(the “Company,” “we” or “us”), filed with the U.S. Securities and Exchange Commission (the “SEC”) on March 11, 2010 (the “Original Form 10-K”), in order to include the information required by Part III thereof. As provided in the SEC’s general instructions for filing annual reports on Form 10-K, the information required by Part III was incorporated by reference into the Original Form 10-K from the Company’s definitive proxy statement relating to its upcoming 2010 annual general meeting of shareholders. However, the instructions also provide that a company may no longer incorporate this information by reference if its definitive proxy statement is not filed within 120 days after the end of the fiscal year covered by the original Form 10-K and must instead file the information required by Part III as an amendment to its original Form 10-K. The Company will not be filing its definitive proxy statement for its 2010 annual general meeting of shareholders until after the 120-day period. Item 11. Executive Compensation

Compensation Discussion and Analysis

The primary objectives of the Company's compensation program are to enable the Company to attract, motivate and retain outstanding individuals and align their success with that of the Company's shareholders through the creation of shareholder value and achievement of strategic corporate objectives. We attract and retain executives by benchmarking against peer companies in our industry to ensure that our compensation packages remain competitive. This practice is discussed in greater detail below under the heading "Benchmarking." When creating an executive's overall compensation package, the different elements of compensation are considered in light of the role the executive will play in our achieving near term and longer term goals as well as the compensation packages provided to similarly situated executives at peer companies. We also tie short and long-term cash and equity rewards to the achievement of measurable corporate and individual performance criteria to create incentives that we believe enhance executive performance. Such performance criteria vary depending on individual executives' roles, but include value-adding achievements such as revenue generation, cost reduction, gains in production efficiency and timely completion of undertakings.

Benchmarking

The Compensation Committee has the authority under its charter to engage the services of outside advisors, experts and others to assist the Compensation Committee. In accordance with this authority, the Compensation Committee has retained the services of Compensia, an independent consulting firm that specializes in executive compensation consulting (the "Consultant"), to assist the Compensation Committee in evaluating the Company's executive compensation program against the relevant market and to review executive compensation changes. The Consultant looked at base salary, incentive compensation, long-term share options and benefits. No other services were provided by the Consultant.

The Consultant created a survey (the "Executive Compensation Survey") which compared the Company's executive pay levels to those of a peer group of 30 companies. The peer group consisted of (1) core peers developed by targeting Phase II business and labor comparators with similar market capitalization and (2) aspirational peers generally representing Phase III and beyond comparators. The companies that comprised the peer group are: Affymax, Alexza Pharmaceuticals, Allos Therapeutics, Altus Pharmaceuticals, Amicus Therapeutics, Ardea Biosciences, Arena Pharmaceuticals, Array BioPharma, Cell Genesys, Cerus, Cytokinetics, Cytori Therapeutics, Dyax, Geron, Human Genome Sciences, ImmunoGen, Immunomedics, Incyte, Infinity Pharmaceuticals, Lexicon Pharmaceuticals, Medarex, Metabasis Therapeutics, Micromet, Neurocrine Biosciences, Regeneron Pharmaceuticals, Rigel Pharmaceuticals, Sangamo Biosciences, Seattle Genetics, Sunesis Pharmaceuticals, and Trubion Pharmaceuticals. In preparing the Executive Compensation Survey, the Compensation Committee has relied on the Consultant to conduct its own research, compile its own survey data and provide a summary of such data relevant to the Compensation Committee's decisions with respect to setting executive compensation levels.

As noted above, the Compensation Committee considers various benchmarks (i.e., the 25th percentile, the 50th percentile and the 75th percentile) based on the Executive Compensation Survey and chooses a benchmark for a particular year based on the level it deems most appropriate for the Company. For 2010, the Compensation Committee chose the 50th percentile as the benchmark. This process is performed to ensure that total compensation is competitive within the industry and appropriate when certain levels of performance are achieved. If, based on this evaluation, the Compensation Committee determines that the Company's current compensation levels are not appropriate or tailored to our compensation objectives, then the Compensation Committee may adjust the applicable compensation levels and targets accordingly.

