**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On August 14, 2008, the Board of Directors of Myers Industries, Inc. (the Company ) authorized management to move forward with analyzing and implementing productivity and manufacturing initiatives in the Company s Lawn and Garden Segment. These initiatives will be undertaken over the course of the next twelve months with the goal of: (i) consolidating manufacturing and realigning capacity, (ii) improving distribution and supply chain optimization, and (iii) improving forecasting and workflow and inventory management programs, each with the intention of improving productivity and customer service.

The Company expects to incur charges to implement the initiatives of approximately \$23 to \$28 million, of which approximately \$14 to \$17 million are expected to be non-cash charges. The Company anticipates that the initiatives, once fully implemented, will generate annualized pre-tax savings of approximately \$20 million. These expenses and any savings generated will be presented in the Company s financial statements over the next several quarters. The Company will make additional disclosure relating to the specific charges to be incurred by the Company in connection with any restructuring actions taken as part of these initiatives at the time such specific charges are determined. The full text of the press release issued in connection with this announcement is attached as Exhibit 99.1 to this Current Report on Form 8-K.
