the variability that arises from exchange rate movements. Based on the acquisition of ITML, the Company's exposure to foreign currency fluctuations has increased, primarily due to sales made from businesses in Canada to customers in the United States dominated in U.S. dollars. In addition, the Company's subsidiary in Brazil has loans denominated in U.S. dollars. In the fourth quarter of 2007, the Company began a systematic hedging program to limit its exposure to fluctuations in exchange rates related to its operations in Canada and Brazil, however, as of June 30, 2008 the Company had no foreign currency hedges in place.

The Company uses certain commodities, primarily plastic resins, in its manufacturing processes. As such, the cost of operations is subject to fluctuation as the market for these commodities changes. The Company monitors this risk but currently has no derivative contracts to hedge this risk, however, the Company also has no significant purchase obligations to purchase fixed quantities of such commodities in future periods. In 2008, the cost of most plastic resins used in the Company's business have increased more than 30 percent. Continuing increases in the cost of plastic resin or future adverse changes in the general economic environment could have a material adverse impact on the Company's results of operations or result in asset impairments.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carries out a variety of on-going procedures, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.