As part of the benchmarking process, the Compensation Committee recognizes the practical reality that job responsibilities of persons with similar titles may vary significantly from company to company, and that a person's title is not necessarily descriptive of a person's duties. The Compensation Committee considers the scope and complexity of executive positions within the Executive Compensation Survey and compares these positions to the scope and complexity of our executive positions. The result is an assessment of the compensation being paid to our executives in light of the compensation being paid to persons performing duties of similar scope and complexity at the companies participating in the Executive Compensation Survey. The Compensation Committee uses this assess-

ment to assist it in making decisions regarding appropriate compensation levels for our executive positions. The underlying principle of the evaluation methodology is to focus on identifying those positions that have a scope and complexity of responsibilities that are comparable to those duties exercised by each of our particular executives.

Compensation Components

Base Salary. The level of compensation paid to an officer is determined on the basis of the individual's overall experience, responsibility, performance and compensation level in his or her prior position (for newly hired officers), the individual's overall performance and compensation level at the Company during the prior year (for current employees), the compensation levels of peer companies (including the biotechnology companies listed above) and other labor markets in which the Company competes for employees, the performance of the Company's Common Shares during the prior fiscal year and such other factors as may be appropriately considered by the Board, by the Compensation Committee and by management in making its proposals to the Compensation Committee.

At the time of the Company's annual compensation review in early 2009, in light of economic conditions and in order to conserve the Company's cash resources, management recommended, and the Board agreed, not to implement merit-based salary increases to the Company's employees for 2009, even though the Company as a whole and many of its employees had performed to a level at which such increases would have been justified. In order to enable the Company to provide compensation at levels competitive with those of other biotechnology companies, as well as retain employees with the capabilities necessary to advance key business objectives, in December 2009, management recommended and the Board agreed to implement salary increases for employees whose performance merited such an increase, retroactive to the beginning of the 2009 salary cycle.

Long-Term Incentive Program. Long-term incentive compensation principally takes the form of incentive and non-qualified option grants pursuant to shareholder-approved equity-based compensation plans. These grants are designed to promote the convergence of long-term interests between the Company's key employees and its shareholders; specifically, the value of options granted will increase or decrease with the value of the Company's Common Shares. In this manner, key individuals are rewarded commensurately with increases in shareholder value. These grants also typically include a 4-year vesting period to encourage continued employment. The size of a particular option grant is determined based on the individual's position and contribution to the Company. For grants during 2009, the number of options granted were determined based on employee performance and perceived potential, the numbers of options granted to such individuals in the previous fiscal year, the aggregate number of options held by each such individual, the number of options granted to similarly situated individuals in the pharmaceutical and biotechnology industries, the price of the Company's Common Shares relative to other companies in such industries and the resulting relative value of such options; although no specific measures of corporate performance were considered, the fact that no incentive compensation was awarded under the Company's incentive compensation plans for 2008, notwithstanding that management had successfully achieved a percentage of the 2008 objectives under such plans in excess of the minimum required to make awards, was considered. Historically, these grants have been made pursuant to the Company's 1981 Share Option Plan (the "Option Plan") and Restricted Share Plan (the "Restricted Plan").

CICP. In 2004, the Compensation Committee, the Board and the shareholders approved the CEO Incentive Compensation Plan (the "CICP") in order to make the Chief Executive Officer's ("CEO") compensation more commensurate with that of industry peers and because the Compensation Committee believed that it was not appropriate to include the CEO in the Management Incentive Compensation Plan given the CEO's active role in administering that plan.

Only our CEO is eligible to participate in the CICP and, depending on his or her performance and that of the Company, earn incentive compensation. The determination of the incentive compensation awarded for each fiscal year is as follows: The target award opportunity for the CEO is set at 50% of his or her base salary. As soon as

practicable after the end of each fiscal year (the “Plan Period”), the Compensation Committee recommends to the Board and the Board determines whether and to what extent certain Company objectives have been met. For 2009, these objectives included the following: a year-end cash balance of a target amount; entering into new arrangements; advancing proprietary products; and maintaining effective financial and business controls (collectively, the “2009 Company Objectives”). For each Plan Period, unless 70% of the objectives for that Plan Period have been met, no incentive compensation will be awarded.

The incentive compensation is weighted based 70% on meeting Company objectives and 30% based on discretionary objectives. The award opportunity range for the CEO expressed as a percentage of his or her base salary is as follows: minimum award opportunity—25%; target award opportunity—50%; and maximum award opportunity—75%.

The performance of the CEO is typically rated as soon as practicable following the conclusion of the Plan Period. Distribution of incentive compensation is generally made in February or March of the succeeding year after the Plan Period. The incentive awards granted under the CICIP in 2008 and thereafter are payable entirely in cash.

In February of 2010, the Board determined that Mr. Engle had successfully achieved a percentage of the 2009 Company Objectives in excess of the 70% minimum required by the CICIP in order to make an award thereunder.

MICP. Certain employees are also compensated through the Management Incentive Compensation Plan (the “MICP”), in which officers (other than the CEO) and employees who have the title of Senior Director, Director or Manager, as well as certain additional discretionary participants chosen by the CEO, are eligible to participate. Under the MICP, at the beginning of each fiscal year, the Board (with advice from the Compensation Committee) establishes a target incentive compensation pool, which is then adjusted at year-end to reflect the Company’s performance in achieving its corporate objectives.

After each fiscal year, the Board, based on the recommendation of the Compensation Committee, makes a determination as to the performance of the Company and MICP participants in meeting corporate objectives and individual objectives, which are determined from time to time by the Board in its sole discretion and which for 2009 included the 2009 Company Objectives. Awards to MICP participants vary depending upon the level of achievement of corporate objectives, the size of the incentive compensation pool and the MICP participants’ base salaries and performance during the fiscal year as well as their expected ongoing contribution to the Company. The Company must meet a minimum percentage of its corporate objectives (currently 70%) before any awards are made under the MICP.

Awards under the MICP granted in 2008 and thereafter are payable entirely in cash.

For 2009, 146 individuals were determined to be eligible to participate in the MICP, including all of the executive officers named in the “Summary Compensation Table” below other than Mr. Engle. In February of 2010, the Board determined that management had successfully achieved a percentage of the 2009 Company Objectives in excess of the 70% minimum required by the MICP in order to make awards thereunder.

BCP. Employees who are not eligible to participate in the CICIP or the MICP are also compensated through the Bonus Compensation Plan (the “BCP”). Under the BCP, at the beginning of each fiscal year, the Board (with advice from the Compensation Committee) establishes a target incentive compensation pool, which is then adjusted at year-end to reflect the Company’s performance in achieving its corporate objectives.

After each fiscal year, the Board, based on the recommendation of the Compensation Committee, makes a determination as to the performance of the Company and BCP participants in meeting corporate objectives, which are determined from time to time by the Board in its sole discretion and which for 2009 included the 2009 Company Objectives. Awards to BCP participants vary depending upon the level of achievement of corporate objectives, the size of the incentive compensation pool and the BCP participants’ base salaries. The Company must meet a minimum percentage of its corporate objectives (currently 70%) before any awards are made under the BCP.

Awards under the BCP granted in 2008 and thereafter are payable entirely in cash.

For 2009, 69 individuals were determined to be eligible to participate in the BCP. In February of 2010, the Board determined that the Company had successfully achieved a percentage of the 2009 Company Objectives in excess of the 70% minimum required by the BCP in order to make an award thereunder.

Other Compensation. The Company maintains broad-based benefits and perquisites that are provided to all employees, including health insurance, life and disability insurance, vision and dental insurance, a 401(k) plan and temporary housing and other living expenses for relocated employees. The Company also maintains an Employee Share Purchase Plan, designed to give employees an opportunity to purchase Common shares through payroll deductions, thereby encouraging employees to share in the economic growth and success of the Company.

Tax Treatment. Section 162(m) of the Code generally limits the deductible amount of annual compensation paid to certain individual executive officers (i.e., the chief executive officer and the four other most highly compensated executive officers of the Company) to no more than \$1 million. However, qualifying performance-based compensation will be excluded from the \$1 million cap on deductibility, and the Compensation Committee believes, based on information currently available, that the Company's options issued to its executive officers qualify for this exclusion. Considering the current executive officer compensation and the availability of deferral opportunities, the Compensation Committee and the Company believe that the Company will not be denied any significant tax deduction for 2009. The Company and the Compensation Committee will continue to review tax consequences as well as other relevant considerations in connection with compensation decisions.

Compensation Risk Assessment

We believe that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on our Company. We believe that our approach to goal-setting, setting of targets with payouts at multiple levels of performance, and evaluation of performance results assist in mitigating excessive risk-taking that could harm our value. We believe we have allocated our compensation among base salary and short- and long-term compensating target opportunities in such a way as not to encourage excessive risk-taking.

Summary Compensation Table

The following table sets forth certain summary information for the prior three years concerning the compensation earned by the Company's Chief Executive Officer, Chief Financial Officer, our three other most highly compensated officers who were named executive officers of the Company as of December 31, 2009 and our former Vice President, Business Development. Information for 2008 and 2007 concerning Mr. Wells and Ms. Anderson has been omitted in accordance with SEC rules because they were not "named executive officers" during those years.

Certain Other Payments Upon a Change of Control

Named Executive Officers. Each of our named executive officers has entered into change of control severance agreements (the "Change of Control Agreements") that may require us to make certain payments and/or provide certain benefits to certain executive officers in the event of a termination of employment or a change of control.

Change of Control. A "change of control" is defined in the Change of Control Agreements as the occurrence of any of the following events: (i) a merger, amalgamation or acquisition in which the Company is not the surviving or continuing entity, except for a transaction the principal purpose of which is to change the jurisdiction of the Company's organization; (ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company; (iii) any other reorganization or business combination in which fifty percent (50%) or more of the Company's outstanding voting securities are transferred to different holders in a single transaction or series of related transactions; (iv) any approval by the shareholders of the Company of a plan of complete liquidation of the Company; (v) any "person" (as

such term is used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended) becoming the “beneficial owner” (as defined in Rule 13d-3 under said Act), directly or indirectly, of securities of the Company representing more than fifty percent (50%) of the total voting power represented by the Company’s then outstanding voting securities; or (vi) a change in the composition of the Board, as a result of which fewer than a majority of the directors are incumbent directors.

Vesting of Options. If a named executive officer's employment is involuntarily terminated within eighteen (18) months of a change of control, the exercisability of all options granted to such named executive officer by the Company shall automatically be accelerated so that all the options may be exercised immediately upon such involuntary termination for any or all of the shares subject thereto and the post-termination exercise period shall be extended to sixty (60) months or the remainder of the maximum term of the options (or such shorter period of time to avoid the application of Section 409A of the Code). The options shall continue to be subject to all other terms and conditions of the Company's share option plans and the applicable option agreements between the employee and the Company.

Outplacement Program. If a named executive officer's employment is involuntarily terminated within eighteen (18) months of a change of control, the named executive officer will immediately become entitled to participate in a twelve (12) month executive outplacement program provided by an executive outplacement service, at the Company's expense not to exceed fifteen thousand dollars (\$15,000).

Cash Severance. If a named executive officer's employment is involuntarily terminated within eighteen (18) months of a change of control, then the named executive officer shall be entitled to receive a severance payment equal to the sum of (A) an amount equal to 1.5 times (or, in the case of Mr. Engle, 2.0 times) the named executive officer's annual base salary as in effect immediately prior to the involuntary termination, plus (B) an amount equal to 1.5 times (or, in the case of Mr. Engle, 2.0 times) the named executive officer's target bonus as in effect for the fiscal year in which the involuntary termination occurs.

Health and Other Benefits. If a named executive officer's employment is involuntarily terminated within eighteen (18) months of a change of control, then for a period of eighteen (18) months (or, in the case of Mr. Engle, twenty-four (24) months) following such termination, (A) the Company shall make available and pay for the full cost of the coverage (plus an additional amount to pay for the taxes on such payments, if any, plus any taxes on such additional amount) of the named executive officer and his or her spouse and eligible dependents under any group health plans of the Company on the date of such termination of employment at the same level of health (i.e., medical, vision and dental) coverage and benefits as in effect for the named executive officer or such covered dependents on the date immediately preceding the date of his or her termination and (B) if the named executive officer is, at the time of such termination, an eligible participant in the Company's mortgage differential program, the Company shall continue to make mortgage assistance payments to such named executive officer pursuant to such program as in effect at the time of such termination.

Compensation Committee Report on Executive Compensation

The Company's compensation program for officers (including the named executive officers) is administered by the Compensation Committee, which is composed of three independent directors. Following review and approval by the Compensation Committee, all issues pertaining to officer compensation are submitted to the full Board for approval.

Compensation of Directors

The primary objectives of the Company's director compensation program are to enable the Company to attract, motivate and retain outstanding individuals and align their success with that of the Company's shareholders through the creation of shareholder value. We attract and retain directors by benchmarking against companies in our industry of similar size to ensure that our director compensation packages remain competitive. The different elements of director compensation are considered in light of the compensation packages provided to similarly situated directors at peer companies.

-16-

The Compensation Committee has retained the services of the Consultant to assist in evaluating the Company's director compensation program against the relevant market. The Consultant created a survey (the "Director Compensation Survey") which compared the Company's director pay levels to those of the same peer group of companies used in the Executive Compensation Survey. In preparing the Director Compensation Survey, the Compensation Committee has relied on the Consultant to conduct its own research, compile its own survey data and provide a summary of such data relevant to the Compensation Committee's decisions with respect to setting director compensation levels. The benchmarking process for director compensation used by the Compensation Committee based on the Director Compensation Survey is substantially similar to the process for evaluating executive compensation described above under "Compensation Discussion and Analysis."

The table below sets forth the non-employee director compensation for 2009.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Transactions with Related Persons

There were no reportable transactions with related persons during 2009. The Company or a subsidiary of the Company may occasionally enter into transactions with certain related persons, such as executive officers, direc-

-19-

tors or nominees for directors of the Company, their immediate family members or beneficial owners of more than 5% of the Company's outstanding Common Shares, in which the related party has a direct or indirect material interest. Each such transaction is subject to review and pre-approval by the Audit Committee.

Director Independence

Each of Dr. Fisher and Messrs. Bowes, Hutt, Van Ness, Varian and Zenner is "independent" as defined in the listing standards of The NASDAQ Stock Market.

Item 14. Principal Accountant Fees and Services

Ernst & Young LLP acted as the Company's independent registered public accounting firm for 2009.

Audit Fees. The aggregate fees billed for each of the 2008 and 2009 fiscal years for professional services rendered by Ernst & Young for the audit of the Company's annual financial statements, review of financial statements included in the Company's Form 10-Q, services that are normally provided by Ernst & Young in connection with statutory and regulatory filings or engagements and for attestation services related to Sarbanes-Oxley compliance for those fiscal years were \$894,231 and \$579,406, respectively.

Audit-Related Fees. The aggregate fees billed for each of the 2008 and 2009 fiscal years for audit-related services rendered by Ernst & Young for audit-related were \$0 and \$118,500, respectively, excluding the services described in the preceding paragraph.

Tax Fees. The aggregate fees billed for each of the 2008 and 2009 fiscal years for products and services provided by Ernst & Young for tax compliance, tax advice and tax planning were \$0 and \$67,500, respectively.

All Other Fees. The aggregate fees billed for each of the 2008 and 2009 fiscal years for products and services provided by Ernst & Young other than the services reported in the three immediately preceding paragraphs were \$115,072 and \$0, respectively.

The Audit Committee considered whether the provision of the services covered in the four immediately preceding paragraphs of this section is compatible with maintaining Ernst & Young's independence.

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by the Company's independent accountants. Pre-approval is generally provided for up to one year, is detailed as to the particular service or category of services and is generally subject to a specific budget. The committee may also pre-approve particular services on a case-by-case basis. In assessing requests for services by the independent accountants, the committee considers whether such services are consistent with the auditor's independence, whether the independent accountants are likely to provide the most effective and efficient service based on their familiarity with the Company, and whether the service could enhance the Company's ability to manage or control risk or improve audit quality. The committee has delegated pre-approval authority to its chairman, who must report any decisions to the committee at its next scheduled meeting.
